

PART IB

OPERATION OF STATE GOVERNMENT

SECTION 1 – H630 - DEPARTMENT OF EDUCATION

1.1. (SDE: Appropriation Transfer Prohibition) The amounts appropriated herein for aid to subdivisions, allocations to school districts, or special line items shall not be transferred and must be expended in accordance with the intent of the appropriation, except that the department may transfer funds that are deducted and retained from a school district's transportation allocation to reimburse the department for the cost of unauthorized mileage. This transfer must be agreed upon by both the school district and the department. Those funds may be transferred into the department's school bus transportation operating account.

1.2. (SDE: Comprehensive Health Assessment) All school districts shall participate, to the fullest extent possible, in the Medicaid program by seeking appropriate reimbursement for services and administration of health and social services. Reimbursements to the school districts shall not be used to supplant funds currently being spent on health and social services.

1.3. (SDE: State Aid to Classrooms) (A) For the current fiscal year, the total pupil count is projected to be ~~769,703~~ 770,504, which includes ~~719,354~~ 712,097 traditional school districts, ~~49,649~~ 57,665 charter school authorizers, and ~~700~~ 742 special school districts. The total appropriations for State Aid to Classrooms represent an average per pupil appropriation of ~~\$5,724~~ \$5,884. The average total per pupil funding, excluding revenue and local bond issues, is projected to be ~~\$8,590~~ \$8,914 from state sources, ~~\$1,245~~ \$1,225 from federal sources, and ~~\$8,145~~ \$8,936 from local sources. This is an average total funding level of ~~\$17,980~~ \$19,075, excluding revenues of local bond issues.

17 (C) For the current fiscal year, the funds appropriated for State Aid to Classrooms represent the State's contribution to the Aid to
 18 Classrooms program for direct instruction of students in kindergarten through grade twelve in our state, which is seventy-five percent
 19 of the total salary and employer contribution cost of funding one teacher for every 11.2 students. The salary used to determine the
 20 amount of funding required for the state effort is based on that of a teacher having a master's degree and twelve years of experience,
 21 which equates to ~~\$57,250~~ \$58,750 on the statewide minimum salary schedule for the current fiscal year and including fringe benefits
 22 of ~~\$18,641~~ \$19,129, for a total of ~~\$75,891~~ \$77,879. The types of teachers used in the calculation of student-teacher ratio includes
 23 those teachers eligible pursuant to Section 59-20-50(4)(b). This includes classroom teachers, librarians, guidance counselors,
 24 psychologists, social workers, occupational and physical therapists, school nurses, orientation/mobility instructors, and audiologists
 25 in the school districts of the State. School districts are required to meet the statewide minimum salary schedule in the current fiscal
 26 year and are required to provide the annual step increase pursuant to Section 59-20-50. No school district is required to increase
 27 teacher salaries above the amount necessary to meet the statewide minimum salary schedule as prescribed in this act. For the current
 28 fiscal year, the provisions of Section 59-20-50(3) of the 1976 Code, as amended, are suspended.

29 (D) To allocate the funds, the department will calculate the total number of weighted pupil units (WPU) in each school district
 30 and in the State. The funds appropriated herein for State Aid to Classrooms represent the state share of the total Aid to Classrooms
 31 program, which is seventy-five percent. The local required effort is twenty-five percent of the total program. The total Aid to
 32 Classrooms funding for each district is calculated based on the district's percentage of the total statewide weighted pupils multiplied
 33 by the total Aid to Classrooms program. The district's local share is calculated by multiplying the total local share by the district's
 34 imputed index of taxpaying ability, which is the district's relative fiscal capacity compared to that of all other districts in the State.
 35 The State Aid to Classrooms amount allocated to each district will be determined by subtracting the calculation of the district's local
 36 share from the calculation of the district's total Aid to Classrooms projected funding. The Statewide Public Charter School District

1 and any approved institution of higher education authorizing charter schools shall receive one hundred percent of the Aid to
2 Classrooms funding from the State. For Fiscal Year ~~2024-25~~ 2025-26, no local match is required for the State Aid to Classroom EIA
3 distributions for the base funding rolled up from the previous fiscal year.

4 (E) Each district will receive either the amount determined by this new methodology or the actual state funding received in Fiscal
5 Year 2021-22 from State Aid to Classrooms, Aid School Districts, Student Health and Fitness, Guidance/Career Specialists,
6 Handicapped – Profoundly Mentally, EIA - Aid to Districts, EIA - Students at Risk of School Failure, Allocations EIA – Teacher
7 Salaries, Allocations EIA – Employer Contributions, EIA – Student Health and Fitness Act - Nurses, and EIA - South Carolina Public
8 Charter Schools.

9 (F) To provide flexibility, each district may expend the funds as determined by the local school board of trustees to meet the
10 educational needs of students as defined in Section 59-1-50, Chapter 18, Title 59, and as delineated in a child's Individualized
11 Education Program (IEP). Pursuant to Section 59-20-80, each school board of trustees must make available by September first of
12 each fiscal year its annual budget that includes state, local, and federal investments in education. The budget must be available on
13 the district's website. The department, in collaboration with local school districts, will provide a template that each district must use
14 in reporting its budget.

15 (G) To provide transparency, Revenue and Fiscal Affairs will document annually, through an online financial dashboard, the
16 expenditure of all state, local, and federal funds by each district and by each charter school authorizer and other relevant data to
17 include its fund balance and average fund balance for the reporting year. The districts shall report monthly, to the Department of
18 Education, their monthly fund balance that will be used to calculate an average. To ensure that the public reporting meets the needs
19 of educators, parents, citizens, and policymakers, the department, in conjunction with Revenue and Fiscal Affairs, will consult
20 routinely with a group of educators, parents, citizens, and policymakers. District expenditures for the prior fiscal year must be
21 published on the department's website for public disclosure by January 1.

22 (H) If a traditional school district, charter school authorizer, or special school district fails to submit expenditure data needed for
23 the online financial dashboard, the Revenue and Fiscal Affairs Office will notify the Department of Education. Within thirty days of
24 such notification, the Department of Education must then withhold ten percent of all state payments to the district or authorizer until
25 the district or authorizer complies and all payments will then be made.

26 (I) To ensure accountability, each district's annual audit that is submitted to the Department of Education pursuant to Section
27 59-17-100 must be conducted using an auditing firm from an approved list provided by the State Auditor. The State Auditor will
28 develop standards and criteria for determining qualifying auditors. Each district's annual audit must be available on the district's
29 website.

30 (J) For the current fiscal year the South Carolina Public Charter School District and any institution of higher education sponsoring
31 a public charter school shall receive and distribute state Aid to Classroom funds to the charter school. Students enrolled in charter
32 schools authorized by the South Carolina Public Charter School District or an institution of higher education will receive in addition
33 to the base weight of 1.00 or in addition to the disability weight of 2.60 an additional weight based upon the type of charter school
34 that they attend. These additional funds must support the provision of educational services for children served by a charter school
35 that does not receive local revenues. These students are also eligible to receive additional weights for personalized instruction. The
36 department will make any necessary adjustments to account for the state share for Charter and Special Districts.

