AGENCY'S DISCUSSION AND ANALYSIS

I. The Department's Purpose: The South Carolina Department of Veterans Affairs exists to serve this state's Veterans, service members, and their families and to promote the value Veterans bring to their communities and their fellow citizens. The department works to achieve four specific conditions:

- South Carolina's Veterans and their families believe themselves to be sound in mind and body, satisfied by the dignified manner in which they are treated, respected by their fellow citizens, and proud of their continuing contributions;
- South Carolina is the post-service location of choice for transitioning service members and the state actively leverages their talents for economic growth;
- Veterans are key and valued contributors to the state's economy, academic community, and culture; and
- South Carolina actively supports the state U.S. Department of Defense footprint and recognizes the state's strategic importance to national security.

II. Scope of Report. This report summarizes the South Carolina Department of Veterans' Affairs' activities from 1 July, 2025, through 30 June, 2026.

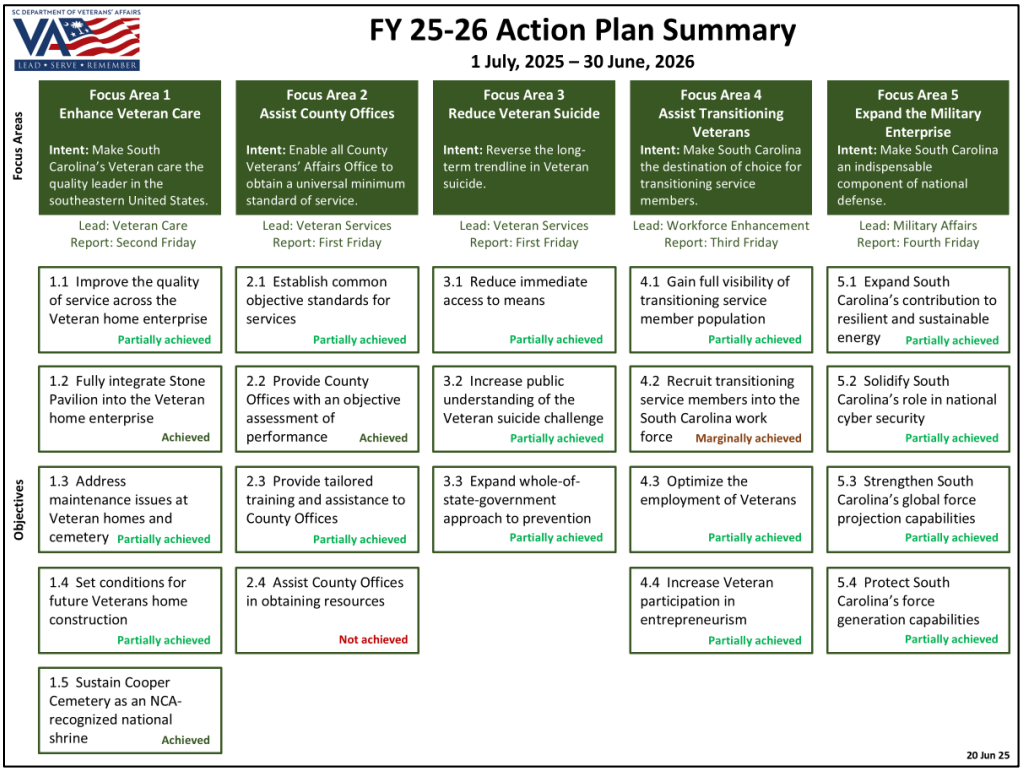

III. Agency Strategies, Goals, and Outcomes. The department organizes its activities in accordance with its strategic campaign design, which delineates the agency's long-term ends, ways, and means. This plan is summarized in a simple graphic.[1]

[1] The department developed its campaign plan in 2020 and operated under the original plan until 1 July, 2025. At that point, the original focus of building a state-wide network of service providers had been achieved and the agency shifted its decisive operation to the enhancement of Veteran value to the state.

