AGENCY'S DISCUSSION AND ANALYSIS

FY25-26 Updates and Successes

Resilience Planning and Coordination

Overview

Just before the end of FY22-23, SCOR released the state's first Strategic Statewide Resilience and Risk Reduction Plan (Resilience Plan). The plan identified statewide risks and vulnerabilities and included recommendations to serve as a framework to guide state investment in flood mitigation projects and the adoption of programs and policies to protect the people and property of South Carolina from the damage and destruction of extreme weather events. Since its release, by efforts of both SCOR and statewide partners, there has been significant progress in implementing many of the recommendations outlined in the plan. Update documents outlining implementation efforts were released in September 2024 and December 2025. SCOR has organized implementation of the plan into four overarching lines of effort based on four key recommendations that will facilitate the implementation of many other plan recommendations: (1) data collection and coordination, (2) watershed planning and coordination, (3) land conservation, and (4) identifying and maximizing funding (grants). This fiscal year, SCOR also began the formal process, including Advisory Committee meetings (2 held this year), to work on the five-year update of the full plan for 2028, which will include updated data, stakeholder input, and evolving risk assessments. The 2023 Statewide Resilience Plan has received statewide recognition (Notable State Documents Award from SC State Library) as well as national attention from Organizations such as Pew, APA, American Flood Coalition. SCOR produces annual updates to track implementation progress. The 2024 and 2025 annual updates can be found at scor.sc.gov/SSRRP/Progress. The 2028 Plan will build upon the 2023 plan while updating risk assessment and incorporation of statewide and local input gathered through the watershed coordination program.

Watershed Planning and Coordination

Through watershed coordination, SCOR is providing technical planning assistance to communities to identify risks and vulnerabilities, develop actionable solutions, coordinate solutions across the watershed to reduce negative upstream and downstream impacts, and connect communities to regional, state, and federal resources. It is the intention of the Watershed Planning program to build a pipeline for the implementation of resilience projects, programs, and policies at the local level by identifying needs and connecting communities to information and resources to meet their planning and resilience implementation needs.

The fully staffed watershed coordination team has now, to date, participated in over 1400 external coordination meetings with state, regional, and local government agencies, non-profits and community groups, with 937 meetings held or attended by coordinators just this year. Coordinators are working to document needs and connect communities to resources. A tracking system for documenting needs statewide is in development. A cornerstone of this program is a Resilience 101 training that introduces local government staff and elected officials to the concept of resilience and strategies for communities to increase their resilience. 17 Resilience 101s were held with 236 participants. The following jurisdictions had these trainings in their community: City of Folly Beach, Berkeley County, Town of Sullivan's island, Town of Summerville, Anderson County, City of Goose Creek, City of Georgetown, Beaufort County, City of Greer, Greenwood County, Murrells inlet, Waccamaw Regional Council of Governments, City of Bennettsville, Town of Briarcliff Acres, Chester County, and Town of Kiawah Island. While schedules are hard to coordinate between multiple local jurisdictions and local government

departments, we are having high than anticipated attendance at Resilience 101 and other meetings and trainings, and multiple jurisdictions are often coming to trainings held by counties, with multiple local departments such as planning, floodplain management, and emergency management attending.
To further advance the Resilience Plan's recommendations for increasing education and outreach, the Watershed Coordination team contributed to SCOR's development of guidance and training for community planners. In partnership with Clemson University's Department of City and Regional Planning, SCOR is developing a detailed guidance document to help communities integrate the Resilience Element into Comprehensive Plans as required under S.C. Code of Laws §6-29-510.
The coordinators also share data like First Street – a forward-looking hazard data set can be critical for local government planning, programs, and decision making by contextualizing current and future risk and vulnerabilities with local priorities.

Data Coordination

These efforts, coming out of a recommendation for data acquisition and coordination in the Resilience Plan focuses on SCOR's coordination with all levels of government to catalog existing resilience related data, identify data gaps, and provide access to data for planning, design, and decision-making.
There are 6 active data acquisition and coordination projects ongoing, including:

1. High resolution land cover data
2. Clemson Zoning Atlas development
3. Clemson Bridge Box
4. Clemson Roadway Flooding Assessment
5. First Street data contract
6. Low tide imagery
7. HVRI Resilience Metrics

A major effort this year was identification and deployment of Bridge Box flood sensors in cooperation with Clemson University. These sensors allow for monitoring and alerting of flood levels at key locations identified by communities. To date SCOR has deployed 140 sensors with an addition 15 deployed by other partners. Additional locations are being identified statewide.
SCOR continues to refine and share the Resilience Atlas, a hub for resilience-related data from SCOR and other sources. SCOR also continues to make the First Street flood data used in the Statewide Resilience Plan available to any level of government within South Carolina. First Street data is widely accepted, current and future looking model that utilizes reputable data input sources and agencies. First Street data is used across sectors such as government, insurance, finance, and the private sector.
Data Coordination efforts have led to the Department of Administration's new effort to create a data coordination office. SCOR has been in contact with DTO on identifying initial coordination projects.

Grants

SCOR Resilience Team submitted 6 grant applications during the July 1 2025 to June 20 2026 time period: (1) NFWF National Coastal Resilience Fund — Castle Pinckney (July 2025), (2) HUD Advancing Building Technology Grant Program (July 2025), (3) HUD Economic Development Initiative Grant – Community Project Funding – City of Dillon Stormwater Improvements, Dargan Street to Washington Street, via Rep. Fry (Summer 2025), (4) HUD Economic Development Initiative Grant – Community Project Funding – Crooked Creek Channel Improvements, via Rep. Fry (Summer 2025), (5) SC Department of Archives and History 2026 Federal Historic Preservation Grant (May 2026), (6) FEMA's Pre-Disaster Mitigation Congressionally Directed Spending Grant Program — Catfish

Canal Stormwater Improvements Mitigation Project via Sen. Graham (July 2026). This list includes the Congressional Appropriations requests since they ultimately get funneled to specific federal grant programs. SCOR continues to lead or partner in the following grant programs, with coordination and support given to other grant projects across the state:

1. EPA Palmetto Air Quality Collaborative ($3M): A 4-year planning initiative to develop measures to reduce emissions, support economic development, conservation, and community engagement. Following completion of the Priority Climate Action Plan in early 2024, the second deliverable to EPA, the Clean Air Strategies for South Carolina, was submitted on June 1, 2026, following a deadline extension to all grantees. EPA subsequently indicated approval of the document.
2. NFWF Resilient Coastal Communities Collaborative Program ($896,175): Pilot of watershed-based resilience planning in the Salkehatchie River Basin, in coordination with SC Sea Grant Consortium and SC BeachAdvocates. This fiscal year, SCOR completed its engagement process with 10 communities in the area.
3. NOAA Living Shorelines Project ($6.2M, $240,000 direct to SCOR): SCOR is working with the lead, The Nature Conservancy to implement the Community Assistance Program and hosting the application on the SCOR website, as well as participating in developing other project deliverables including Coastal Resilience Implementation Plans.
4. Atlantic Conservation Coalition ($421M, $50M to SCOR): This project is a partnership between 4 states and The Nature Conservancy for land conservation. SCOR is receiving $50M to conserve natural working lands that increase flood resilience and sequester carbon, and coordination with The Nature Conservancy on an additional share of the total grant funds that will also benefit South Carolina. To date, through the purchase of the Duck Ponds ($22.5M) and Buckfield ($23M) properties, the grant has protected over 11,200 acres. These efforts have been made possible by close collaboration with state resource agencies, leveraging federal grants, and through work with conservation non-profits.

Disaster Recovery

Overview

SCOR is leading and coordinating long-term recovery from Hurricane Helene (2024) by managing a larger than ever disaster case management program, state and federally funded housing recovery programs, and coordinating with non-profit organizations to bring housing recovery and other resources to those impacted by Helene that still have unmet needs.

CDBG-DR Housing Recovery

In regards to the CDBG-DR program, this includes ensuring accelerated progress toward the August 27, 2031, deadline for the $150M Hurricane Helene (2024) CDBG-DR grant. The Action Plan was approved on August 1, 2025, following a comprehensive community engagement initiative that featured six public hearings to inform citizens and solicit feedback. The grant agreement was signed with HUD on August 27, 2025, 71 days after the action plan was submitted, outpacing the Hurricane Florence (2018) timeline by 39 days. While starting up the Hurricane Helene program, the team successfully prepared for the Hurricane Florence grant closeout (closed out officially with HUD in the beginning of FY26-27) while simultaneously handling the procurement for the Hurricane Helene grant. This simultaneous closing of legacy grants and launch of new, large-scale programs for Hurricane Helene exemplifies the skill, experience, and competency of our disaster recovery programs. SCOR is likely the only grantee nationally that has closed 3 HUD CDBG-DR grants, and has done so on time, within budget, and with no audit findings.

