AGENCY'S DISCUSSION AND ANALYSIS

Organization

The South Carolina Department of Natural Resources (SCDNR) is governed by the Natural Resources Board, the members of which are appointed by the Governor with the advice and consent of the Senate. One member is appointed from each of the state's seven congressional districts. The Board sets policy for the Department but has no duty or authority concerning the management of, control over, or administration of the day to day affairs of the Department (S.C. Code Ann. 48-4-50). The Board appoints the Agency Director, upon advice and consent of the Senate, who serves at the pleasure of the Board and is the administrative head of the Department.

The Department is organized into four programmatic divisions, each led by a DNR Deputy Director, and an Executive Office. Together, the four divisions and the Executive Office seek to empower people to live life outdoors by:

- Land, Water and Conservation Division
Developing and implementing programs that study, manage and conserve the State's land and water resources through planning, research, technical assistance, public education and the development of a comprehensive natural resources database.
- Law Enforcement Division
Conserving and protecting the state's natural resources for social, economic, recreational, and commercial benefit while providing maximum human utilization through: (1) the development of public support through outreach, education, and safety programs; (2) the preservation of the peace and protection of human lives and property; and (3) the enforcement of the state's criminal laws through the detection, apprehension, and prosecution of persons who violate those laws.
- Marine Resources Division
Sustaining the State's living marine resources for the cultural, recreational, commercial and economic benefit of the state's citizens and visitors; encouraging quality and sustainable saltwater fishing both recreationally and commercially.
- Wildlife and Freshwater Fisheries Division
Monitoring, protecting, and enhancing wildlife species and inland aquatic species and their habitats throughout the state and providing recreational hunting and freshwater fishing opportunities to the public, some of whom would not have access otherwise.
- Executive Office
Offering quality customer service by efficiently processing hunting and fishing licenses and boat titles and registrations so our citizens and visitors can live life outdoors; improving internal service delivery so that the Department can efficiently offer outdoor opportunities to the public.

2024-2025 Accomplishments and Milestones

During this fiscal year, Team SCDNR...

- Provided public access for citizens and visitors to hunting and outdoor recreation opportunities on 1,072,096 acres of Wildlife Management Areas across the state.
- Officers conducted 3,897 educational outreach programs to promote safe hunting, fishing, and boating.
- Stocked 8,529,892 fish in state waters to increase angler opportunity, promote sustainable populations, and enhance our scientific research.
- Initiated or continued participation in over 40 research projects on species including alligators, threatened bird species, threatened plant species, waterfowl, bobcats, turkeys, coyotes, bats, and various reptiles and amphibians.
- Successfully managed 42 public dove fields across 27 counties in the state, providing opportunity for over 5,000 dove hunters across the state.
- The Marine Division welcomed the first new vessel to the research fleet in many years, a converted trawler named R/V Lady Lillian that will increase our capacity on the water. Research staff completed a successful first year of the Coastal Trawl Survey sampling on board the Lillian.
- Staff continued to make progress on the development of a stock enhancement program for southern flounder, successfully maintaining over 200 brood stock fish and experimentally determining effective hormone use for induced spawning.
- The Marine Division welcomed the first new vessel to the research fleet in many years, a converted trawler named R/V Lady Lillian that will increase our capacity on the water. Research staff completed a successful first year of the Coastal Trawl Survey sampling on board the Lillian.
- Body worn cameras were issued and are in use by the Law Enforcement Division. We also installed Cradlepoint Wi-Fi equipment to all Law Enforcement Division vehicles to allow for immediate uploading of body worn camera video into the evidence storage cloud.
- Provided meteorological expertise to other state agencies for major weather events affecting South Carolina, including Tropical Storm Debby, Hurricane Helene, November 7 Flood, and the January Winter Storm.
- In collaboration with all 46 Soil and Water Conservation Districts, developed and published the first Conservation Districts Annual Report, a comprehensive set of accomplishments highlights conservation implementation, economic impact, education, outreach, and dedicated service to the citizens and natural resources of South Carolina.
- Increased the number of records in the four-and-a-half-decade old Heritage Trust Botany Database by 7% in the past year, and 101% since the Botany Program started its work in 2020. The amount of botanical data collected in Heritage Preserves has also doubled the pre-2020 numbers. This has greatly improved capacity to plan statewide conservation and management programs.

