AGENCY'S DISCUSSION AND ANALYSIS

The Medical University of South Carolina (MUSC) submits this FY26 Accountability Report to the Department of Administration to document the University's accountability for outcomes and sound stewardship of resources as a state-supported institution of higher learning.

The institution tracks longitudinal trends on all the outcomes identified as key performance indicators in this report. In addition to the successes related to these *a priori* outcomes, MUSC has maintained momentum across its educational, research, and health care operations, continuing to expand its role as a statewide educational and health care resource through its statewide presence and partnership. Over the past year, aligned with state and local leadership, MUSC continued to grow and improve the quality and depth of care and academic presence provided across the state in all 46 counties.

MUSC educates health care professionals across a broad range of disciplines through its six colleges with 3,491 students enrolled from 45 of the 46 South Carolina counties. In FY26, MUSC continued to grow enrollment in key academic programs where workforce shortages exist across the state. Overall student enrollment increased by 4.9% with expansions primarily in the College of Health Professions (CHP) and the College of Nursing (CON), and a 7 to 10% increase anticipated next year. This enrollment growth is supported by targeted academic and pipeline initiatives aligned with South Carolina's health care workforce needs. The College of Medicine (COM) welcomed 186 students, 94% of whom come from South Carolina to the M.D. Class of 2030, representing its largest class ever. MUSC's College of Nursing launched the state's first Acute Care Pediatric Nurse Practitioner program, expanding advanced practice workforce capacity. MUSC's CON also launched the PEARL Scholars Program, creating early clinical immersion opportunities in labor and delivery, mother-baby care, and neonatal intensive care for accelerated nursing students. MUSC received approval to offer new academic programs to address workforce needs, including a BS in Applied Health Intelligence and Administration, an MS in Healthcare Quality and Safety, and an MS in Cancer Biology. MUSC also advanced major facilities investments that will support future enrollment and workforce growth. This year, MUSC opened a new 70,000-square-foot College of Health Professions building housing modern education and research facilities. With legislative support, MUSC also continued construction on a new 186,000 sq. ft. College of Medicine building, which is anticipated to be completed in late 2027. These new state-of-the-art facilities will allow MUSC to significantly increase the number of graduates from each of these colleges.

This past year, MUSC, the Charleston County School District, and Trident Technical College celebrated the launch of the MUSC Health Science Program at Early College High School. The event marked the beginning of a transformative educational journey for the inaugural class of 25 students, selected from a competitive pool of nearly 200 applicants. This four-year program is designed to prepare high school students for careers in health care through a unique blend of academic rigor, real-world experience, and professional mentorship. MUSC has established strong collaborations with other higher education institutions in the state to encourage students to pursue careers in health care, biomedical research, and health administration. The University has formal agreements with seven undergraduate schools across the state to enable their students to matriculate at MUSC during the equivalent of their senior year of college, thus saving students both time and money and encouraging them to remain in South Carolina for their health care education.

MUSC's success in meeting students' needs is demonstrated by the fact that more than 90% of students graduate from their academic programs on time, therefore eligible to enter the health sciences workforce. Our commitment to educational excellence is reflected in the successes of our graduating students. We illustrate this with examples specifically from our M.D. program.

In the College of Medicine (COM),

- 98% of the 155 graduating M.D. students who entered the match successfully matched a residency program.
- 34 (22%) M.D. graduates of the MUSC Class of 2026 matched in residency programs at MUSC, and six (6) M.D. graduates will enter military residency.
- 46 (30%) of graduating M.D. students will complete their residency training in SC.
- 41% of students graduating with an M.D. will enter primary care, including Internal Medicine, Family Medicine, Pediatrics, Medicine-Pediatrics, and Obstetrics and Gynecology.
- Seven students who matched into qualifying South Carolina residency programs in underserved areas of the state will receive loan repayment assistance: Family Medicine (4), Psychiatry (2), and General Surgery (1).
- 18 MUSC-AnMed Year 3 and Year 4 medical students received loan repayment assistance for all qualifying pre-clerkship years.