(K) Three and four year old students with a disability, who are eligible for services under IDEA and enrolled in brick and mortar charter schools sponsored by the South Carolina Public Charter School District or registered IHE, shall be included in student counts solely for the purposes of receiving the additional weighting for students attending a brick and mortar charter school.

(L) For Fiscal Year ~~2024-25~~ 2025-26, special districts and alternative schools will receive the amount received in the prior fiscal year from these funds.

(M) The Revenue and Fiscal Affairs Office, must post in a prominent place on their website for each school district projections, including the per pupil state, federal and local revenues, excluding revenues of local bond issues, for the current fiscal year. Also, as soon as practicable, upon determining the exact numbers regarding pupil count and funding, the Revenue and Fiscal Affairs Office, shall also post on their website the one hundred thirty-five-day average daily membership for each school district and per pupil state, federal and local revenues, excluding revenues of local bond issues, based on the most recent audited financial statement as reported annually pursuant to Section 59-17-100. The Department of Education and the Education Oversight Committee shall provide in a prominent place on their internet websites a link to the information posted by the Revenue and Fiscal Affairs Office, including the projected numbers and the exact numbers.

(N) For the current fiscal year, the pupil classification weightings are as follows:

(1) K-12 pupils or base students including homebound students 1.00

Students served in licensed residential treatment facilities (RTFs) for children and adolescents as defined under Section 44-7-130 of the 1976 Code shall receive a weighting of 2.10.

(2) Weights for students with disabilities as documented

by their Individualized Education Program (IEP) 2.60

(3) Precareer and Career Technology 1.20

(4) Charter school students

(a) Enrolled in brick and mortar school 1.25

(b) Enrolled in virtual charter school 0.65

(5) Additional weights for personalized instruction:

(a) Gifted and Talented 0.15

(b) Academic Assistance 0.15

(c) Limited English Proficiency 0.20

(d) Pupils in Poverty 0.50

(O) The Department of Education will review the child count data for all of the districts and charter school authorizers in the State and identify any school district or charter school authorizer whose percentage of total enrolled students with IEPs is outside of the typical percentage range based on national and state data. The department will then conduct a focused review of the district's special education population and provide technical assistance, as needed, to ensure that students with disabilities are being appropriately identified and served.

(P) Students in poverty are students who qualify for Medicaid, SNAP, TANF, or are homeless, transient, or in foster care.

1 (Q) Gifted and talented students are students who are classified as academically or artistically gifted and talented or who are
2 enrolled in Advanced Placement (AP), International Baccalaureate (IB), and Cambridge International courses in high school.
3 Districts shall set-aside twelve percent of the funds for serving artistically gifted and talented students in grades three through twelve.

4 (R) Students in need of academic assistance are students who do not meet state standards in mathematics, English language arts,
5 or both on state approved assessments in grades three through eight and high school assessments for grades nine through twelve.
6 The additional weight generates funds needed to provide additional instructional services to these students.

7 (S) Students with limited English proficiency are students who require intensive English language instruction programs and
8 whose families require specialized parental involvement intervention.

9 (T) Further, the Department of Education may use school district student counts for personalized instruction as collected in the
10 same manner as the prior fiscal year, PowerSchool or other available existing data sources as determined by the department to
11 calculate the school district add on weightings for the personalized instruction classifications and the determination of the school
12 districts monetary entitlement. End of year adjustments shall be based on the one hundred thirty-five-day student average daily
13 membership for all classifications. During the current fiscal year, the department will update PowerSchool calculations, reports,
14 screen development, documentation, and training to incorporate the new pupil classification weightings and to make final district
15 allocation adjustments by June 30. The department must provide districts with technical assistance with regard to student count
16 changes in PowerSchool.

17 (U) Up to ten percent of any funds appropriated for State Aid to Classrooms at the end of the fiscal year may be carried forward
18 into the subsequent fiscal year and allocated to school districts, the South Carolina Public Charter School District, and an institution
19 of higher education that authorizes charter schools pursuant to this provision. The additional funds must first support increases in
20 student enrollment and any balance may be allocated proportionately utilizing weighted pupil units to districts. Any additional
21 unexpended funds shall revert to the general fund or to the EIA Fund.

22 (V) With the funds that the Department of Education receives for health insurance for school districts, the department shall
23 allocate the funds to school districts proportionately utilizing weighted pupil units. The department shall allocate to districts funds
24 received for retirement benefits through the State Aid to Classrooms formula.

25 (W) In the event of a mid-year across-the-board budget reduction, which reduces the total appropriation of general funds for State
26 Aid to Classrooms, the Department of Education is directed to first reduce the amount of funds allocated to traditional school districts,
27 charter school authorizers, and the special school districts for proportional funding under this provision.

28 **1.4.** (SDE: Employer Contributions/Allocations) It is the intent of the General Assembly that the appropriation contained herein
29 for “Public School Employee Benefits” shall not be utilized to provide employer contributions for any portion of a school district
30 employee’s salary that is federally funded.

31 State funds allocated for school district employer contributions must be allocated by the formula and must be used first by each
32 district to cover the cost of fringe benefits for personnel required by the Defined Program, food service personnel and other personnel
33 required by law. Once a district has expended all state allocated funds for fringe benefits, the district may utilize food service
34 revenues to fund a proportionate share of fringe benefits costs for food service personnel.

35 The Department of Juvenile Justice and the Department of Corrections’ school districts must be allocated funds under the fringe
36 benefits program in accordance with criteria established for all school districts.

1 **1.5.** (SDE: Employer Contributions/Obligations) In order to finalize each school district's allocations of Employer Contributions
2 funds for retiree insurance from the prior fiscal year, the Department of Education is authorized to adjust a school district's allocation
3 in the current fiscal year accordingly to reflect actual payroll and payments to the Retirement System from the prior fiscal year. In
4 the event the Department of Education is notified that an educational subdivision has failed to remit proper payments to cover
5 Employee Fringe Benefit obligations, the Department of Education is directed to withhold the educational subdivision's state funds
6 until such obligations are met.