As of June 30, 2026, the CDBG-DR program has already achieved significant milestones: 616 intakes completed, 303 eligible Priority One cases identified, 52 award letters issued, 9 projects actively in construction, and 2 homes fully completed. Based on previous lessons learned, we are proactively meeting with local officials and relevant local government departments including county attorneys, building officials, public information officers, and emergency management to streamline implementation and address issues, concerns, or questions before they arise, making local approvals and processes for individual home projects move more smoothly.

Rapid Rebuild (State Funded Housing Recovery)
This year also saw the launch of the Rapid Rebuild program. This is the first program where the agency, utilizing state funds, is entirely managing intake, eligibility, and construction for destroyed single-family homes without using an outside implementation contractor. 20 Task Order Contracts for General Contractors have been executed, establishing $20 million in construction capability across 13 counties, allowing multiple task orders to be quickly assigned. SCOR successfully secured a $3 million commitment from SC Housing to expand the program's budget and reach, as well as $2M from Google and Sol Systems.
This program utilizes innovative plans to ensure safe, sanitary, secure, as well as resilient new homes. Required specifications include enhanced roofing, continuous load paths, energy-efficient hurricane-impact windows, and Energy Recovery Ventilators (ERV). SCOR also achieved its first-ever reconstruction that moved a survivor from a destroyed Mobile Home Unit (MHU) into a permanent, stick-built home, establishing a new standard for resilient practice when possible.

These housing programs are supported by SCOR's one-of-a-kind state-managed disaster case management program. The DCM team successfully handled intake and eligibility services for Rapid Rebuild and directly transferred over 40 qualified cases into the construction pipeline. As of June 30, 2026, the Rapid Rebuild Program has 7 homes currently in active construction and 2 homes fully completed.
Implementing this program highlighted the critical need for state-level funding. Because federal dollars targeted only a small portion of the impacted areas, this state-funded program proved essential for reaching survivors who otherwise would not have received assistance. Standing up a brand-new program showed that having general contractor standby contracts for single-family home R3 (Rehab, Reconstruction, Relocation) is a vital step for moving faster in future disaster recovery efforts.

Operating for the first time with this disaster, aided by the Common Housing Operating Picture, state funded and coordinated non-profit efforts have also moved efficiently to fill the gaps in federal funding and maximize available resources to reach additional survivors. This includes $3M in coordinated funding with SC Housing, $2M from Google and partner Sol Systems, and the $2M through SCOR to Habitat for Humanity South Carolina. The partnership with Habitat for Humanity has led to the completion of 18 home repairs as of the end of June, with the funds being paired with other local funding to maximize the funds as part of the $2M proviso. 42 cases have been transferred to the state funded Rapid Rebuild Program, ensuring swift action for survivors with destroyed homes.

Disaster Case Management
Disaster Case Management (DCM) is a partnership between a disaster case manager and a citizen impacted by a disaster to address survivor's unmet needs by connecting them to recovery resources. SCOR is currently providing DCM services for Hurricane Helene through a $22.2M FEMA Disaster Case Management Program grant, which has included the opening of 4 regional offices to serve citizens impacted by Hurricane Helene. To date for Hurricane Helene,
Mitigation

SCOR is deploying federal and state resources across a diverse mitigation portfolio consisting of Infrastructure, Voluntary Buyouts, Plans & Studies, and Federal Funds Match projects. Managing multiple funding sources and programs requires balancing the need to accelerate expenditures and complete projects with ensuring that each activity remained compliant with applicable federal and state environmental, procurement, financial management, reporting, and program requirements.

Significant focus was dedicated to advancing projects funded through the HUD CDBG-Mitigation (CDBG-MIT) program while simultaneously managing the accelerated implementation requirements associated with the State's ARPA-funded stormwater infrastructure program.

We are well on our way to meet the December 31, 2026 ARPA expenditure deadline. We have prioritized project monitoring, coordination, issue resolution, and expenditure management to ensure projects advance as quickly as possible without compromising compliance or the quality of the resulting investments. The $100 million ARPA portfolio includes 17 awarded stormwater infrastructure projects representing more than $60 million in obligations as well as $31.6 million for the assessment and environmental cleanup of the USS Yorktown at Patriots Point. SCOR successfully completed a $31.6 million environmental cleanup of the USS Yorktown in November 2025. The project included the removal of hazardous contaminants from over 100 structural tanks and over 30 non-structural tanks. The contaminants removed included over 1.6 million gallons of toxic waste and 9 tons of asbestos, protecting Charleston Harbor from a potential ecological disaster. 3 of the stormwater infrastructure projects have been completed and are in the warranty phase: Barberry Woods Restoration Project (City of Charleston), 18th Ave. N. Outfall Landward Drainage Project (City of North Myrtle Beach), and Upper Myrtle Beach and Magnolia Basin Drainage Project Phase 2 (Town of Surfside Beach). 6 additional stormwater infrastructure projects have been substantially completed, with another 6 projects in construction. The Barberry Woods project was recently named the American Public Work Associations South Carolina Chapter's Project of the Year in the Environment category, and HUD and others continue to highlight SCOR projects such as the Ehrhardt Tunnel as shining examples of successful and complex projects.
SCOR administers and manages a total of $162,188,000 of HUD CDBG-Mitigation (CDBG-MIT) funds. We are in year 6 of the 12-year Period of Performance. To date we have expedited 68% of the total allocation. Our portfolio encompasses a total of 68 projects across four mitigation program areas: Infrastructure, Voluntary Buyouts, Plans and Studies, and Federal Funds Match. This includes 27 stormwater infrastructure projects, 5 of which are complete including: Ehrhardt Street Drainage Project (City of Charleston), 41st Avenue Drainage Improvements Project (Isle of Palms), Highway 52 Infrastructure Project (City of Lake City), Mingo Pond Infrastructure Project (Georgetown County), and Miller to Morgan Infrastructure Project (City of Sumter). There are 7 voluntary buyout projects: Town of Cheraw, Horry County, Dillon County, Town of Nichols, Darlington County, and City of Bennettsville. The buyout programs in Cheraw and Horry County are completed with 66 homes and an additional 3 lots returned to natural green space. Through buyout projects in progress, an additional 58 homes and 19 lots will be returned to greenspace in perpetuity. There are 24 plans and studies projects, including 18 completed plans or studies. The final program area, match, includes 10 projects, 2 of which are complete: City of Dillon Stormwater Management Plan (matching FEMA HMGP grant), and SCEMD State Hazard Mitigation Plan Update (FEMA Pre-Disaster Mitigation Grant Program).

Land Conservation

Through $200M in funding set aside for land protection in the Disaster Relief and Resilience Reserve Fund, the Resilience Revolving Loan Fund, and the implementation of the Atlantic Conservation Coalition Grant, SCOR has enabled the protection of nearly 90,0000 acres. Approximately 75,000 acres have been protected through the Reserve Fund, which included the vital match funding for the Pee Dee Basin Initiative, the largest conservation easement project in South Carolina history at over 62,000 acres. The first utilization of the Resilience Revolving

Loan Fund has come to fruition, with the property nearing transfer of the Chelsea property (2,737 acres) from The Nature Conservancy to the South Carolina Forestry Commission. Finally, enabled by SCOR's participation in the CPRG planning grant, and partnership with TNC and other states, SCOR is administering $50M in CPRG funds from the $421M multi-state grant for land conservation. To date, through the purchase of the Duck Ponds ($22.5M) and Buckfield ($23M) properties, the grant has protected over 11,200 acres. These efforts have been made possible by close collaboration with state resource agencies, leveraging federal grants, and through work with conservation non-profits.

Statewide Coordination Efforts

SCOR continues to prioritize coordination mechanisms across all levels of government, the private sector, and nonprofit organizations as part of its statutory mission to plan and coordinate statewide resilience. This is done in all program areas, including disaster recovery, hazard mitigation projects, and Resilience Planning and Data Coordination efforts, all of which are improved by cross-sector partnerships, funding coordination, and prevents the duplication of efforts statewide.