MUSC provides students with supportive services that continue to receive high satisfaction rates as confirmed in surveys conducted by national accrediting bodies. In the 2026 AAMC survey of graduating medical students, MUSC's students reported higher satisfaction with university student support services than students at other medical schools. For example, student satisfaction with tutoring was 12 percentage points higher than the national mean. Satisfaction with student programs and activities that promote effective stress management, a balanced lifestyle, and overall well-being was 4 percentage points higher than the national mean.

MUSC also advanced innovation in health professions education through national leadership in artificial intelligence, digital health, and interprofessional education. These efforts included the launch and continued development of the Collaborative for AI and Digital Health in Interprofessional Education, as well as national presentations and scholarly products highlighting MUSC's work in this area. Together, these initiatives demonstrate MUSC's continued commitment to supporting student success from entry through professional preparation and into the health care workforce.

This past academic year, MUSC Health Charleston sponsored 982 Graduate Medical Education (GME) residents and fellows across 139 training programs, a nearly 20% increase from 116 programs. These programs include 91 Accreditation Council for Graduate Medical Education (ACGME) programs and 46 non-ACGME programs, placing MUSC among the largest GME enterprises in the nation and within the top 5% of sponsoring institutions by size. MUSC's training programs continue to demonstrate exceptional quality, with all programs maintaining Continued Accreditation status and achieving a match rate exceeding 95%. In addition to serving as a critical clinical workforce, residents and fellows contributed significantly to academic medicine through more than 600 publications and nearly 800 conference presentations during the past year.

As South Carolina faces a projected shortage of 815 primary care physicians by 2030, particularly in medically underserved areas, MUSC continues to expand graduate medical education opportunities aligned with the state's workforce needs. In FY26, MUSC Health Orangeburg welcomed its first Family Medicine and Psychiatry residents, establishing South Carolina's first Rural Training Program with comprehensive maternity care training. Through the MUSC Health Regional Network, MUSC is extending its teaching mission of more than 200 years into communities across the state. Existing regional residency programs include Internal Medicine in Lancaster and Family Medicine and Internal Medicine in Florence. Planned expansions include a Family Medicine residency at MUSC Health Lancaster Medical Center, a Family Medicine residency at Carolina Pines Regional Medical Center, and an Internal Medicine residency at MUSC Health Columbia Medical Center Downtown.

MUSC also continues efforts to recruit graduates into the MUSC faculty and health care workforce, helping expand access to care for the citizens of South Carolina.

MUSC also advanced statewide access to specialized care in ways that support its public mission as South Carolina's academic health sciences center. In FY26, MUSC Health Midlands Division opened South Carolina's first combined emergency and urgent care center, MUSC Health Orangeburg launched a mobile primary care unit to improve access for rural and underserved communities, and MUSC Health Charleston expanded specialty care capacity through the construction of a new hospital and ambulatory cancer facility in Nexton. MUSC Charleston also continued development of a new comprehensive cancer hospital, supported by state funding, to enhance access to advanced cancer care for patients across the state.

An additional area of strength and growth continues to be telehealth. The MUSC Health Center for Telehealth is recognized as one of only two Health Resources and Services Administration (HRSA)-awarded Telehealth Centers of Excellence in the nation. The Cener is responsible for maintaining virtual care access in SC, with a focus on closing the gaps in health care equity. The Center supports over 464 partner sites in 46 South Carolina counties—more than 40 hospitals and free-standing emergency departments, nearly 200 schools, and more than 200 community clinics—many of which are located in medically underserved regions. The MUSC Health Center for Telehealth has created and supports numerous innovative telehealth programs ranging from the statewide tele-stroke network and school-based telehealth to tele-ICU support and virtual specialty and primary care. MUSC also continues to oversee the South Carolina Telehealth Alliance (SCTA), a statewide network of health systems, providers, state agencies, and mission-aligned organizations working under a unified strategic plan. The SCTA supported over 880 connected sites and facilitated more than 1.2 million telehealth interactions this past year alone, provided telehealth technology to over 1,240 health care providers, and supported telehealth programming in 73 hospitals, free-standing emergency departments, and nearly 300 schools.