Within a given fiscal year, the agency's activities are driven by an annual Action Plan which provides more refined focus areas, objectives, goals, and metrics for the year. The Action Plan for FY25-26 and the results are summarized below,[2] followed by a detailed description of this year's results along each Line of Effort and strategic objective.

Line of Effort 1: **Assist** Veterans and their families in obtaining the services and benefits to which they are entitled.

Strategic Objective 1: Build and sustain administrative policies, procedures, and programs to assist Veterans and their families in effectively and efficiently obtaining their entitled services and benefits.

a) Claims and Appeals. In FY25-26, the department and the 46 County Veterans' Affairs Offices helped 21,012 previously unserved Veterans and assisted in the filing of 13,404 federal benefit claims.

- Service officers assigned to the department filed a total of 1,456 Veteran claims.
- County offices filed a total of 8,602 Veteran claims the department can verify, and an additional 3,346 Veteran claims the department cannot verify.[3]

[2] The Action Plan includes subordinate goals and metrics for each objective. The detailed results of each are included in the quantitative portion of this report.

[3] The department can verify only those claims submitted through the state-provided electronics claims management system. For those counties that do not use this system, we rely upon their self-reporting.

Table 1. County Claims Activity and Federal Economic Impact.[4]

While it is possible to report the total value of federal benefits paid to South Carolina Veterans down to the county level, it is not possible to determine what portion of those payments are a direct result of claims filed with the assistance of county or state agents. The Geographic Distribution of Expenditures report of the U.S. Department of Veterans' Affairs indicates that in federal fiscal year 2024 (FY24), the latest year data is available, South Carolina Veterans received $4.13 billion in federal compensation and pension benefits. The report does not differentiate between benefits paid as the result of a claim filed with or without the assistance of a county, state, or other agent.

Support to Transitioning Active-Duty Members Stationed in South Carolina. In FY25-26, the department provided claims assistance to more than 228 active-duty service members stationed in South Carolina, either separating or retiring from active duty. Our ability to provide this service was enhanced by office space provided by Joint Base Charleston at Naval Weapon Station-Goose Creek. Roughly 40% of the service members we assisted indicated an intention to remain in the state after their military service.

Veterans Experience Action Centers. In coordination with the US Department of Veterans' Affairs, the American Legion, the Veterans of Foreign Wars, and other partners, we participated in two major community outreach events in FY25-26. These events provided services and information to a total of 1,362 South Carolina Veterans.

Table 2. Summary of FY24-25 Veteran Experience Action Center Activities.

Veteran Hearings and Appeals. During FY25-26, the Department assisted Veterans and their families with 290 appeals to the U.S. Department of Veterans' Affairs Board of Veteran Appeals and 127 Pre-

[4] USDVA Economic Impact reflects data from the FY24 US Dept of Veteran Affairs' Geographic Distribution of Expenditures, Compensation & Pension report (Geographic Distribution of VA Expenditures (GDX) Report - National Center for Veterans Analysis and Statistics). This includes federal expenditures for Veteran compensation for service-connected disabilities, dependency and indemnity compensation (DIC) for service-connected deaths, Veteran pensions for non-service connected disabilities, and burial and other benefits paid to Veterans and their survivors.

Determination Hearings, which enable swifter decisions for Veterans seeking redress on earlier US Department of Veterans' Affairs decisions.

b) South Carolina Department of Veterans' Affairs County Assessment Program (SC Code 25-11-50). In 2025 the General Assembly and Governor modified SC Code 25-11-50 so as to require the department to conduct an evaluation of each County Veterans' Affairs Office and report its findings to the associated legislative delegation in writing. The evaluation process focused on compliance with USDVA and SCDVA established procedures, the quality and accessibility of services provided, administrative and operational performance, training and certification of staff, and accuracy and effectiveness in benefit claims assistance. A detailed written report of the evaluation assessment visit was provided to county legislative delegation members, the county administrator, and the evaluated office. In this first year of evaluations, major trendlines included:

- Large and well-resourced county offices are fully capable and need little from the state beyond accreditation and continuing professional education.

- Mid-tier county offices are not as robust as their better-resourced neighbors but generally perform the core functions of a county office (claims and benefits) with commendable skill and speed.