Looking Ahead

Moving forward through the new fiscal year, SCDNR's top priority is to empower and encourage people to "live life outdoors." The Department aims to reach new constituents and provide exceptional services to our customers by improving our business processes and building trust with our stakeholders and the citizens of South Carolina. Some of our priorities this year include:

- Decreasing boat registration and titling turnaround times and reviewing processes and procedures to decrease wait time for our customers.
- Continue redesigning our website to improve the user experience and provide readily accessible information about our properties, programs, and mission.
- Pursuing opportunities for acquisition of properties to provide exceptional natural and cultural resources-related recreational opportunities in all regions of the state in keeping with South Carolina's outdoor heritage.
- Promoting the application of science to public trust natural resources stewardship in order to sustain those resources.
- Encouraging collaboration between our professionals in different divisions of the agency to leverage our expertise and cross-collaborate on projects when possible.
- Ensuring fair and equitable enforcement of natural resource, boating, and general public safety laws and regulations.
- Furthering our efforts to provide outdoor recreational opportunities to a growing non-traditional constituency.

Natural resources have defined much of the history and culture of South Carolina. We have been bequeathed with enormous natural and cultural wealth in the form of the lands, waters and the resources found therein. Over 5.1 million people call South Carolina home, a great many of whom seek to experience and enjoy the myriad of natural resources that solidify South Carolina's competitive advantage in the global economy. SCDNR is the advocate for and steward of the state's public trust natural resources, but SCDNR cannot be the sole effective stewards of these resources. Rather, SCDNR seeks to foster an appreciation for sustainable use of the state's natural resources among all South Carolina citizens and visitors. Continued development of a "stewardship ethic" in which interests across the state are enlisted and actively engaged to help in this stewardship mission is key to ensuring that these resources can be sustainably enjoyed today as well as in generations to come.

The most negative impact on the public resulting from SCDNR failing to accomplish our goals and objectives would be the failure of the citizens of South Carolina to fully understand and appreciate the breadth and scope of South Carolina's natural wealth and the subsequent squandering of that wealth. The agency devotes a considerable investment of resources to providing accurate and credible science, coupled with inclusive mechanisms and processes to aid in decision making relating to the sustainable use, allocation, and enjoyment of our state's finite resources. There has been a steady trend of increased pressure on these resources due to increasing population growth, combined with the

AGENCY NAME:	Department of Natural Resources		
AGENCY CODE:	P240	SECTION:	047

increased desire and interest in the use of the state's natural resources, both recreationally and commercially.

Through its four programmatic divisions, SCDNR seeks to broaden its strategies to address the impacts of population growth, habitat loss, environmental alterations, competing use and other challenges faced in protecting, enhancing, and managing diverse natural resources. This approach is complemented by outreach initiatives with the aim of maintaining continued engagement with constituents, stakeholders and partners. At the same time, SCDNR has also expanded facets of its outreach programs to better educate and recruit those citizens who currently are not engaged or knowledgeable about the current impacts on the state's natural resources.

One of the agency's emerging issues is balancing the natural resource needs of a changing population. We continue to face increased human/animal interactions as our population grows. Population growth also requires the agency to focus on protecting habitats for the natural communities that occur within the state, in order to maintain their viability. While most of our land management focuses on consumptive use of natural resources, we have increasing interest in providing access to non-consumptive users who also desire to visit and recreate on SCDNR-managed properties. Management for multi-species conservation will be important going forward.

Dealing with increased public use of natural lands managed by the agency, balancing protection of the natural characteristics of these lands, and providing public recreation and education will become more challenging in the future. Wildlife Management Area (WMA) properties are enjoyed by hundreds of thousands of residents and non-residents each year. SCDNR manages more than one million acres of public access lands for hunting, fishing, boating, and hiking for the enjoyment of both consumptive and non-consumptive users. Although WMAs are enjoyed by all, they are primarily financially supported by the sportsmen and sportswomen of this state. Among non-hunting users, birdwatching, wildlife viewing, fishing and photography are the most popular activities. SCDNR would like to increase and encourage both consumptive and non-consumptive visitors to all of our properties, but in order to offer quality visits for hunting, fishing and other public uses, staff need the resources to properly maintain roads, dikes, boat ramps, trails, habitat management and the other needs associated with maintaining large natural areas that are visited by the public.

We ask for the General Assembly's support in the following tasks:

1. Helping to promote the idea that "conservation is a team sport."

We believe that the health and abundance of our natural resources is a key component of the quality of life in South Carolina, and that quality of life is one of our state's key competitive advantages in a global economy. Stewardship of those resources is the responsibility of all, and it is SCDNR's primary mission to promote sound and sustained stewardship of these resources for present and future generations. The agency works towards this mission through various means, including developing science-based recommendations for regulatory and statutory measures to protect natural resources; providing access and opportunity for people to enjoy South Carolina's natural wealth via traditional (hunting, fishing, boating) and non-traditional (wildlife viewing, hiking, nature study) means, and

AGENCY NAME:	Department of Natural Resources		
AGENCY CODE:	P240	SECTION:	047

ensuring that this access is safe, orderly, and in accordance with statutes and regulations established to sustain these resources.