MUSC Health continues to champion a system-wide culture of innovation, encouraging entrepreneurship, educational advancements, and creative approaches to address challenges and opportunities across the enterprise. During Innovation Awareness Month, 113 projects were submitted from across the MUSC system. These projects stemmed from 272 leaders who selected innovation as a goal and participated in the submission, development, and advancement of innovative ideas. These initiatives exemplify MUSC's commitment to fostering scalable solutions that enhance patient care, improve operational efficiency, and elevate the experience of providers and staff throughout the health system. MUSC's intellectual property and commercialization pipeline was strong, led by the Zucker Institute for Innovation Commercialization (ZI). In FY26, 30 options and license agreements were executed, 129 new innovators were identified (including 7 from the regional health network), a record 193 invention disclosures were received, and 10 new companies launched. Additional research and innovation impact are evidenced by MUSC earning three top-10 national rankings for cell and gene therapy innovation from InPart and ProBio, strengthening its global research reputation.

The MUSC enterprise has a strong commitment to its OneMUSC strategic plan, which was approved by the Board of Trustees in October 2024. Since then, MUSC has established major strategic initiatives outlined in the plan. The plan has three primary focus areas, each supported by strategies championed by senior leaders across the enterprise.

1. Empower healthy communities

- Exceed patient and family expectations
- Collaborate to expand access to education, research, and patient care
- Improve outcomes and eliminate health disparities

2. Drive innovation and health transformation

- Accelerate preeminence in key areas: cancer, digestive health, heart and vascular, neurosciences, and precision health
- Double funding to create new knowledge and scientific discoveries
- Embrace transformative changes in health care, clinical trial enrollment and learning
- Stimulate South Carolina's economy through innovation

3. Reshape the future workforce

- Cultivate a culture of engagement and exemplary experience
- Adopt a well-being plan that helps us thrive
- Enable our people to develop and grow professionally
- Anticipate and meet workforce demands

Each strategy, along with its corresponding initiatives within the three focus areas, is aligned with broader strategic plans (e.g., the AI Strategic Plan). Every initiative is supported by a team of operational owners responsible for developing an 18-month activation plan, which includes key performance measures to monitor and track progress. This structured framework is designed to drive progress toward the two aspirational goals the institution aims to achieve over the next 20 years:

- South Carolina will be top 20 in the nation for health outcomes.
- MUSC will be a top 20 academic health system in the nation.

Lofty but achievable goals inspire the MUSC family and our communities to drive change and excellence across higher education and health care.

The items above and presented in the Strategic Planning component of this report reflect the goals and objectives that align closest with **MUSC's role as a state-supported institution of higher education**. These **goals align with the enterprise objective to provide Education, Training, and Human Development** with the MUSC mission goals of educating health care professionals and biomedical scientists and conducting research in the health sciences, and with the OneMUSC strategic focus to harness Innovation, Impact, and Influence to carry out institutional strategies over the next five years. MUSC's performance on the FY26 goals specified in last year's Accountability Report also reflects our commitment to excellence and stewardship of the resources entrusted to us by the state.

Goal 1: Preserve and optimize human life in South Carolina and beyond by effectively educating health care professionals and biomedical scientists.

Many of the available FY26 measures related to educating health care professionals and biomedical scientists met or exceeded targets. Notable achievements include MUSC's tuition inflation rate was -2.2%, reflecting our commitment to providing affordable education to future healthcare professionals. More than 92% of entering students graduate on time. These students are well prepared, both in their profession-specific skills and in teamwork skills critical to effective healthcare. A significant amount of credit for this achievement goes to our stellar faculty, 92% of whom were rated by students as effective teachers.

Goal 2: Preserve and optimize human life in South Carolina and beyond by conducting research in the health sciences.

For the goal reflecting our research mission, our measures showed strong results and exceeded both target and historical performance. MUSC is the leading biomedical research enterprise in South Carolina ($334M in extramural funding and over 1,315 active clinical trials in FY26) and are having a positive impact on a growing knowledge-based state economy (an estimated $10.1B annual economic impact). For research funding, our outcomes remained high and above target. MUSC is in the top quintile of all health science centers in the nation in National Institutes of Health (NIH) funding, and we are good stewards of our research dollars, demonstrating efficiency in operations. We continue to work to better incorporate cutting-edge research advances into our clinical practice and into private industry solutions that touch the lives of citizens in South Carolina.

