AGENCY’S DISCUSSION AND ANALYSIS

MUSC submits this FY23 Accountability Report to the Department of Administration to document that as a state-supported institution of higher education, the University is accountable for outcomes and practices sound stewardship of its resources.

The institution tracks longitudinal trends on all the outcomes identified as key performance indicators in this report. In addition to the successes related to these a priori outcomes, MUSC has maintained full educational, research, and health care operations momentum, continuing to increase our role as a statewide educational & health care resource through presence and partnership.

MUSC educates every dimension of health care provider through its six colleges with 3264 students enrolled from 44 of the 46 SC counties. In 2023, we continued to grow our enrollment in key academic programs where workforce shortages exist across the state. Overall enrollment remained stable from Spring 2022 to Spring 2023. In addition to increased enrollment in established programs, MUSC created several new academic programs and credentials to meet the changing needs of the health care workforce. This past year we initiated non-degree credentials (digital badges) in both clinical research training (CCRT) and telehealth administration. The MUSC College of Medicine, Master of Public Health Generalist degree program was approved by the South Carolina Commission on Higher Education. This new program, housed within our Department of Public Health Sciences, is slated to begin this fall, 2023. This program is intended to help address the critical need for expertise, research presence, and practice opportunities in population health and prevention in SC.

Besides offering academic programs that prepare graduates to meet the future health care needs of citizens of the state and nation, MUSC is also committed to lowering barriers to students to earn these degrees, which very often is the financial resources needed to attend. MUSC maintained or reduced tuition for academic year 22-23, reflecting its continued commitment to lower student indebtedness. In addition, MUSC continues to support & enhance the efforts of the newly formed Office of Student Financial Literacy to help incoming and current MUSC students learn how to make sound financial decisions in all areas of their life so that their educational debt is minimized.

Our accomplishment in meeting the needs of our students is evidenced by the fact that >91% of MUSC students graduate on time from their academic program, thus eligible to enter the health sciences workforce in South Carolina and elsewhere. Over 85% of graduating students have specific employment plans upon graduation. In addition, MUSC houses the largest GME operation in the state of South Carolina, training over 50% of the resident physicians in the state, with 914 residents and fellows in 81 GME programs (27 residency programs and 52 fellowship programs). Over the past year, 224 of these physicians completed their training and can pursue further training or the practice of medicine. MUSC has significantly recruited, retained, and deployed trainees across the state to increase access to care for our patients. To help facilitate this significant role, the MUSC Office of Physician and Provider Recruitment has recently established a dedicated Resident Career Development and Education Office. MUSC's position as a leading academic health system has been instrumental to the quality and caliber of new providers across our clinical care sites.

AGENCY NAME:	Medical University of South Carolina		
AGENCY CODE:	H510 & H530	SECTION:	23 & 24

A vital aspect of MUSC's organizational vision is to create a culture that fosters continuous innovation. In FY23, MUSC updated its Master Campus Plan, which reimagines what's possible through synergy and connectivity of research, education, clinical care, and innovation space. The environment the campus will exemplify over the next 10-15 years will set MUSC apart and advance the achievement of our strategic intent. Included in this plan is the redevelopment of Rutledge Tower, the ongoing planning and implementation of a new College of Medicine building, and a new College of Health Professions building.

The university continues to grow its partnerships in education to contribute to the state's well-qualified health care workforce and to help students achieve their career goals sooner and at a lower cost. The "accelerated pathway" agreements MUSC has with other institutions (where their students can enroll in an MUSC program after completing their junior year in college and subsequently receive their bachelor's degree after completing the first year in MUSC's programs) has grown from initial agreements only with Clemson University to include College of Charleston, Coastal Carolina University, Coker University, Claflin University, Francis Marion University, and the Citadel. MUSC, the Citadel, and the College of Charleston also partner to grow the impact of the Lowcountry Graduate Center. Under the management of a new Director who is helping improve visibility and access to trainings (offered typically to working adult learners), residents of the Lowcountry now have more upskilling opportunities than ever to advance in their careers.