South Carolina is home to more than 5.1 million people, and we host millions of visitors each year. The sheer numbers suggest that there are varying views on natural resources stewardship, and these differences can lead to growing conflicts between and among various interests regarding how to best promote natural resources. Couple this with the fact that the bulk of the financial support for natural resources management has been provided disproportionately by license and user fees. The proportion of citizens who purchase licenses for traditional uses of natural resources is declining, though we see increasing demands for new or additional services from citizens who do not purchase licenses/privileges. We see increasing conflicts on the horizon as new users demand access to natural resources that have traditionally been the purview of the hunter/angler/boater, and this has implications for how the agency manages resources such as Heritage Preserves and Wildlife Management Areas. People of many varied interests—not just hunters, anglers, and boaters—seek the outdoors and natural resources for respite, refuge, and rejuvenation. SCDNR encourages those uses. In a state that is blessed with vibrant population and business growth, this leads to greater pressure on the agency to provide for a quality outdoor experience among a growing diversity of user groups.

The General Assembly can help the agency by recognizing the growing demands placed on agency lands and programs and provide for a diversification of our funding base. This would enable us to meet the demand for greater and safer access to natural resources by a broader constituency, with the ultimate goal to foster a greater sense of natural resources stewardship by all South Carolina citizens and visitors.

2. Funding Facility/Equipment Needs

SCDNR has been aggressive in investing in recreational lands, fish hatcheries, wildlife areas, research laboratories and facilities, and other infrastructure to promote stewardship and provide access and opportunity to a growing population interested in being outdoors. The agency manages over one million acres of land across the state for wildlife habitat and outdoor recreation. Our mission differs from that of the State Park Service in that we have for decades pursued investments in natural lands to provide for hunting, fishing, and boating access. For over two decades, the agency's highest priority has been wildlife habitat protection, and we have been successful in leveraging state, federal, and private funds in pursuit of habitat protection.

As we encourage and promote the need to be good stewards of the state's public trust natural resources, we believe that we have an obligation to be good stewards of the lands and facilities under our care so that we can continue to provide exceptional service to our constituents.

3. Assisting with Employee Retention and Competitive Salaries

SCDNR has recognized for many years that improving salaries and benefits is a key component to recruitment and retention of highly qualified individuals. The agency's staff are our most valuable asset, and long-term success in fostering a durable natural resources stewardship ethic by our citizenry

AGENCY NAME:	Department of Natural Resources		
AGENCY CODE:	P240	SECTION:	047

is driven by a workforce culture with a sustained commitment to conservation, stewardship, and science. Retention of high-performing employees is critical to ensuring sustained success in resources stewardship. The department employs many scientists who are at the top of their fields in geology, hydrology, botany, archaeology, climatology, marine science, and wildlife biology, as well as other disciplines. SCDNR staff are passionate, smart, diligent and crucial to encouraging a stewardship ethic in South Carolina.

Providing salaries for employees that are regionally competitive and providing adequate training and mentoring in order to prepare younger staff for succession as older staff retire is problematic. In addition, keeping a well trained and experienced staff, many of whom are required to work evenings, weekends, and major holidays is difficult with the new generation of employees. The General Assembly can assist us by implementing the recommendations of salary studies as well as encouraging agencies to explore innovative ways to address work-life balance issues that today's most enterprising employees are demanding.

P240 - DEPARTMENT OF NATURAL RESOURCES

Law number	Jurisdiction	Type	Description	Purpose the law serves:	Notes:	Changes made during FY2025
1-30-75	State	Statute	Establishes the Department and requires the Department to be divided initially into divisions for Land Resources and Conservation Districts, Water Resources, Marine Resources, Wildlife and Freshwater Fisheries, and State Natural Resources Enforcement.	Not related to agency deliverable		No Change
1-30-10	State	Statute	The Department is authorized as a state agency that falls within the executive branch of SC state government.	Not related to agency deliverable		No Change
8-21-15	State	Statute	The Department is not authorized to charge a fee for performing a duty, responsibility, or function of agency unless authorized by statute and regulation. There are exceptions in the statute. The Department is not prohibited from charging fees for services provided to other state agencies, departments, boards, committees, commissions, or political subdivisions regardless of whether the fee is set by statute.	Not related to agency deliverable		No Change
12-21-2420	State	Statute	Authorizes the Department to receive revenue derived from fishing piers along the coast of SC for use of the Commercial Fisheries Division.	Not related to agency deliverable		No Change
12-28-2730	State	Statute	Authorizes the Department to receive one percent of the proceeds from thirteen cents of the gasoline user fee imposed, pursuant to the chapter on Motor Fuels Subject to User Fees, for a special water recreational resources fund of the State. All balances in the fund must be carried forward annually so that no part of it reverts to any other fund. The fund must be apportioned based upon the number of registered boats or other watercraft in each county and expended by the Department to acquire, create, or improve water recreational resources. As used in this section, "water recreational resources" means public waters which are naturally occurring or which provide habitat for fish, aquatic animals, or waterfowl and which must provide public recreational opportunities. These funds may be used to promote activities that take place on the water for recreation provided that no more than ten percent of each annual allocation may be used for this purpose beginning July 1, 2003. Each county delegation may make recommendations to the Department for projects to acquire, create, or improve water recreational resources. The Department must give these recommendations primary consideration over any other projects. The Department is authorized to use up to one-third of the funds for law enforcement, noxious aquatic weed control, and acquisition. The Department must be reimbursed for design and engineering costs and administration of this section from the funds collected under the provisions of this section. The Department must dispose of all surplus property owned by the Department or subject to its custody and control for purposes of disposal in the manner provided by law for the disposition of surplus state property. All proceeds from the sale of the Department's surplus property that was originally purchased with a county's water recreational resources funds must be returned to the county that originally purchased the property and placed in that county's water recreational resources fund. Beginning with property purchased during fiscal year 2000, the Department must provide the legislative delegations of each county with an annual inventory of all property purchased with the county's water recreational resources funds on or before the beginning of the next ensuing session of the General Assembly.	Requires a service	Support for Water Recreational Resources	No Change

