AGENCY CODE:	D500	SECTION:	93

AGENCY'S DISCUSSION AND ANALYSIS

FY 2025-26 ACCOMPLISHMENTS AND MILESTONES

During fiscal year (FY) 2025-26, the South Carolina Department of Administration (Admin) advanced its mission through enterprise leadership, collaboration, innovation, strengthened security, effective stewardship of public resources and continued investment in the people and systems that support state government. Admin delivered major assignments from the Governor and General Assembly, expanded shared services, prepared statewide systems for significant upgrading and generated measurable savings, cost avoidance and risk reduction. Together, these efforts helped state agencies operate more efficiently and reliably so they can focus resources on their core missions and better serve South Carolinians.

Provide Exceptional Leadership for Statewide Initiatives

Provide leadership and guidance to others in the executive branch and deliver statewide projects assigned to Admin by the General Assembly or the Governor.

- Admin led the analysis, stabilization and restructuring of the newly created South Carolina Department of Behavioral Health and Developmental Disabilities (BHDD), established by Act 3 (S.2) of 2025 and further directed by Proviso 93.23 of the FY 2025-26 Appropriations Act and the Governor. Together, those directives required Admin to help facilitate consolidation, support day-to-day operations, review organizational structures, evaluate full-time equivalent (FTE) supervision, identify duplication, consider shared services and collaboration and, where warranted, effectuate structural reorganization and reductions in force. The work brought together the former Department of Disabilities and Special Needs, Department of Mental Health and Department of Alcohol and Other Drug Abuse Services while preserving continuity of critical behavioral health, developmental disability and substance-use services. Admin organized the work in phases — stabilizing urgent conditions, supporting day-to-day operations and then implementing consolidation and efficiencies — and embedded expertise across human resources, finance, procurement, facilities, fleet, information technology, cybersecurity, communications and legal services.

  The restructuring produced significant operational and financial value. BHDD administrative positions were reduced from 1,100 to 825, a 25% reduction, through vacancy management, targeted reductions and reallocations designed to limit disruption to services. State Fleet validated and consolidated fleet operations, reducing the fleet from 1,033 vehicles to 786, a 24% reduction, and transferring 711 vehicles to the State Fleet Lease Fleet Program. These changes generated approximately $698,000 in annual fleet-management cost avoidance, approximately $1.08 million in projected annual savings from fleet reduction and additional annual insurance savings.

  Admin also stabilized and modernized BHDD's technology environment. Negotiated network-equipment pricing produced approximately $6 million in savings; moving from a multiprotocol label switching network to dedicated internet access generated more than $880,000 in annual savings; and timely firewall migration avoided approximately $315,000 in renewal costs. Admin

consolidated email, expanded endpoint protection, vulnerability management, centralized logging and Security Operations Center support and developed a road map for application, infrastructure and security modernization.

A unified BHDD identity and website further reduced duplication. Fifteen separate websites were migrated to a single site on the state's Digital Government Services platform, avoiding approximately $439,000 in one-time development costs and $66,000 in recurring annual fees. Admin also developed 67 common administrative, human resources, information technology, information security and facilities policies and forms.

Collectively, the work moved BHDD from three largely separate administrative environments toward a more centralized, accountable and sustainable model while maintaining services and creating measurable, recurring value for taxpayers.

- In accordance with Act 72 of 2025 (S.253), Admin led the procurement, engagement and oversight of Forvis Mazars, LLP, as the independent compliance consultant charged with assessing and monitoring corrective actions arising from the AlixPartners State Treasury forensic accounting review and the Mauldin & Jenkins assessment of the state's Annual Comprehensive Financial Report (ACFR) development process. Admin established a disciplined cross-agency framework involving the Comptroller General's Office, State Treasurer's Office, Office of the State Auditor, South Carolina Enterprise Information System (SCEIS) and other partners, with recurring working sessions, public meetings and status reporting.

  Across the engagement, the consultant participated in 203 meetings, including 46 with Admin, 15 joint cross-agency working sessions and 10 public meetings, and made approximately 84 documentation requests that resulted in the review of hundreds of documents. The consultant consolidated overlapping work into 32 recommendations and established a Master Implementation Timeline to standardize milestones, dependencies and reporting.

  When the final report was issued in March 2026, 14 recommendations were complete, 12 had completed implementation actions and were awaiting final compliance review, three remained in progress and three were outside the consultant's implementation scope. Of the 29 recommendations within scope, approximately 90% were either complete or had completed implementation actions awaiting final review. The work strengthened reconciliation procedures, ACFR documentation and release controls, journal-entry and materiality policies, workpaper standards, agency reporting guidance, training and use of Workiva and SCEIS. This effort moved the state from identification of issues to documented corrective action, strengthened statewide financial controls and created a durable framework for continued public accountability.

- Admin completed the State Facilities Master Plan, fulfilling the state-owned building study initiative funded in FY 2025-26. Developed through agency workshops, surveys and stakeholder

engagement, the plan provides a more consistent statewide framework for evaluating construction, renovation, maintenance, leasing and property acquisition needs and for prioritizing long-term capital resources.

The plan gives state leaders a more complete basis for comparing facility needs across the portfolio, targeting limited capital dollars to the highest priorities and reducing the risk of fragmented or reactive investment decisions. It also supports more strategic management of deferred maintenance and future space needs, improving the long-term value and performance of state-owned assets.

- Admin's Division of State Human Resources (DSHR) and Executive Budget Office (EBO) worked with state agencies to implement Proviso 117.193 of the FY 2025-26 Appropriations Act, which required elimination of 25% of vacant full-time equivalent (FTE) positions as of Feb. 1, 2025, unless exempted. Admin reviewed vacant positions across agencies and eliminated approximately 1,700 vacant FTEs, meeting the statewide reduction requirement.

  Admin also coordinated revised agency authorizations and related SCEIS changes. The effort improved the accuracy of statewide staffing data, removed outdated or unused position authority and created a stronger basis for workforce planning and personnel-resource decisions while allowing agencies to focus authorized staffing on current mission needs.

- The General Assembly appropriated $24 million for security upgrades at state-owned facilities on the Capitol Complex and at the Governor's Mansion and grounds. Admin established a stakeholder group and divided the work into seven scopes: perimeter security; State House ballistic windows and doors; Blatt Building window tinting and riot-resistant film; Gressette Building lobby renovations; access control; upgraded X-ray machines; and Blatt lobby doors. Admin completed schematic designs for all seven scopes during FY 2025-26 and fully completed two scopes, exceeding the year-one planning target.

  The work improves the safety of government leaders, employees and visitors while using phased design, stakeholder review and established construction controls to manage a complex capital investment. Completing design work early also positions the state to advance construction efficiently in subsequent phases.

- Admin continued to chair and staff the Robert Smalls Monument Commission, fulfilling the responsibility assigned by the General Assembly. Following the Commission's selection of the monument design and State House grounds location, the General Assembly completed the approval process Feb. 23, 2026, through passage of H.4962. On May 13, 2026, the Commission held a ceremonial groundbreaking at the legislatively approved site on the State House grounds. Governor Henry McMaster, Lt. Gov. Pamela Evette, members of the General Assembly,

Commission members and state officials participated in the event, which publicly marked the project's transition from design and approval into implementation.

Admin staff provided coordinated, cross-functional support to plan and execute the ceremony, including event organization, coordination with speakers and participants, development of the run-of-show, event design and materials, media advisory and media coordination, staging and on-site logistics. This support complemented Admin's ongoing communications, administrative and financial services to the Commission. By providing a single coordinating point across these functions, Admin helped ensure a professional, organized and accessible public event, strengthened awareness of the monument and Robert Smalls' legacy and maintained momentum on a high-profile legislative initiative.

- Admin also completed a series of legislative-directed operational assignments and reports during FY 2025-26. These included transferring staffing and responsibilities for the Nuclear Advisory Council to the South Carolina Department of Commerce; supporting the transfer of the Educator Report Card program to the South Carolina Department of Education; and completing required reporting related to federal and other fund authorizations, Battelle Alliance expenditures, land acquisition and Aid to Fire District funding.

  Completing these assignments on schedule reduces transition risk, ensures the General Assembly receives timely information for oversight and budget decisions and demonstrates Admin’s capacity to mobilize cross-functional expertise for statutory requirements beyond its routine operations.

