Agency Accountability Report: Executive Summary

BHDD Overview

Act 3 of 2025 established the South Carolina Department of Behavioral Health and Developmental Disabilities (BHDD) on April 28, 2025. The law consolidated the Department of Mental Health, the Department of Disabilities and Special Needs, and the Department of Alcohol and Other Drug Abuse Services into one cabinet agency with three component offices: the Office of Intellectual and Developmental Disabilities, the Office of Mental Health, and the Office of Substance Use Services.

The consolidation was designed to reduce fragmentation and duplication across the state's behavioral health and disability services, establish clear lines of accountability, and deliver a more holistic and streamlined system of care for South Carolinians.

Meeting these objectives will be a multi-year undertaking. BHDD leads one of the largest and most complex systems of care in state government, with services ranging from prevention and crisis response to community treatment, long-term residential care, and inpatient hospital care. In its first 14 months, the agency made substantial progress toward the goals of Act 3 while continuing to deliver those services statewide.

BHDD has a statewide workforce of more than 5,000 employees serving all 46 counties. The agency operates six state hospitals and inpatient facilities, 16 community mental health centers, five intermediate care facilities for people with intellectual and developmental disabilities, and community residential homes. BHDD also provides funding, training, and oversight to community providers, including county disabilities and special needs boards and county alcohol and drug abuse authorities, which deliver residential, prevention, treatment and recovery services under contract.

This report covers BHDD's first 14 months, from April 28, 2025 through June 30, 2026. As Act 3 permitted, the three offices operated during that year on the separate appropriations of their predecessor agencies. By June 30, 2026, BHDD had adopted a unified organizational structure, designed with the Department of Administration under Proviso 93.23, that groups similar work from the three former agencies into agencywide functions.

This restructuring represents a significant transformation in the State's approach to behavioral health, disability support, and substance use services by creating a unified system to reduce fragmentation, establish clear lines of accountability, and deliver a more holistic and streamlined system of care for South Carolinians.

Agency Restructure

When BHDD was established, the three former agencies continued to operate in parallel, and most administrative functions remained separate systems. Proviso 93.23 of the FY 2025-26 Appropriations Act directed the Department of Administration to analyze the three agencies and

carry out a structural reorganization, including any reduction in force its findings supported. A May 6, 2025, directive from Gov. Henry McMaster charged Admin with implementing the requirements of Act 3 while supporting the ongoing operations of BHDD's component offices. The directive also required Admin to review agency vacancies before they were posted or filled.

The reorganization replaced three administrative systems with one, and a reduction in force on June 30, 2026 reduced the number of administrative positions by 25%, from 1,100 in April 2025 to 825 on June 30, 2026. Most of the reduction came from deleting vacant positions, which limited the reduction in force on June 30, 2026 to 47 employees. The new agency structure adopted in June 2026 organizes the agency by function:

- **Office of Intellectual and Developmental Disabilities, Office of Mental Health and Office of Substance Use Services.** The three statutory offices lead program policy, program administration, and oversight of community providers for the populations they serve. Each retains the specialized expertise its population requires.
- **Office of State Operations.** One branch runs all state-operated facilities: inpatient psychiatric hospitals, substance use treatment facilities, mental health residential and long-term care, intermediate care facilities, state-operated autism homes and outpatient mental health facilities.
- **Office of Medical Oversight.** One branch is responsible for medical oversight of state facilities, quality management and performance improvement, clinical guidance, and complex case management.
- **Central administrative and strategic functions.** Finance, procurement, human resources, facilities maintenance, information technology, legal, communications, and governmental affairs serve the whole agency.

Key Accomplishments

BHDD's first 14 months focused on two priorities: consolidating three agencies into one accountable organization, and organizing services around the needs of individuals and families. Key accomplishments include:

1. Increasing access to services. BHDD works at the state and local level to build awareness and trust, deliver services to underserved communities and populations, and increase access to consultations and treatment.

- BHDD **community mental health centers** took part in 1,240 community outreach events in FY 2025-26, and the First Responder Support Team and mobile crisis teams added 508 more.
- **Highway to Hope** mobile units delivered behavioral health services to rural communities and underserved populations.
- **Assertive Community Treatment**, which serves adults with serious mental illness in their homes and communities, operates at 13 of 16 centers.