There are a host of smaller scale collaborations between university constituents and others to achieve MUSC's goal to reimagine the learning experience. One example is between faculty in the College of Graduate Studies and faculty from the College of Charleston in offering a micro-credential (as evidenced by a digital badge that completers can share in their social media profiles and resumes to attract employers) in Biomedical Entrepreneurship. The training provides learners the ability to share their work with the broader community and to capitalize on their intellectual property. These skills offer a bridge to careers in the pharmaceutical industry, academia, non-profit foundations, and individual business startups.

MUSC has also partnered with the Citadel and the College of Charleston to create the Charleston Consortium for Student Health & Wellbeing. Led by Dr. Gigi Smith, Associate Provost for Education Innovation & Student Life, the Consortium is an alliance focusing on what institutions are doing on the local, state, and national levels to promote student wellbeing. Recent results reveal alarming increases in mental health problems, including suicidal ideation. There are two realities that higher education cannot ignore: (1) most mental health disorders emerge by 25 years of age, and (2) suicide is currently the second leading cause of death among college students. The Consortium's goal is early identification and treatment to promote better life outcomes and the ability to succeed in an academic program. In addition, it is important to provide all students with knowledge of coping skills and available resources, which promote health and academic success. By sharing their work with senior leadership, the Consortium promotes the importance of integrating student health and wellbeing into academics, outcomes, and programs.

MUSC continues to lead the state in sponsored research awards, with a portfolio in FY22 reaching nearly \$298M from 1237 awards. These awards support fundamental discovery in biomedical

AGENCY NAME:	Medical University of South Carolina		
AGENCY CODE:	H510 & H530	SECTION:	23 & 24

science, translational science, clinical science, clinical trials, and implementation science, primarily focusing on improving health through increasing knowledge of disease pathogenesis, identifying new treatment strategies, and effectively implementing those strategies.

MUSC Health has also created partnerships across the state to support cardiac surgery with AnMed Health and Self-Regional Medical Center. In addition, AnMed Health has become a Hollings Cancer Network location to help extend access to our clinical expertise. In addition to clinical program development, these relationships are also focused on academic opportunities up to and including graduate medical education (GME) to address significant current and future workforce needs.

An additional area of strength and growth continues to be telehealth. Recognized as one of only two HRSA-awarded Telehealth Centers of Excellence in the nation, MUSC’s Center for Telehealth is charged with maintaining virtual care access in SC, with a focus on closing the gaps in health care equity. Essential now more than ever due to the demanding pandemic response, MUSC continues to leverage this strength in all forms of virtual care. In addition to a focus on excellence in the management of exponential virtual care growth, MUSC has several new strategic applications introduced in the past year including telehealth-immersion of our rural community hospitals, and dedicated virtual specialty service lines that are solving long-standing care access disparities.

MUSC’s virtual urgent care platform remains a convenient asset to patients seeking acute care. The service is used in every county of the state at steady rates, averaging nearly 47,000 consults annually. Partnering with various SC colleges and universities, such as Clemson and the College of Charleston, MUSC provides these services to thousands of SC students. MUSC looks forward to continuing to grow access to this highly accessible care, with a particular interest in reducing the barriers to access for underserved populations.

In addition to clinical program development, MUSC’s affiliate relationships are also focused on academic opportunities up to and including graduate medical education (GME) to address significant current and future workforce needs. In FY23, MUSC launched the MUSC Regional Network GME Office aimed at growing GME slots across the state. Early efforts are focused on MUSC’s regional divisions of Florence, Lancaster, and Midlands, with rapid expansion to affiliates that have already expressed interest.