- Smaller, poorly resourced county offices, often in rural counties, struggle to meet Veteran expectations and need state assistance to meet reasonable performance standards.

c) South Carolina Free Tuition for Certain War Veterans' Children Program (SC Code 59-111-20). In FY25-26, we received 2,253 applications for this program, of which 112 were duplicate applications. We approved 1,890, denying 251 applications as ineligible. Primary reasons for denial remain 1) the residency requirement for the student and Veteran, and 2) the requirement for Veteran service during one of the specified periods of wartime service.[5]

d) War Records (SC Code 25-11-90). In the past fiscal year, we made no progress in scanning hardcopy Form DD-214s into the electronic War Record. We currently have 104,846 records scanned, representing 29.12% of the total number of paper records in the Department's possession.[6]

e) Veteran Service Organization Honor Guard Reimbursement Program (SC Code 25-11-85). In FY25-26, we disbursed $49,000 to eleven Veteran Service Organizations Honor Guard organizations that provided military honors at Veteran funerals across the state.

f) Reducing Veteran Suicide.

- In FY25-26, the Department continued the *Lock It, South Carolina* Lethal Means Safety campaign to encourage Veterans and their families to practice the safe storage of firearms, the safe disposal of medication, and regular safety planning, as well as to make Veterans aware of resources available during a time of crisis. In this fiscal year, the campaign reached over 37,000 Veterans and their families.

[5] As of 15 May, 2026, Governor McMaster signed into law a change that expands eligibility for Veteran's children with lifetime residency in South Carolina whose eligible, qualifying Veteran parent no longer resides in the state. This change came too late in this fiscal year to affect the number of applications, but we anticipate some minor changes in the coming year.

[6] The department is pursuing a contracted solution to address this issue and potentially assist county offices in transferring paper DD-214s into a digital database.

- In partnership with the South Carolina Office of Mental Health, Secretary McCaffrey serves as a co-chair of the South Carolina Suicide Prevention Coalition and the sub-working group focused on data collection and metrics. The Suicide Prevention Coalition initiated a review of the 2022 South Carolina Suicide Prevention Strategy, closing out the fiscal year with a framework that nests the 2027 Suicide Prevention Strategy with the 2024 National Strategy for Suicide Prevention as well as the 2025 State Health Improvement Plan.

- The two-year lag in U.S. Department of Veterans Affairs published Veteran suicide data remains a challenge to timely and effective analysis of Veteran suicide trends. Through cooperative collaboration with the South Carolina Department of Public Health, however, we are now better equipped to understand Veteran suicide trends down to the county level.

g) Improving the Availability of Housing to Veterans at Risk of Homelessness. In FY25-26, we provided $2,992,280.28 in grant funding to 15 recipient organizations (non-profits and public agencies) offering essential services to verified Veterans seeking housing assistance, food security, emergency utility support, or substance abuse recovery programs.

h) Palmetto Pathfinder Program. In FY25-26, we trained 98 new peer-mentor Palmetto Pathfinder volunteers who, with SCDVA Palmetto Pathfinder Managers, assisted Veterans with over 2,000 connections to partners in the South Carolina Veteran Coalition who provide Veterans with direct assistance as well as connections to federal and non-federal benefits and services.

i) M.J. "Dolly" Cooper State Veterans' Cemetery.

- *Recognition*. This cemetery was awarded the National Cemetery Administration's Operational Excellence Award and designated as a National Shrine after passing its federal inspection on 9 September, 2025, marking the first time the facility has achieved national standards since its creation in 2007.

- *Interments*.
  - During this year, the Cemetery interred 508 remains (359 Veterans and 149 Dependents), including:
    - 334 below-ground burials,
    - 155 columbarium niche placements, and
    - 9 scatterings.
  - We denied 4 ineligible requests for interment.

- *Pre-certification*. We processed 376 requests for pre-certification (advance arrangement for future burial).
  - We approved 362.
  - We denied 14 as ineligible.