12-6-5060	State	Statute	The Department is required to report annually to the General Assembly the amount of revenue produced by contributions and a detailed accounting of expenditures for the Nongame Wildlife and Natural Areas Fund.	Report our agency must/may provide		No Change
49-23-50	State	Statute	The Department is authorized to routinely monitor and record data necessary for the determination of drought conditions; make investigations it considers proper to determine whether action by the Department in discharging its duties is necessary; determine levels of drought; establish drought management areas within the state; enable drought mitigation to be accomplished within defined geographical areas; prevent overly broad response to drought; establish drought alert phases; and notify public water suppliers, special purpose districts, and municipal and county governments in the affected drought management area, persons designated on notification lists, and other appropriate agencies and individuals. The Department is authorized to publish notice of each drought alert phase at least once in a newspaper of general circulation in the areas affected and provide notice to the media in each drought management area at each drought alert phase; take any other action appropriate to announce a drought alert; coordinate and implement responses to announced drought alert phases after required notification; execute the regulations promulgated by the Department reasonably necessary to collect and distribute information, convene committees, promote water conservation, govern practice and procedure before the Department, and fulfill its duties and the purposes under the South Carolina Drought Response Act.	Report our agency must/may provide	Report on drought data	No Change
49-23-100	State	Statute	The Director of the Department is authorized to institute a civil action in the circuit court in the name of the State for injunctive relief from a person in violation of the South Carolina Drought Response Act.	Requires a service	Drought response	No Change

Law number	Jurisdiction	Type	Description	Purpose the law serves:	Notes:	Changes made during FY2025
121-11.10	State	Regulation	<p>During severe or extreme drought conditions, the South Carolina Department of Natural Resources may require mandatory reduction or curtailment of non-essential water use in affected drought management areas if recommended by the Drought Response Committee in accordance with R.121-11.6. Any person adversely affected by mandatory curtailment may, within ten days after such curtailment becomes effective, submit appropriate information to the South Carolina Department of Natural Resources and seek a variance from the curtailment. (3) Either the South Carolina Department of Natural Resources staff or the person requesting the variance may request a meeting to discuss any matter relevant to the request or to seek additional information. Such meeting shall be conducted as expeditiously as practicable;</p> <p>(4) Upon receipt of all relevant information (specified in E. (1), (2), and (3) above) from the person requesting the variance, the South Carolina Department of Natural Resources staff shall issue a determination for the request for a variance. Such determination shall be made within five days of receipt of all relevant information from the person requesting the variance or within twenty days of the declaration of the curtailment, whichever comes first. Persons not capable of immediate water use reduction or curtailment because of equipment damage or other extreme circumstances shall commence gradual reduction within twenty-four hours of the declaration of curtailment and shall notify the South Carolina Department of Natural Resources of their proposed reduction schedule by certified mail within three working days of the declaration of curtailment. A variance will be required for the gradual or reduced reduction and a request for a variance must be submitted to the South Carolina Department of Natural Resources as specified in E. above within ten days after such curtailment becomes effective. Any declaration of curtailment shall continue in effect only as long as conditions in any drought management area require it. The declaration shall be terminated by action of either the Drought Response Committee or the South Carolina Department of Natural Resources, and notice of termination of the declaration shall be given as when originally issued.</p>	Requires a manner of delivery		No Change
121-11.11	State	Regulation	<p>A. During any drought alert phase, the South Carolina Department of Natural Resources shall offer its services to mediate any dispute arising from competing demands for water. The mediation may be undertaken only upon the request of the parties involved and may not be binding.</p> <p>B. The Chairman of the South Carolina Department of Natural Resources shall appoint a three person board to mediate each dispute. The board shall meet as necessary to mediate the dispute at a location deemed most appropriate by the board for all persons involved.</p> <p>C. A written request shall be submitted from each grievied person to the South Carolina Department of Natural Resources. The requests will contain the following minimum information:</p> <p>(1) Statement of the cause for mediation;</p> <p>(2) Results sought by each person;</p> <p>(3) Historical water use by each person;</p> <p>(4) Description of water sources;</p> <p>(5) Map of general area showing water sources, water transfers, water use points, and water discharge, as appropriate.</p> <p>(6) Additional material deemed relative to the dispute by each person.</p> <p>D. The South Carolina Department of Natural Resources as appropriate may conduct investigations to resolve the dispute.</p> <p>E. A decision shall be made by the board within ten days of receipt of all necessary information.</p> <p>F. A permanent record of each mediation process shall be maintained by the South Carolina Department of Natural Resources, and a summary of the request, findings, and conclusions of mediation shall be reported by the board to the South Carolina Department of Natural Resources and incorporated into the minutes of the South Carolina Department of Natural Resources. The South Carolina Department of Natural Resources will entertain requests for confidentiality if sufficient reasons exist to withhold information under the Freedom of Information Act.</p>	Requires a manner of delivery		No Change