In FY23, MUSC successfully implemented our new \$57.7M Enterprise Resource Planning system, Workday, which serves as our new state-of-the-art platform that will transform, integrate, and standardize MUSC business processes related to finance, human capital, and supply chain across the entire enterprise. To allow Workday to connect with our "OneMUSC" culture and new strategy, MUSC adopted the name "OurDay," to represent the collaborative, forward-thinking progress and innovation it promotes. OurDay connects people and systems in ways they have not been before to make it easier to get day-to-day work done in a one-stop-shop solution. Although the full implementation of this complex system is ongoing, the major milestones required for financial, HR, and supply chain functions were accomplished without major issues. This was the result of the dedicated work of hundreds of MUSC team members.

AGENCY CODE:	H510 & H530	SECTION:	23 & 24

Since the launch in February 2021 of the OneMUSC strategic plan, President Cole has spearheaded a robust strategy to reshape how we deliver our mission to successfully serve our state and each other. By design, MUSC has spread beyond geographical lines to benefit the health and well-being of communities statewide. With such growth – and a commitment to our tripartite mission – it is more important than ever to maximize our impact. To this end, OneMUSC is rooted in three themes: Innovation, Impact, and Influence. These three themes are integral to our organizational culture and mission. OneMUSC consists of the following seven strategies, each championed by senior leaders across the enterprise:

1. Create a culture of innovation
2. Become the preeminent model for inclusion and equity, setting a national standard among academic health systems
3. Reimagine the learning experience to optimize educational value
4. Forge innovative partnerships to increase scale, scope, and impact
5. Build a high-performing, integrated academic health system
6. Integrate our research and clinical strengths to transform health care
7. Promote our thought-leadership to build our national presence and shape policies

The items discussed below and presented in the Strategic Planning component of this report reflect on the goals and objectives that align closest with **MUSC’s role as a state-supported institution of higher education**. These **goals align with the South Carolina statewide enterprise objective to provide Education, Training, and Human Development**, with the MUSC Mission goals of educating health care professional and biomedical scientists and conducting research in the health sciences, and with the OneMUSC strategic focus to harness Innovation, Impact, and Influence to carry out institutional strategies over the next five years. MUSC’s performance on the FY23 goals specified in last year’s Accountability Report also reflects our commitment to excellence and stewardship of the resources entrusted to us by the state.

Goal 1: Preserve and optimize human life in South Carolina and beyond by effectively educating health care professionals and biomedical scientists

For all the available measures related to the goal of educating healthcare professionals and biomedical scientists, many outcomes in FY23 met or exceeded targets. Some notable achievements related to this goal are that MUSC’s tuition inflation rate was -0.2%, reflecting our commitment to provide affordable education to future healthcare professionals. We are also graduating more than 91% of entering students on time. These students are well prepared, both in their profession-specific skills and in teamwork skills so critical to effective healthcare, to enter the health professions workforce. A significant amount of credit for this achievement goes to our stellar faculty, 90% of whom were rated by students as effective teachers.

Goal 2: Preserve and optimize human life in South Carolina and beyond by conducting research in the health sciences

For the goal reflecting our research mission, our measures showed strong results and met or exceeded targets for both items. For research funding, our outcomes remained high and above target. MUSC is in the top quintile of all health science centers in the nation in National Institutes of Health (NIH) funding, and we are good stewards of our research dollars, demonstrating efficiency in operations. We continue to work to better incorporate cutting edge research advances into our clinical practice and into private industry solutions that touch the lives of citizens in South Carolina. We anticipate the development of new performance metrics for this process of integration since it relates

AGENCY NAME:	Medical University of South Carolina		
AGENCY CODE:	H510 & H530	SECTION:	23 & 24

to two key strategies of OneMUSC: Integrate our research and clinical strengths to transform health care and forge innovative partnerships to increase scale, scope, and impact.