- *Expansion*.
  - In 2025, the National Cemetery Administration awarded a $980,278 grant to build six additional columbarium walls in the cemetery. The project was completed in July 2026, adding 1,100 niches to the existing inventory.

j) Future Veterans' Cemetery. We have applied for a $13.1 million federal grant to begin construction of a second state Veteran cemetery on the grounds of Palmetto Patriots Home in Gaffney. We will submit this potential project to the Joint Bond Review Committee for review in accordance with the Committee's published guidelines.

k) Veteran Homes.

- In FY 25-26 the department oversaw six Veteran homes. The transfer of the last home from the Department of Mental Health was completed on 1 July, 2025.

Table 3. Summary of Veteran Home Operations, FY 25-26.

[A]As of 30 June 2025, Veterans Victory House has bed space for 220 residents but maintained a lower census due to facility renovations.

- Overall, the Veteran home enterprise is functioning well despite the turbulence caused by the transfer of oversight responsibilities from the then-Department of Mental Health.
  - Two homes have achieved the highest Centers for Medicare and Medicaid Services rating of 5 stars.
  - Two homes have achieved the second highest Centers for Medicare and Medicaid Services rating of 4 stars.
  - One home (Patriot's Village, Sumter) is too new to receive a rating and the final home (Stone Pavilion, Columbia) has a lagging one-star rating dating back to events preceding the transfer of the home.
  - All homes are very near maximum occupancy with small but consistent waiting lists for residence.

- The agency is focused on two primary concerns in this field.
    - *Facilities maintenance*.
        - The agency's oldest homes (Campbell Veteran Nursing Home in Anderson and Veteran Victory House in Walterboro) are nearing the end of their projected service life, have long lists of deferred maintenance needs, and are increasingly difficult to maintain at the level required for a long-term care facility. Both require significant refurbishment to extend their life cycle.

        - Our newer facilities are, of course, in much better condition. We are aggressively transitioning to a preventative maintenance approach to these facilities in order to avoid their degradation over time. This requires the investment of maintenance dollars earlier in a facility's lifetime but reduces total maintenance costs over the life cycle of the facility.

        - We are currently planning to address both the maintenance backlog and preventative maintenance using a combination of federal grants, carry-forward funds, and, when necessary, requested state appropriations.

    - *Future Construction*.
        - Based on plans developed and approved before the transfer of Veteran homes to the department, the USDVA has approved the construction of three additional Veteran homes in the state pending availability of federal construction grant funds.
            - A home in Lexington will replace Stone Pavilion in Columbia.
            - A new home will be constructed in Horry County.
            - A new home will be constructed in Orangeburg County.

        - During testimony to the Senate Legislative Oversight Committee in 2024, members of the committee questioned the logic of these locations and asked the Secretary to determine if these locations best served the anticipated Veteran population over the long-term.

        - The department contracted for an external, third-party review of the planned locations and will report its findings to the General Assembly when complete.

*Line of Effort 2: **Enhance** the value Veterans bring to South Carolina.* [7]

Strategic Objective 2: Maximize and leverage the economic, academic, and cultural contributions of Veterans in South Carolina.

a) Career and Entrepreneur Readiness Events. SCDVA expanded statewide support for Veteran economic mobility through both entrepreneurship and career readiness events, with events that strengthen South Carolina's workforce pipeline and reinforce the state's commitment to Veteran economic success.

[7] Enhance is defined as "to increase or improve in value, quality, desirability, or attractiveness."

- In February 2026, the department hosted the first Veteran Entrepreneurship Forum aboard the USS Yorktown in Charleston, drawing strong attendance and featuring panels on business growth, funding, contracting, and the use of artificial intelligence in business.

- SCDVA launched the quarterly March Forward Career Transition Workshop Series in March 2026. This training series equips transitioning service members, Veterans, and spouses with skills in résumé development, networking, interviewing, and job-offer evaluation.

b) South Carolina Smart Start. South Carolina Smart Start, our virtual transition assistance tool, continues to expand in functionality.

- In February 2026, we added an optional feedback mechanism to collect continuous user insights and began a strategic redesign to better guide transitioning service members through the five stages of transitioning from separating from military service to becoming thriving Veterans in South Carolina who positively serve the state.