- Admin planned, coordinated and implemented the lying in state of the Reverend Jesse Jackson Sr. at the South Carolina State House March 2, 2026. Admin worked with the Jackson family, Governor’s Office, legislative leaders, law enforcement, South Carolina Educational Television (SCETV), the City of Columbia, funeral-home representatives, media and other partners to coordinate the ceremony and public visitation, security, facilities, accessibility, communications and media logistics.

  Admin staff managed the sequence of events, staging, public access, facility preparation and on-site support. More than 3,000 people visited the State House, and Admin restored the building for General Assembly operations the following morning. The effort demonstrated Admin’s ability to mobilize cross-divisional expertise quickly, facilitate a significant statewide civic event with dignity, and order and preserve continuity of government operations.

Advance an enterprise approach to state government services.

- Admin’s shared services enable agencies to deliver efficient, reliable services to South Carolina’s citizens without independently building and maintaining duplicative administrative capabilities. Admin continued to grow enterprise use of human resources, finance, budgeting, procurement, information technology (IT), information security, training and development, state vehicle fleet

oversight and support, and surplus property programs. Compared with June 30, 2025, eight additional agencies were consuming IT shared services, five additional agencies were using finance shared services, three additional agencies were using procurement shared services and four additional agencies were using HR shared services.

As of June 30, 2026, shared services and enterprise programs included:

- 51 agencies consumed IT shared services.
- 22 state agencies consumed finance shared services.
- 20 state agencies consumed budget shared services.
- 20 state agencies consumed procurement shared services.
- 18 state agencies consumed human resources (HR) shared services.
- 156 active law enforcement agencies participated in the 1033 Program and had acquired property valued at $58,336,613.
- 550 organizations participated in the Federal Surplus Program.
- 72 state and local government agencies participated in the Lease Fleet Program.
- 88 state and local government agencies had employees participate in Fleet Safety training classes at no cost to those agencies.
- 58 state and local government agencies participated in the Commercial Vendor Repair Program, which provided average savings of 20.6% on labor and 9.4% on parts.
- 472 state and local government agencies participated in the Fuel Card Program.
- The State Surplus Property Program returned $15,543,393 to state agencies in FY 2025-26.
- Admin's Digital Government Services program provided 1,158 services to 205 state and local government agencies.
- Admin served 104 state and local government agencies and 6,220 participants through 254 training and development classes.
- More than 80 agencies utilized DIS statewide cybersecurity services to strengthen governance, manage risk, protect state systems and data, enhance workforce capabilities and improve the state's ability to prevent, detect and respond to cyber threats.

The continued adoption of shared services demonstrates enterprise value: agencies can leverage standardized processes, specialized expertise, common technology and statewide purchasing power while reducing the need to maintain duplicative capabilities. Programs such as surplus property, fleet repair and shared technology also generate direct savings or return value to participating agencies, allowing more public resources to remain focused on mission delivery.

- Admin continued implementation of the South Carolina State Agencies Artificial Intelligence (AI) Strategy by coordinating agency use cases and budget requests, piloting enterprise AI solutions and advancing citizen-facing AI services. In FY26, the AI Center of Excellence's (CoE) expanded 455.56%, growing from 36 use cases at the end of FY 2024–25 to tracking 200 AI use cases across state agencies and higher education as of June 30, 2026. The AI CoE expanded statewide collaboration by 125%, growing participation from 20 organizations in FY25 to 45 state agencies

and higher education institutions in FY26. This momentum drove 450 cumulative attendees across six FY26 sessions, with peak attendance exceeding 100 participants per session.

Admin conducted an internal pilot of ChatGPT Enterprise and a separate Microsoft 365 Copilot pilot with the Department of Environmental Services (DES), while developing governance, security, training, procurement and evaluation materials to inform responsible enterprise adoption. These controlled pilots allowed Admin and DES, where applicable, to evaluate practical use cases and implementation requirements before broader investment decisions were made.

Admin also advanced "Bradley," the AI resident assistant on SC.GOV, to help citizens more easily find publicly available government information and services. In addition, Admin developed and launched an AI Finance Dashboard Assistant, an extension of Bradley designed to help users navigate the state's public finance data dashboards, and the solution was approved to move into production. From its launch in October 2025 through June 30, 2026, Bradley responded to 57,144 questions. Bradley was also nationally recognized with a 2026 Communicator Award of Excellence for AI-enabled customer experience.

This coordinated approach creates value by reducing duplicative agency experimentation, establishing common guardrails for responsible AI use and informing enterprise purchasing decisions with evidence from real use cases. Citizen-facing tools provide a more accessible front door to government information and demonstrate how a reusable statewide platform can improve service without requiring each agency to build its own solution.

- In accordance with Proviso 93.22 of the FY 2025-26 Appropriations Act, Admin conducted market research and a no-cost, nonproduction proof of concept to evaluate whether a single third-party platform could standardize financial reporting structures and naming conventions across the state's 16 technical colleges. The required assessment report was delivered to the chairmen of the Senate Finance Committee and House Ways and Means Committee by June 30, 2026.

  The proof of concept allowed the state to test feasibility before committing production resources or funding. Standardized data structures would improve comparability of key financial measures, reduce manual reconciliation and give policymakers and college leaders more consistent information for oversight and decision-making.

- Admin translated the state's approved cloud strategy into a competitive procurement for enterprise cloud services. The solicitation resulted in an award May 18, 2026. The selected proposal included pricing approximately 6.6%, or $1.5 million, below the current base price while also supporting greater scale, automated workload provisioning, improved situational awareness and stronger alignment with statewide IT service-management processes.

Follow-on work continues to ensure the awarded solution aligns with the state's broader cloud road map, but the procurement already demonstrates the value of an enterprise approach: aggregating demand and using a common contract can lower unit costs, standardize service expectations, and strengthen consistency across participating agencies.

Collaborate to Provide and Enhance Services

Collaborate with customers to identify needs, measure satisfaction and enhance services.

- Admin's Human Resources and the Office of Administrative Services designed an integrated Administrative Shared Services Customer SharePoint site to improve customer access to information and secure document exchange. The portal provides human resources and administrative shared services customers a single point of entry for forms, policies, instructions, announcements, deadlines and secure document submission. Customer feedback shaped the site's organization and content, and both internal and external users participated in testing.

  At the close of the fiscal year, the site was substantially complete and ready for activation following final security review and incorporation of communications feedback. Planned for a September 2026 launch, it will replace fragmented document-sharing methods with a secure, centrally maintained source of current information, reduce time spent locating forms and instructions and provide customers a more consistent experience across Admin shared services.

- Admin completed an effort to revise and standardize descriptions for its non-IT shared services using the common format established for IT shared services. Budget, finance, fleet, human resources, information security, learning and organizational development, procurement and surplus services were defined in a consistent, customer-oriented format and prepared for inclusion in the online Shared Services Catalog.

  Clear service descriptions improve customer experience by defining scope and expectations before service begins, supporting more consistent service level and performance measurements, and reducing misunderstanding and avoidable support needs. Standardization also gives Admin a scalable foundation for communicating new services, benchmarking performance and expanding enterprise offerings.

Utilize a governance approach for customer input on statewide strategies.

- Admin established and implemented the SCEIS Upgrade Program Governance Framework, effective March 2026, to guide the state's transition of its enterprise resource planning platform to SAP S/4HANA and SAP's private cloud. The framework establishes accountability, preserves state decision rights and creates formal processes for resolving risks, resource needs and cross-agency dependencies. It also defines roles for agencies and SCEIS super users in assessing impacts, identifying data and process issues, participating in testing and supporting transition planning.

A formal governance structure is critical for a statewide system that supports finance, payroll, human resources, grants and other core administrative functions. By bringing customer agencies into structured decision making and establishing clear escalation paths, Admin reduces implementation risk, improves resource prioritization and increases the likelihood that upgrade decisions produce consistent, high-quality statewide outcomes.

- Using the state's IT shared services governance structure, Admin directed a forward-looking refresh of the Statewide Strategic IT Plan. Rather than simply update the existing plan on a fixed cycle, Admin developed a draft that connects cybersecurity, shared services, modernization, artificial intelligence, digital services and technology investments to agency missions and public outcomes. The draft incorporates agency participation, clarifies decision rights and service-owner accountability and recognizes differences in agency mission, maturity and risk.