In disaster recovery operations, SCOR actively aligns state initiatives with Voluntary Organizations Active in Disaster (VOADs) to streamline service delivery and fill gaps in federal aid. A key success is the agency's coordination with Habitat for Humanity and other nonprofits to further home repair and replacement throughout the disaster impacted area. Based on SCOR's tracking, these organizations have completed almost $4M in home repairs to 469 homes, which does not account for the other assistance types these groups may provide. Prior to Hurricane Helene, SCOR was only tracking a handful of VOADs and long term recovery groups, but to date, in coordination with SCEMD and communities across the state, there are currently 11 active long term recovery groups, and 20 VOADs across the state. Furthermore, SCOR expanded public-private initiatives through partnerships with Google and Sol Systems to further recovery efforts. Proactive outreach to communities, including setting up mobile intake centers across impacted counties and engaging local officials directly, ensures swift local permitting approvals and enhanced community access to recovery services. SCOR is also coordinating on disaster housing efforts with SCEMD and SC Housing.

In the implementation of mitigation projects, the agency collaborates closely with other state agencies such as SCEMD, SCDNR), municipal and county governments to deploy major capital investments, such as ARPA and HUD CDBG-MIT stormwater infrastructure and voluntary buyouts. By strategically matching federal dollars with state funds, and partnering with South Carolina resource agencies and non-profits, continuously maximizes funding leverage to complete major land conservation efforts and local resilience coordination efforts.

Through the watershed coordination program, the agency has conducted over 1,400 external meetings to document community vulnerabilities and directly connect local leaders to information and resources. The agency is also working closely to coordinate data and provide this information with decision makers at all levels of government. An example of this is the Bridge Box Program in cooperation with Clemson University. Furthermore, by participating in and leading regional resilience collaboratives, advisory committees, and intergovernmental task forces, the agency effectively unites localized efforts, creating cohesive, statewide strategies that build community, economic, and ecosystem resilience to environmental change and natural hazards.

In the coordination of conservation projects funded through state funds and federal grants, SCOR works closely with state resource agencies and non-governmental organizations, as well as federal funders to ensure projects are done efficiently and funding is maximized and coordinated.

Risk Assessment and Mitigation Strategies

Agency Sustainability

To effectively plan and coordinate statewide resilience, long-term disaster recovery, and hazard mitigation efforts, SCOR requires a reliable and recurring funding stream. While SCOR received recurring funds of mitigation in the 2026-2027 budget, the increasing risks from natural hazards and the growing exposure of South Carolina's expanding population to these threats make this funding across SCOR's program areas essential.

Increasing Risk and Vulnerability

The Statewide Resilience plan outlines climate trends related to temperature, storm events, and precipitation. Storms are expected to become more intense with increased wind and precipitation. As South Carolina's population increases, additional measures are needed to mitigate the impacts of these environmental changes and natural hazards on communities and infrastructure and build resilient communities. Changing land uses can put new development areas and existing areas at an increased risk for natural hazards. Developed areas can experience flooding as natural systems are changed into developed areas with non-permeable surfaces.

Specific Solutions to Address and Mitigate Risks and Funding Needs

The Disaster Relief and Resilience Act established the South Carolina Office of Resilience (SCOR) to develop, implement, and maintain the Strategic Statewide Resilience and Risk Reduction Plan, and to plan and coordinate statewide resilience and disaster recovery efforts. SCOR currently has an adequate operations and personnel budget, but additional recurring funds would allow SCOR plan for and implement much needed long-term resilience programs, hazard mitigation projects, and disaster recovery efforts; therefore, increasing SCOR's ability to meet its statutorily directed purpose and mission.

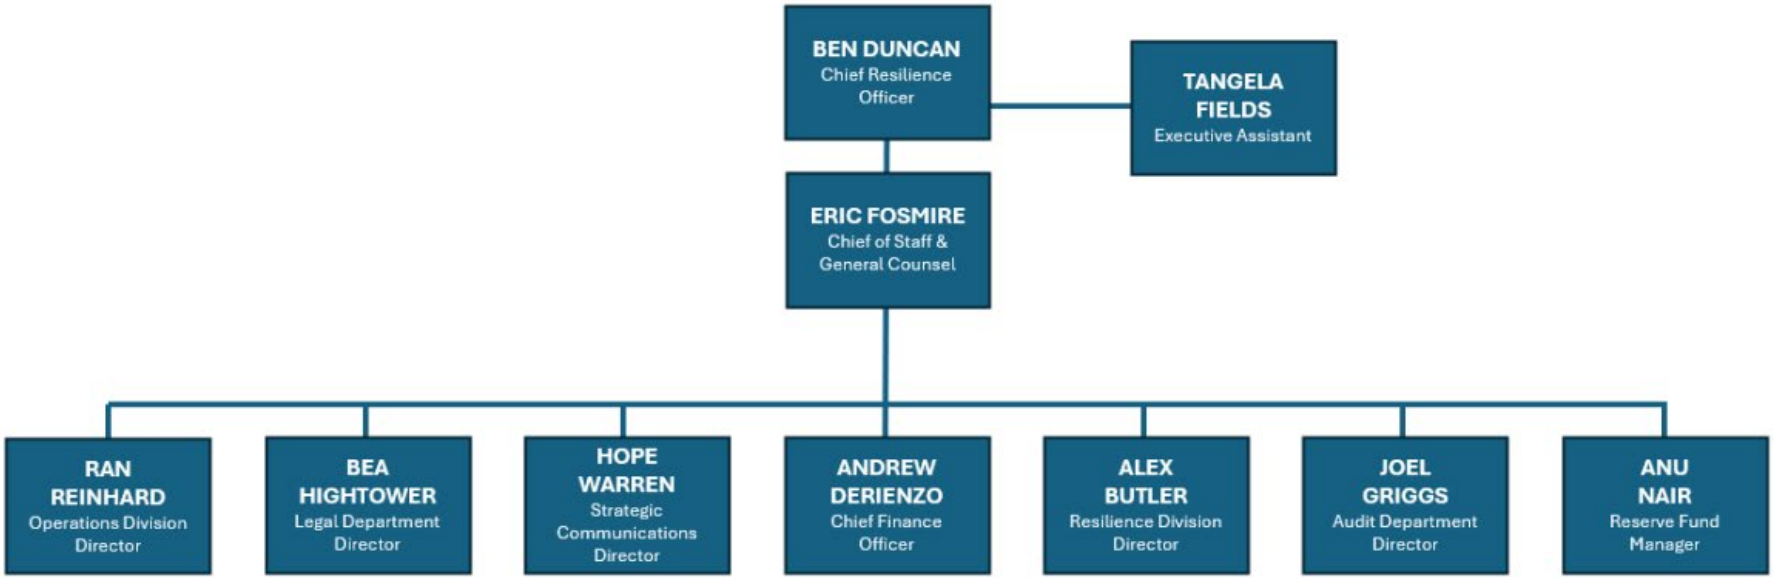

Recurring Funding Is Needed for All Three Areas of SCOR's operations listed below in order to deliver a pipeline of resilience solutions that address current and future risks and enable the communities, economies, and ecosystems of South Carolina to thrive as we continue to be faced with environmental change and natural hazards.

A. *Data and Resilience Planning Coordination*
B. *Disaster Relief & Recovery*
C. *Hazard Mitigation and Infrastructure Improvements*

The high demand for SCOR's current services and the exhaustion of one-time federal and state funds underscore this critical need. Additionally, data indicates a continued rise in risks from natural hazards, coupled with South Carolina's expanding population, compound the needs for all three areas of SCOR's operations – mitigation, resilience planning and coordination, and disaster recovery.

Agency Mission	**Adopted in:**	**2022**

SCOR lessens the impact of disasters on the communities and citizens of South Carolina by planning and coordinating statewide resilience, long-term disaster recovery and hazard mitigation.

Agency Vision	**Adopted in:**	**2022**

We envision a South Carolina where communities, economies, and ecosystems can anticipate, absorb, recover, and thrive when presented with environmental change, natural hazards, and disasters.