- Despite these improvements, use of the tool has lagged capability, and in June, 2025, we launched a year-long marketing campaign to reach transitioning service members and encourage them to bring their skills to South Carolina.

c) Understanding the Veteran Population. Over the past year we initiated a number of cooperative studies and surveys to help us better understand the Veteran population and refine the services we offer. These include:

- A partnership with the D'Aniello Institute for Veterans and Military Families (IVMF) at Syracuse University to launch the state's first data-driven Veteran outreach and engagement pilot;

- A department-conducted state-wide needs assessment based on online surveys from 1,327 Veterans;

- An on-going partnership with Clemson University to assess Veteran needs; and

- An on-going contracted assessment of the state's Veteran Treatment Courts.

Line of Effort 3: **Advocate** for Veterans, military installations, service members, and families.

Strategic Objective 3: Sustain and expand the military presence[8] in South Carolina and secure South Carolina's role in national security.

a) The recently completed 2026 Economic Impact Study estimates the annual military contribution to South Carolina's economy to be about $43.1 billion, an increase of roughly 25% since 2022.

[8] There are eight major military installations in South Carolina, plus Fort Gordon in Augusta, Georgia. These installations include every branch of service except Space Force, and provide vital training, combat, and support service resources for national defense.

b) In FY25-26, the department assisted military installations and their associated communities on issues related to both the operational readiness of the installations and the quality of life of our active-duty service members and families.

- Operational Readiness
  - Provided a Military Enhancement Fund grant to Berkeley County for two marine firefighting capable boats and a heavy-duty tow vehicle to 1) improve emergency response time for water-based fire and rescue incidents; 2) increase protection for military personnel, dependents, and civilian staff at Joint Base Charleston and the Naval Weapons Station; 3) enhance multi-agency interoperability during maritime emergencies; and 4) provide critical capabilities for security at the Port of Charleston, vessel fires, environmental hazards, and mass casualty marine incidents.

  - Provided a Military Enhancement Fund grant to the City of Sumter for repair of a dam near Shaw Air Force Base to improve safety, allow for better water level management ahead of storms, and mitigate potential property damage from excessive stormwater at Shaw AFB, to include the Security Forces Firing Range, a key readiness facility.

  - Provided a Military Enhancement Fund grant to Beaufort County to assist in replacing the existing 60+ year old water transmission line providing potable water to Parris Island Recruit Depot, and the surrounding community.

- Quality of Life
  - Provided a Military Enhancement Fund grant to Charleston County to establish a U.S. Air Force-compliant drone program, laying the foundation for the county's drone capabilities for emergency management, public safety, search and rescue, inspection, and water and land management while assisting Joint Base Charleston in securing the airspace over the Charleston County International Airport and the strategic military and critical infrastructure assets along the Cooper River.

  - Worked with Fort Jackson and the South Carolina Department of Education to plan and execute the Military Honor Cord Ceremony for more than 250 high school graduates across the state who are entering the military.

  - Worked with the South Carolina Department of Education to increase the number of Purple Star Designated School Districts and Charter Schools that aid military families and students as they transition schools during their assignment in South Carolina. As of June 2026, there are 19 school districts and 10 independent schools designated as Purple Star in South Carolina.

c) In this fiscal year, the Military Enhancement Fund awarded four grants totaling $7,777,594.

Line of Effort 4: **Inform** and educate the public, State and local leaders, and Veterans on all matters pertaining to Veterans.

In the last fiscal year, our information efforts focused on expanding awareness of the support and resources available to Veterans and their families.

- We published a 24-page printed benefits guide for Veterans on services and resources offered by coalition partners, Veteran Service Organizations, and state agencies. We provided 20,000 copies to Veterans, County Veterans Affairs' Offices, Veteran service organizations, and state legislators.

- Our website (scdva.sc.gov) continues to see a steady traffic of visitors with strategic marketing content, driving our audience to the site (140,000+ visitors in FY25-26).