Risk Assessment and Mitigation

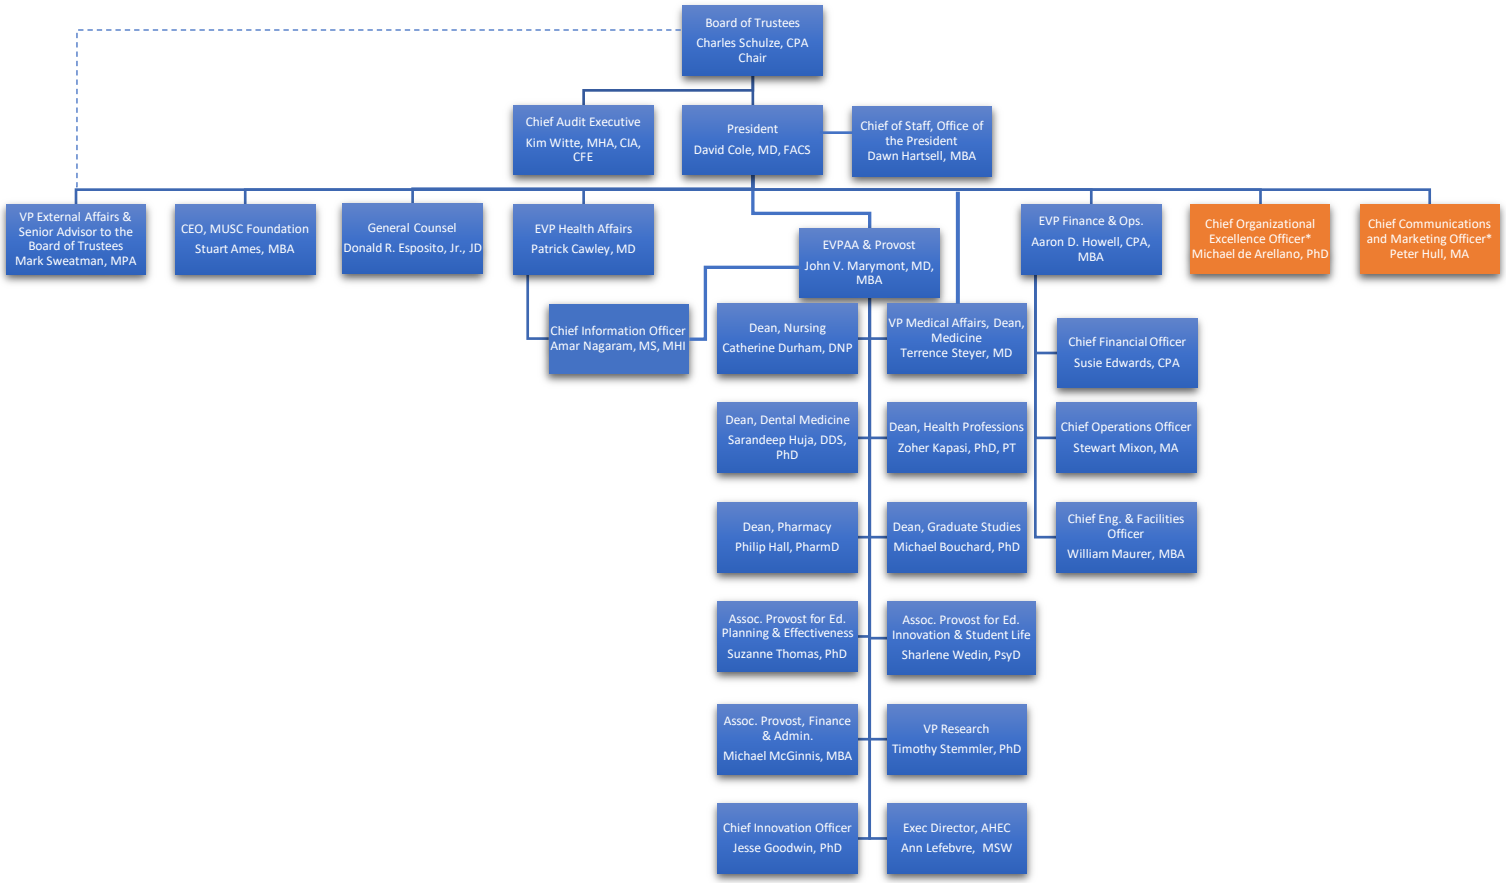

MUSC's strategic risk management process was initiated to identify, evaluate, and mitigate risks that could prevent the enterprise from achieving its objectives. MUSC accomplishes this through the periodic development of an extensive inventory of both industry and local risks, which is analyzed based on the likelihood a risk event will occur and the impact of the risk event if it were to materialize. Risks above a materiality threshold are assigned to risk champions, who have expertise in the risk subject matter and are responsible for facilitating mitigation strategies and evaluation standards. Risks with the greatest potential for negative impact to the public are those that could interfere with MUSC's ability to provide quality healthcare, impactful research, and essential education to future providers of healthcare services and scientific discovery. Plans developed to mitigate these risks can have both internal and external components.

Per the state's request, below are three options for the General Assembly to help resolve issues before they become crises:

- Continue funding higher education to help to reduce student debt and develop a more robust pool of qualified applicants for MUSC's degree programs;
- Enhance MUSC's ability to respond expeditiously and effectively to opportunities arising from rapidly changing health care and education environments; and
- Invest in graduate medical education to help address the shortage of health care providers in South Carolina and across the nation.

Agency Mission	**Adopted in:**	**2021**

The Medical University of South Carolina (MUSC) is South Carolina's only comprehensive academic health sciences system. Our purpose is to preserve and optimize human life in South Carolina and beyond. MUSC provides an interprofessional environment for learning, discovery, and healing through (1) education of health care professionals and biomedical scientists, (2) research in the health sciences, and (3) provision of comprehensive health care.

Agency Vision	**Adopted in:**	**2015**

Leading health innovation for the lives we touch.

Recommendations for reorganization requiring legislative change:

None

Agency intentions for other major reorganization to divisions, departments, or programs to allow the agency to operate more effectively and efficiently in the succeeding fiscal year:

None

Significant events related to the agency that occurred in FY2026