Law number	Jurisdiction	Type	Description	Purpose the law serves:	Notes:	Changes made during FY2025
121-11.12	State	Regulation	The South Carolina Department of Natural Resources, in cooperation with the South Carolina Department of Health and Environmental Control, shall prepare and distribute a model drought response ordinance or ordinances within six months of approval by the General Assembly of these regulations. The model ordinance will be distributed to all entities which must develop ordinances and plans. Proposed ordinances and plans must be submitted to the South Carolina Department of Natural Resources for consistency review within twelve months of the effective date of these regulations. Water suppliers as specified in B. above, commencing the business or activity of supplying water, after the effective date of these regulations, shall submit a local drought response ordinance or plan to the South Carolina Department of Natural Resources within six months of the commencement of the business or activity and shall adopt the ordinance or plan within twelve months of the commencement of the business or activity.	Requires a service	Create model drought ordinance	No Change
121-11.2	State	Regulation	The Department must, through regulation, establish specific numerical values for the indices that define each level of drought. The incipient drought phase shall initiate inhouse mobilization by department personnel and the Drought Response Committee. The department shall routinely monitor the climatic variables, streamflow, and water levels in potable drinking water supplies and water levels in the above and below ground water tables and lakes, and shall notify the Drought Response Committee and relevant federal, state, and local agencies that a portion of the State is experiencing an incipient drought condition. The department must increase monitoring activities to identify a change in existing conditions. The department shall continue to evaluate information from various sources. Upon confirmation of an Extreme Drought Alert Phase, the Drought Response Committee may recommend that the Governor issue a public statement that an extreme drought situation exists and that appropriate water-use and withdrawal restrictions be imposed.	Requires a service	Numerical values for drought	No Change
121-11.5	State	Regulation	Authorizes a representative of the Department to serve on the Drought Response Committee. The department shall provide administrative support to the Committee. The Drought Response Committee for individual drought management areas shall convene upon notice by the South Carolina Department of Natural Resources or at the request of five committee members.	Board, commission, or committee on which someone from our agency must/may serve		No Change
121-11.6	State	Regulation	Members of the Drought Response Committee shall be notified at the onset of each Drought Alert Phase and provided information by the South Carolina Department of Natural Resources with respect to the Drought Alert Phase in each Drought Management Area as applicable. Upon determination that action in addition to local measures is necessary to insure adequate supplies of water in drought management areas, the Drought Response Committee shall prepare recommendations to reduce or alleviate drought impacts and submit the recommendations to the South Carolina Department of Natural Resources for implementation.	Requires a service		No Change