- **Multidimensional Family Therapy**, an in-home model for youth and families affected by substance use and mental health conditions, operates at 11 centers with 37 trained staff.
- **Jail-based treatment and diversion**. In Aiken County, a partnership with the sheriff's office allows competency restoration to take place inside the detention center.

2. Strengthening crisis care. BHDD continues to align and strengthen the state's continuum of crisis care so that South Carolinians in crisis have someone to contact, someone to respond, and a safe place for help. The system is designed to match each person to the right level of care and prevent unnecessary emergency department visits, hospitalizations, and incarceration.

- BHDD is the state lead for the national **988 Suicide and Crisis Line**. In calendar year 2025, the state's two in-state 988 centers answered 87% of calls.
- BHDD **mobile crisis response** teams responded on site 4,875 times in calendar year 2025, 9% more than the year before. Average response time was 46 minutes, within the 60-minute national benchmark. In 69% of responses, the person was diverted from an emergency department, jail or hospital.
- BHDD's **alternative transportation program**, now statewide, moved more than 6,800 people from emergency departments to care in calendar year 2025, reducing the time law enforcement officers spend on involuntary transports.
- BHDD's **crisis stabilization** unit in Charleston admitted 336 adults in calendar year 2025, with stays averaging 2.8 days. A second unit opened in Columbia in 2025 and served 27 people in its first three months.
- BHDD trained 988 and mobile crisis responders to recognize and serve people with substance use disorders and people with intellectual and developmental disabilities. BHDD also trains law enforcement officers to respond to people in crisis because of a mental illness or a developmental disability.

2. Integrating care. BHDD began placing substance use and disability specialists in its community mental health centers so people with co-occurring needs can receive coordinated care in one place.

- All 16 community mental health centers now serve people with co-occurring intellectual and developmental disabilities.
- In Aiken County, staff from BHDD Aiken Barnwell Mental Health Center work on site at Aiken Center, an independent substance use treatment provider, and Aiken Center staff work at BHDD clinics in Aiken and North Augusta. Local opioid settlement funds support these positions.
- BHDD is recruiting and training clinicians with expertise in intellectual and developmental disabilities and substance use to build multidisciplinary teams that treat co-occurring conditions.

3. Supporting successful transitions. BHDD is strengthening connections among primary care practices, community mental health centers, county alcohol and drug abuse authorities, disability service providers and other state agencies to close gaps in care as people move between services.

- **Hospital discharge.** BHDD transition specialists supported the discharge of 506 patients from BHDD psychiatric hospitals in FY 2025-26. Patients received a first follow-up service an average of 5.7 days after discharge, and fewer than 2% were readmitted within 30 days.
- **School to adulthood.** BHDD transition coordinators reached 896 young adults ages 18 to 22 to connect them with disability services, and provided technical assistance to 88% of South Carolina school districts.
- **Housing.** BHDD uses Bull Street Trust funds to develop supportive housing, and more than 1,100 supportive housing units are available to BHDD patients statewide. State-funded rental assistance at all 16 community mental health centers kept 94% of its 309 units occupied as of June 30, 2026, at an annual cost of less than $8,000 per unit. A partnership with SC Housing connects patients with new tax credit housing, and the Homeshare program places patients with host families in 22 counties.
- **Employment.** Through Individual Placement and Support, 607 people with serious mental illness held jobs in calendar year 2025. The number of people with intellectual and developmental disabilities working in the community with individualized supports rose 16%, to 1,394.

5. Enhancing safety and quality. BHDD strengthened oversight of the facilities it operates and the providers it funds.

- At its five intermediate care facilities, an independent evaluation completed in January 2026 is guiding improvements in staffing, training, clinical services and transition planning.
- Across service lines, BHDD maintains accreditation through CARF and The Joint Commission, conducts financial compliance reviews and internal audits, monitors Medicaid providers, and tracks corrective action plans.
- The new **Office of Medical Oversight** brings quality management, performance improvement, and clinical guidance for all state facilities into one structure.

