SECTION 35. Lands owned by aliens.
It shall be the duty of the General Assembly to enact laws limiting the number of acres of land which any alien or any corporation controlled by aliens may own within this State.

SECTION 36. General reserve fund; capital reserve fund.
(A) The General Assembly shall provide for a General Reserve Fund of five percent of the general fund revenue of the latest completed fiscal year. The five percent requirement shall be achieved by increasing the percentage requirement by a cumulative one-half of one percent of general fund revenue in each fiscal
year succeeding the last fiscal year to which the three percent requirement applied until the percentage of revenue in the General Reserve Fund equals the five percent requirement, which shall thereafter be maintained. Funds may be withdrawn from the reserve only for the purpose of covering operating deficits of state government. The General Assembly must provide for the orderly restoration of funds withdrawn from the reserve from future revenues and out of funds accumulating in excess of annual operating expenditures.

(1) The General Assembly shall provide by law for a procedure to survey the progress of the collection of revenue and the expenditure of funds and to authorize and direct reduction of appropriations as may be necessary to prevent a deficit.

(2) In the event of a year-end operating deficit, so much of the reserve fund as may be necessary must be used to cover the deficit; and the amount must be restored to the reserve fund within five fiscal years out of future revenues until the five percent, or the applicable percentage amount required to be transferred to the General Reserve Fund, is again reached and maintained. Provided that a minimum of one percent of the general fund revenue of the latest completed fiscal year, if so much is necessary, must be restored to the reserve fund each year following the deficit until the five percent, or the applicable percentage amount required by general law to be transferred to the General Reserve Fund is restored.

(B) The General Assembly, in the annual general appropriations act, shall appropriate, out of the estimated revenue of the general fund for the fiscal year for which the appropriations are made, into a Capital Reserve Fund, which is separate and distinct from the General Reserve Fund, an amount equal to two percent of the general fund revenue of the latest completed fiscal year.

(1) In any fiscal year in which the General Reserve Fund does not maintain the required percentage of general fund revenue, monies from the Capital Reserve Fund first must be used, to the extent necessary, to fully replenish the General Reserve Fund. The Capital Reserve Fund's replenishment of the General Reserve Fund is in addition to the replenishment requirement provided in subsection (A)(2) of this section. After the General Reserve Fund is fully replenished to the required percentage, the monies in the Capital Reserve Fund may be appropriated, except that the Capital Reserve Fund must not be used to offset a midyear budget reduction.

(2) Subsequent to appropriations required by item (1) of this subsection, monies from the Capital Reserve Fund may be appropriated by the General Assembly in separate legislation upon an affirmative vote in each branch of the General Assembly by two-thirds of the members present and voting, but not less than three-fifths of the total membership in each branch for the following purposes:
   (a) to finance in cash previously authorized capital improvement bond projects;
   (b) to retire interest or principal on bonds previously issued;
   (c) for capital improvements or other nonrecurring purposes.

(3)(a) Any appropriation of monies from the Capital Reserve Fund as provided in this subsection must be ranked in priority of expenditure and is effective thirty days after completion of the fiscal year. If it is determined that the fiscal year has ended with an operating deficit, then the monies appropriated from the Capital Reserve Fund must be reduced based on the rank of priority, beginning with the lowest priority, to the extent necessary and applied to the year-end operating deficit before withdrawing monies from the General Reserve Fund.

(b) At the end of the fiscal year, any monies in the Capital Reserve Fund that are not appropriated as provided in this subsection or any appropriation for a particular project or item which has been reduced due to application of the monies to a year end deficit must lapse and be credited to the general fund. (1979 Act No. 34; 1985 Act No. 10; 1989 Act No. 1; 2012 Act No. 152, eff May 8, 2012.)