121-11.7	State	Regulation	<p>The Office of the State Climatologist, South Carolina Department of Natural Resources, shall maintain a Drought Information Center whenever one or more drought management areas of the State are in a moderate, severe or extreme drought alert phase. Information about the status of drought conditions and impacts on the economy and well-being of the State will be collected and made available to State Agencies, State Officials, the news media, and other concerned interests.B. The Drought Information Center shall routinely collect, monitor, and evaluate selected climatic, water-supply and water-use data as necessary to identify at an early stage the onset of a drought or potential for drought, geographic extent of the affected area and changes in the drought levels.</p> <p>C. Drought indices shall be computed on a weekly basis. These computations will be compared with the various similar indices computed by other State, Federal and private agencies.</p> <p>D. Monitoring shall be accelerated whenever drought conditions approach or enter the moderate drought stage in one or more drought management areas. This may include acquiring additional rainfall, stream flow, water use, and ground water level data; and collecting additional information on the impact of the drought on agriculture, industry, domestic water supplies, and other users.</p> <p>E. During periods of moderate, severe or extreme drought, available drought related data, as appropriate, will be provided to the Drought Information Center by the South Carolina Department of Agriculture, South Carolina Emergency Preparedness Division, South Carolina Forestry Commission, South Carolina Department of Health and Environmental Control, as well as by any other State Agency that is either impacted by or has information on drought conditions. Various Federal and local agencies may be asked to provide drought information on a voluntary basis.</p>	Requires a service	Maintain drought information center	No Change
121-11.8	State	Regulation	<p>The incipient drought phase shall initiate inhouse mobilization by department personnel and the Drought Response Committee. The department shall routinely monitor the climatic variables, streamflow, and water levels in potable drinking water supplies and water levels in the above and below ground water tables and lakes, and shall notify the Drought Response Committee and relevant federal, state, and local agencies that a portion of the State is experiencing an incipient drought condition. During a moderate drought, statements must be released to the news media by the department, and appropriate agencies must accelerate monitoring activities. In extreme drought alert the department shall continue to evaluate information from various sources.</p>	Requires a service	Maintain incipient drought response if necessary	No Change