Strategic Direction

In creating BHDD, the General Assembly charged the agency with three responsibilities: access, efficiency and specialized services. In 2026, BHDD's adopted strategic framework for FY 2026-27 that follows directly from that mandate.

Vision: Hope within reach for every South Carolinian.

Mission: Working collaboratively, BHDD leads a statewide continuum of behavioral healthcare and specialized disability services so that every South Carolinian has the opportunity for a full and self-determined life.

Operating Principles: Lead with compassion. Operate with excellence. Work as one team. Build trust. Find a way.

Goal 1: Access for every South Carolinian. BHDD works to ensure that every South Carolinian can reach the resources, care, and support they need, regardless of income or ZIP code.

1.1 Establish clear, consistent points of entry and timely access to care.

1.2 Increase public knowledge and awareness through coordinated prevention and health promotion strategies.

1.3 Strengthen the statewide crisis care system, with follow-up care that connects people to ongoing treatment and community resources.

Goal 2: A coordinated, sustainable system. BHDD aligns providers, partners, and funding across the continuum of care and holds the system accountable for results.

2.1 Complete the integration of the three former agencies.

2.2 Coordinate care so individuals and families reach the right services with fewer handoffs.

2.3 Strengthen the community provider network and partnerships.

2.4 Blend and braid state, federal, and other funding to sustain and expand essential services.

Goal 3: Specialized care, delivered directly. As the state's safety net, BHDD provides specialized services where other providers are unable to meet the need and delivers them at the highest standard of quality and safety.

3.1 Strengthen safety and quality across state-operated facilities through consistent standards and regular review of incidents and outcomes.

3.2 Expand specialized clinical capacity, including behavioral and psychiatric care, for people with the most complex needs.

3.3 Match each person to the right level of care at the right time, in the least restrictive setting, with discharge planning and support for transitions to the community.

Risk Assessment and Mitigation

BHDD's strategic goals depend on strong operational foundations: a skilled workforce, steady leadership, sound finances, modern technology, safe facilities, consistent policies and clear communication. The risks below identify where weaknesses in those foundations could most affect the people BHDD serves, along with the agency's strategies to address each one.

Adverse incidents
Potential impact: Harm to patients, residents and employees; legal and regulatory liability.
Mitigation: Apply consistent incident reporting and review across state-operated facilities; strengthen hiring, supervision and employee relations practices; provide training and professional development that builds competence, reduces risk and improves quality.

Emergencies and disasters
Potential impact: Injury or loss of life among patients, residents, and staff; interrupted services and facility operations; greater need for behavioral health support in affected communities.
Mitigation: Maintain all-hazards emergency plans at every facility, with regular training and exercises that meet federal certification requirements; adopt an agencywide continuity of operations plan; coordinate evacuation, sheltering and recovery with the South Carolina Emergency Management Division and local emergency managers; provide disaster behavioral health services to affected communities.

Workforce shortages
Potential impact: Reduced service capacity, heavier workloads for current staff and longer wait times.
Mitigation: Accelerate hiring and onboarding through centralized human resources; use contract staff as a bridge for critical positions; develop a performance-based pay structure within state rules.

Change management and leadership transitions
Potential impact: Delayed long-term decisions and uncertainty for employees and partners.
Mitigation: Implement the strategic framework and organizational structure; align budget decisions with strategic goals; expand training for leaders and supervisors; publish and track a core set of agencywide performance measures, using FY 2025-26 baselines, to give leaders, employees and partners a shared view of the agency's direction.

Funding changes
Potential impact: Reduced funding for essential programs and services as changes to federal Medicaid financing take effect and federal grant levels shift.
Mitigation: Improve financial efficiency; ensure services are fully and accurately billed; coordinate state, federal and other funding streams; pursue new sources, such as federal Rural Health Transformation awards.

Data and technology gaps
Potential impact: Limited ability to collaborate across the agency, coordinate referrals, measure results and protect sensitive health information.
Mitigation: Consolidate three legacy IT environments into one; procure the collaboration technology Act 3 requires for secure referrals and a single client record; carry out an information security strategy aligned with state policy.