7 **1.6.** (SDE: Educational Responsibility/Foster Care) The responsibility for providing a free and appropriate public education
8 program for all children including disabled students is vested in the public school district wherein a child of lawful school age resides
9 in a foster home, group home, orphanage, or a state operated health care facility including a facility for treatment of mental illness
10 or chemical dependence and habilitation centers for persons with intellectual disabilities or persons with related conditions located
11 within the jurisdiction of the school district or alternative residences. The districts concerned may agree upon acceptable local cost
12 reimbursement. If no agreement is reached, districts providing education shall receive from the district where the child last resided
13 before placement in a facility an additional amount equivalent to the statewide average of the local base student cost multiplied by
14 the appropriate pupil weighting as set forth in Section 59-20-40 of the Education Finance Act. If a child from out of state is residing
15 in a facility owned and/or operated by a for profit entity, the district providing educational services shall be reimbursed by the for
16 profit entity the local district's local support per weighted pupil above the statewide average base student cost multiplied by the
17 appropriate pupil weighting as set forth in Section 59-20-40 of the Education Finance Act. Participation will be evidenced by a
18 written agreement from the IEP team or 504 team, written referral, or the school district initiating the placement process. School
19 districts providing the education shall notify the nonresident district in writing within forty-five calendar days that a student from the
20 nonresident district is receiving education services pursuant to the provisions of the proviso. The notice shall also contain the
21 student's name, date of birth, and disabling condition if available. If appropriate financial arrangements cannot be effected between
22 institutions of the state, including independent school districts under the authority of the Department of Disabilities and Special
23 Needs, and school districts, institutions receiving educational appropriations shall pay the local base student cost multiplied by the
24 appropriate pupil weighting. Children residing in institutions of state agencies shall be educated with nondisabled children in the
25 public school districts if appropriate to their educational needs. Such institutions shall determine, on an individual basis, which
26 children residing in the institution might be eligible to receive appropriate educational services in a public school setting. Once these
27 children are identified, the institution shall convene an IEP meeting with officials of the public school district in which the institution
28 is located. If it is determined by the committee that the least restrictive environment in which to implement the child's IEP is a public
29 school setting, then the school district in which the institution is located must provide the educational services. However, that school
30 district may enter into contractual agreements with any other school district having schools located within a forty-five mile radius of
31 the institution. The cost for educating such children shall be allocated in the following manner: the school district where the child
32 last resided before being placed in an institution shall pay to the school district providing the educational services an amount
33 equivalent to the statewide average of the local base student cost multiplied by the appropriate pupil weighting as set forth in Section
34 59-20-40 of the Education Finance Act; the school district providing the educational services shall be able to count the child for all
35 funding sources, both state and federal. The institution and school district, through contractual agreements, will address the special
36 education and related services to be provided to students. Should the school district wherein the institution is located determine that

1 the child cannot be appropriately served in a public school setting, then the institution may request a due process hearing pursuant to
2 the procedures provided for in the Individuals with Disabilities Education Act.

3 The agreed upon acceptable local cost reimbursement or the additional amount equivalent to the statewide average of the local
4 base student cost multiplied by the appropriate pupil weighting set forth in Section 59-20-40, for instructional services provided to
5 out-of-district students, shall be paid within sixty days of billing, provided the billing district has provided a copy of the invoice to
6 both the Superintendent and the finance office of the district being invoiced. Should the district not pay within sixty days, the billing
7 district can seek relief from the Department of Education. The department shall withhold EFA funding equal to the billing from the
8 district refusing to pay and submit the funding (equal to the invoice) to the billing school district.

9 The agency placing a child in any situation that requires changing school districts, must work with the schools to assure that all
10 required school records, including confidential records, are transferred from the sending to the receiving school within three working
11 days. School records to be transferred should include grade transcripts, state birth certificate, certificate of immunization, social

33 Career and Technology Education, nor funds required for debt service or bonded indebtedness. All school districts must report the
34 student teacher ratio for every classroom to the Department of Education at the forty-fifth and the one hundred and thirty-fifth day

8 "In\$ite" means the financial analysis model for education programs utilized by the Department of Education.

9 School districts are encouraged to reduce expenditures by means including, but not limited to, limiting the number of low
10 enrollment courses, reducing travel for the staff and the school district's board, reducing and limiting activities requiring dues and
11 memberships, reducing transportation costs for extracurricular and academic competitions, restructuring administrative staffing, and
12 expanding virtual instruction.

13 School districts and special schools may carry forward unexpended funds from the prior fiscal year into the current fiscal year.

14 Prior to implementing the flexibility authorized herein, school districts must provide to Public Charter Schools the per pupil
15 allocation due to them for each categorical program.

16 Quarterly throughout the current fiscal year, the chairman of each school district's board and the superintendent of each school
17 district must certify where non-instructional or nonessential programs have been suspended and the specific flexibility actions taken.
18 The certification must be in writing, signed by the chairman and the superintendent, delivered electronically to the State
19 Superintendent of Education, and an electronic copy forwarded to the Chairman of the Senate Finance Committee, the Chairman of
20 the Senate Education Committee, the Chairman of the House Ways and Means Committee, and the Chairman of the House Education
21 and Public Works Committee. Additionally, the certification must be presented publicly at a regularly called school board meeting,
22 and the certification must be conspicuously posted on the internet website maintained by the school district.

23 For the current fiscal year, Section 59-21-1030 is suspended. The foreign language program assessment, and the physical
24 education assessment must be suspended. School districts and the Department of Education are granted permission to purchase the
25 most economical type of bus fuel.

26 For the current fiscal year, savings generated from the suspension of the assessments enumerated above must be allocated to school
27 districts based on weighted pupil units.

28 School districts must maintain a transaction register that includes a complete record of all funds expended over one hundred dollars,
29 from whatever source, for whatever purpose. The register must be prominently posted on the district's internet website and made
30 available for public viewing and downloading. The register must include for each expenditure:

- 31 (i) the transaction amount;

35 not include any information that can be used to identify an individual employee. The register must be accompanied by a complete

1 explanation of any codes or acronyms used to identify a payee or an expenditure. The register must be searchable and updated at
2 least once a month.

3 Each school district must also maintain on its internet website a copy of each monthly statement for all of the credit cards
4 maintained by the entity, including credit cards issued to its officers or employees for official use. The credit card number on each
5 statement must be redacted prior to posting on the internet website. Each credit card statement must be posted not later than the
6 thirtieth day after the first date that any portion of the balance due as shown on the statement is paid.

7 The Comptroller General must establish and maintain a website to contain the information required by this section from a school
8 district that does not maintain its own internet website. The internet website must be organized so that the public can differentiate
9 between the school districts and search for the information they are seeking.

10 The provisions contained herein do not amend, suspend, supersede, replace, revoke, restrict, or otherwise affect Chapter 4, Title
11 30, of the South Carolina Freedom of Information Act. Nothing in this proviso shall be interpreted as prohibiting the State Board of
12 Education to exercise its authority to grant waivers under Regulation 43-261.

13 **1.22.** (SDE: Medical Examination and Security Reimbursement/Expenditures) From funds authorized in Part IA, Section 1,
14 VII.B. Other Operating Expenses, the Department of Education may directly pay, or reimburse employees, for the cost of a medical
15 examination as required in Part 391, Subpart E of the Federal Motor Carrier Safety Regulations, for employees that are required to
16 operate a state vehicle transporting hazardous materials and that are required to undergo a national security background check because
17 of the required Hazmat endorsement to their CDL.

18 **1.23.** (SDE: Budget Reduction) In compensating for any reduction in funding or an operating deficit publicly recognized by the
19 School Board of Trustees, local districts must give priority to preserving classroom teachers and operations. Funding reductions
20 should first be applied to administrative and non-classroom expenses before classroom expenses are affected.