Risk Assessment and Mitigation

MUSC’s strategic risk management process was initiated to identify, evaluate, and mitigate risks that could prevent the enterprise from achieving its objectives. This is accomplished through the periodic creation of an extensive inventory of both industry and local risks, which is analyzed based on the likelihood a risk event will occur and the impact of the risk event if it were to materialize. Risks above a materiality threshold are assigned to risk champions, who have expertise in the risk subject matter and are responsible for facilitating mitigation strategies and evaluation standards. Risks with the most negative impact to the public are those that could interfere with MUSC’s ability to provide quality healthcare, impactful research, and essential education to future providers of healthcare services and scientific discovery. Plans that are developed to mitigate these risks can have both internal and external components. For example, mitigation plans for risks that materialized as a result of the COVID-19 pandemic included both internal strategies (e.g., space and staffing reconfiguration) and external strategies (e.g., external funding for testing and vaccinations).

Per the state’s request, below are three options for the General Assembly to help resolve issues before they become crises:

- Continue the commitment to funding higher education—helping to reduce student debt and providing a more diverse pool of qualified applicants for all of MUSC’s degree programs;
- Optimize MUSC’s ability to respond in an expeditious and effective manner to opportunities that will allow for successful adaptation to changes in the rapidly evolving environments of both healthcare and education; and
- Invest in graduate medical education, which will help address the current shortage of healthcare providers in both South Carolina and the nation.

Agency Mission

Adopted in:

2021

The Medical University of South Carolina (MUSC) is South Carolina's only comprehensive academic health sciences system. Our purpose is to preserve and optimize human life in South Carolina and beyond. MUSC provides an interprofessional environment for learning, discovery, and healing through (1) education of health care professionals and biomedical scientists, (2) research in the health sciences, and (3) provision of comprehensive health care.

Agency Vision

Adopted in:

2015

Leading health innovation for the lives we touch.

Recommendations for reorganization requiring legislative change:

None

Agency intentions for other major reorganization to divisions, departments, or programs to allow the agency to operate more effectively and efficiently in the succeeding fiscal year:

None

Significant events related to the agency that occurred in FY2023

Description of Event	Start	End	Agency Measures Impacted	Other Impacts
No significant events affected performance measures.				

Is the agency in compliance with S.C. Code Ann. § 2-1-220, which requires submission of certain reports to the Legislative Services Agency for publication online and the State Library? (See also S.C. Code Ann. § 60-2-20).

Yes

Reason agency is out of compliance: (if applicable)

Is the agency in compliance with various requirements to transfer its records, including electronic ones, to the Department of Archives and History? See the Public Records Act (S.C. Code Ann. § 20-1-10 through 20-1-180) and the South Carolina Uniform Electronic Transactions Act (S.C. Code Ann. § 26-6-10 through 26-10-210).

Yes

Does the law allow the agency to promulgate regulations?

No

Law number(s) which gives the agency the authority to promulgate regulations:

Has the agency promulgated any regulations?

No

Is the agency in compliance with S.C. Code Ann. § 1-23-120 (J), which requires an agency to conduct a formal review of its regulations every five years?

Yes

(End of Reorganization and Compliance Section)

FY2023

Strategic Plan Results

Goal 1 Preserve and optimize human life in SC and beyond by effectively educating health care professionals and biomedical scientists

Goal 2 Preserve and optimize human life in SC and beyond by conducting research in the health sciences

Partnerships Data

as submitted for the Accountability Report by:

H510 - MEDICAL UNIVERSITY OF SOUTH CAROLINA

Type of Partner Entity	Name of Partner Entity	Description of Partnership	Change to the partnership during the past fiscal year
Private Business Organization	CHS Development Corporation	MUSC partners with the CHS Development Corporation (CHS), a non-profit corporation established in 2003, to obtain financing for the University to acquire and develop real property.	No Change
Higher Education Institute	Clemson University	MUSC partners with Clemson to offer the joint Ph.D. in Biomedical Data Science and Informatics. MUSC & Clemson have also developed nine accelerated pathway programs, reducing time to professional degree for Clemson students. MUSC and Clemson collaborate closely on research initiatives in key areas of health sciences. The organizations have also teamed up with the goal of creating a national model for student health care and well-being initiatives, focused not only on the immediate needs of the community during the COVID-19 pandemic but also the ongoing health demands of the Clemson student population. Finally, MUSC and Clemson launched Healthy Me - Healthy SC, a statewide program created to improve health care access and combat health disparities. MUSC's Chief Physician Executive, Dr. Eugene Hong, serves as the Chief Medical Officer and advisor for Clemson athletics.	No Change
Higher Education Institute	Coker University	MUSC partners with Coker University to offer accelerated pathways in which students are eligible to receive credits towards their undergraduate degree for completing their first year at MUSC. These pathways allow students to reduce time in school and educational debt.	No Change
Higher Education Institute	College of Charleston	MUSC partners with the College of Charleston to offer accelerated pathways in which students are eligible to receive credits towards their undergraduate degree for completing their first year at MUSC. These pathways allow students to reduce time in school and educational debt. The College of Charleston and the Medical University of South Carolina (MUSC) joined forces in 2020 to provide enhanced student health care, including psychiatric services, to CoC students.	No Change
Federal Government	Department of Education	MUSC receives Title IV funds to support its education mission.	No Change
Federal Government	Federal Research Support Entities (NIH, NSF)	MUSC receives federal grant support to achieve its research mission.	No Change
Higher Education Institute	Francis Marion University	MUSC partners with Francis Marion University to offer accelerated pathways in which students are eligible to receive credits towards their undergraduate degree for completing their first year at MUSC. These pathways allow students to reduce time in school and educational debt.	No Change

Type of Partner Entity	Name of Partner Entity	Description of Partnership	Change to the partnership during the past fiscal year
Private Business Organization	Greenwood Genetic Center	The Greenwood Genetic Center (GGC) and the Medical University of South Carolina (MUSC) partner to improve access to high-quality, coordinated and cost-effective genetic services and drive innovation in the genetics field. The deeper relationship between GGC and MUSC Health presents opportunities to further improve access and enhance patient care, increase access to a broader range of educational opportunities for MUSC students, and position the organizations to take advantage of future strategic research initiatives. The two entities have worked together on clinical consultations, provider education, and research for more than a decade. The partnership relationship adds depth and breadth of the almost two-year old formal affiliation.	No Change
Private Business Organization	Medical University Facilities Corporation	MUSC partners with the Medical University Facilities Corporation (MUFC), a non-profit corporation established in 1992, to obtain financing from the University to acquire real property.	No Change
State Government	Medical University Hospital Authority (MUHA)	MUSC partners with the Medical University Hospital Authority (Private, non-profit 501c3) to form the only comprehensive academic medical center in the state of SC. This partnership facilitates MUSC's mission to provide comprehensive health care.	No Change
Private Business Organization	Medtronic	Medtronic and the Medical University of South Carolina (MUSC) announced a five-year value-based health care partnership in 2019 intended to transform and improve care for patients in South Carolina. The collaboration focuses on developing solutions that improve the health outcomes and care experiences for patients while also reducing costs. Health services research resources at MUSC have been key to the partnership's success.	No Change
Private Business Organization	Modern Minds	MUSC Health and Modern Minds, a new Charleston-based adult mental health and wellness clinic, have launched a collaboration to offer a one-stop holistic approach to mental, emotional and physical wellness. The fully integrative health model engages with clients experiencing stress, depression and/or anxiety and leverages a team of psychologists, psychiatrists, licensed social workers and wellness mentors who work together to provide a comprehensive care solution. The effort seeks to move more people toward balanced wellness in all areas of their lives, addressing physical activity, nutrition, mindfulness, relationships, family and work. The clinic incorporates faculty from MUSC and fellows which furthers the education and research mission.	No Change
Private Business Organization	MUSC Foundation	MUSC partners with the MUSC Foundation (MUSCF), a non-profit corporation established in 1966, to support education, research, patient care and other programs at the Medical University.	No Change
Private Business Organization	MUSC Foundation for Research Development	MUSC partners with the MUSC Foundation for Research Development (d/b/a Zucker Institute for Innovation Commercialization, "ZI"), a non-profit corporation established in 1995, in order to evaluate all intellectual assets the enterprise owns and generates, extracting value, and forging industry and other relationships resulting in products and services that provide real-life solutions to the world's medical needs.	Amend