Recommendations for reorganization requiring legislative change:

None

Agency intentions for other major reorganization to divisions, departments, or programs to allow the agency to operate more effectively and efficiently in the succeeding fiscal year:

None

Significant events related to the agency that occurred in FY2026

Description of Event	Start	End	Agency Measures Impacted	Other Impacts
HUD Approves SC CDBG-DR Action Plan	August	August	Complete (or fulfill) 2024 Hurricane Helene grant (as determined by percentage of construction dollars spent).	
2025 Strategic Statewide Resilience and Risk Reduction Plan Update released	December	December	Coordinate with other agencies and stakeholders in the implementation of recommendation and update of information in the Strategic Statewide Resilience and Risk Reduction Plan.	
Completion of First Hurricane Helene Rapid Rebuild Home (State funded housing recovery)	January	January	Complete (or fulfill) 2024 Hurricane Helene State Funded Disaster Recovery Program (as determined by percentage of construction dollars spent).	
SCOR Opens Three SC Hurricane Helene Housing Recovery Program Offices (CDBG-DR Program)	January	January	Complete (or fulfill) 2024 Hurricane Helene grant (as determined by percentage of construction dollars spent).	

Lake City Highway 52 Infrastructure Project Completed (CDBG-MIT)	September	September	Protect community structures from the impacts of future flooding through completed flood protection infrastructure projects (as determined by number of completed CDBG-MIT and ARPA infrastructure projects)	
Surfside Beach Upper Mrytle and Magnolia Drainage Basin Infrastructure Project Completed (ARPA)	August	August	Protect community structures from the impacts of future flooding through completed flood protection infrastructure projects (as determined by number of completed CDBG-MIT and ARPA infrastructure projects)	
North Myrtle Beach 18th Ave N. Landward Drainage Project Completed (APRA)	November	November	Protect community structures from the impacts of future flooding through completed flood protection infrastructure projects (as determined by number of completed CDBG-MIT and ARPA infrastructure projects)	
Charleston Barberry Woods Project Completed	December	December	Protect community structures from the impacts of future flooding through completed flood protection infrastructure projects (as determined by number of completed CDBG-MIT and ARPA infrastructure projects)	

Conway McKeithan Watershed Stormwater Project Completed (ARPA)	May	May	Protect community structures from the impacts of future flooding through completed flood protection infrastructure projects (as determined by number of completed CDBG-MIT and ARPA infrastructure projects)	
Hanahan Downtown Stormwater Improvement Project Completed (ARPA)	April	April	Protect community structures from the impacts of future flooding through completed flood protection infrastructure projects (as determined by number of completed CDBG-MIT and ARPA infrastructure projects)	
Greenville County N. Chastain Stream Restoration & Riparian Reclamation Project Completed (ARPA)	June	June	Protect community structures from the impacts of future flooding through completed flood protection infrastructure projects (as determined by number of completed CDBG-MIT and ARPA infrastructure projects)	
Greenville County Little Creek Stream Restoration and Riparian Reclamation Project Completed (ARPA)	June	June	Protect community structures from the impacts of future flooding through completed flood protection infrastructure projects (as determined by number of completed CDBG-MIT and ARPA infrastructure projects)	

USS Yorktown Remediation Project	March	March	Utilizing ARPA funds, complete remediation of contaminants aboard the USS Yorktown.	
Statewide Resilience Plan Advisory Committee Meeting #1	March	March	Coordinate with other agencies and stakeholders in the implementation of recommendation and update of information in the Strategic Statewide Resilience and Risk Reduction Plan.	
Statewide Resilience Plan Advisory Committee Meeting #2	June	June	Coordinate with other agencies and stakeholders in the implementation of recommendation and update of information in the Strategic Statewide Resilience and Risk Reduction Plan.	
Office Moved from privately leased building to the historic, State Owned Mills building on Bull Street. SCOR is working with SC Department of Administration and SHPO on grant to study improvements needed to historic building.	March	March	Assist communities and state agencies by obligating funds to assist communities in executing flood protection related infrastructure projects to reduce or prevent future disaster impacts on persons and property	Really impacts all operations as moved headquarters location.
NFWF National Coastal Resilience Fund - Castle Pinkney Grant submitted	July	July	Seek federal and other funding to implement strategic resilience projects	

HUD Advancing Building Technology Grant submitted	July	July	Seek federal and other funding to implement strategic resilience projects	
HUD Economic Development Initiative Grant - Community Project Funding - Crooked Creek Channel Improvements, submitted via Rep. Fry	August	August	Seek federal and other funding to implement strategic resilience projects	
SC Department of Archives and History 2026 Federal Historic Preservation Grant	May	May	Seek federal and other funding to implement strategic resilience projects	
FEMA Post Disaster Mitigation Congressionally Directed Spending Grant Program - Catfish Canal Submitted request to Senator Graham	June	June	Seek federal and other funding to implement strategic resilience projects	
SCOR completed the Senate Oversight process with a positive report.	May	May	Seek federal and other funding to implement strategic resilience projects	
JBRC approval for Final Land Acquisition by Francis Marion University for Duck Ponds property, funded through CPRG Atlantic Conservation Coalition grant.	March	March	Participate with other stakeholders in land acquisition for resilience flood reduction and conservation purposes.	

JBRC Approval - Establish Final Land Acquisition to purchase +/- 2,821 acres in Beaufort, Jasper, and Hampton Counties (Buckfield)	March	March	Participate with other stakeholders in land acquisition for resilience flood reduction and conservation purposes.	
Is the agency in compliance with S.C. Code Ann. § 2-1-220, which requires submission of certain reports to the Legislative Services Agency for publication online and the State Library? (See also S.C. Code Ann. § 60-2-20).				Yes
Reason agency is out of compliance: (if applicable)				
Is the agency in compliance with various requirements to transfer its records, including electronic ones, to the Department of Archives and History? See the Public Records Act (S.C. Code Ann. § 30-1-10 through 30-1-180) and the South Carolina Uniform Electronic Transactions Act (S.C. Code Ann. § 26-6-10 through 26-10-210).				Yes
Does the law allow the agency to promulgate regulations?				Yes
Law number(s) which gives the agency the authority to promulgate regulations:	**§48-62-370 (1)**			
Has the agency promulgated any regulations?				No
Is the agency in compliance with S.C. Code Ann. § 1-23-120 (J), which requires an agency to conduct a formal review of its regulations every five years?				Yes
(End of Reorganization and Compliance Section)				

FY2026

Strategic Plan Results

as submitted for the Accountability Report by:

D300 - OFFICE OF RESILIENCE

Goal 1 Mitigate Future Disasters
Goal 2 Planning for Disasters
Goal 3 Disaster Recovery

Perf. Measure Number	Description	Base	Target	Actual	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number Responsible	Notes
1.1	**Install Flood Reduction Infrastructure.**										**State Objective:**	**Maintaining Safety, Integrity and Security**		
1.1.1	Assist communities and state agencies by obligating funds to assist communities in executing flood protection related infrastructure projects to reduce or prevent future disaster impacts on persons and property	$0	$20,000,000	$41,972,241.77	Dollar Amount	Equal to or greater than	State Fiscal Year	Total dollar amount	Approved Infrastructure Applications	MIT Department Share Drive	Local governments and citizens provided protection from Flooding	Counties, Cities, and Towns	1001.100100.000	Funds spent on stormwater infrastructure projects in FY2026: CDBG-MIT Infrastructure = $5,550,701.78; ARPA Infrastructure = $36,421,539.99
1.1.2	Protect community structures from the impacts of future flooding through completed flood protection infrastructure projects (as determined by number of completed CDBG-MIT and ARPA infrastructure projects)	5	15	13	Count	Equal to or greater than	State Fiscal Year	Total number of completed projects	Completed Infrastructure Case Files	MIT Department Share Drive	Protection from Flooding	Counties, Cities, and Towns	1001.100100.000	Two additional stormwater projects were scheduled to be complete in late spring/early summer of 2026, which would have resulted in 15 completed stormwater projects. On both projects, the contractor installed the required native vegetation and trees on schedule in the spring, during prime planting season. Unfortunately, these areas of the state experienced several months without rainfall and the plantings did not survive. Therefore, the projects could not be completed. The contractors are scheduled to replace the plantings at the beginning of the fall planting season thus completing the projects.
1.2	**Buyout groups of homes in flood plain as requested by local government(s).**										**State Objective:**	**Maintaining Safety, Integrity and Security**		
1.2.1	Protect citizens by buying homes in the floodplain (as determined by number of active projects - # of communities in buyout program)	6	7	6	Count (whole number)	Equal to or greater than	State Fiscal Year	Total number of active projects	Approved Buyout Applications	MIT Department Share Drive and System of Record	Protection from flooding	Counties, Cities, and Towns	1001.100100.000	New buyout project was awarded as part of CDBG-MIT Round 3 applications just after end of the fiscal year. Local government applications were due 3.31.26. SCOR received three applications.
1.2.2	Protect citizens by buying homes in the floodplain (as determined by number of houses purchased)	90	100	137	Count (whole number)	Equal to or greater than	State Fiscal Year	Total number of completed projects	Completed Buyout Case Files	MIT Department Share Drive and System of Record	Protection from flooding	Counties, Cities, and Towns	1001.100100.000	
1.3	**Assist communities by providing a non-federal match share for federal mitigation related programs.**										**State Objective:**	**Maintaining Safety, Integrity and Security**		
1.3.1	Assist communities and state agencies by providing the 25% local fund match to approved mitigation-related federal grants to ensure 100% coverage for disaster related community or state agency needs (as determined by number of grant applications matched)	8	8	8	Count (whole number)	Equal to or greater than	State Fiscal Year	Total number of matched applications	Approved Grant Applications	MIT Department Share Drive and System of Record	Prevent local governments and state agencies from having to use their own funds to match federal grants	State Agencies, Counties, Cities and Towns	1001.100100.000	
1.4	**Assist communities by conducting plans and studies to identify flooding issues and develop solutions.**										**State Objective:**	**Maintaining Safety, Integrity and Security**		