21 **1.24.** (SDE: School District Furlough) Should there be a midyear reduction in state funding to the districts, school districts may
22 institute employee furlough programs for district-level and school-level professional staff. Before any of these employees may be
23 furloughed, the chairman of the governing body of the school district must certify that all fund flexibility provided by the General
24 Assembly has been utilized by the district and that the furlough is necessary to avoid a year-end deficit and a reduction in force. The
25 certification must include a detailed report by the superintendent of the specific action taken by the district to avoid a year-end deficit.
26 The certification and report must be in writing and delivered to the State Superintendent of Education and a copy must be forwarded
27 to the Chairman of the Senate Finance Committee and the Chairman of the House Ways and Means Committee.

28 The local school district board of trustees may implement a furlough of personnel once certification to the State Superintendent
29 documents all funding flexibility has been exhausted and continued year-end deficits exist. Local school boards of trustees shall
30 have the authority to authorize furloughs of these employees in the manner in which it sees fit. However, instructional personnel
31 may be furloughed for up to five non-instructional days if not prohibited by an applicable employment contract with the district and
32 provided district administrators are furloughed for twice the number of days. District administrators may only be furloughed on
33 non-instructional days and may not be furloughed for a period exceeding ten days. District administrators shall be defined by the
34 Department of Education using the Professional Certified Staff (PCS) System. For individuals not coded in PCS, the determination
35 shall be made based upon whether the individual performs the functions outlined in position codes identified by the department as

1 administration. Educators who would have received a year's experience credit had a furlough not been implemented, shall not have
2 their experience credit negatively impacted because of a furlough implementation.

3 During any furlough, affected employees shall be entitled to participate in the same benefits as otherwise available to them except
4 for receiving their salaries. As to those benefits that require employer and employee contributions including, but not limited to,
5 contributions to the South Carolina Retirement System or the optional retirement program, the district will be responsible for making
6 both employer and employee contributions if coverage would otherwise be interrupted; and as to those benefits which require only
7 employee contributions, the employee remains solely responsible for making those contributions. Placement of an employee on
8 furlough under this provision does not constitute a grievance or appeal under any employee grievance procedure. The district may
9 allocate the employee's reduction in pay over the balance of the fiscal year for payroll purposes regardless of the pay period within
10 which the furlough occurs.

11 Each local school district must prominently post on the district's internet website and make available for public viewing and
12 downloading the most recent version of the school district's policy manual and administrative rule manual.

13 This proviso shall not abrogate the terms of any contract between any school district and its employees.

14 **1.25.** (SDE: School Lunch/Attendance Supervisors) For those counties in which an entity other than the school district
15 administers the school lunch supervisor and/or attendance supervisor programs, the school districts in that county shall transfer to
16 the entity the amount available in the previous fiscal year for administration of the school lunch supervisor and/or attendance
17 supervisor programs. Each district shall transfer a pro rata share of the total cost based upon the percentage of state EFA funds
18 distributed to the districts within the county.

19 **1.26.** (SDE: No Discrimination Requirement) State funds must not be appropriated to a school that discriminates against or
20 participates with or is a member of an association with policies that discriminate or afford different treatment of students based on
21 race or national origin.

22 **1.27.** (SDE: Medicaid Cash Match Accounting) The department is granted authority to transfer funds between budget lines and
23 object codes to identify, reconcile, reimburse, and remit funds required for Medicaid cash match to the Department of Health and
24 Human Services.

25 **1.28.** (SDE: Student Report Card-GPA) For each high school student, school districts shall be required to print the student's
26 individual cumulative grade point average for grades nine through twelve on the student's report card.

27 **1.29.** (SDE: Lost & Damaged Instructional Materials Fees) Fees for lost and damaged instructional materials for the prior school
28 year are due no later than December first of the current school year when invoiced by the Department of Education. The department
29 may withhold instructional materials funding from schools that have not paid their fees by the payment deadline.

30 **1.30.** (SDE: State Aid to Classrooms Reserve Fund) There is created in the State Treasury a fund separate and distinct from the
31 General Fund of the State and all other funds entitled the State Aid to Classrooms Reserve Fund. All unexpended general funds
32 appropriated to the Department of Education for the State Aid to Classrooms in the current fiscal year shall be transferred to the State
33 Aid to Classrooms Reserve Fund. In the event that the amount appropriated for the State Aid to Classrooms is insufficient to fully
34 fund the designated student-teacher ratio as established by this act, revenues from the State Aid to Classrooms Reserve Fund may be
35 used to supplement the funds appropriated. The General Assembly may make direct appropriations to this fund. All unexpended

1 funds in the State Aid to Classrooms Reserve Fund and any interest accrued by the fund must remain in the fund and may be carried
2 forward into the current fiscal year.

3 **1.31.** (SDE: Prohibit Advertising on School Buses) The Department of Education and local school districts are prohibited from
4 selling space for or the placement of advertisements on the outside or inside of state-owned school buses.

5 **1.32.** (SDE: Residential Treatment Facilities Student Enrollment and Funding) Each South Carolina resident of lawful school
6 age residing in licensed residential treatment facilities (RTFs) for children and adolescents identified on the State Qualified Providers
7 list and meets the requirements of Section 44-7-130 of the 1976 Code, (students) shall be entitled to receive educational services
8 from the school district in which the RTF is located (facility school district). The responsibility for providing appropriate educational
9 programs and services for these students, both with and without disabilities, who are referred, authorized, or placed by the State is
10 vested in the facility school districts. For purposes of this proviso, an authorization must be pursuant to a physician's determination
11 of medical necessity. If clinically appropriate, the facility school district, the RTF, and the parent or guardian of a student referred
12 or placed in a RTF may consider the appropriateness of providing the student's education program virtually through enrollment in
13 either the facility district's virtual program, the South Carolina virtual school program provided through the Department of Education
14 (Virtual SC), or a virtual charter school authorized by the South Carolina Public Charter School District, or a virtual charter school
15 authorized by an approved institute of higher education. This decision should be made jointly with the best interest of the student
16 and what is clinically indicated being considered.

17 A facility school district must provide the necessary educational programs and services directly to the student at the RTF's facility,
18 provided that the RTF facility provides and maintains comparable adequate space for the educational programs and services
19 consistent with all federal and state least restrictive environment requirements. Adequate space shall include appropriate electrical
20 support and Internet accessibility. Unless the parent or legal guardian of the student seeks to continue the student's enrollment in
21 the resident school district under a medical homebound instruction program and the district approves, if appropriate, then, under
22 these circumstances, the facility school district shall enroll the student and assume full legal and financial responsibility for the
23 educational services including enrolling the student, approving the student's entry into a medical homebound instructional program,
24 if appropriate, and receiving and expending funds, unless the resident school district undertakes to carry out its educational
25 responsibilities for the student directly. Alternatively, a facility school district may choose to provide the necessary educational
26 programs and services by contracting with the RTF provided that the RTF agrees to provide educational services to the student at the
27 RTF's facility. Under these circumstances, the facility school district must enroll the student and pay the RTF for the educational
28 services provided. If the facility school district determines the educational program being offered by the RTF does not meet the
29 educational standards outlines in the contract, the facility district shall be justified in terminating the contract.