Description of Event	Start	End	Agency Measures Impacted	Other Impacts
No significant events impacted performance measures.				

Is the agency in compliance with S.C. Code Ann. § 2-1-220, which requires submission of certain reports to the Legislative Services Agency for publication online and the State Library? (See also S.C. Code Ann. § 60-2-20).	Yes
Reason agency is out of compliance: (if applicable)	
Is the agency in compliance with various requirements to transfer its records, including electronic ones, to the Department of Archives and History? See the Public Records Act (S.C. Code Ann. § 30-1-10 through 30-1-180) and the South Carolina Uniform Electronic Transactions Act (S.C. Code Ann. § 26-6-10 through 26-10-210).	Yes
Does the law allow the agency to promulgate regulations?	No
Law number(s) which gives the agency the authority to promulgate regulations:	
Has the agency promulgated any regulations?	No
Is the agency in compliance with S.C. Code Ann. § 1-23-120 (J), which requires an agency to conduct a formal review of its regulations every five years?	Yes

(End of Reorganization and Compliance Section)

FY2026

Partnerships Data

as submitted for the Accountability Report by:

H510 - MUSC & H530 AREA HEALTH EDUCATION CONSORTIUM

Type of Partner Entity	Name of Partner Entity	Description of Partnership	Change to the partnership during the past fiscal year
Private Business Organization	CHS Development Corporation	MUSC partners with the CHS Development Corporation (CHS), a non-profit corporation established in 2003, to obtain financing for the University to acquire and develop real property.	No Change
Higher Education Institute	Clemson University	MUSC partners with Clemson to offer the joint Ph.D. in Biomedical Data Science and Informatics. MUSC and Clemson have also developed nine accelerated pathway programs, reducing time to professional degree for Clemson students. MUSC and Clemson collaborate closely on research initiatives in key areas of health sciences. The organizations have also teamed up with the goal of creating a national model for student health care and well-being initiatives, focused not only on the immediate needs of the community during the COVID-19 pandemic but also the ongoing health demands of the Clemson student population. Finally, MUSC and Clemson launched Healthy Me - Healthy SC, a statewide program created to improve health care access and combat health disparities. MUSC's Chief Physician Executive, Dr. Eugene Hong, serves as the Chief Medical Officer and advisor for Clemson athletics.	No Change