- Our monthly newsletter and bulletin service grew by nearly 200,000 subscribers in FY25-26 (currently 212,000+) with the addition of transitioning service members connected through our Workforce Enhancement team.

- The Department social media outreach continues to expand with nearly 1900+ YouTube subscribers, 550+ Twitter(X) followers, 3400+ Facebook followers, and 5300+ Linked-In connections.

- The Department continues to reach hundreds of thousands of viewers through television broadcasts using strategic marketing material developed by media vendors or produced internally.

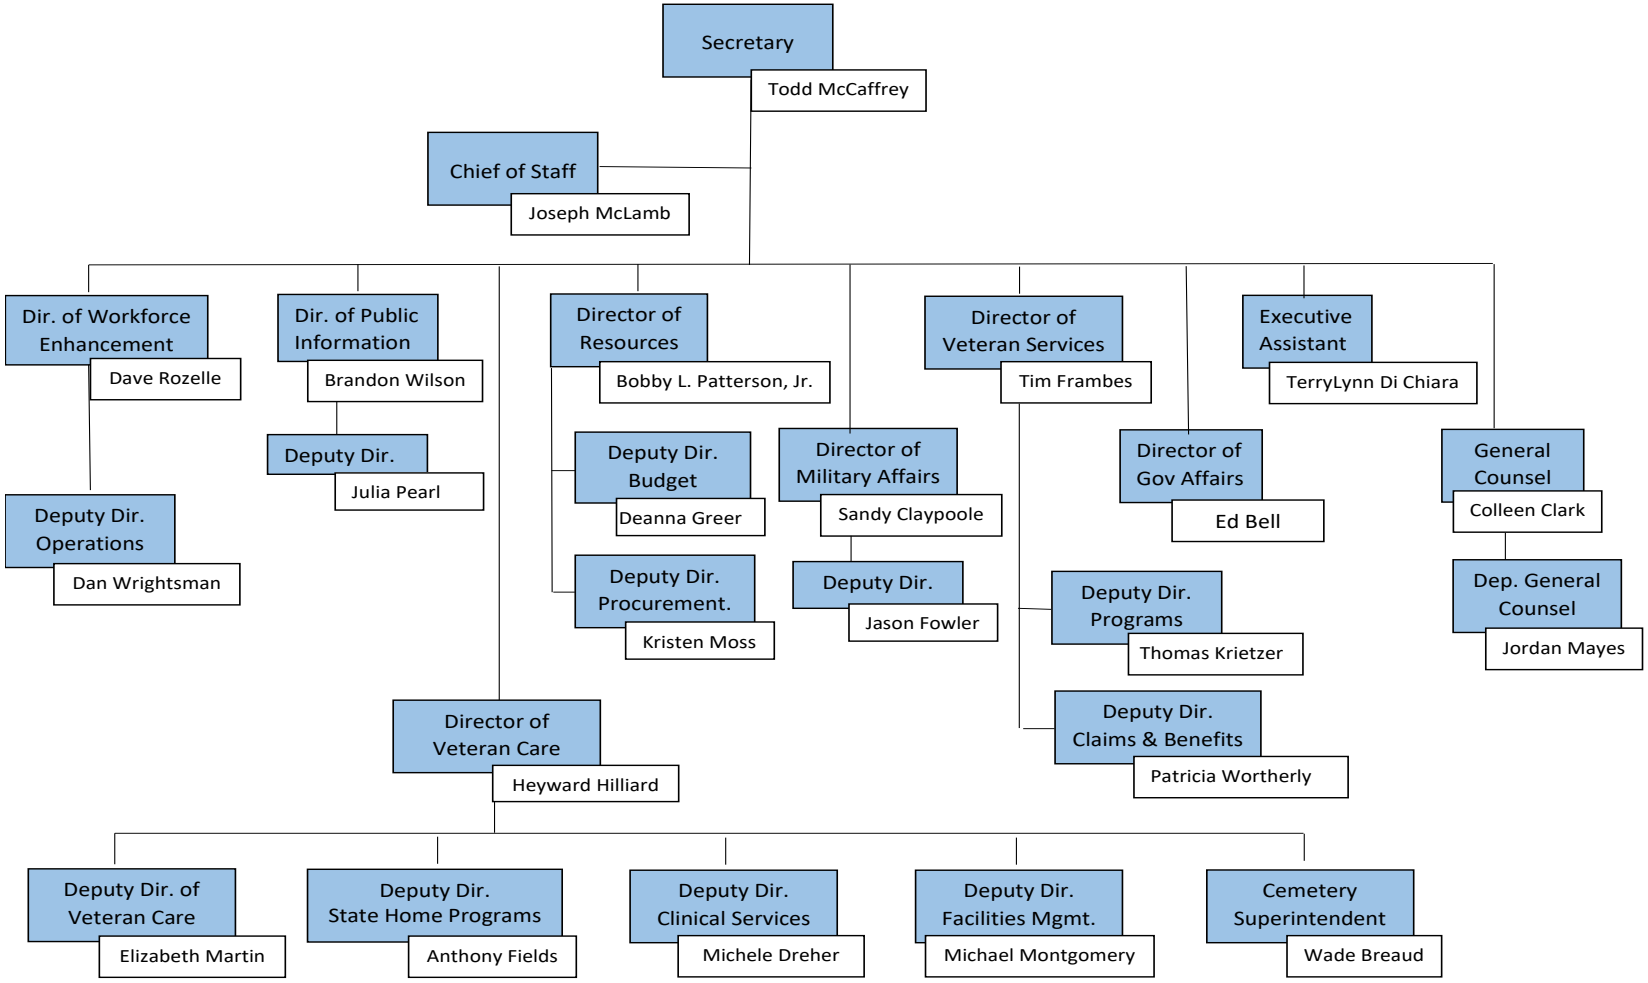

IV. Risk Assessment. Table 4 depicts our assessment of the risk of mission failure along each of our Lines of Effort at the beginning of FY26-27.

Line of Effort	Last Year's Assessment	This Year's Assessment	Trend	Explanation
1: Assist	Moderate	Low	Reduced	1. Evaluations of each County Veteran Affairs' Office have increased confidence in the services they provide. 2. Consistent high ratings of Veteran homes by federal oversight agencies indicate a superior level of service.
2: Enhance	Moderate	Moderate	No Change	Despite improvement in our data collection and management, we reach far less than the full population of transitioning service members and attain visibility on only a portion of those coming to South Carolina.
3: Advocate	Low	Low	No Change	Support for military installations remains high and there is little risk of federal action to reduce or eliminate the defense footprint in the state.
4: Inform	Low	Low	No Change	This effort remains a mature and well-functioning aspect of the Department's operations, with future improvements already planned and resourced.

Agency Mission	**Adopted in:**	**2022**