30 The facility school districts are entitled to receive the base student cost multiplied by the Education Finance Act pupil weighting
31 for pupils in a Residential Treatment Facility of 2.10, as set forth in Proviso 1.3 of this act and any eligible categorical and federal
32 funds. These funds may be retained by the facility school districts for the purpose of providing the educational programs and services
33 directly to students referred or placed by the State or the facility school districts may use these funds to reimburse RTFs for the
34 educational programs and services provided directly by the RTFs. A facility school district is entitled to reimbursement from a
35 resident school district for the difference between: (1) the reasonable costs expended for the educational services provided directly
36 by the facility school district or the amount paid to the RTF; and (2) the aggregate amount of federal and state funding received by

1 the facility school district for that student. However, the reimbursement rate may not exceed \$90 per student per day. Through a
2 joint agreement with the facility school district and the RTF, the funding received for RTF students must be utilized to deliver an
3 instructional program that meets the needs of the students, and when applicable, the requirements of the Individuals with Disabilities
4 Education Act and Section 504 of the Rehabilitation Act of 1973. Facility school districts providing the educational services shall
5 notify the resident district in writing within forty-five calendar days that a student from the resident district is receiving educational
6 services pursuant to the provisions of the proviso. Reimbursements shall be paid within sixty days of billing, provided the facility
7 district has provided a copy of the invoice to both the District Superintendent and the finance office of the resident district being
8 invoiced. Should the facility school district be unable to reach agreement with the resident school district regarding reasonable costs
9 differences, the facility school district shall notify the Department of Education's Office of General Counsel. The Department of
10 Education shall facilitate a resolution of the dispute between the facility school district and the resident school district within
11 forty-five days of the notice of dispute. If the issue of reasonable cost differences should remain unresolved, a facility school district
12 shall have the right to file a complaint in a Circuit Court. Should a resident school district fail to distribute the entitled funding to
13 the facility school district by the one hundred thirty-five day count, the Department of Education is authorized to withhold the
14 equivalent amount of EFA funds and transfer those funds to the facility school district.

15 RTF facilities on the State Qualified Provider List not located within the boundaries of the state shall be reimbursed at a rate that
16 may not exceed \$45 per student per day for education services and school districts shall be eligible to receive a base student cost
17 weighted funding of 2.10 provided that the student remains enrolled in the school district. Facilities providing the educational
18 services shall notify the resident district in writing within forty-five calendar days that a student from the resident district is receiving
19 educational services pursuant to the provisions of the proviso. Reimbursements shall be paid within sixty days of billing, provided
20 the qualified facility has provided a copy of the invoice to both the District Superintendent and the finance office of the resident
21 district being invoiced. Should the facility be unable to reach agreement with the resident school district regarding reasonable costs
22 differences, the provider shall notify the Department of Education's Office of General Counsel. The Department of Education shall
23 facilitate a resolution of the dispute between the facility and the resident school district within forty-five days of the notice of dispute.
24 If the issue of reasonable cost differences should remain unresolved, a facility shall have the right to file a complaint in a Circuit
25 Court. Additionally, qualified RTF providers' general education curriculum must be aligned to the South Carolina academic
26 standards in the core content areas. All students with disabilities who are eligible for special education and related services under
27 the Individuals with Disabilities Education Act (IDEA), as amended, and the State Board of Education (SBE) regulations, as
28 amended, shall receive special education and related services in the least restrictive environment by appropriately certified personnel.
29 Students in a qualified RTF will at all times be eligible to receive the educational credits (e.g., Carnegie Units) earned through their
30 educational efforts. The resident school district and the RTF should develop a memorandum of understanding to outline the
31 responsibilities of the RTF in providing the educational services and responsibilities, if any, of the resident school district while the
32 student is housed in the RTF.

33 If a child from out of state is placed in a RTF by an out-of-state school district or agency, the child's home state remains responsible
34 for the educational services. The facility school district may choose to provide the educational program to the child and, upon
35 choosing to do so, shall contract with the appropriate entity for payment of educational serviced provided to the child. Out-of-state

1 students provided educational services by a facility school district shall not be eligible for funding through the Education Finance
2 Act.

3 If a child is placed in a RTF by the child's parent or guardian and is not referred, authorized, or placed by the State, the facility
4 school district may choose to provide the educational program to the child, and upon doing so, must negotiate with the resident
5 school district for services through medical homebound procedures. A facility school district is responsible for compliance with all
6 child find requirements under Section 504 of the Rehabilitation Act of 1973 and Individuals with Disabilities Act of 2004 (IDEA).

7 All students enrolled in the facility school districts shall have access to the facility school districts' general education curriculum,
8 which will be tied to the South Carolina academic standards in the core content areas. All students with disabilities who are eligible
9 for special education and related services under the Individuals with IDEA, as amended, and the State Board of Education (SBE)
10 regulations, as amended, shall receive special education and related services in the least restrictive environment by appropriately
11 certified personnel. Students in an RTF will at all times be eligible to receive the educational credits (e.g., Carnegie Units) earned
12 through their educational efforts.

13 With respect to students enrolled in the facility school districts, for accountability purposes, the assessment and accountability
14 measures for students residing in RTFs shall be attributed to a specific school only if the child physically attends the school. The
15 performance of students residing in a RTF who receive their educational program on site at the RTF must be reflected on a separate
16 line on the facility school district's report card and must not be included in the overall performance ratings of the facility school
17 district. The Department of Education shall examine the feasibility of issuing report cards for RTFs. For the current fiscal year, a
18 facility school district shall not have the district's state accreditation rating negatively impacted by deficiencies related to the delivery
19 of an educational program at a RTF.

20 RTFs shall notify the facility school district as soon as practical, and before admission to the RTF if practical, of a student's
21 admission to the RTF. RTFs, the facility school districts and the Department of Education shall use their best efforts to secure and/or
22 exchange information, including documents and records necessary to provide appropriate educational services and/or related services
23 as necessary to assist the facility school district in determining the resident school district. The Department of Education, in
24 collaboration with state placing agencies, RTFs, facility school districts, and resident school districts, shall implement a system to
25 follow the release of students from a RTF and re-enrollment in public, private, or special schools to ensure these students, when
26 appropriate, are not recorded as dropouts.

32 and expend any General Fund balances for school bus transportation.

33 **1.36.** (SDE: Administrative Costs Report Posting) School districts must report the amount of funds spent on administrative
34 costs, as defined by InSight in the prior fiscal year and post the report on the districts website. School districts shall provide an
35 electronic copy of this report to the Department of Education in conjunction with the financial audit report required by Section
36 59-17-100 of the 1976 Code. If a district fails to meet these requirements, they must be notified in writing by the department that

1 the district has sixty days to comply with the reporting requirement. If the district does not report within sixty days, the department

19 and regulations adopted by the South Carolina State Board of Education. Each district shall publish on its website the title and

21 district is non-compliant with mandated health education upon review of the district's annual CHE Compliance Survey or if the
22 district fails to publish the title and publisher of materials on its website, then the Department of Education shall withhold one percent
23 of the district's funds allocated in Part IA, Section 1, X - Student Health and Fitness Act until the department determines the district

22 federal poverty guidelines as promulgated annually by the United States Department of Health and Human Services or a statement
23 of Medicaid eligibility.