Perf. Measure Number	Description	Base	Target	Actual	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number Responsible	Notes
1.4.1	Assist communities and state agencies in the sources of flooding issues and identifying projects to reduce the impact of flooding on communities (as determined by number of planning applications approved)	22	23	23	Count (whole number)	Equal to or greater than	State Fiscal Year	Total number of applications	Approved Grant Applications	MIT Department Share Drive and System of Record	Discovery of flooding problems	State Agencies, Counties, Cities and Towns	1001.100100.000	
1.5	**Mitigate potential environmental disaster through remediation of the USS Yorktown**										**State Objective:**	**Maintaining Safety, Integrity and Security**		
1.5.1	Utilizing ARPA funds, complete remediation of contaminants aboard the USS Yorktown.	75%	100%	100%	Percent complete	Equal to or greater than	State Fiscal Year	Percentage of remediation work complete	Mitigation project files	MIT Department Share Drive	Protection from environmental contaminants present aboard the USS Yorktown.	Citizens	1001.100100.000	Completed March 2026
2.1	**Develop, implement, and maintain the Strategic Statewide Resilience and Risk Reduction Plan**										**State Objective:**	**Maintaining Safety, Integrity and Security**		
2.1.1	Implement Watershed-Based Resilience Planning Program	0	40	17	Count	Equal to or greater than	State Fiscal Year	As determined by the total number of Resilience 101 Training Held	Resilience Project Files	Resilience Planning Shared Drive	Protection from Flooding	Counties, Cities, and Towns	0100.050100.000	This represents the number of official Resilience 101 trainings held with local governments, over 230 attendees in total completed the training. Additional one-on-one meetings and trainings with local governments were held by watershed coordinators throughout the year. All Resilience 101 meetings had good attendance from officials and staff from a variety of departments and in many cases several municipalities together in a county meeting.
2.1.2	Seek federal and other funding to implement strategic resilience projects	0	2	6	Count	Equal to or greater than	State Fiscal Year	Total number of federal or other grants applied for during this fiscal year	Resilience Grant Files	Resilience Planning Shared Drive	Protection from Flooding	Counties, Cities, and Towns	1001.050100.000	SCOR Resilience Team submitted 6 grant applications during the July 1 2025 to June 20 2026 time period. This includes NFWF National Coastal Resilience Fund (Castle Pinkney), HUD Advancing Building Technology Grant, 2 HUD Economic Development Initiative Grant (via Rep. Fry - Dillon and Crooked Creek), SC Dept of Archives and history , FEMA Pre-Disaster Mitigation Congressionally Directed (via Sen. Graham - Catfish Canal) *The list includes the Congressional Appropriations requests since they ultimately get funneled to specific federal grant programs.
2.1.3	Coordinate with neighboring states to ensure alignment on resilience strategies	0	4	45	Count	Equal to or greater than	State Fiscal Year	Total number of coordination calls held with neighboring states during this fiscal year	Resilience Project Files	Resilience Planning Shared Drive	Protection from Flooding	State Agencies, Counties, Cities and Towns	1001.050100.000	Includes multi-state CPRG coalition meetings, Pew and American Flood Coalition meetings of state resilience offices
2.1.4	Conduct outreach and coordination activities with local communities and organizations around the state to educate the public about the Statewide Resilience Plan and coordinate with stakeholders.	0	80	937	Count	Equal to or greater than	State Fiscal Year	Total number of outreach meetings attended or held across the state.	Resilience Project Files	Resilience Planning Shared Drive	Protection from Flooding	Counties, Cities, and Towns	1001.050100.000	Fully staffed watershed coordination team held many introductory meetings and working meetings with communities.

Perf. Measure Number	Description	Base	Target	Actual	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number Responsible	Notes
2.1.5	Coordinate with other agencies and stakeholders in the implementation of recommendation and update of information in the Strategic Statewide Resilience and Risk Reduction Plan.	0	3	2	Count	Equal to or greater than	State Fiscal Year	Total number of Resilience Plan Advisory Committee Meetings	Resilience Project Files	Resilience Planning Shared Drive	Protection from Flooding	State Agencies	1001.050100.000	5 year update of plan started in early 2026, and meetings will be held quarterly of the full committee, with additional working group meetings to come.
2.1.6	Improve Data availability for decision making	0	4	7	Count	Equal to or greater than	State Fiscal Year	Data acquisition projects	Resilience Project Files	Resilience Planning Shared Drive	Protection from Hazards	Citizens	1001.050100.000	High Resolution Land Cover Clemson Resilience Element Clemson Bridge Box (3 separate contracts) Clemson Roadway Flooding First Street Contract Low tide Imagery HVRI Resilience Metrics
2.1.7	Coordinate statewide conservation efforts	0	4	4	Count	Equal to or greater than	State Fiscal Year	Total number of Conservation Roundtable meetings attended	Resilience Project Files	Resilience Planning Shared Drive	Protection from Flooding	State Agencies, Counties, Cities and Towns	1001.050100.000	In addition to these conservation roundtable meetings, SCOR participated in the SCDNR Conservation Plan meetings and other multi-agency acquisition planning meetings.
2.1.8	Participate with other stakeholders in land acquisition for resilience flood reduction and conservation purposes.	12,534	12,700	89,146	Count	Equal to or greater than	State Fiscal Year	Total number of acres preserved	Reserve and Revolving Funds Project Files	Shared Drive	Protection From Flooding	Citizens	9826.010000X000	includes Pee Dee easement initiative, which made results much higher than anticipated. SCOR funds providing match required for federal Forest Legacy grant.
3.1	**Housing repair/replacement for declared disasters.**										**State Objective:**	**Public Infrastructure and Economic Development**		
3.1.1	Complete homes repaired/replaced in the 2024 Hurricane Helene Disaster Recovery grant	0	115	2	Count (whole number)	equal to or greater than	State Fiscal Year	Total number of houses repaired/replaced. (Can be impacted by stage of grant, weather, labor and material costs, and subsequent hurricanes.)	System of Record	Implementation Vendor Servers	Citizens' disaster damaged homes are repaired/replaced	Citizens	1001.100100.000	Grant agreement was signed with HUD in August 2025. Progress was delayed due to length of implementation contractor procurement, which took significantly longer than previous procurements - finalized January 2026). Now that we are in full swing, cases are quickly moving through the project pipeline and numbers will begin to jump significantly. Over the past year, the agency ahs also utilized a common housing operating picture to connect citizens with voluntary organization resources and state funds to increase reach. As of June 30, the program has 616 intakes complete, over 300 priority one cases identified, 52 award letters issued, and 9 homes in construction. SCOR is confident that we will continue to meet grant requirements, as the only known CDBG-DR grantee nationally that has closed 3 grants on time, on budget, and without audit findings.
3.1.2	Complete (or fulfill) 2024 Hurricane Helene grant (as determined by percentage of construction dollars spent).	0%	24%	1%	Percent Complete	Equal to or greater than	State Fiscal Year	Total construction dollars expended / total construction dollars budgeted	System of Record	Implementation Vendor Servers	Timely and effective deployment of federal funds	Citizens	1001.100100.000	See note above for objective 3.1.1