Type of Partner Entity	Name of Partner Entity	Description of Partnership	Change to the partnership during the past fiscal year
Higher Education Institute	Coker University	MUSC partners with Coker University to offer accelerated pathways in which students are eligible to receive credits towards their undergraduate degree for completing their first year at MUSC. These pathways allow students to reduce time in school and educational debt.	No Change
Higher Education Institute	College of Charleston	MUSC partners with the College of Charleston (C of C) to offer accelerated pathways in which students are eligible to receive credits towards their undergraduate degree for completing their first year at MUSC. These pathways allow students to reduce time in school and educational debt. The College of Charleston and MUSC joined forces in 2020 to provide enhanced student health care, including psychiatric services, to CofC students.	No Change
Federal Government	Department of Education	MUSC receives Title IV funds to support its education mission.	No Change
Federal Government	Federal Research Support Entities (NIH, NSF)	MUSC receives federal grant support to achieve its research mission.	No Change

Type of Partner Entity	Name of Partner Entity	Description of Partnership	Change to the partnership during the past fiscal year
Higher Education Institute	Francis Marion University	MUSC partners with Francis Marion University to offer accelerated pathways in which students are eligible to receive credits towards their undergraduate degree for completing their first year at MUSC. These pathways allow students to reduce time in school and educational debt.	No Change
Private Business Organization	Greenwood Genetic Center	The Greenwood Genetic Center (GGC) and the Medical University of South Carolina (MUSC) partner to improve access to high-quality, coordinated and cost-effective genetic services and drive innovation in the genetics field. The deeper relationship between GGC and MUSC Health presents opportunities to further improve access and enhance patient care, increase access to a broader range of educational opportunities for MUSC students, and position the organizations to take advantage of future strategic research initiatives. The two entities have worked together on clinical consultations, provider education, and research for more than a decade. The partnership relationship adds depth and breadth of the almost two-year old formal affiliation.	No Change
Private Business Organization	Medical University Facilities Corporation	MUSC partners with the Medical University Facilities Corporation (MUFC), a non-profit corporation established in 1992, to obtain financing from the University to acquire real property.	No Change

Type of Partner Entity	Name of Partner Entity	Description of Partnership	Change to the partnership during the past fiscal year
State Government	Medical University Hospital Authority (MUHA)	MUSC partners with the Medical University Hospital Authority (private, non-profit 501(c)3) to form the only comprehensive academic medical center in the state of SC. This partnership facilitates MUSC's mission to provide comprehensive health care.	No Change
Private Business Organization	Medtronic	Medtronic and the Medical University of South Carolina (MUSC) announced a renewal of their five-year health care partnership in 2026 intended to transform and improve care for patients in South Carolina. The MUSC and Medtronic partnership will advance each organization's strategic goals in an ever-changing environment and deliver measurable, bi-directional value through patient-centered and operationally focused collaboration.	Amend
Private Business Organization	Modern Minds	MUSC Health and Modern Minds, a Charleston-based adult mental health and wellness clinic, have launched a collaboration to offer a one-stop holistic approach to mental, emotional, and physical wellness. The fully integrative health model engages with clients experiencing stress, depression and/or anxiety and leverages a team of psychologists, psychiatrists, licensed social workers, and wellness mentors who work together to provide a comprehensive care solution. The effort seeks to move more people toward balanced wellness in all areas of their lives, addressing physical activity, nutrition, mindfulness, relationships, family, and work. The clinic incorporates faculty from MUSC and fellows which furthers the education and research mission.	No Change