24 (B) A parent or guardian may choose to enroll their child in a public school participating in the program and approved by the
25 Department of Education pursuant to Section 59-156-210 or in a private provider participating in the program and approved by the
26 Office of First Steps pursuant to Section 59-156-200. A private provider includes, but is not limited to, a child care center, a military
27 child care facility regulated by the United States Department of Defense, or a non-profit independent school. State funds appropriated
28 for the provision of CERDEP services in military child care facilities may not be used to supplant existing federal child care funds.
29 No school district can be denied participation in CERDEP or be denied CERDEP funding pursuant to the terms of this provision.

30 (C) 4K programs in public schools and non-profit independent schools participating in CERDEP are not required to be approved,
31 registered, or licensed by the Department of Social Services in order to participate in CERDEP. Instead, the Department of Education
32 and the Office of First Steps are responsible for ensuring that providers deliver high-quality educational programs pursuant to Section
33 59-156-160.

34 (D) Public and private providers shall be funded for instructional costs at a minimum rate of \$5,100 per student enrolled. Eligible
35 students enrolling during the school year or withdrawing during the school year shall be funded on a pro rata basis determined by
36 the length of their enrollment. Private providers transporting eligible children to and from school shall also be eligible for

1 reimbursement at a minimum of \$620 per eligible child transported. First Steps and the Department of Education must provide an
2 equitable distribution above the minimum between public and private providers. First Steps and the Department of Education must
3 provide a quarterly report beginning October 1 detailing funding above the minimum made to any provider to the Governor, the
4 Chairman of the Senate Finance Committee, and the Chairman of the House Ways and Means Committee. All providers who are
5 reimbursed are required to retain records as required by their fiscal agent. New providers participating for the first time in the current
6 fiscal year and enrolling between one and six eligible children shall be eligible to receive at a minimum of \$1,000 per child in
7 materials and equipment funding, with providers enrolling seven or more such children eligible for funding at a minimum of \$10,000.
8 The Department of Education and the Office of First Steps Readiness are authorized to utilize carry forward funds and federal funds
9 to supplement the amount expended for materials and equipment. Providers receiving equipment funding are expected to participate
10 in the program and provide high-quality, center-based programs as defined herein for a minimum of three years. Failure to participate
11 for three years will require the provider to return a portion of the equipment allocation at a level determined by the Department of
12 Education and the Office of First Steps to School Readiness. Funding to providers is contingent upon receipt of data as requested
13 by the Department of Education and the Office of First Steps. The Department of Education shall only provide funding for public
14 school students whose complete records have been entered into PowerSchool based on the one hundred and thirty-five day student
15 average daily membership. For the current fiscal year, providers may enroll pay-lunch children who score at or below the twenty-fifth
16 national percentile on two of the three DIAL-3 subscales by July 1 if at least seventy-five percent of the total number of children
17 eligible for the Child Early Reading Development and Education Program in a district or county are projected to be enrolled in that
18 program, Head Start, or ABC Child Care Program as determined by the Department of Education and the Office of First Steps, Child
19 Early Reading Development and Education Program. Providers may receive reimbursement for these children if funds are available.
20 By September 1, the Department of Education and the Office of First Steps must collect the documented waiting lists, share the lists,
21 and determine a process to notify parents of eligible students of available slots in all approved providers. The Department of
22 Education is required to offer waivers allowing students with disabilities to be served in multi-categorical classroom settings based
23 on similar cognition and abilities. Funding appropriated for CERDEP may be carried forward and expended for the same purpose.
24 (E) Annually, the Department of Education is directed to audit the annual allocations to public providers to ensure that allocations
25 are accurate and aligned to the appropriate pro rata per student allocation, materials, and equipment funding. In the event the
26 department, during the audit process determines that the annual allocations of the prior fiscal year are not accurate, the department
27 must adjust the allocations for the current fiscal year to account for the audit findings. The department must provide the results of
28 the annual audit findings to the General Assembly no later than December first. Likewise, in the event the Office of First Steps
29 determines that the annual allocations of the prior fiscal year to private providers are not accurate, the Office of First Steps must
30 adjust the allocations for the current fiscal year to account for the findings.
31 (F) Of the funds appropriated, \$300,000 shall be allocated to the Education Oversight Committee to conduct an annual evaluation
32 of the South Carolina Early Reading Development and Education Program (CERDEP) and to issue findings in a report to the General
33 Assembly by March first of each year. To aid in this evaluation, the Education Oversight Committee shall determine and obtain the
34 data necessary and both public and private providers are required to submit the necessary data as a condition of continued
35 participation in and funding of the program, including average daily attendance data, so that consistent enrollment may be determined.
36 This data shall include developmentally appropriate measures of student progress. Additionally, the Department of Education shall

1 issue a unique student identifier for each child receiving services from a public or private provider including those funded by
2 CERDEP, Head Start, SC Child Care Scholarships, EIA, Title I, district-funded, and all other federal, state, or local public sources.
3 The Department of Education shall be responsible for the collection and maintenance of data on the public state funded full day and
4 half-day four-year-old kindergarten programs. The Office of First Steps to School Readiness shall be responsible for the collection
5 and maintenance of data on the state funded programs provided through private providers. The Education Oversight Committee
6 shall use this data and all other collected and maintained data necessary to conduct a research based review of the program's
7 implementation and assessment of student success in the early elementary grades along with information, recommendations, and a
8 timeline for how the state can increase the number of students served in high-quality programs. To aid in the accurate reporting of
9 four-year-olds in poverty served in formal education programs in public schools in South Carolina, the Department of Education
10 must provide to the EOC data related to four-year-olds served in formal education programs funded with other state, local, or federal
11 funds, including Title 1 and EIA-District-funded programs, denoting full- or partial-day status.

12 (G) For eligible children residing in school districts that do not participate in CERDEP, the Department of Education is required
13 to develop and implement inter-district transfer policies that give parents or guardians the option of their eligible child attending an
14 out-of-district school that participates in CERDEP.