Partnerships Data

Type of Partner Entity	Name of Partner Entity	Description of Partnership	Change to the partnership during the past fiscal year
Private Business Organization	MUSC Physicians (University Medical Associates or UMA)	MUSC partners with MUSC Physicians (UMA), a non-profit corporation, to facilitate the clinical responsibilities and clinical compensation for College of Medicine faculty whose contracts stipulate clinical practice.	No Change
Private Business Organization	MUSC Strategic Ventures	MUSC partners with MUSC Strategic Ventures (MSV), a non-profit formed in 2015 to allow affiliation with tax-exempt entities to support the missions and programs of the Medical University of South Carolina, UMA, and MUHA.	No Change
State Government	SC Area Health Education Consortium (AHEC)	SC AHEC facilitates the Statewide Family Practice Residency System, the Graduate Doctor Education Program, and the Area Health Education Center Program.	No Change
Private Business Organization	Siemens Healthineers	The Medical University of South Carolina (MUSC) and Siemens Healthineers formed a first-of-its-kind strategic partnership in 2018 with the mutual goal of advancing the quality of health care in South Carolina. The partnership capitalizes on the coupling of MUSC's clinical care, research and education expertise with Siemens Healthineers' engineering innovations and workflow-improvement capabilities.	No Change
State Government	South Carolina (state grants & contracts)	MUSC receives state grants and contract support to achieve its tripartite mission of education, research, and health care.	No Change
Private Business Organization	Synaptive	The MUSC - Synaptive affiliation means clinicians and researchers have access to groundbreaking technologies to improve patient care and encourages collaboration to co-develop uses for novel clinical tools.	No Change
Higher Education Institute	The Citadel	MUSC partners with The Citadel to offer accelerated pathways in which students are eligible to receive credits towards their undergraduate degree for completing their first year at MUSC. These pathways allow students to reduce time in school and educational debt. The Citadel and MUSC have also joined forces to provide enhanced health care services for members of the South Carolina Corps of Cadets. Services offered by The Citadel's Mary Bennett Murray Infirmary have been expanded to include counseling, additional sports medicine offerings and on-site physical therapy.	Amend
Private Business Organization	Helix	MUSC and Helix have a strategic collaboration to develop a first-of-its kind population genomics initiative in South Carolina called In Our DNA SC. The large-scale program is designed to improve health care outcomes by integrating genetic insights into clinical care and research. The statewide initiative will enroll 100,000 patients in genetic testing over the next four years at no cost to the patient.	No Change
Private Business Organization	Notable	In partnership with Notable, MUSC Health creates a digital experience for patients throughout their care journey. MUSC Health will leverage the Notable platform to power a digital front door for every patient interaction, automating scheduling, registration, clinical intake workflows, and more.	No Change