  The phased structure allows priorities to evolve with direction from the incoming administration, agency input, available funding and implementation results. This approach provides continuity through the 2026 leadership transition, while still giving the state a practical framework to pursue standards, consolidation and cost-saving opportunities. Work to further enrich the plan will continue into the next fiscal year.

- Admin also began implementing IT business management (ITBM) and IT financial management practices to improve transparency into the performance and cost of shared technology services. During FY 2025-26, dashboards were created for five infrastructure shared services: managed server, database support, enterprise storage, backup and recovery, and virtual colocation. The dashboards show cost to provide the service, agency chargeback and key service inputs.

  These tools give leaders a clearer view of cost-to-serve and customer consumption, creating a stronger basis for service pricing, performance monitoring, corrective action and future investment decisions. The work supports a more businesslike approach to statewide IT and helps demonstrate the value agencies receive from shared services.

Equip Agencies to Focus on Their Mission

Develop a proactive and diversified approach to recruit and develop qualified employees.

- Admin's comprehensive onboarding and transition initiative for newly elected statewide leadership was 50% complete as of June 30, 2026. Recognizing the operational and continuity risks created when multiple constitutional officers transition at the same time, Admin began planning more than a year before inauguration. A cross-divisional team formed in fall 2025 and brought together budget, human resources, information technology, cybersecurity, enterprise applications, facilities, property, fleet, procurement, communications, legal and administrative services. The team developed a scalable operational plan for the approximately 72-day period between the general election and inauguration, covering temporary office space, parking, computers and

mobile devices, connectivity, office supplies, staffing, moves, website and digital-asset changes and other resources incoming teams may need immediately.

In parallel, Admin advanced a comprehensive onboarding guide to give newly elected officials and senior leaders practical information about how South Carolina state government operates. Content addresses the state budget and executive budget process, SCEIS, procurement, human resources, cybersecurity, information technology, Freedom of Information Act responsibilities, fleet, facilities and property, statewide training, key reporting requirements, shared services and key state contacts. Planning also addressed financial and operational considerations that could create transition risk, including historical changeover costs, funding practices, annual-leave payouts, temporary staffing, Governor's Mansion activities and technology access.

Reaching the 50% milestone during FY 2025-26 established the foundation needed for the post-election phase, which necessarily occurs after the fiscal year. The work positions Admin to activate support immediately after Election Day rather than build a response reactively, helping preserve continuity of government, reduce avoidable delay and operational disruption and give incoming leaders earlier access to the enterprise services and information they need. By documenting timelines, responsibilities, resource requirements and onboarding information, Admin is also creating a repeatable statewide changeover capability that can be updated and reused for future leadership transitions.

- Building on the state's classification and compensation reform implemented for state agencies in June 2025, Admin's Division of State Human Resources extended the modernization to South Carolina's institutions of higher education. Effective Feb. 1, 2026, the higher education classification and compensation system transitioned from the previous 10 pay bands to four pay structures — General, Clinical, Certified Law Enforcement and Technology — with defined pay grades and state salary ranges. Existing classified higher education positions were slotted into the new structure, aligning the core compensation framework with the state's broader reform while maintaining a system tailored to higher education.

  The change provides institutions, employees and state leaders with a more consistent, transparent and market-based framework for compensation. Clearer job placement and salary ranges support more informed pay decisions, strengthen recruitment and retention efforts and improve employees' understanding of compensation opportunities. Aligning the higher education framework with the state's restructured approach also replaces two legacy band structures with a more sustainable model that Admin can evaluate and update as labor-market conditions change, extending the long-term value of the statewide classification and compensation reform to higher education.

- Admin's Division of State Human Resources (DSHR) strengthened the state's ability to recruit and retain qualified employees by creating a process to incorporate market data into compensation

decisions. DSHR procured a market-pricing application within budgeted parameters, giving the state a tool to maintain and update classified pay structures and more accurately price jobs consistent with the state's compensation philosophy.

DSHR also designed an Employee Leave Forum for agency human resources professionals focused on the interaction of the Family and Medical Leave Act, Americans with Disabilities Act and other state and federal leave requirements.

Together, these initiatives improve the quality of workforce decisions: better market data supports competitive, evidence-based compensation, while stronger leave administration reduces legal risk and improves consistency for employees and agencies.

Identify and advance services provided through Admin.

- In preparation for the SCEIS upgrade to SAP S/4HANA and SAP's private cloud, Admin completed all seven planned pre-migration readiness initiatives. The work addressed business-partner readiness, custom-code remediation, data archiving and cleanup, security roles and authorizations, automated testing and third-party tools.

  Completing this work before the primary migration phase reduces technical debt, improves data quality and access controls, increases testing efficiency and lowers the risk of business disruption to the state's critical finance, payroll, human resources, grants and administrative functions. The investment in readiness is designed to prevent more costly remediation during the migration itself and improve the state's ability to transition on schedule.

- In collaboration with the State Fiscal Accountability Authority (SFAA), Admin continued to advance SCPro, the statewide electronic procurement solution that will replace the SCEIS Supplier Relationship Management module. During FY 2025-26, the project established governance and decision-making structures, completed business-process discovery and requirements validation, configured core modules, developed integration designs and advanced testing, training and change-management planning. Agency participation helped align standardized statewide processes with operational needs.

  Admin and SFAA also aligned SCPro implementation planning with the SCEIS upgrade so procurement and other core systems can transition in a coordinated manner. The work completed during the year reduces integration risk and advances a purchasing platform expected to improve purchasing efficiency, supplier access, data quality and statewide process consistency.

- Admin completed the design and cost-estimating phase for a replacement Federal Surplus Property Program warehouse and office facility. The existing warehouse, originally constructed as an Army Air Corps facility before World War II, is in poor condition and cannot support modern racking, office, restroom or logistics needs. Admin secured initial approvals, selected an

architecture and engineering firm, completed design work and adjusted the design to maximize operational capacity within the anticipated budget before submitting the project for the next approval phase.

The replacement facility is designed to expand warehousing and distribution capacity, support federal surplus and General Services Administration (GSA) fleet operations, provide overflow capacity for the State Surplus Property Program and support emergency response when needed. Advancing design before construction gives the state a more reliable cost basis and positions the program to replace an obsolete asset with a facility that can support modern logistics and future demand.

- State Fleet completed the planning needed to move a shared-fleet concept toward initial deployment. The model would allow preapproved agency employees to reserve vehicles from a centralized location and pay for vehicles only when used, providing an alternative to maintaining underutilized agency-owned assets. Admin selected the State of South Carolina Health Campus as the initial prototype site, identified vehicles for deployment and developed a hardware procurement based on available technology.

  State Fleet also completed a law-enforcement fleet feasibility study using its own operating data and Department of Public Safety fleet data. The analysis found that a distinct patrol-vehicle lease rate would improve cost allocation because high engine-idle time can make mileage-only billing less representative of actual use. A new patrol rate is planned for FY 2026-27. These initiatives use statewide data and pooled assets to improve fleet utilization, reduce cross-subsidization and give agencies lower-cost alternatives to owning vehicles that may sit idle.

- Admin maintained continuity of shared disaster-recovery services by completing a competitive negotiated procurement that resulted in an award for statewide shared disaster-recovery services. This procurement helps ensure continuity of critical state operations by providing agencies with reliable, scalable disaster-recovery capabilities that can reduce downtime and data loss during disruptions.

Provide leadership and support to enhance and mature information security and privacy and advance the protection of citizens' data.

- Admin continued modernization of the state’s security information and event management (SIEM) capabilities and deployment of endpoint detection and response (EDR) tools across shared-services and non-shared-services agencies. These enterprise security platforms expand centralized visibility into events and endpoint activity and provide agencies capabilities that can be difficult and costly to procure, staff and sustain independently.

Centralized monitoring improves the state's ability to identify suspicious activity more quickly, coordinate incident response and reduce tool fragmentation. The statewide model also creates economies of scale while improving consistency in security operations across agencies.

- Admin operationalized the SC Cyber Health program and centralized Cyber Risk Dashboard to provide statewide and agency-level visibility into cyber risk, remediation progress, security-tool adoption and program maturity across more than 80 agencies. The program achieved 100% agency participation, a 25% reduction in identified cyber-risk findings statewide and more than a tenfold increase in findings actively managed through structured remediation.