Perf. Measure Number	Description	Base	Target	Actual	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number Responsible	Notes
3.1.3	Complete homes repaired/replaced in 2024 Hurricane Helene State Funded Disaster Recovery program.	0	40	2	Count	Equal to or greater than	State Fiscal Year	Total number of houses repaired/replaced. (Can be impacted by stage of grant, weather, labor and material costs, and subsequent hurricanes.)	System of Record	State Server	Citizens' disaster damaged homes are repaired/replaced	Citizens	1001.050100.001	As of June 30, 2026, the Rapid Rebuild Program has 7 homes currently in active construction and 2 homes fully completed. 42 cases have been transferred to the state funded Rapid Rebuild Program. This program was also delayed by difficulty with task order contract procurement and finding eligible cases in original task order contract areas. We are currently planning to open additional areas this fiscal year to increase the reach of the program.
3.1.4	Complete (or fulfill) 2024 Hurricane Helene State Funded Disaster Recovery Program (as determined by percentage of construction dollars spent).	0%	24%	1%	Percent	Equal to or greater than	State Fiscal Year	Total construction dollars expended / total construction dollars budgeted	System of Record	State Server	Citizens' disaster damaged homes are repaired/replaced	Citizens	1001.050100.000	See note above for objective 3.1.3
3.2	**Individual Housing Voluntary Buyouts for declared disasters.**										**State Objective: Public Infrastructure and Economic Development**			
3.2.1	Complete voluntary buyouts in 2024 Hurricane Helene Grant Funded Disaster Recovery program.	0	4	0	Count	Equal to or greater than	State Fiscal Year	Total number of houses bought out	System of Record	State Server	Citizens	Citizens who's homes have been impacted by disaster to wish to move to a safer location.	1001.100100.002	Similar issues as above led to a slower start as this is part of the disaster recovery program. Implementing contractor is now referring possible buyout cases to the buyout team.
3.2.2	Complete (or fulfill) 2024 Hurricane Helene grant (as determined by percentage of buyout dollars spent).	0%	28%	0%	Percent complete	Equal to or greater than	State Fiscal Year	Total buyout dollars expended / total buyout dollars budgeted	DCM System of Record	DCM System of Record	Citizens	Citizens who's homes have been impacted by disaster to wish to move to a safer location.	1001.100100.001	See above
3.3	**Disaster Case Management**										**State Objective: Public Infrastructure and Economic Development**			
3.3.1	Hurricane Helene survivors whose unmet needs are solved (as determined by cases closed successfully).	114	1,928	2,324	Count	Equal to or greater than	State Fiscal Year	Total count of unmet need cases resolved successfully.	DCM System of Record	DCM System of Record	Housing and other needs related to the loss of a home and/or personal property, medical, counseling, etc.	Citizens with unmet disaster needs	1001.100100.000	

FY2027

Strategic Plan Development

as submitted for the Accountability Report by:

D300 - OFFICE OF RESILIENCE

Goal 1 Mitigate Future Disasters

Goal 2 Planning for Disasters

Goal 3 Disaster Recovery

Perf. Measure Number	Description	Base	Target	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number Responsible	Notes
1.1	**Install Flood Reduction Infrastructure.**								**State Objective: Maintaining Safety, Integrity and Security**				
1.1.1	Assist communities and state agencies by obligating funds to assist communities in executing flood protection related infrastructure projects to reduce or prevent future disaster impacts on persons and property	$0	$30,000,000	Dollar Amount	Equal to or greater than	State Fiscal Year	Total dollar amount spent this year (across CDBG and ARPA)	Approved Infrastructure Applications	MIT Department Share Drive	Local governments and citizens provided protection from Flooding	Counties, Cities, and Towns	1001.100100.000	
1.1.2	Protect community structures from the impacts of future flooding through completed flood protection infrastructure projects (as determined by number of completed CDBG-MIT and ARPA infrastructure projects)	13	23	Count	Equal to or greater than	State Fiscal Year	Total number of completed projects (cumulative)	Completed Infrastructure Case Files	MIT Department Share Drive	Protection from Flooding	Counties, Cities, and Towns	1001.100100.000	
1.2	**Buyout groups of homes in flood plain as requested by local government(s).**								**State Objective: Maintaining Safety, Integrity and Security**				
1.2.1	Protect citizens by buying homes in the floodplain (as determined by number of active projects - # of communities in buyout program)	6	3	Count (whole number)	Equal to or greater than	State Fiscal Year	Total number of active projects	Approved Buyout Applications	MIT Department Share Drive and System of Record	Protection from flooding	Counties, Cities, and Towns	1001.100100.000	
1.2.2	Protect citizens by buying homes in the floodplain (as determined by number of houses purchased)	0	8	Count (whole number)	Equal to or greater than	State Fiscal Year	Total number of properties bought out this year	Completed Buyout Case Files	MIT Department Share Drive and System of Record	Protection from flooding	Counties, Cities, and Towns	1001.100100.000	
1.3	**Assist communities by providing a non-federal match share for federal mitigation related programs.**								**State Objective: Maintaining Safety, Integrity and Security**				

Perf. Measure Number	Description	Base	Target	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number Responsible	Notes
1.3.1	Assist communities and state agencies by providing the 25% local fund match to approved mitigation-related federal grants to ensure 100% coverage for disaster related community or state agency needs (as determined by number of grant applications matched)	8	7	Count (whole number)	Equal to or greater than	State Fiscal Year	Total number of matched applications	Approved Grant Applications	MIT Department Share Drive and System of Record	Prevent local governments and state agencies from having to use their own funds to match federal grants	State Agencies, Counties, Cities and Towns	1001.100100.000	
1.4	**Assist communities by conducting plans and studies to identify flooding issues and develop solutions.**									**State Objective: Maintaining Safety, Integrity and Security**			
1.4.1	Assist communities and state agencies in the sources of flooding issues and identifying projects to reduce the impact of flooding on communities (as determined by number of planning applications approved)	23	26	Count (whole number)	Equal to or greater than	State Fiscal Year	Total number of applications	Approved Grant Applications	MIT Department Share Drive and System of Record	Discovery of flooding problems	State Agencies, Counties, Cities and Towns	1001.100100.000	
2.1	**Develop, implement, and maintain the Strategic Statewide Resilience and Risk Reduction Plan**									**State Objective: Maintaining Safety, Integrity and Security**			
2.1.1	Implement Watershed-Based Resilience Planning Program	0	24	Count	Equal to or greater than	State Fiscal Year	As determined by the total number of Resilience 101 or other resilience specific community training held	Resilience Project Files	Resilience Planning Shared Drive	Protection from Flooding	Counties, Cities, and Towns	0100.050100.000	
2.1.2	Seek federal and other funding to implement strategic resilience projects	0	2	Count	Equal to or greater than	State Fiscal Year	Total number of federal or other grants applied for during this fiscal year	Resilience Grant Files	Resilience Planning Shared Drive	Protection from Flooding	Counties, Cities, and Towns	1001.050100.000	
2.1.3	Coordinate with neighboring states to ensure alignment on resilience strategies	0	4	Count	Equal to or greater than	State Fiscal Year	Total number of coordination calls held with neighboring states during this fiscal year	Resilience Project Files	Resilience Planning Shared Drive	Protection from Flooding	State Agencies, Counties, Cities and Towns	1001.050100.000	