Law number	Jurisdiction	Type	Description	Purpose the law serves:	Notes:	Changes made during FY2025
121-11.9	State	Regulation	<p>Upon the inception of a drought alert phase, the South Carolina Department of Natural Resources will disseminate public information concerning all aspects of the drought. The initial action in responding to drought is public education, providing information as to existing and potential conditions and water conservation measures necessary to meet the demand for water at each drought alert phase.</p> <p>B. The South Carolina Department of Natural Resources shall provide the following notice of Drought Alert Phases.</p> <p>(1) The South Carolina Department of Natural Resources shall notify the Drought Response Committee at the beginning of an incipient drought alert phase and each upgrading of the drought alert to a higher phase. Such notice shall be by first class mail.</p> <p>(2) The South Carolina Department of Natural Resources shall notify by first class mail public water systems in the affected Drought Management Areas and other appropriate agencies and individuals at the inception of a moderate drought alert phase and each upgrading of the drought alert to a higher phase.</p> <p>(3) The South Carolina Department of Natural Resources shall publish notice at least once in a newspaper of general circulation in the areas affected at the inception of a Moderate Drought Alert Phase and each upgrading of the drought alert to a higher phase.</p> <p>(4) The South Carolina Department of Natural Resources will take any other action appropriate to announce a drought alert.</p>	Requires a service	Disseminate public information on drought	No Change
12-24-90	State	Statute	<p>The Department must be credited as follows from the recording of deeds:</p> <p>(1) ten cents of each one dollar thirty cents into the Heritage Land Trust Fund.</p>	Not related to agency deliverable		No Change
123-10	State	Regulation	The use of watercraft shall be restricted in certain areas of the waters of the State of S.C. when the Director determines that such restriction is necessary in the interest of public safety.	Requires a service	Retrict watercraft movement through navigational aids	No Change
123-108	State	Regulation	<p>1. The Department shall have authority to issue a special permit to any state, county or local fair, circus or temporary or travelling amusement center or show to allow the sale of hatchery raised trout to patrons thereof whereby such fish are displayed in a tank or holding apparatus taken by rod and reel or hook and line by customers and kept by the taker.</p> <p>2. The Department may specify the conditions under which the activity may be conducted including but not limited to the type of tank and method of display that may be utilized, method by which such fish may be taken, hours of operation, records that must be kept, marking or identification procedures required including wrapping and packaging of any fish so taken. The Department may grant or deny any application for such a permit, and may revoke any permit so issued upon breach of any condition or requirement established.</p> <p>4. The Department shall have authority at all times to inspect the premises whereupon said activity is to be or is being conducted for inspection purposes.</p>	Requires a service	Hatchery raised trout permit	No Change
123-127	State	Regulation	In Lake Marion, Lake Moultrie, the Diversion Canal connecting the lakes and the Tail Canal down to the Seaboard Coastal Railroad Bridge, those types of equipment and gear authorized for use in taking eels from such waters shall be used only where fishing is legal; and any eel basket, pot or dip net which is used in any manner in violation of this rule and regulation, and any device or equipment which is used in such waters for the taking of eels which is not authorized herein, shall be confiscated by the S.C. Wildlife and Marine Resources Department; and the Department shall dispose of such equipment and any catch found therein in the manner it deems appropriate. 123-151	State	Regulation	The size and number of all alligators to be taken will be specified by the Department on permits provided with harvest tags. A permit holder may only take and/or possess alligators identified by the Department and only in the manner specified by the Department. In the event that an alligator harvest tag is defective and is not usable for the purpose intended, or becomes detached from the alligator hide, the Department must be notified immediately. The Department will be responsible for the replacement of defective, but not lost, tags. Before shipping or transporting outside of the USA, carcasses or hides must have CITES tags attached. Anyone desiring to ship or transport such items from the country must contact select Department offices for CITES validation and tagging. Quality and Control Agents- Applications for selection as control agents will be reviewed by the Department. The number of appointed control agents will be based upon the need as determined by the Department. 3. Operation of Department designated alligator control agents: a. Alligators may be skinned only at designated sites and in accordance with specific instructions provided by the Department. c. Each control agent may be assisted by not more than two assistant control agents approved by the Department, provided that no such assistant shall operate or conduct any alligator trapping or transportation activity except under supervision of the control agent. d. Alligator harvest tags issued to control agents are the property of the Department and shall remain the property of the Department. e. Designation as an alligator control agent is discretionary with the Department and such designation may be revoked at any time. Private lands alligator program- The Department will establish a quota and issue tags for each specific application. 49-23-70	State	Statute	(A) Upon the inception of a drought alert phase, the Department is responsible for disseminating public information concerning all aspects of the drought. The initial action in responding to drought must be public education, providing information as to existing and potential conditions and water conservation measures necessary to meet the demand presented at each drought alert phase. (B) The Department shall provide available information on water demands and use to any significant water user, public or private, in order to promote voluntary water conservation. (C) The Department may promulgate regulations to specify categories of nonessential water use and other terms necessary to implement this section. The Department by regulation may provide for the mandatory curtailment of nonessential water uses during periods of severe or extreme drought in drought management areas. Following the determination, the Department shall issue a declaration specifying the drought management areas affected and identifying the categories of nonessential water use to be curtailed. The declaration must be widely distributed to news media and must be published at least once a week in a newspaper of general circulation in each county affected. Any person adversely affected by mitigation or mandatory curtailment may, within ten days after such curtailment becomes effective, submit appropriate information to the Department and obtain relief therefrom as is appropriate. Any declaration shall continue in effect only so long as conditions in a drought management area reasonably require it, and the declaration must be terminated by action of either the Drought Response Committee or the Department, and notice of termination of the declaration must be given as when originally issued. (D) During any drought alert phase, the Department may offer its services to mediate any dispute arising from competing demands for water. The mediation may be undertaken only upon the request of the parties involved and may not be binding. A mediation shall not stop or preclude the Department and the Drought Response Committee from taking any other action authorized by this chapter. 