  The dashboard translates complex technical data into a common set of facts for agency and statewide leaders. This improves accountability, helps identify the risks with the greatest potential impact and supports targeted, data-driven investments rather than broad or duplicative spending.

- Building on South Carolina's first statewide cybersecurity audit, Admin enhanced its standardized security-control assessment approach aligned with updated statewide security standards. The model includes 138 controls, consistent validation methods and a structured statewide assessment cycle.

  Continuing the use of this approach strengthens statewide alignment with cybersecurity best practices and gives leaders better information to measure improvement over time.

- Admin expanded statewide email protection as an additional layer of enterprise cyber defense. During FY 2025-26, Admin's Division of Information Security (DIS) purchased additional licenses and deployed email protection software, surpassing the halfway point of a two-year rollout. Participating agencies also received phishing-reporting functionality and began establishing phishing-awareness campaigns through the platform.

  Centralizing email protection reduces exposure to one of the most common attack vectors, provides consistent governance and metrics, and allows the state to leverage a common platform rather than requiring agencies to independently build comparable capabilities. The rollout will continue to the remaining agencies in the next fiscal year.

Effectively Manage Resources

Assess, develop and deploy resources and tools to promote consistent business processes and standards across state government.

- Admin completed Phase II of the Capital Asset Planning System initiative, automating the previously manual Permanent Improvement Project (PIP) submission process. The Capital Budgeting Office and its technology vendor developed an online OnBase workflow integrated with the existing Comprehensive Permanent Improvement Plan (CPIP) system. Projects already

included in an agency's CPIP can be converted into a PIP request, reducing duplicate data entry and connecting long-range capital planning more directly to project initiation.

The automated workflow also improves accuracy and consistency by requiring key information before submission and requiring project costs to remain balanced throughout the request. These controls reduce incomplete submissions and corrections, shorten review cycles and lower administrative burden for both agencies and Admin while producing better information for capital decision-making.

- In collaboration with the State Fiscal Accountability Authority (SFAA) and the Office of the State Engineer, Admin implemented its participation in the Job Order Contracting (JOC) pilot authorized by Proviso 117.151. Admin completed the solicitation and award process and established a qualified contractor pool across electrical, general contracting, HVAC, plumbing and roofing. Thirteen contracts became effective April 9, 2026.

  The JOC model uses prequalified contractors, defined construction tasks, preset unit prices and competitively established adjustment factors. This reduces the need for repetitive procurements for routine repairs, maintenance and minor construction, provides a more consistent and reviewable pricing structure and creates the potential for shorter procurement timelines and greater cost predictability while maintaining appropriate controls.

- Admin's State Fleet completed a review of the State Fuel Card Program and created a comprehensive reference manual based on input from agency users, the state fuel coordinator, the state's commercial fleet fueling and card management vendors and peer fleet organizations. The guide consolidates program requirements, daily administration procedures and best practices into a single resource for participating agencies.

  A standardized guide helps agencies make more accurate decisions, reduces recurring questions and inconsistent administration, and can minimize misuse and transaction errors. The result is a lower administrative burden and stronger controls over a high-volume statewide program.

- Admin updated the standard state commercial lease for the first time since 2016. The revised template further refined required termination provisions, incorporated practices such as subordination and non-disturbance agreements and memoranda of lease for major leases, and clarified which clauses are negotiable. The Attorney General approved the updated lease April 8, 2026, and it is now in use by Admin's Facilities Management and Property Services.

  Using a modern, standardized lease strengthens protection of the state's contractual interests, improves consistency across transactions and gives staff clearer negotiating parameters. It also reduces onboarding time for new employees and lowers legal and operational risk associated with inconsistent lease language.

- Admin evaluated options to relocate routing-hub infrastructure from the aging 1026 Sumter Street facility and identified an existing fiber-optic infrastructure location as a more practical and efficient solution. Using the existing contracted provider eliminated the need for a new solicitation and major infrastructure buildout and reduced the expected vendor-engagement timeline by approximately nine months compared with the alternative procurement path.

  The decision demonstrates active resource management, rather than continuing with a more complex approach simply because it had been contemplated earlier, Admin used current facts and available statewide contracts to reduce time, cost and implementation complexity while preserving the project's operational objective.

Enhance the public's awareness of the use of the state's resources.

- Admin's Executive Budget Office (EBO) issued the "AAR Reimagining" request for information (RFI) during FY 2025-26 to gather market research on ways to evaluate, redesign and modernize the statewide Agency Accountability Report process and develop an integrated performance-management system. The initiative seeks to streamline reporting and performance measurements across state agencies while improving accessibility, usability and the overall experience for agencies, policymakers and the public.

  Using an RFI before committing to a procurement allows the state to understand available solutions, implementation approaches and market capabilities with minimal financial risk. The information gathered will help Admin determine how technology and standardized processes can reduce administrative burden, improve the quality and timeliness of performance data, and make accountability information more useful and accessible to stakeholders.

- Admin continued to improve public-facing data visualizations that provide information on state finances, vendors, capital activity and other areas. During the fiscal year, Admin enhanced dashboard functionality and performance, including the development of a Finance Dashboard AI Assistant that extends the Bradley platform.

  These enhancements make complex public data easier to navigate and understand, extending the value of the state's transparency investments. Helping users find relevant information more quickly can increase utilization of existing dashboards without requiring additional manual support from agency staff.

Invest in Admin's Capacity to Continuously Improve the Quality of Its Services to Better Serve the State

Recruit, develop and support employees to best serve state government through Admin.

- Admin developed and launched a new agency intranet Jan. 2, 2026, following a soft launch to a 23-member cross-divisional project team in December 2025. The SharePoint-based platform replaced the legacy intranet with a centralized communications and knowledge-management hub for agency news, policies, forms, resources and division-specific information. Employees from every Admin division participated in discovery, content development, testing and workflow refinement.

  Employee usage demonstrated the value of the investment. During the first five months after launch, site visits increased 92% and total page views increased 32% compared with the final five months of the legacy platform. Admin also reduced the project cost from $366,730 to $192,530 through vendor negotiations, scope refinement and appropriate use of internal resources, avoiding $174,200 in costs while preserving the core objectives.

  The intranet improves productivity by making information easier to find, standardizing navigation and content and supporting self-service access to resources. It also strengthens organizational awareness and gives Admin a scalable platform for employee communication, feedback and future workflow improvements.

Continuously build the Admin enterprise of knowledgeable and engaged employees.

- Admin continued its agencywide effort to identify and document "single thread" business processes in which critical knowledge or responsibility could otherwise be concentrated with one employee or a small number of employees. During FY 2025-26, Admin documented 17 priority processes against an established target of 10, covering financial management, cybersecurity, human resources, construction, communications, technology and administrative services.

  The documentation goes beyond high-level instructions and includes standardized steps, roles and responsibilities, business rules, dependencies, decision points, process maps, swim-lane diagrams and other operating resources. Examples include the fiscal year-end financial process, which standardized 17 sequential steps and clarified responsibilities across five stakeholder groups; a construction change-order process aligned with procurement and state engineer requirements; and a repeatable AI cyber-risk assessment process.

  Formalizing these processes reduces dependence on individual subject-matter experts, supports cross-training and onboarding, strengthens compliance and audit readiness, and improves business continuity during absences, turnover or organizational change. The work also creates a foundation for future process improvement because teams can evaluate a documented current state rather than relying on informal knowledge.

- Admin connected process documentation to employee development through a Process Improvement Training pilot. Participants learned process documentation, data analysis and root-cause analysis and applied those methods to real agency workflows. For example, the Interim FTE

team used the program to evaluate its existing process, update process maps and identify improvements for implementation beginning July 1, 2026.

This practical learning model builds internal capacity to solve problems instead of relying exclusively on outside support. Employees gain reusable improvement skills while the agency receives direct operational benefits from the projects selected for the training.

LOOKING AHEAD

Moving into FY 2026-27, Admin will build on FY 2025-26 accomplishments by advancing a focused portfolio of strategic projects designed to support leadership transitions, modernize statewide systems, strengthen cybersecurity, improve shared services and increase transparency and stewardship of public resources. Key areas of continued focus include:

- Support the 2026 General Elections Constitutional Officer Transitions by activating coordinated onboarding and changeover plans, delivering an easy-to-use onboarding guide and providing timely cross-divisional support to newly elected officials and the incoming Governor's transition team to reduce disruption and preserve continuity of government.