Perf. Measure Number	Description	Base	Target	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number Responsible	Notes
2.1.4	Conduct outreach and coordination activities with local communities and organizations around the state to educate the public about the Statewide Resilience Plan and coordinate with stakeholders.	0	100	Count	Equal to or greater than	State Fiscal Year	Total number of outreach meetings attended or held across the state.	Resilience Project Files	Resilience Planning Shared Drive	Protection from Flooding	Counties, Cities, and Towns	1001.050100.000	
2.1.5	Coordinate with other agencies and stakeholders in the implementation of recommendation and update of information in the Strategic Statewide Resilience and Risk Reduction Plan.	0	3	Count	Equal to or greater than	State Fiscal Year	Total number of Resilience Plan Advisory Committee Meetings	Resilience Project Files	Resilience Planning Shared Drive	Protection from Flooding	State Agencies	1001.050100.000	
2.1.6	Improve Data availability for decision making	0	4	Count	Equal to or greater than	State Fiscal Year	Active Data acquisition projects	Resilience Project Files	Resilience Planning Shared Drive	Protection from Hazards	Citizens	1001.050100.000	
2.1.7	Coordinate statewide conservation efforts	0	4	Count	Equal to or greater than	State Fiscal Year	Total number of Conservation Roundtable meetings attended	Resilience Project Files	Resilience Planning Shared Drive	Protection from Flooding	State Agencies, Counties, Cities and Towns	1001.050100.000	
2.1.8	Participate with other stakeholders in land acquisition for resilience flood reduction and conservation purposes.	89,146	92,638	Count	Equal to or greater than	State Fiscal Year	Total number of acres preserved	Reserve and Revolving Funds Project Files	Shared Drive	Protection From Flooding	Citizens	9826.010000X000	
3.1	**Housing repair/replacement for declared disasters.**									**State Objective: Public Infrastructure and Economic Development**			
3.1.1	Complete homes repaired/replaced in the 2024 Hurricane Helene Disaster Recovery grant	2	200	Count (whole number)	equal to or greater than	State Fiscal Year	Total number of houses repaired/replaced. (Can be impacted by stage of grant, weather, labor and material costs, and subsequent hurricanes.)	System of Record	Implementation Vendor Servers	Citizens' disaster damaged homes are repaired/replaced	Citizens	1001.100100.000	
3.1.2	Complete (or fulfill) 2024 Hurricane Helene grant (as determined by percentage of construction dollars spent).	1%	28%	Percent Complete	Equal to or greater than	State Fiscal Year	Total construction dollars expended / total construction dollars budgeted	System of Record	Implementation Vendor Servers	Timely and effective deployment of federal funds	Citizens	1001.100100.000	

Perf. Measure Number	Description	Base	Target	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number Responsible	Notes
3.1.3	Complete homes repaired/replaced in 2024 Hurricane Helene State Funded Disaster Recovery program.	2	30	Count	Equal to or greater than	State Fiscal Year	Total number of houses repaired/replaced. (Can be impacted by stage of grant, weather, labor and material costs, and subsequent hurricanes.)	System of Record	State Server	Citizens' disaster damaged homes are repaired/replaced	Citizens	1001.050100.001	
3.1.4	Complete (or fulfill) 2024 Hurricane Helene State Funded Disaster Recovery Program (as determined by percentage of construction dollars spent).	1%	20%	Percent	Equal to or greater than	State Fiscal Year	Total construction dollars expended / total construction dollars budgeted	System of Record	State Server	Citizens' disaster damaged homes are repaired/replaced	Citizens	1001.050100.000	
3.2	**Individual Housing Voluntary Buyouts for declared disasters.**									**State Objective: Public Infrastructure and Economic Development**			
3.2.1	Complete voluntary buyouts in 2024 Hurricane Helene Grant Funded Disaster Recovery program.	0	4	Count	Equal to or greater than	State Fiscal Year	Total number of houses bought out	System of Record	State Server	Citizens	Citizens who's homes have been impacted by disaster to wish to move to a safer location.	1001.100100.002	
3.3	**Disaster Case Management**									**State Objective: Public Infrastructure and Economic Development**			
3.3.1	Hurricane Helene survivors whose unmet needs are solved (as determined by cases closed successfully).	2,324	2,689	Count	Equal to or greater than	State Fiscal Year	Total count of unmet need cases resolved successfully.	DCM System of Record	DCM System of Record	Housing and other needs related to the loss of a home and/or personal property, medical, counseling, etc.	Citizens with unmet disaster needs	1001.100100.000

Legal Data

as submitted for the Accountability Report by:

D300 - OFFICE OF RESILIENCE

Law number	Jurisdiction	Type	Description	Purpose the law serves:	Notes:	Changes made during FY2026
§48-62-20	State	Statute	Establishes the requirements for and funding to develop, implement, and maintain the Strategic Statewide Resilience and Risk Reduction Plan	Funding agency deliverable(s)		No Change
§48-62-50	State	Statute	Establishes the requirements for and funding to develop, implement, and maintain the Disaster Relief and Resilience Reserve Fund	Funding agency deliverable(s)		No Change
§48-62-310	State	Statute	Establishes the requirements for and funding to develop, implement, and maintain the SC Resilience Revolving Fund	Funding agency deliverable(s)		No Change
§6-29-510(D)		Statute	Establishes a requirement for local governments to include resilience planning in their Comprehensive Development Plan Document	Not related to agency deliverable	The Office of Resilience has obligations to coordinate statewide resilience efforts to include planning	No Change
48-62-10	State	Statute	Establishes the SC Office of Resilience	Requires a manner of delivery	The SC Disaster Relief and Resilience Act establishes the new Office of Resilience and sets forth its responsibilities	No Change
Federal Laws P.L. 114-223, 114-254, and P.L. 115-31	Federal	Statute	All program information concerning activities, performance, and finances for 2016 Hurricane Matthew disaster.	Requires a service	Provide Hurricane Matthew 2016 disaster recovery housing repair or replacement services	No Change
Federal Law P.L. 115-123	Federal	Statute	All program information concerning activities, performance, and finances for disaster and floodwater mitigation in areas that were impacted by 2015 and 2016 disasters	Requires a service	Provide disaster and flood mitigation services including installing infrastructure projects, funding plans and studies, performing buyouts of repetitive flood loss properties, providing local governments with match funds for other federally funded hazard mitigation projects	No Change

Law number	Jurisdiction	Type	Description	Purpose the law serves:	Notes:	Changes made during FY2026
Federal Laws P.L. 115-254 and P.L 116-20	Federal	Statute	All program information concerning activities, performance, and finances for 2018 Hurricane Florence disaster	Requires a service	Provide Hurricane Florence 2018 disaster recovery housing repair or replacement services	No Change
Required by federal programmatic agreement provided for under Section 106 54-USC 306108 of the Federal Historical Preservation	Federal	Regulation	SCOR's Disaster Recovery Department environmental and historical preservation compliance processes	Requires a manner of delivery	Provides the framework by which the federally funded housing and mitigation programs seek project approval from SC State Historical Preservation Office and exemptions thereto	No Change
H.5100, Act 226 of 2024, Section 92D – D300, 92D.1	State	FY23-24 Proviso	Requires that any housing repair or replacement project assisted with HUD CDBG-DR funds not be reassessed at a higher rate as a result of the assistance	Requires a manner of delivery	Old Proviso number: H. 5150, Act 239, Section 92D – D300, 92D.1; H.4300, Act 84 of 2023, Section 92D – D300, 92D.1	No Change
H.5100, Act 226 of 2024, Section 92D – D300, 92D.2	State	FY23-24 Proviso	Provides that SCDRO employees or SCOR TGE employees that become Office of Resilience FTEs shall retain any leave accrued prior to the transfer.	Not related to agency deliverable	Old Proviso number: H. 5150, Act 239, Section 92D – D300, 92D.2; H.4300, Act 84 of 2023, Section 92D – D300, 92D.2	No Change
H.5100, Act 226 of 2024, Section 92D – D300, 92D.3	State	FY23-24 Proviso	Provides that Office of Resilience can carry over unexpended funds from prior fiscal year to current fiscal year for same purposes	Funding agency deliverable(s)	Old Proviso number: H. 5150, Act 239, Section 92D – D300, 92D.3; H.4300, Act 84 of 2023, Section 92D – D300, 92D.3	No Change
Federal Laws P.L. 117-2	Federal	Statute	All program information concerning activities, performance, and finances for implementation of the American Rescue Plan Act	Requires a service	Authorize the expenditure of federal funds disbursed to the state in the American Rescue Plan Act for Stormwater Infrastructure Projects and Floodplain Land Acquisitions	No Change
H.4408, Act 244 of 2022	State	Statute	Joint Resolution Allocating $100M in federal American Rescue Plan Act (ARPA) funding to SCOR	Funding agency deliverables(s)	Authorizes the use of allocated ARPA funding to complete stormwater infrastructure projects and acquisitions of property in the floodplain throughout the State to lessen the impacts of future flood events	No Change