The South Carolina Department of Veterans of Affairs leads and enables a state-wide coalition of partners with an interest in Veterans to create and sustain an environment in which Veterans can thrive as valued and contributing members of the South Carolina community

Agency Vision	**Adopted in:**	**2022**

South Carolina’s Veterans and their families believe themselves to be sound in mind and body, satisfied by the dignified manner in which they are treated, respected by their fellow citizens, and proud of their continuing contributions

Recommendations for reorganization requiring legislative change:

None

Agency intentions for other major reorganization to divisions, departments, or programs to allow the agency to operate more effectively and efficiently in the succeeding fiscal year:

SCDVA reorganized and restructured its Operations Division within the Workforce Enhancement program area to strengthen the Agency's ability to support transitioning Service members and Veterans as they successfully enter or reenter the civilian workforce. The restructuring places increased emphasis on workforce development, small business ownership, entrepreneurship, and connecting transitioning Service members with the resources, training, and opportunities needed to achieve long-term economic success.

This organizational restructuring realigned program oversight and internal responsibilities to better integrate workforce transition services, entrepreneurship support, and small business development. The changes are intended to improve coordination, eliminate unnecessary duplication, and ensure that SCDVA resources are focused on helping transitioning Service members successfully navigate their transition into meaningful employment, business ownership, and entrepreneurial opportunities.