Aging infrastructure
Potential impact: Safety hazards, greater vulnerability during emergencies and higher costs from deferred maintenance.
Mitigation: Implement a centralized work order system and a preventive maintenance program across all facilities; assess facility conditions to set capital priorities.

Inconsistent policies and internal communication

Potential impact: Uneven practices across sites, slower decisions, compliance gaps and confusion for employees.

Mitigation: Replace predecessor agency policies and procedures with one agencywide set; align internal operations to improve efficiency; share information through supervisors, an agencywide intranet and regular training.

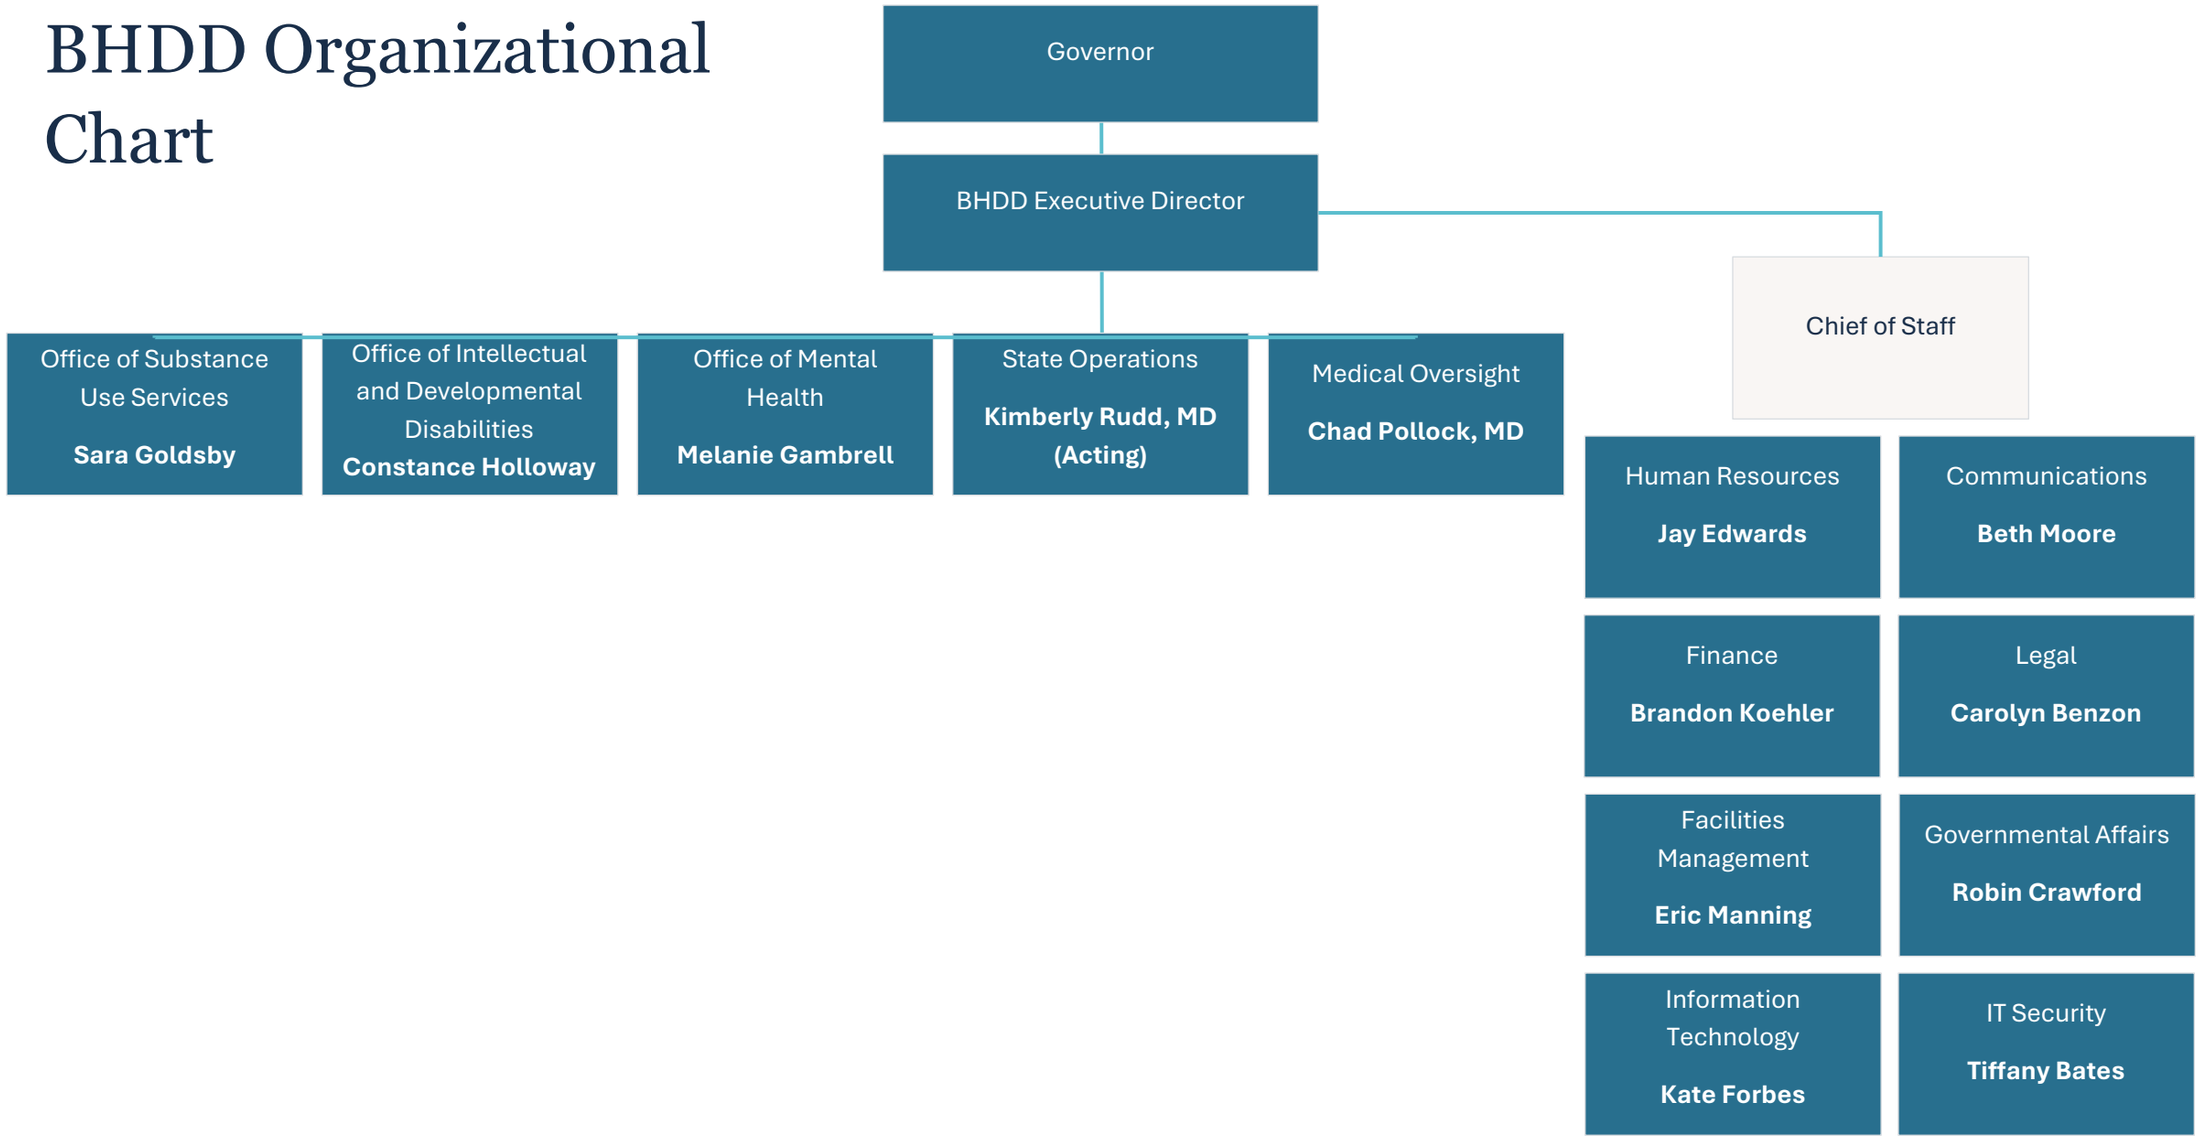

Limited public awareness

Potential impact: Low public trust, missed opportunities for people to get help and duplicated spending on awareness campaigns.

Mitigation: Build recognition of BHDD through consistent branding and messaging; align public awareness and prevention campaigns across the agency and in partnership with other agencies and partner organizations; consolidate agency contact information in a unified website and one toll-free main line.

Agency Mission	Adopted in:	2026

Working collaboratively, BHDD leads a statewide continuum of behavioral health care and specialized disability services so that every South Carolinian has the opportunity for a full and self-determined life.

Agency Vision	Adopted in:	2026

Hope within reach for every South Carolinian

Recommendations for reorganization requiring legislative change:

Agency intentions for other major reorganization to divisions, departments, or programs to allow the agency to operate more effectively and efficiently in the succeeding fiscal year:

Significant events related to the agency that occurred in FY2026

Description of Event	Start	End	Agency Measures Impacted	Other Impacts
Building the structure of a newly created state agency	Apr-25	ongoing		

Is the agency in compliance with S.C. Code Ann. § 2-1-220, which requires submission of certain reports to the Legislative Services Agency for publication online and the State Library? (See also S.C. Code Ann. § 60-2-20).	Yes
Reason agency is out of compliance: (if applicable)	

Is the agency in compliance with various requirements to transfer its records, including electronic ones, to the Department of Archives and History? See the Public Records Act (S.C. Code Ann. § 30-1-10 through 30-1-180) and the South Carolina Uniform Electronic Transactions Act (S.C. Code Ann. § 26-6-10 through 26-10-210).	Yes
Does the law allow the agency to promulgate regulations?	Yes
Law number(s) which gives the agency the authority to promulgate regulations:	**44-20-220, 44-9-30, 44-49-10 E**
Has the agency promulgated any regulations?	Yes
Is the agency in compliance with S.C. Code Ann. § 1-23-120 (J), which requires an agency to conduct a formal review of its regulations every five years?	Yes
(End of Reorganization and Compliance Section)

Report Name	Law Number (if applicable)	Summary of information requested in the report	Date of most recent submission DURING the past fiscal year	Reporting Frequency	Type of entity/entities	Method to access the report	Direct access hyperlink or agency contact (if not provided to LSA for posting online)	Changes to this report during the past fiscal year	Explanation why a report wasn't submitted
Required Federal Financial Reports for Various Federal Grants - Frequency Varies	H.5126 FY27 Appropriations Bill	"(a) The Federal agency must require only OMB-approved government-wide data elements on recipient financial reports. At the time of publication, this consists of the Federal Financial Report (SF-425); however, this also applies to any future OMB-approved government-wide data elements available from the OMB-designated standards lead. (b) The Federal agency or pass-through entity must collect financial reports no less than annually. The Federal agency or pass-through entity may not collect financial reports more frequently than quarterly unless a specific condition has been implemented in accordance with § 200.208. To the extent practicable, the Federal agency or pass-through entity should collect financial reports in coordination with performance reports. (c) The recipient or subrecipient must submit financial reports as required by the Federal award. Reports submitted annually by the recipient or subrecipient must be due no later than 90 calendar days after the reporting period. Reports submitted quarterly or semiannually must be due no later than 30 calendar days after the reporting period. (d) The final financial report submitted by the recipient must be due no later than 120 calendar days after the conclusion of the period of performance. A subrecipient must submit a final financial report to a pass-through entity no later than 90 calendar days after the conclusion of the period of performance. See also § 200.344. The Federal agency or pass-through entity may extend the due date for any financial report with justification from the recipient or subrecipient."