15 (H) For the current fiscal year, the Office of First Steps may expend: (1) up to \$2,000,000 to pilot a program to provide higher
16 reimbursement rates to high-quality providers. The reimbursement rate for students enrolled by child care providers rated B or higher
17 in the ABC Quality System operated by the Department of Social Services may be increased by up to 10% of the per-student base
18 following guidelines developed by the Office of First Steps; and (2) up to \$250,000 to provide one-time supplemental, needs-based
19 incentive grants in an amount not to exceed \$30,000 for newly created and/or newly approved private providers proposing to expand
20 service to ten or more CERDEP eligible children in communities unable to enroll all eligible students in a public, private, or Head
21 Start setting during the prior fiscal year. These grants are designed to address building renovations, documented as necessary to
22 bring proposed classrooms into compliance with licensing regulations, materials and staffing costs, and/or other obstacles currently
23 preventing their participation in the program. The First Steps Board of Trustees shall develop and approve an application process
24 that incorporates formal review and fiscal safeguards designed to ensure grant funds are used solely to address documented barriers
25 to program participation. Providers receiving this one-time supplement shall be expected to participate in the program and provide
26 high-quality, center-based programs as defined herein for a minimum of three years. Failure to participate for three years shall
27 require the provider to return a portion of the supplemental allocation at a level determined by the Office of First Steps to School
28 Readiness. First Steps shall submit a report detailing its process, expenditures and expanded enrollment to the Chairman of the
29 House Ways and Means Committee and the Chairman of the Senate Finance Committee by March 15.

30 (I) If by August first, the Department of Education or the Office of First Steps determines that appropriations will exceed
31 expenditures, available funds may be used to fund an extended program and to increase the length of the program to a maximum of
32 eight and a half hours per day or two hundred and twenty days per year or to fund summer programs. If a district chooses to fund
33 summer enrollment, the program funding shall conform to the funding in this act for full year programs; however, it shall be reduced
34 on a pro rata basis to conform with the length of the program. A summer program shall be no more than eight and a half hours per
35 day and shall be not more than ten weeks in length. The per pupil allocation and classroom grant must conform with the appropriated
36 amount contained in this act and end of year adjustments shall be based on the one hundred and thirty-five-day student average daily

1 membership or later student average daily membership for districts choosing to extend the program past one hundred and eighty
2 days. Funds may also be used to provide parent engagement, professional development, and quality evaluations of programs. No
3 later than April first, the Department of Education and the Office of First Steps shall report to the Chairman of the Senate Finance
4 Committee and the Chairman of the House Ways and Means Committee on the expenditure of these funds to include the following
5 information: the amount of money used and specific steps and measures taken to enhance the quality of the 4K program and the
6 amount of money used for professional development as well as the types of professional development offered and the number of
7 participants. The Office of First Steps is directed to determine if the provision of extended programs in private centers improves the
8 ability of parents to enter the workforce or to pursue postsecondary training or industry credentials.

9 (J) On or before November 15, the Department of Education and the Office of First Steps shall share data that identifies the total
10 number of children enrolled in CERDEP in both public and private providers. If available appropriations exceed the instructional
11 costs of serving children enrolled in the program and if a waiting list of eligible children can be documented by the Department of
12 Education and by the Office of First Steps, then the Executive Budget Office may authorize the transfer of funds between the
13 Department of Education and the Office of First Steps.

14 (K) The Office of First Steps and the Department of Education shall collaborate with the South Carolina Head Start State
15 Collaboration Office to inform parents of all publicly funded full-day 4K programs including Head Start by participating in
16 PalmettoPreK and First5SC.

17 **1.48.** (SDE: Summer Reading Camps) For the current fiscal year, funds appropriated for summer reading camps must be
18 allocated as follows: (1) up to twenty percent to the Department of Education to provide bus transportation for students attending the
19 camps; (2) \$700,000 allocated to the department to provide grants to support community partnerships whereby community
20 organizations shall partner with local school districts to provide enrichment activities as part of after school programs or summer
21 reading camps that utilize volunteers, mentors or tutors to provide instructional support to struggling readers in elementary schools
22 that have a poverty index of forty percent or greater. All mentors and tutors that are a part of these after school programs or summer
23 reading camps must have passed a SLED criminal background check. Participant to volunteer or teacher ratio must conform to that
24 of the school district in which the program is located; and (3) the remainder on a per pupil allocation to each school district based on
25 the number of students who substantially failed to demonstrate third-grade reading proficiency as indicated on the prior year's state
26 assessment as defined by Section 59-155-120(10) of the 1976 Code. Summer reading camps must be at least six weeks in duration
27 with a minimum of four days of instruction per week and four hours of instruction per day, or the equivalent minimum hours of
28 instruction in the summer. School transportation shall be provided. The camps must be taught by compensated teachers who have
29 at least an add-on literacy endorsement or who have documented and demonstrated substantial success in helping students
30 comprehend grade-level texts. The Department of Education shall assist districts that cannot find qualified teachers to work in the
31 summer camps. Districts may also choose to contract for the services of qualified instructors or collaborate with one or more districts
32 to provide a summer reading camp. Schools and school districts are encouraged to partner with county or school libraries, institutions
33 of higher learning, community organizations, faith-based institutions, businesses, pediatric and family practice medical personnel,
34 and other groups to provide volunteers, mentors, tutors, space, or other support to assist with the provision of the summer reading
35 camps. In the current school year, any student in third grade who substantially fails to demonstrate third-grade reading proficiency
36 by the end of the school year must be offered the opportunity to attend a summer reading camp at no cost to the parent or guardian.

1 The purpose of the reading camp is to provide students who are significantly below third-grade reading proficiency with the
2 opportunity to receive quality, intensive instructional services, and support. A district may also include in the summer reading camps
3 students who are not exhibiting reading proficiency at any grade and may charge fees for these students to attend the summer reading
4 camps based on a sliding scale pursuant to Section 59-19-90, except where a child is found to be reading below grade level in the
5 first, second or third grade. A parent or guardian of a student who does not substantially demonstrate proficiency in comprehending
6 texts appropriate for his grade level must make the final decision regarding the student's participation in the summer reading camp.

7 **1.49.** (SDE: Interscholastic Athletic Association Dues) (A) A public school district supported by state funds shall not use any
8 funds or permit any school within the district to use any funds to join, affiliate with, pay dues or fees to, or in any way financially

23 apply;

24 (3)(a) an appeals process in which appeals of the association, body, or entity are made to a disinterested third-body appellate

30 served as a member of the executive committee within the last three years. Principals and superintendents are able to appeal a ruling

For each school identified and participating in the Palmetto Literacy Project in the prior school year, the Department of Education shall provide, at a minimum, the following support: provision of reading specialists, professional learning, and curriculum resources based on the science of reading. The reading specialist/coaches provided to the Palmetto Literacy Project schools shall be hired and evaluated annually by the Department of Education.

(B) The balance of funds appropriated to the Department for Reading/Literacy Coaches shall be allocated to school districts for schools not included in the Palmetto Literacy Project to support reading instruction and interventions which may include, but not be limited to, hiring reading/literacy coaches, interventionists, or professional development based on the science of reading. Expenditure of funding must be included in the district reading plan approved by the Department of Education.

A district may only utilize these funds to employ reading/literacy coaches that may serve in a primary, elementary, or middle school or a combination of these schools depending on the area of highest need in the district except in the event that the district can request and receive a waiver from the Department of Education to expend the funds on interventionists who spend more than fifty percent

1 of their time providing direct support to struggling readers in grades kindergarten through grade five. The school district must align
2 the placement of coaches to the district reading plan that is approved by the department.