- Implement legislative paid leave changes for state employees in SCEIS and associated business processes, including Civil Air Patrol Leave and amended Paid Parental Leave provisions, to ensure timely and consistent statutory compliance.

- Expand the Admin online Shared Services Catalog to provide a single, easy-to-use view of Admin services, improving service discoverability, standardization and access for current and future agency customers.

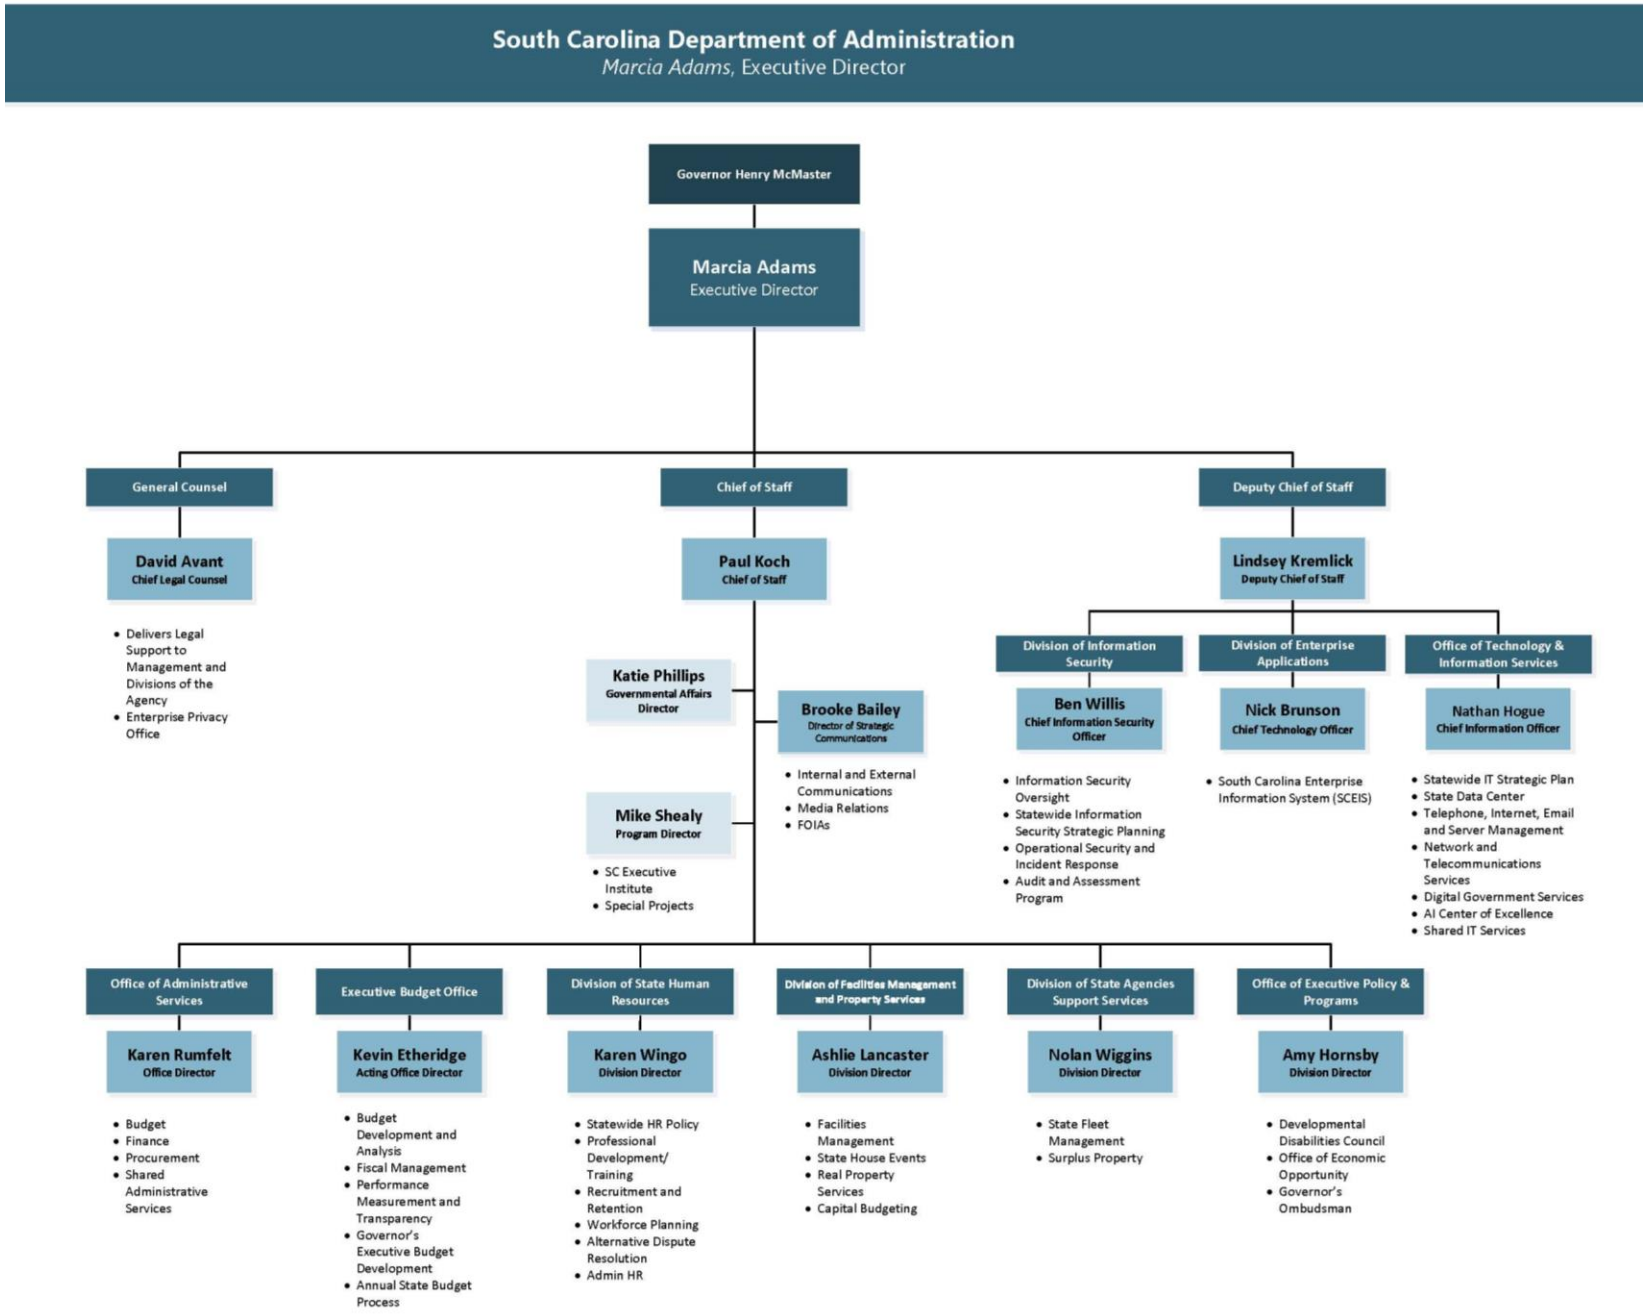

- Continue statewide SIEM, EDR, email-protection and cyber-risk initiatives, and use common data to target cybersecurity investments.

- Advance upgrade of SCEIS to SAP S/4HANA and the coordinated implementation of SCPro, upgrading the state's core financial, procurement and business systems while maintaining continuity of critical statewide operations.

RISK ASSESSMENT AND MITIGATION STRATEGIES

Admin manages a portfolio of enterprise initiatives that often involve multiple agencies, significant technology or capital investments, statutory deadlines and dependencies outside the agency’s direct control. To mitigate these risks, Admin uses structured governance, phased implementation, documented decision rights, independent review where appropriate, customer and stakeholder engagement, project and performance monitoring, standardized controls, process documentation and cross-training. These practices help identify issues earlier, protect continuity of critical services and allow the agency to adjust plans when evidence shows a more efficient or lower-risk approach is available. Admin remains committed to identifying new ideas and opportunities that improve the effectiveness of state government and deliver measurable value for the citizens of South Carolina.