Type of Partner Entity	Name of Partner Entity	Description of Partnership	Change to the partnership during the past fiscal year
Private Business Organization	MUSC Foundation	MUSC partners with the MUSC Foundation (MUSCF), a non-profit corporation established in 1966, to support education, research, patient care, and other programs at the Medical University.	No Change
Private Business Organization	MUSC Foundation for Research Development	MUSC partners with the MUSC Foundation for Research Development (d/b/a Zucker Institute for Innovation Commercialization, "ZI") , a non-profit corporation established in 1995, in order to evaluate all intellectual assets the enterprise owns and generates, extracting value, and forging industry and other relationships resulting in products and services that provide real-life solutions to the world's medical needs.	No Change
Private Business Organization	MUSC Physicians (University Medical Associates or UMA)	MUSC partners with MUSC Physicians (UMA), a non-profit corporation, to facilitate the clinical responsibilities and clinical compensation for College of Medicine faculty whose contracts stipulate clinical practice.	No Change
Private Business Organization	MUSC Strategic Ventures	MUSC Strategic Ventures (MSV) is a non-profit formed in 2015 to allow affiliation with tax-exempt entities to support the missions and programs of the Medical University of South Carolina, UMA, and MUHA.	No Change
State Government	SC Area Health Education Consortium (AHEC)	SC AHEC facilitates the Statewide Family Practice Residency System, the Graduate Doctor Education Program, and the Area Health Education Center Program.	No Change

Type of Partner Entity	Name of Partner Entity	Description of Partnership	Change to the partnership during the past fiscal year
Private Business Organization	Siemens Healthineers	MUSC and Siemens Healthineers formed a first-of-its-kind strategic partnership in 2018 with the mutual goal of advancing the quality of health care in South Carolina. The partnership capitalizes on the coupling of MUSC's clinical care, research and education expertise with Siemens Healthineers' engineering innovations and workflow-improvement capabilities.	No Change
State Government	South Carolina (state grants & contacts)	MUSC receives state grants and contract support to achieve its tripartite mission of education, research, and health care.	No Change
Private Business Organization	Helix	MUSC and Helix have a strategic collaboration to develop a first-of-its-kind population genomics initiative in South Carolina called In Our DNA SC. The large-scale program is designed to improve health care outcomes by integrating genetic insights into clinical care and research. The statewide initiative will enroll 100,000 patients in genetic testing over the next four years at no cost to the patient.	No Change
Private Business Organization	Butterfly	Together with Butterfly, MUSC aims to transform patient care, health education and medical research by empowering its clinicians, students and researchers with point-of-care access to AI-powered, handheld ultrasound.	No Change
Federal Government	Fetter	In collaboration with Fetter, MUSC works to increase access to care and address health equity in South Carolina.	No Change

Type of Partner Entity	Name of Partner Entity	Description of Partnership	Change to the partnership during the past fiscal year
Private Business Organization	Boeing	MUSC and Boeing engage in enterprise-wide collaborations to serve South Carolina, including the MUSC Boeing Center for Children's Wellness.	No Change
K-12 Education Institute	Charleston County School District/Trident Technical College	Charleston County School District (CCSD) announced a partnership with MUSC and Trident Technical College that will expand opportunities for Charleston area students to explore and become certified in health sciences careers. This new partnership creates career readiness pathways for students while supporting community development and workforce engagement to address shortages in a plethora of critical roles in health care, including but not limited to phlebotomists and certified nursing assistants, registered nurses, and physicians	No Change
Higher Education Institute	Claflin	MOU with MUSC for accelerated pathway to Pharmacy school for well-qualified Claflin students	Amend
Non-governmental Organization	Pee Dee Medical and Health Sciences Education Consortium (PDMHSEC)	PDMHSEC is composed of the University of South Carolina, the Medical University of South Carolina, and Francis Marion University. The nonprofit purpose of the PDMHSEC is to increase the presence and scope of health care providers across the northeastern quadrant of South Carolina	No Change

