**State Expenditure**

This bill directs the Election Commission to establish a procedure by which a qualified elector may cast his ballot, without excuse, during an early voting period for all elections. Each county board of registration and elections must establish at least one early voting center, and may establish up to three early voting centers. A county board of registration and elections may authorize an additional two stations, if the board finds there is a need after a public hearing on the matter. The early voting period begins ten days before an election and ends three days prior to the election.