Agency Mission	Adopted in:	2015

Lead to identify efficiencies. Collaborate to provide services to enhance security and trust. Innovate to increase effectiveness.

Agency Vision	Adopted in:	2015

Lead. Collaborate. Innovate.

Recommendations for reorganization requiring legislative change:

None

Agency intentions for other major reorganization to divisions, departments, or programs to allow the agency to operate more effectively and efficiently in the succeeding fiscal year:

None

Significant events related to the agency that occurred in FY2026

Description of Event	Start	End	Agency Measures Impacted	Other Impacts

Admin led the analysis, stabilization and restructuring of the newly created South Carolina Department of Behavioral Health and Developmental Disabilities (BHDD), established by Act 3 (S.2) of 2025 and further directed by Proviso 93.23 of the FY 2025-26 Appropriations Act and the Governor. Together, those directives required Admin to help facilitate consolidation, support day-to-day operations, review organizational structures, evaluate full-time equivalent (FTE) supervision, identify duplication, consider shared services and collaboration and, where warranted, effectuate structural reorganization and reductions in force. The work brought together the former Department of Disabilities and Special Needs, Department of Mental Health and Department of Alcohol and Other Drug Abuse Services while preserving continuity of critical behavioral health, developmental disability and substance-use services. Admin organized the work in phases — stabilizing urgent conditions, supporting day-to-day operations and then implementing consolidation and efficiencies — and embedded expertise across human resources, finance, procurement, facilities, fleet, information technology, cybersecurity, communications and legal services.	July	June		Admin's executive leadership, and FMPS, IT, HR, OAS, and DEA divisions devoted a significant amount of time to this project during FY26, which shifted the team's time away from Admin's other strategic and operational projects.
Admin engaged an independent compliance consultant (Forvis Mazars, LLP) in April 2025 to assess and oversee compliance with all recommendations resulting from the AlixPartners' Forensic Accounting Final Report and the Mauldin & Jenkins assessment of the State's Annual Comprehensive Financial Report (ACFR) development process, consistent with Act 72 (S.253) of 2025. In compliance with the Act, Admin submitted the Forvis Mazars' report on March 9, 2026.	July	March		Admin's executive leadership and many agency staff devoted a significant amount of time to this requirement in FY26, which shifted the team's time away form Admin's other strategic and operational projects.
Admin conducted a state facilities master planning study with funds appropriated in FY 25-26 Appropriations Act.	July	June		Admin's executive leadership, and FMPS devoted significant amount of time on this project in FY26, which shifted time away from Admin's other strategic and operational projects. Aspects of Admin's responsibilities related to this project will continue into FY27.

Admin began implementing recommended security upgrades to the Capital Complex and Governor's Mansion, consistent with Proviso 118.22(68)(2) of the FY25-26 Appropriations Act and the Capital Reserve Fund, Act 71 of 2025. Security upgrades continue into the next fiscal year.	July	June		Admin's executive leadership, and FMPS devoted a significant amount of time to this requirement, which shifted the team's time away from Admin's other strategic and operational projects. Admin's responsibilities related to this project will continue into FY27.
Admin DSHR and EBO worked with state agencies to eliminate 25% of vacant FTE positions as of Feb. 1, 2025, unless an exemption applied, consistent with Proviso 117.193 of the FY 25-26 Appropriations Act. As required by Proviso 117.193, Admin reported on the number of FTEs deleted by agency, program, and funding source on December 1, 2025.	July	December		Admin's executive leadership, and DSHR and EBO, devoted a significant amount of time to this requirement in the fall of FY25, which shifted the team's time away from Admin's other strategic and operational projects.
Admin planned, coordinated and implemented the lying in state of the Reverend Jesse Jackson Sr. at the South Carolina State House on March 2, 2026. Admin worked with the Jackson family, Governor's Office, legislative leaders, law enforcement, SCETV, the City of Columbia, funeral-home representatives, media and other partners to coordinate the ceremony and public visitation, security, facilities, accessibility, communications and media logistics.	February	March		Admin's executive leadership, and FMPS, Strategic Communications, and DSHR (training) divisions devoted a significant amount of time to this project during FY26, which shifted the team's time away from Admin's other strategic and operational projects.
Is the agency in compliance with S.C. Code Ann. § 2-1-220, which requires submission of certain reports to the Legislative Services Agency for publication online and the State Library? (See also S.C. Code Ann. § 60-2-20).				Yes
Reason agency is out of compliance: (if applicable)				

Is the agency in compliance with various requirements to transfer its records, including electronic ones, to the Department of Archives and History? See the Public Records Act (S.C. Code Ann. § 30-1-10 through 30-1-180) and the South Carolina Uniform Electronic Transactions Act (S.C. Code Ann. § 26-6-10 through 26-10-210).	Yes
Does the law allow the agency to promulgate regulations?	Yes
Law number(s) which gives the agency the authority to promulgate regulations:	**Please see the Legal section of this report.**
Has the agency promulgated any regulations?	Yes
Is the agency in compliance with S.C. Code Ann. § 1-23-120 (J), which requires an agency to conduct a formal review of its regulations every five years?	Yes
(End of Reorganization and Compliance Section)	

FY2026

Strategic Plan Results

as submitted for the Accountability Report by:

D500 - DEPARTMENT OF ADMINISTRATION

Goal 1 Provide exceptional leadership for statewide initiatives.

Goal 2 Collaborate to provide and enhance services.

Goal 3 Equip agencies to focus on their mission.

Goal 4 Effectively manage resources.

Goal 5 Invest in Admin's capacity to continuously improve the quality of its services to better serve the state.

Perf. Measure Number	Description	Base	Target	Actual	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number Responsible	Notes
1.1	**Provide leadership and guidance to others in the Executive Branch and deliver statewide projects assigned to Admin by the General Assembly or the Governor.**									**State Objective: Government and Citizens**				
1.1.1	Conduct analysis of administrative and other functions of former DDSN, DMH, and DAODAS and restructure these agencies into the new Department of Behavioral Health and Developmental Disabilities consistent with Act 3 (S.2) of 2025, consistent with Proviso 93.23 of the 2026 Appropriations Act, and consistent with the Governor's instructions.	0%	100%	100%	Percent complete	Complete	Other	Timeliness	Internal records	OED	Fulfilment of Act 3 (S.2) of 2025, Proviso 93.23 of the FY25-26 General Appropriations Act, and the Governor's instructions	State agencies and agency customers	0100.010000.000	
1.1.2	Admin to conduct state owned building study with funds appropriated in FY 25-26 Appropriations Act.	0%	100%	100%	Percent complete	Complete	Other	Timeliness	Internal records	FMPS	Fulfilment of funded item in the FY25-26 General Appropriations Act	General public, state agencies and agency customers	9809.750000X000	
1.1.3	Admin to engage an independent compliance consultant (Forvis Mazars, LLP) to assess and oversee compliance with all recommendations resulting from the AlixPartners' Forensic Accounting Final Report and the Mauldin & Jenkins assessment of the State's Annual Comprehensive Financial Report (ACFR) development process, consistent with Act 72 (S.253) of 2025.	0%	100%	100%	Percent complete	Complete	Other	Timeliness	Internal records	OED	Fulfilment of Act 72 (S.253) of 2025	General public, state agencies and agency customers	9810.720000X000	
1.1.4	Admin DSHR and EBO will work with state agencies to eliminate 25% of vacant FTE positions as of Feb. 1, 2025, unless an exemption applies, consistent with Proviso 117.193 of the FY 25-26 Appropriations Act.	0%	100%	100%	Percent complete	Complete	State Fiscal Year	Timeliness	Internal records	DSHR, EBO	Fulfilment of Proviso 117.193 of the FY25-26 General Appropriations Act	State agencies, agency employees, and General Assembly	1004.050000.000 & 1005.100000.000	
1.2	**Advance an enterprise approach to state government services.**									**State Objective: Government and Citizens**				