Type of Partner Entity	Name of Partner Entity	Description of Partnership	Change to the partnership during the past fiscal year
Non-governmental Organization	Shriners Hospital	MUSC and Shriners Hospitals for Children (Shriners Children's) have announced an affiliation to elevate pediatric burn care and research at the MUSC Shawn Jenkins Children's Hospital. This is a component of the comprehensive South Carolina Burn Center. The partnership expands education and research opportunities for university faculty, staff, and students.	Amend
Private Business Organization	AnMed Health	AnMed Health announced a new affiliation with MUSC to provide enhanced access to leading medical treatment while optimizing the care already in place. AnMed Health and the MUSC College of Medicine have partnered to create an innovative Clinical Education Program at AnMed Health for medical students. Through the partnership, selected third- and fourth-year MUSC students will complete their final two years of education at AnMed Health in a curriculum designed to emphasize patient-centered primary care.	No Change

Type of Partner Entity	Name of Partner Entity	Description of Partnership	Change to the partnership during the past fiscal year
K-12 Education Institute	Orangeburg County School District	MUSC Health now serves as OCSD's complete physician, medical, and athletic training support provider. The partnership includes seven high schools and will extend to the summer months for off-season conditioning. Injured or ill athletes and coaches will receive expedited access to the vast services provided by MUSC Health as well as injury prevention education. The partnership also grants OCSD access to additional services, such as MUSC Health's Sports Concussion Program, enhanced access to MUSC Health's referral network and clinical trials if necessary. "Partnerships, such as this one, allow us the opportunity to bring high-quality care directly into the communities we serve. Our team's goal is not only to provide the best treatment for injured athletes but also to educate students and staff on injury prevention and healthy habits for athletes," said Echo McAlhany, MUSC Health-Orangeburg's executive director of Ambulatory Services. The school district joined forces with the MUSC to provide Telehealth and Behavioral Telehealth services to all students enrolled.	No Change
K-12 Education Institute	Orangeburg High School for Health Professions	MUSC Health Orangeburg, in partnership with the High School for Health Professions and MUSC Health's Office of Workforce Development, launched "Wednesdays at MUSC Health," an after-school program offering students weekly encounters in critical healthcare occupations led by Care Team Members. The school joined forces with the MUSC to provide Telehealth and Behavioral Telehealth services to all students enrolled. MUSC has partnered with many of the SC Technical Colleges across the state to provide clinical rotations for their students while the colleges are able to provide additional training programs.	No Change

Type of Partner Entity	Name of Partner Entity	Description of Partnership	Change to the partnership during the past fiscal year
Private Business Organization	Care.com	MUSC is partnering with Care.com, the world's largest platform for finding and managing care for children and adults, to provide benefits-eligible employees with a complimentary Care.com Premium Membership. As part of a pilot program, in addition to finding care through the Care.com platform, a subset of benefits-eligible employees will also be eligible to receive 5 days of subsidized Backup Dependent Care, for use when regular care is disrupted, preventing them from reporting to work. This includes both in-home care or in-center care or Personal Care Network.	No Change
State Government	SC Vocational Rehab	MUSC collaborates with SC Vocational Rehab through HR for job placements.	No Change
State Government	State Department of Commerce	MUSC and the State Department of Commerce are collaborating on workforce development initiatives. MUSC was invited to the Department of Commerce Workforce Symposium to present on the partnership between MUSC, Charleston County School District, and Trident Technical College that developed the new MUSC Health Science Program in the Early College High School.	No Change
Higher Education Institute	Central Carolina Technical College	MUSC has partnered with many of the SC Technical Colleges across the state to provide clinical rotations for their students while the colleges are able to provide additional training programs.	No Change

Type of Partner Entity	Name of Partner Entity	Description of Partnership	Change to the partnership during the past fiscal year
Private Business Organization	Baxter	MUSC Health|MUSC and Baxter have established a multi-year strategic partnership to advance patient care through connected care technologies, while supporting the mission and goals of MUSC's College of Nursing. The collaboration will leverage Baxter's technology and MUSC's clinical and academic expertise to enhance quality and safety outcomes, strengthen nurse satisfaction and retention, and drive innovation in care delivery.	Add
Federal Government	US Department of Veterans Affairs	The Medical University of South Carolina has partnered with the Ralph H. Johnson VA Health Care System on research and educational programming. (Academic Affiliates)	Add
Non-Government Organization	SCBio	Collaborate on entrepreneurial support within South Carolina.	Add