Law number	Jurisdiction	Type	Description	Purpose the law serves:	Notes:	Changes made during FY2026
S.604, Act 6 of 2023	State	Statute	Joint Resolution expanding authorized uses of the $100M in ARPA funding	Funding agency deliverable(s)	Expands the authorization to use allocated ARPA funds to also include a project mitigating the potential release of contamination associated with the USS Yorktown, an asset of the Patriots Point Development Authority, upon review and authorization of Joint Bond Review Committee	No Change
H.5100, Act 226 of 2024, Proviso 117.171	State	FY23-24 Proviso	Directs that certain state agencies that acquire interest in land for natural resource protection and rural land preservation coordinate amongst themselves and with SC Conservation Bank to maximize cost effectiveness, leverage, and benefits	Requires a manner of delivery	Old Proviso number: H:4300, Act 84 of 2023, Proviso 117.182	No Change
H.5100, Act 226 of 2024, Proviso 117.192	State	FY23-24 Proviso	Directs that OCRM, SCDNR, and SCOR shall collaborate to create the Rice Fields and Wetlands Pilot Program. A progress report on the viability of the permit program must be submitted to the General Assembly by June 30, 2025.	Report our agency may/must provide		No Change
Federal Laws P.L. 117-169	Federal	Statute	Inflation Reduction Act	Funding agency deliverable(s)	In reference to SCOR EPA Solar for All and CPRG programs. Title VI, Sec. 60114: The Act amended the Clean Air Act to include Section 137 (42 U.S.C. § 7434), which establishes and provides funding for the Climate Pollution Reduction Grant (CPRG) program. The Act authorizes EPA to award grants to states, air pollution control agencies, municipalities, and Indian tribes for developing and implementing plans to reduce greenhouse gas pollution. The Inflation Reduction Act amended the Clean Air Act to include Section 134 (42 U.S.C. § 7434), which authorizes the EPA to make competitive grants under the Solar for All competition with appropriations funded by Section 134(a)(1), called Zero Emissions Technologies. The law appropriates $7 billion to EPA to make competitive grants to states, Tribal governments, municipalities, and eligible recipients, as defined in the statute, to provide subgrants, loans, or other forms of financial assistance as well as technical assistance to enable low-income and disadvantaged communities to deploy and benefit from zero-emission technologies, including distributed technologies on residential rooftops, and to carry out other greenhouse gas emission reduction activities. Section 134(c)(4) defines zero-emission technology as any technology that produces zero emissions of air pollutants listed under Section 108(a) (i.e., particulate matter, ozone, carbon monoxide, sulfur dioxide, nitrogen dioxide, and lead), or any precursor to such an air pollutant, or greenhouse gases.	No Change

Law number	Jurisdiction	Type	Description	Purpose the law serves:	Notes:	Changes made during FY2026
Federal Law P.L. 118-158	Federal	Statute	American Relief Act, 2025 regarding making appropriations related to Hurricane Helene. The Secretary of Housing and Urban Development shall allocate all funds provided under this heading in this Act for the total estimate for unmet needs including additional mitigation for qualifying disasters and publish such allocations in the Federal Register no later than January 15, 2025	Funding agency deliverable(s)	Provide Hurricane Helene 2024 disaster recovery	No Change
H.5069, Act 190 of 2026	State	Statute		Requires a manner of delivery	Sets goal of increasing protected land to 7 million acres by 2050, and recognizes the conservation of natural resources as an important state interest and to encourage resource agencies, consistent with their statutory authority and missions, to support conservation through planning, grant program administration, land management, voluntary landowner partnerships, and activities that contribute to the establishment of protected land. Services Data

as submitted for the Accountability Report by:

D300 - OFFICE OF RESILIENCE

Description of Service	Description of Direct Customer	Customer Name	Others Impacted by Service	Division or major organizational unit providing the service.	Description of division or major organizational unit providing the service.	Primary negative impact if service not provided.	Changes made to services during FY2026	Summary of changes to services
Repair/replace homes damaged by Federally Declared disaster to Low to Moderate citizens of SC who were impacted	Low to Moderate Income citizens in the FEMA- declared for Individual Assistance Counties	Low to Moderate Income Citizens	The public	South Carolina Office of Resilience Disaster Recovery Department	Repair or replace low to moderate homes damaged by the 2015, 2016, 2018 (closed out) and Hurricane Helene (2024) federally declared disasters	Low to moderate income citizens would not be able to repair or replace their homes damaged by disasters as the funding would not be available	No Change	
Provide Disaster Case Management to meet the unmet needs of the Citizens of South Carolina who survived Federally Declared Disasters	Citizens in the FEMA-declared for Individual Assistance counties	Citizens of South Carolina	The public	South Carolina Office of Resilience Disaster Case Management Department	Case management assistance	Low to moderate income citizens would not be able to repair or replace their homes, hard goods, soft goods, access medical services, access counseling, and connect with local recovery organizations as the funding would not be available	No Change	
Mitigation programs to increase resilience to future disasters and reduce or eliminate long-term risk of loss of life, injury, damage to and loss of property, and suffering and hardship	Various local governments and state agencies	SC Units of General Local Government, Councils of Government, State Agencies	The public, citizens of South Carolina	South Carolina Office of Resilience Mitigation Department	The Mitigation Department oversees state and federally funded mitigation projects, including the HUD CDBG-MIT program, ARPA ASIP stormwater infrastructure program, mitigation projects funded by the Disaster Relief and Resilience Reserve Fund, and now also through mitigation projects eligible for 2024 Hurricane Helene CDBG-DR mitigation set aside funds.	Local and state mitigation projects would not move forward as there would be a lack of funding , leading to continued or additional storm damage.	No Change	

Description of Service	Description of Direct Customer	Customer Name	Others Impacted by Service	Division or major organizational unit providing the service.	Description of division or major organizational unit providing the service.	Primary negative impact if service not provided.	Changes made to services during FY2026	Summary of changes to services
Development, implementation and maintenance of the Statewide Strategic Resilience and Risk Reduction Plan	The General Assembly (for guidance of state investment in flood mitigation projects per §48-62-30(1)), various state agencies, local governments, and citizens	The General Assembly and citizens of South Carolina	The public	Office of Resilience Division	The Resilience Division develops, implements and maintains the Strategic Statewide Resilience and Risk Reduction Plan, coordinates with local communities in planning and implementing resilience initiatives, primarily through the watershed planning program, facilitates data collection and coordination, and seeks and administers resilience-related grants.	The state, at all levels of government, and citizens will not be prepared for future disaster events and there will be no comprehensive plan to reduce risks associated with flooding, severe weather events and other disasters. Communities would be able to best anticipate, absorb, recover in a way that enables communities to thrive when presented with environmental change and natural hazards.	No Change	
Disaster Relief and Resilience Reserve Fund	Various local governments, state agencies, agricultural interests, and citizens	Citizens of South Carolina, various grantees	The public	Disaster Relief and Resilience Reserve Fund section	The Reserve Fund section manages funding available in the Disaster Relief and Resilience Reserve Fund for the following: to develop, implement, and maintain the Statewide Resilience Plan, and for disaster relief assistance, hazard mitigation, and infrastructure improvements as set forth in the Disaster Relief and Resilience Act.	The Resilience Plan would not be implemented, risks of future flooding and disaster impacts are increased instead of reduced and the state would loose a tool to more quickly and efficiently assist local governments and citizens if a disaster should occur	No Change	
SC Resilience Revolving Fund	State agencies, local governments and citizens	Citizens of South Carolina	The public	Revolving Fund Section	The Revolving Fund section manages the fund, which is set up for the following purposes: the purchase of flooded properties and land to complete floodplain restorations	Citizens in repetitive loss flooded properties would remain in floodplains and remain at risk for loss of life or property; floodplains would not function at a capacity to absorb and hold floodwaters, which protects communities.	No Change	

Description of Service	Description of Direct Customer	Customer Name	Others Impacted by Service	Division or major organizational unit providing the service.	Description of division or major organizational unit providing the service.	Primary negative impact if service not provided.	Changes made to services during FY2026	Summary of changes to services
EPA Climate Pollution Reduction Grant - Palmetto Air Quality Collaborative Program	State agencies, local governments, community-based organizations, citizens	Citizens of South Carolina	The public	Office of Resilience Division	The Resilience Division applies for and implements funding opportunities that focus on building the resilience of South Carolina's economies, environments, and communities to environmental change and natural hazards.	State agencies, local governments, businesses, and community organizations will lack sufficient information and lack adequate planning strategies to take advantage of financial and other voluntary non-regulatory opportunities to reduce air pollution, invest in new energy technologies, improve the workforce, and reduce operational costs.	No Change