Perf. Measure Number	Description	Base	Target	Actual	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number Responsible	Notes
1.2.1	Continue to implement Admin's statewide artificial intelligence (AI) strategy through the coordination and evaluation of use cases and budget/spend requests, pilot statewide enterprise AI solutions and launch an AI resident assistant for citizens to easily access publicly available government services.	0%	100%	100%	Percent complete	Complete	State Fiscal Year	Timeliness	Internal records	OTIS	Improve customer service	General public, state agencies and agency customers	1002.350100.000	
1.2.2	Conduct market research for the sixteen technical colleges to explore the use of a single, third-party centralized software system that standardizes naming conventions across all technical colleges to enable direct comparisons of key financial measures in accordance with Proviso 93.22 of the FY25-26 Appropriations Act.	0%	100%	100%	Percent complete	Complete	State Fiscal Year	Timeliness	Internal records	OTIS	Fulfilment of Proviso 93.22 of the FY25-26 General Appropriations Act	State agencies and agency customers	1002.350100.000	
2.1	**Collaborate with customers to identify needs, measure satisfaction and enhance services.**										**State Objective:**	**Government and Citizens**		
2.1.1	HR Shared Services Customer SharePoint Site Launch a secure SharePoint site to share documents with HR shared services customers. This customer site should model the SharePoint site that OAS setup for its customers for a seamless user experience for shared services customers.	0%	100%	100%	Percent complete	Complete	State Fiscal Year	Timeliness	Internal records	DSHR (Admin HR)	Improve customer service	State agencies and agency employees	0100.010000.000	
2.2	**Utilize a governance approach for customer input on statewide strategies.**										**State Objective:**	**Government and Citizens**		
2.2.1	Establish and implement a governance framework for the SCEIS Upgrade Project that will provide the accountability and consistency necessary to ensure effective risk management, resource optimization and high-quality outcomes for the state.	0%	100%	100%	Percent complete	Complete	State Fiscal Year	Timeliness	Internal records	DEA (SCEIS)	Continued improvement of SCEIS functionality	State agencies and agency customers	1004.200000.000	
2.2.2	Refresh the Statewide IT Strategic Plan through the IT shared services governance framework. Advance statewide IT efficiency and innovation by expanding the adoption of shared services, developing and enforcing standards, and identifying cost-savings opportunities through strategic consolidation, modernization and collaboration across agencies.	0%	100%	90%	Percent complete	Complete	State Fiscal Year	Timeliness	Internal records	OTIS	Improve customer experience	State agencies and agency customers	1002.350100.000	Admin continues to revise and refresh the Statewide IT Strategic Plan. The project will be complete after the Statewide IT Strategic Plan is presented to and approved by the Executive Oversight Governance (EOG) Committee. The EOG Committee meeting is anticipated by the end of 2026 or early 2027.
3.1	**Develop a proactive and diversified approach to recruit and develop qualified employees.**										**State Objective:**	**Education, Training, and Human Development**		

Perf. Measure Number	Description	Base	Target	Actual	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number Responsible	Notes
3.1.1	Develop a comprehensive onboarding and transition guide for newly elected leadership to ensure a smooth transition of responsibilities and increase awareness of government operations.	0%	100%	50%	Percent complete	Complete	Other	Timeliness	Internal records	OED	Training for new agency leadership.	State agencies, agency employees, and agency customers	1005.100000.000	Admin established the cross-divisional transition team, developed the operational framework for supporting incoming constitutional officers and advanced a comprehensive onboarding guide covering key statewide administrative services, requirements and resources. The remaining work is intentionally tied to the election and inauguration timeline and could not be completed within FY 2025-26. The advance planning completed to date positions Admin to respond immediately after Election Day and maintain continuity of government throughout the transition.
3.2	**Identify and advance services provided through Admin.**									**State Objective:**	**Government and Citizens**			
3.2.1	Implement multiple pre-migration projects for the SCEIS upgrade program designed to reduce the risk, minimize business disruption and impacts on end users in preparation of the migration to the upgraded SAP cloud platform.	0%	100%	100%	Percent complete	Complete	State Fiscal Year	Timeliness	Internal records	DEA	Continued improvement of SCEIS functionality.	State agencies and agency customers	1004.200000.000	
3.2.2	In collaboration with the State Fiscal Accountability Authority, continue to work to implement a statewide electronic procurement solution to replace the current Supplier Relationship Management module in SCEIS.	0%	100%	100%	Percent complete	Complete	State Fiscal Year	Timeliness	Internal records	DEA	Improve customer experience.	State agencies and agency customers	1000.150501.000	
3.3	**Provide leadership and support to enhance and mature information security and privacy and advance the protection of citizens' data.**									**State Objective:**	**Maintaining Safety, Integrity and Security**			
3.3.1	Implement a modernized Security Information and Event Management (SIEM) platform and deploy a new statewide Endpoint Detection and Response (EDR) capability to strengthen cybersecurity across all state agencies. The SIEM and EDR tools will enhance cybersecurity monitoring to provide enhanced visibility, faster threat detection, and more efficient incident response.	0%	100%	100%	Percent complete	Complete	State Fiscal Year	Timeliness	Internal records	DIS	Risk Remediation	State agencies and agency customers	1001.250100.000	

Perf. Measure Number	Description	Base	Target	Actual	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number Responsible	Notes
3.3.2	Implement the Cyber Risk Governance Program to provide statewide visibility into cybersecurity risks and ensure targeted, data-driven decisions. The program will introduce a centralized Cyber Risk Dashboard that tracks cyber risk profiles across all state agencies and the state as a whole. This initiative will guide future cyber investment, improve risk assessment and mitigation efforts, and ensure accountability through visualization and continuous monitoring.	0%	100%	100%	Percent complete	Complete	State Fiscal Year	Timeliness	Internal records	DIS	Risk Remediation	General public, state agencies and agency customers	1001.250100.000	
3.3.3	As part of this multi-year effort, the Division of Information Security (DIS) will continue to conduct comprehensive security control assessments using the SCDIS-200 Security Framework. These assessments will provide agencies with a clear understanding of their current security posture, highlight opportunities for improvement, and drive consistent, statewide alignment with best practices in cybersecurity.	0%	100%	100%	Percent complete	Complete	State Fiscal Year	Timeliness	Internal records	DIS	Increase data privacy	General public, state agencies and agency customers	1001.250100.000	
4.1	**Assess, develop and deploy resources and tools to promote consistent business processes and standards across state government.**									**State Objective: Government and Citizens**				
4.1.1	Capital Asset Planning System - Phase II This project will automate the current manual PIP process, which will improve the quality of the submissions, expedite the review process, and make processing of each submission easier.	0%	100%	100%	Percent complete	Complete	State Fiscal Year	Timeliness	Internal records	FMPS	Capital Asset Planning System automation	State agencies and agency customers	1004.050000.000	
4.1.2	Admin is participating in the Job Order Contracting pilot program through SFAA consistent with Proviso 117.151 of the FY 25-26 Appropriations Act. This pilot will streamline and expedite the procurement and contracting process by having a pool of prequalified contractors available to bid on job orders, and ensures bids are awarded to qualified contractors to perform the work of general contractors, roofers, HVAC, plumbers, and electricians.	0%	100%	100%	Percent complete	Complete	State Fiscal Year	Timeliness	Internal records	FMPS	Improve efficiency	State agencies and agency customers	1000.150501.000	
4.2	**Enhance the public's awareness of the use of the state's resources.**									**State Objective: Government and Citizens**				

Perf. Measure Number	Description	Base	Target	Actual	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number Responsible	Notes
4.2.1	Create and issue a request for information (RFI) to gather ideas for improving the process, accessibility, usability, reporting and overall user experience of agency annual accountability reports, with the goal of enhancing transparency and making both the process and end result more efficient, user-friendly and accessible to stakeholders.	0%	100%	100%	Percent complete	Complete	Other	Timeliness	Internal records	EBO	Improve efficiency and accountability	State agencies and agency customers	1004.050000.000	
5.1	**Recruit, develop and support employees to best serve state government through Admin.**									**State Objective:**	**Education, Training, and Human Development**			
5.1.1	Develop and deploy an Admin intranet site to serve as resource and communications hub for Admin employees.	0%	100%	100%	Percent complete	Complete	Other	Timeliness	Internal records	OED	Improve employee experience	Admin and Admin employees	1002.350100.000	
5.2	**Continuously build the Admin enterprise of knowledgeable and engaged employees.**									**State Objective:**	**Government and Citizens**			
5.2.1	Document agency processes. Every office in every division within the agency will identify "single thread" areas and develop documentation/instructions for at least one process.	0%	100%	100%	Percent complete	Complete	Other	Timeliness	Internal records	OED	Improve redundancy and efficiency within Admin	Admin and Admin employees	0100.010000.000	

FY2027

Strategic Plan Development

as submitted for the Accountability Report by:

D500 - DEPARTMENT OF ADMINISTRATION

Goal 1 Provide exceptional leadership for statewide initiatives.