49-29-110	State	Statute	Establishes the Scenic Rivers Trust Fund which the Department is authorized to administer for the purpose of acquiring fee simple or lesser interest in land adjacent to scenic rivers and river segments, legal fees, appraisals, surveys, or other costs involved in the acquisition of those interests. The fund also may be utilized for educational or planning projects associated with the administration and management of the State Scenic Rivers Program. Unexpended balances, including interest derived from the fund, must be carried forward each year and used for the purposes provided in the South Carolina Scenic Rivers Act. No fund money may be expended to acquire an interest in land by eminent domain nor may the funds be expended to acquire interest in land without a recommendation from the Board and the approval of the State Fiscal Accountability Authority or Department of Administration, as applicable. The Board is authorized to report by letter to the presiding officers of the General Assembly and chairmen of the House and Senate Agriculture and Natural Resources Committees each year all funds expended pursuant to this chapter for the previous year, including the amount of funds expended and the uses to which the expenditures were applied. The fund is eligible to receive appropriations of state general funds, federal funds, donations, gifts, bond issue receipts, securities, and other monetary instruments of value. A reimbursement for monies expended from this fund must be deposited in this fund. A fund received through sale, exchange, or otherwise of land acquired under this chapter accrues to the fund. 49-29-160	State	Statute	The Department is required to formulate comprehensive water and related land use plans for the three classes of scenic rivers. Each plan must address access of electricity, natural gas, and communication lines or other facilities for permitted uses for each class of river facilities. Each plan must also address criteria for permitting the crossing of each class of scenic river by sellers of electric energy, natural gas, or communication services. In developing these criteria, the Department must consider the state of available technology, the economics of the various alternatives, and that electric, natural gas, and communication suppliers are required to deliver their services. The Department must recognize that emergency situations will arise that require immediate action and must make provision in the management plan to allow this action.	Report our agency must/may provide		No Change
49-29-170	State	Statute	Sellers of electric energy, natural gas, or communication services may cross on, over, or under lands designated as part of the Scenic River System provided that the Department certifies that such crossing is consistent with the management plan for those lands. A certificate of consistency shall be issued by the Department upon a finding: (1) that the crossing is necessary to provide electric, natural gas, or communication service; and either (a) that the crossing is consistent with the management plan; or (b) that the extent of deviation from the management plan for the construction, operation, and maintenance of the facility across the scenic river is justified, considering the state of available technology and the nature and economics of the various alternatives, and that the entity responsible for the encroachment will make reasonable mitigation for the impacts caused by the construction, operation, and maintenance of the facility. The Department shall issue a certification of consistency or nonconsistency within thirty days from the receipt of an application. A time extension may be granted upon a mutual agreement of both parties. Certification does not preclude the necessity to obtain other required state and federal authorizations.	Requires a service	Must certify utility easement works with scenic river management plan	No Change
49-29-180	State	Statute	The Department is authorized to administer and promulgate regulations to carry out the provisions of the Scenic Rivers Act. In addition, the Department is authorized to promulgate further regulations based on the individual attributes of each designated scenic river area if regulations do not defeat, conflict with, or minimize the provisions of the general regulations for each class of scenic river. Funding for management of areas and features which become Heritage Preserves must be specifically requested by the Department. The Board is also authorized to select those Heritage Preserves for which it is appropriate to charge an individual user fee. The Department is authorized to sell such user permits for a cost not to exceed five dollars and to be valid for the fiscal year in which issued at all Heritage Preserves where a permit is required. At the end of the fiscal year, the Department shall distribute the funds collected among the entities of government assigned responsibility for management in direct proportion to the acreage which they manage. The proceeds of the sale of the user permits must be used to defray the management expenses.	Requires a manner of delivery		No Change
51-17-115	State	Statute	Authorizes the Board of the Department as the Trustee of the Heritage Land Trust Fund and requires that it must be administered for the purpose of acquiring fee simple or lesser interest in priority areas, legal fees, appraisals, surveys, or other costs involved in the acquisition of interest in priority areas, and for the development of minimal facilities and management necessary for the protection of the essential character of priority areas. Unexpended balances, including interest derived from the fund, must be carried forward each year and used only for the purposes provided in this chapter. The Board shall report by letter to the presiding officers of the General Assembly not later than January fifteenth each year all funds expended pursuant to this chapter for the previous year, including the amount of funds expended and the uses to which the expenditures were applied. 51-17-80	State	Statute	The Board of the Department is authorized to accept recommendations and approve any area or feature on the "Priority Areas and Features List" as a Heritage Preserve through the process of dedication. The Department is also authorized to require, in addition to the transfer of either the fee simple interest or a lesser interest therein such as an open space easement, the owner of any such area or feature, to enter into a written "Dedication Agreement" with the Department whereby any restrictions, conditions, permissive and nonpermissive uses of the area or feature involved are clearly stated. The Board of the Department and its agents are required in all cases to maintain the essential character of any area or feature dedicated, and as such they are hereby declared to be at their highest, best and most important use for the public benefit. No Heritage Preserve shall be taken for any other public purpose unless the approval of both the Board of the Department and the Governor has been obtained. No acquisition of any area or feature as a Heritage Preserve shall be allowed whereby the Department receives the fee simple interest in the property while the grantor or transferor retains the beneficial use or interests in the land except where total and complete public usage of the area or feature as allowed under this chapter is agreed to in the "Dedication Agreement". The Department is authorized to, within ninety days from the date of the completion of the dedication process by which an area or feature is established as a Heritage Preserve, or as soon thereafter as possible, recommend a management plan for the area or feature concerned. The plan shall include recommendations as to the uses and nonuses to which the property should be put, recommendations as to whether all or a part of the area or feature is deserving of increased protection through inclusion in the Heritage Trust, the projected cost of the management of the property, and recommendations as to whether or not a user fee would be appropriate. All state, federal, county, local, and private groups interested in the area or feature involved shall be allowed to have input into the proposed management plan. The plan shall be considered by the Heritage Trust Advisory Board, and therefrom the Advisory Board shall propose to the Board of the Department an overall management plan for the area or feature concerned. During this furlough, the agency head shall be entitled to participate in the same state benefits as otherwise available to them except for receiving their salaries. As to those benefits which require employer and employee contributions, the state agency will be responsible for making both employer and employee contributions if coverage would otherwise be interrupted; and as to those benefits which require only employee contributions, the agency head remains solely responsible for making those contributions. Placement of an agency head on furlough under this provision does not constitute a grievance or appeal under the State Employee Grievance Procedure Act. Agencies may allocate the agency head's reduction in pay over the balance of the fiscal year for payroll purposes regardless of the pay period within which the furlough occurs. An agency head shall not be required to take this mandatory furlough based solely on reductions in force implemented as a result of federal budget cuts or reorganization to accomplish organizational efficiencies.