Type of Partner Entity	Name of Partner Entity	Description of Partnership	Change to the partnership during the past fiscal year
Private Business Organization	Butterfly	Together with Butterfly, MUSC aims to transform patient care, health education and medical research by empowering its clinicians, students and researchers with point-of-care access to AI-powered, handheld ultrasound.	No Change
Private Business Organization	Fetter	In collaboration with Fetter, MUSC works to increase access to care and address health equity in South Carolina.	No Change
Private Business Organization	Boeing	MUSC and Boeing engage in enterprise-wide collaborations to serve South Carolina, including the MUSC Boeing Center For Children's Wellness.	No Change
Private Business Organization	Vision to Learn	Vision to Learn and MUSC Health combine efforts to provide vision screenings, eye exams, and if needed, a new pair of glasses to Charleston County School District students who struggle with vision all free of charge.	No Change
Private Business Organization	Everfi from Blackbaud	MUSC has announced a new collaboration with Blackbaud (NASDAQ: BLKB) to deploy digital education programs focused on preventive behavioral health for K-12 students. In coordination with EVERFI from Blackbaud, the company's social impact division, these courses will be activated in approximately 70 schools in Charleston, Berkeley, Dorchester, Orangeburg, Bamberg and Calhoun counties. Activation includes teacher training and classroom launches for participating schools	Add
Private Business Organization	General Catalyst	General Catalyst partnered with MetroHealth, Banner Health, MUSC and 6 others on digital innovation. General Catalyst is partnering with nine more hospitals and health systems as the venture capital firm aims to drive healthcare's digital transformation. The organizations span 43 states and include academic, children's, for-profit and nonprofit institutions that make up about 12 percent of U.S. healthcare revenue and 13 percent of the country's hospital beds. The partnerships could yield new companies, joint investments, further development of existing technologies at the health systems, or partnerships with General Catalyst's digital health portfolio companies. They may focus on virtual care, telemental healthcare, process automation, data analytics, artificial intelligence and machine learning, and workforce transformation.	Add
K-12 Education Institute	Charleston County School District/Trident Technical College	Charleston County School District (CCSD) announce a partnership with MUSC and Trident Technical College that will expand opportunities for Charleston area students to explore and become certified in health sciences careers. This new partnership creates career readiness pathways for students while supporting community development and workforce engagement to address shortages in a plethora of critical roles in health care, including but not limited to phlebotomists and certified nursing assistants, registered nurses, and physicians	Add
Higher Education Institute	Clafin	A pilot pipeline program between the Medical University of South Carolina and Clafin University, South Carolina's oldest historically Black college, is seeking to introduce more underrepresented minority undergraduates to lesser known healthcare career paths.	Add

Partnerships Data

Type of Partner Entity	Name of Partner Entity	Description of Partnership	Change to the partnership during the past fiscal year
Higher Education Institute	SC State	South Carolina State and the Medical University of South Carolina (MUSC) joined forces to provide student health care. The center is staffed one day per week with an APP and virtual urgent care services are offered 24/7.	Add
Non-governmental Organization	Pee Dee Medical and Health Sciences Education Consortium (PDMHSEC)	PDMHSEC is composed of the University of South Carolina, the Medical University of South Carolina, and Francis Marion University. The nonprofit purpose of the PDMHSEC is to increase the presence and scope of health care providers across the northeastern quadrant of South Carolina	Add
Private Business Organization	EdVenture	In collaboration with Richland School District Two's STEAMM Med Pro 21 Initiative, EdVenture Children's Museum worked with MUSC to highlight local healthcare professionals.	Add
Non-governmental Organization	Shriners Hospital	MUSC and Shriners Hospitals for Children (Shriners Children's) have announced an affiliation to elevate pediatric burn care and research at the MUSC Shawn Jenkins Children's Hospital. This is a component of the comprehensive South Carolina Burn Center.	Add
Private Business Organization	AnMed	AnMed announced a new affiliation with MUSC to provide enhanced access to leading medical treatment while optimizing the care already in place. AnMed Health and the Medical University of South Carolina College of Medicine have partnered to create an innovative Clinical Education Program at AnMed Health for medical students. Through the partnership, selected third- and fourth-year MUSC students will complete their final two years of education at AnMed Health in a curriculum designed to emphasize patient-centered primary care.	Add
State Government	SC Department of Corrections	MUSC Health, the clinical health system of the Medical University of South Carolina, and the South Carolina Department of Corrections (SCDC) have begun a first-of-its kind partnership to consolidate health care services for incarcerated people within South Carolina. The agreement establishes a dedicated, secure (prison-standard) hospital wing with about 35 beds for SCDC patients inside MUSC Health Chester Medical Center, instead of sending them to various health care facilities across the state for the treatment of acute conditions, such as appendicitis or pneumonia.	Add