Goal 2 Collaborate to provide and enhance services.

Goal 3 Equip agencies to focus on their mission.

Goal 4 Effectively manage resources.

Goal 5 Invest in Admin's capacity to continuously improve the quality of its services to better serve the state.

Perf. Measure Number	Description	Base	Target	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number Responsible	Notes
1.1	**Provide leadership and guidance to others in the Executive Branch and deliver statewide projects assigned to Admin by the General Assembly or the Governor.**								**State Objective: Government and Citizens**				
1.1.1	Create an onboarding guide to assist newly-elected constitutional officers during their transitions. Also, Admin will work with the newly elected Governor's transition team to provide information and services as may be required.	0%	100%	Percent complete	Complete	State Fiscal Year	Timely completion of milestones	Internal records	OED	Enhance customer service to newly elected constitutional officers	Elected officials, state agencies, and state employees	0100.010000.000	
1.1.2	Implement legislative changes related to state employee leave for Act 250, Civil Air Patrol Leave Act, and amend paid parental leave as enacted by Act 249.	0%	100%	Percent complete	Complete	State Fiscal Year	Timely completion of milestones	Internal records	SCEIS & DSHR	Fulfillment of Act 249 and Act 250	State agencies and state employees	1004.200000.000 1005.100000.000	
1.1.3	The Office of Statewide Data will develop a comprehensive statewide data strategy to improve data governance, transparency, sharing and analytics across SC state agencies.	0%	100%	Percent complete	Complete	State Fiscal Year	Timely completion of milestones	Internal records	OSD	Enhance data sharing across state agencies.	State agencies	1002.350100.000	
1.1.4	Implement Phase 1 of the State Facilities Master Plan by studying the feasibility with the RSIC of two new buildings for state agencies and working with MOCA on concept drawings and bridging documents for future construction phases.	0%	50%	Percent complete	Complete	State Fiscal Year	Timely completion of milestones	Internal records	FMPS	Fulfilment of funded item in the FY26-27 General Appropriations Act	Elected officials, general public, state agencies, and state employees	9812.810000X000 and 1000.150506X000	

Perf. Measure Number	Description	Base	Target	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number Responsible	Notes
1.1.5	Admin will identify and reallocate unused ARPA funds in the priority order set by the General Assembly to help South Carolina meet federal deadlines, maximize available funding and avoid returning money to the federal government.	0%	100%	Percent complete	Complete	State Fiscal Year	Timely completion of milestones	Internal records	EBO	Fulfilment of directive in the FY26-27 General Appropriations Act	Elected officials, state agencies, and state employees	1004.050000.000	
1.1.6	This project moves the First Responder Interoperability Program to SLED to streamline public safety communications, improve emergency coordination and better support first responders using the Palmetto 800 radio system.	0%	100%	Percent complete	Complete	State Fiscal Year	Timely completion of milestones	Internal records	OTIS	improve emergency coordination and first responder support	General public, state agencies, and agency customers	1002.350100.000 and 1002.350500X000	
1.2	**Advance an enterprise approach to state government services.**								**State Objective:**	**Government and Citizens**			
1.2.1	Expand email security protection across all state agencies to detect and block scams, malware and other email-based cyber threats, providing improved protection, reduced risk and safer government communications for employees and citizens.	0%	100%	Percent complete	Complete	State Fiscal Year	Timely completion of milestones	Internal records	DIS	Risk remediation and increase data privacy	General public, state agencies, and agency customers	1001.250100.000	
2.1	**Collaborate with customers to identify needs, measure satisfaction and enhance services.**								**State Objective:**	**Government and Citizens**			
2.1.1	Enhance a Share Point site that allows shared services customers to submit invoices for payment, allowing for efficiency in processing invoice payments for Admin and its shared services customers.	0%	50%	Percent complete	Equal to or greater than	State Fiscal Year	Timely completion of milestones	Internal records	OAS	Enhance customer service	State agencies and agency customers	0100.010000.000	
3.2	**Identify and advance services provided through Admin.**								**State Objective:**	**Government and Citizens**			

Perf. Measure Number	Description	Base	Target	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number Responsible	Notes
3.2.1	Expand the online Admin Shared Services catalog to showcase all Admin shared services offerings in one easy-to-use website. This helps current and future customers find, understand and access what services Admin offers and how Admin can support them.	0%	100%	Percent complete	Complete	State Fiscal Year	Timely completion of milestones	Internal records	OED	Enhance customer service	State agencies and agency customers	0100.010000.000	
3.2.2	Create a central database of easements on state-owned land and waterways to track property use, clarify rights and responsibilities, reduce liability risk and help ensure fair compensation for private use of public land.	0%	100%	Percent complete	Complete	State Fiscal Year	Timely completion of milestones	Internal records	FMPS	Improve customer service and streamline easement tracking	State agencies and agency customers	1000.150501.000	
3.3	**Provide leadership and support to enhance and mature information security and privacy and advance the protection of citizens' data.**								**State Objective:**	**Maintaining Safety, Integrity and Security**			
3.3.1	Replace the current end-of-life cyber monitoring system to improve statewide threat detection and response by enhancing monitoring of agencies, which protects systems and citizen data, reduces security vulnerabilities, and supports state cyber standards.	0%	100%	Percent complete	Complete	State Fiscal Year	Timely completion of milestones	Internal records	DIS	Risk remediation and increase data privacy	General public, state agencies, and agency customers	1001.250100.000	
4.1	**Assess, develop and deploy resources and tools to promote consistent business processes and standards across state government.**								**State Objective:**	**Government and Citizens**			

Perf. Measure Number	Description	Base	Target	Value Type	Desired Outcome	Time Applicable	Calculation Method	Data Source	Data Location	Stakeholder Need Satisfied	Primary Stakeholder	State Funded Program Number Responsible	Notes
4.1.1	Upgrade the South Carolina Enterprise Information System (SCEIS), the State's financial and business system, to the new SAP cloud-based technology platform to prepare for upgrade projects upon implementation. As part of this project, the state is partnering with the State Fiscal Accountability Authority to implement a new electronic purchasing system that streamlines vendor management and procurement, making it easier and more efficient for state agencies to purchase goods and services.	0%	50%	Percent complete	Equal to or greater than	State Fiscal Year	Timely completion of milestones	Internal records	DEA/SCEIS	Continued improvement of SCEIS functionality	State agencies and agency customers	1004.200000.000	
4.2	**Enhance the public's awareness of the use of the state's resources.**								**State Objective:**	**Government and Citizens**			
4.2.1	Improve the Annual Accountability Report process with better reporting tools and clearer performance information, helping agencies report results more consistently and giving citizens greater transparency into how tax dollars are used.	0%	50%	Percent complete	Equal to or greater than	State Fiscal Year	Timely completion of milestones	Internal records	EBO	Enhance customer service	General public, state agencies, and agency customers	1004.050000.000	
5.2	**Continuously build the Admin enterprise of knowledgeable and engaged employees.**								**State Objective:**	**Government and Citizens**			
5.2.1	Create virtual and in-person training for customer agency staff to properly manage surplus property, reduce errors, improve compliance with laws and rules, streamline operations and support better use of state property.	0%	100%	Percent complete	Complete	State Fiscal Year	Timely completion of milestones	Internal records	DSASS	Workforce training for surplus property use	State agencies and state employees	1000.151000.000	

2026 Budget Data

as submitted for the Accountability Report by:

D500 - DEPARTMENT OF ADMINISTRATION

State Funded Program No.	State Funded Program Title	Description of State Funded Program	(Actual) General	(Actual) Other	(Actual) Federal	(Actual) Total	(Projected) General	(Projected) Other	(Projected) Federal	(Projected) Total