3 (E) Funds appropriated for reading/literacy Coaches are intended to be used to provide primary, elementary, and/or middle
4 schools with reading/literacy coaches who shall serve according to the provisions in Chapter 155, Title 59.

5 (F) Schools and districts accepting funding to support a coaching position agree that the reading/literacy coach must not serve as
6 an administrator. If the department finds that school districts are using these funds for administrative costs as defined in statute they
7 must withhold that districts remaining balance of funds allocated pursuant to this proviso.

8 (G) The Department of Education must publish guidelines that define the minimum qualifications for a reading/literacy coach.
9 These guidelines must deem any licensed/certified teacher qualified if, at a minimum, he or she:

11 (2) holds a bachelor's degree or higher and is actively pursuing the literacy coach or literacy specialist endorsement; or

12 (3) holds a master's degree or higher in reading or a closely-related field.

13 Within these guidelines, the Department of Education must assist districts in identifying a reading/literacy coach in the event that

34 such courses in grades seven through twelve without having the add on certification for middle-level education. A teacher certified

3 **1.55.** (SDE: Digital Instructional Materials) The Department of Education shall continue to create an instructional materials list
4 composed of those items (print and/or digital) that have received State Board of Education approval through the normal adoption
5 process. The department shall continue to work with the publishers of instructional materials to ensure that districts have options for
6 print/digital student materials to include class sets of print student editions, if needed. Funds appropriated for the purchase of
7 instructional materials (print/digital) may be used for reimbursing school districts to offset the costs of refurbishing science kits on
8 the state-adopted instructional materials inventory, purchasing new kits or those adopted as supplemental from the central textbook
9 depository, or a combination of refurbishment and purchase. The refurbishing cost of kits may not exceed the cost of the
10 state-adopted refurbishing kits plus a reasonable amount for shipping and handling. Costs for staff development, personnel costs,
11 equipment, or other costs associated with refurbishing kits on state inventory are not allowable costs. Funds provided for Instructional
12 Materials may be carried forward from the prior fiscal year into the current fiscal year to be expended for the same purposes by the
13 department, school districts, and special schools. These funds are not subject to flexibility.

14 **1.56.** (SDE: Technology Technical Assistance) Of the funds appropriated in VIII.D - Technology for the K-12 Technology

8 agree with the appropriations in Part IA, Section 1, VIII.F. Other State Agencies and Entities, the “other funds” appropriations in the
9 respective agency and entity sections of the General Appropriations Act will be adjusted by the Executive Budget Office to conform
10 to the appropriations in Part IA, Section 1, VIII.F. Other State Agencies and Entities. Further, the Department of Revenue is directed

35 the state as taxable income or reported as income on the employee’s annual W-2 form, and a district may not withhold or garnish
36 the amount of the supply check from an employee’s salary. Special schools include the Governor’s School for Science and Math,

5 that do not wish to require receipts may have teachers retain the receipts and certify for the district they have received the allocation
6 for purchase of teaching supplies and/or materials and that they have purchased or will purchase supplies and/or materials during the
7 fiscal year for the amount of the allocation. Districts shall not have an audit exception related to non-retention of receipts in any
8 instances where a similar instrument is utilized. Any district requiring receipts must notify any teacher from whom receipts have not
9 been submitted between November twenty-fifth and December sixth that receipts must be submitted to the district. Districts may
10 not add any additional requirement not listed herein related to this reimbursement.

14 the amount the teacher expends on teacher supplies and materials, whichever is less. If any expenditures eligible for a credit are made
15 after December thirty-first, the teacher may include the expenditures on his initial return or may file an amended 2024 2025 return
16 claiming the credit, so long as the return or amended return is filed in this fiscal year. The Department of Revenue may require
17 whatever proof it deems necessary to implement the credit provided by this part of this provision. Any person receiving the
18 reimbursement provided by this proviso is ineligible to take the income tax credit allowed by this proviso.

27 unexpended revenue from these sources may be carried forward into the current fiscal year and expended for the same purposes.

28 **1A.12.** (SDE-EIA: Proviso Allocations) In the event an official EIA revenue shortfall is declared by the Board of Economic
29 Advisors, the Department of Education may reduce any allocation in Section 1A specifically designated by proviso in accordance

34 Act funds, and funds received from the Children's Education Endowment Fund for school facilities and fixed equipment assistance,
35 to ensure the delivery of academic and arts instruction to students. However, a school district may not transfer funds allocated
36 specifically for state level maintenance of effort requirements under IDEA, funds allocated specifically for state level maintenance

4 mark. The department shall report this information to the General Assembly for the current school year.

5 In order for a school district to take advantage of the flexibility provisions, at least seventy-five percent of the school district's per

21 district must certify where non-instructional or nonessential programs have been suspended and the specific flexibility actions taken.
22 The certification must be in writing, signed by the chairman and the superintendent, delivered electronically to the State
23 Superintendent of Education, and an electronic copy forwarded to the Chairman of the Senate Finance Committee, the Chairman of
24 the Senate Education Committee, the Chairman of the House Ways and Means Committee, and the Chairman of the House Education
25 and Public Works Committee. Additionally, the certification must be presented publicly at a regularly called school board meeting,
26 and the certification must be conspicuously posted on the internet website maintained by the school district.

27 For the current fiscal year, Section 59-21-1030 is suspended. The foreign language program assessment, and the physical
28 education assessment must be suspended. School districts and the Department of Education are granted permission to purchase the
29 most economical type of bus fuel.

30 For the current fiscal year, savings generated from the suspension of the assessments enumerated above must be allocated to school
31 districts based on weighted pupil units.

32 School districts must maintain a transaction register that includes a complete record of all funds expended over one hundred dollars,
33 from whatever source, for whatever purpose. The register must be prominently posted on the district's internet website and made
34 available for public viewing and downloading. The register must include for each expenditure:

- 35 (i) the transaction amount;
36 (ii) the name of the payee; and

1 (iii) a statement providing a detailed description of the expenditure.

2 The register must not include an entry for salary, wages, or other compensation paid to individual employees. The register must
3 not include any information that can be used to identify an individual employee. The register must be accompanied by a complete
4 explanation of any codes or acronyms used to identify a payee or an expenditure. The register must be searchable and updated at
5 least once a month.

6 Each school district must also maintain on its internet website a copy of each monthly statement for all of the credit cards
7 maintained by the entity, including credit cards issued to its officers or employees for official use. The credit card number on each
8 statement must be redacted prior to posting on the internet website. Each credit card statement must be posted not later than the
9 thirtieth day after the first date that any portion of the balance due as shown on the statement is paid.

10 The Comptroller General must establish and maintain a website to contain the information required by this section from a school
11 district that does not maintain its own internet website. The internet website must be organized so that the public can differentiate
12 between the school districts and search for the information they are seeking.

13 The provisions contained herein do not amend, suspend, supersede, replace, revoke, restrict, or otherwise affect Chapter 4, Title
14 30 of the South Carolina Freedom of Information Act. Nothing in this proviso shall be interpreted as prohibiting the State Board of
15 Education to exercise its authority to grant waivers under Regulation 43-261.

16 **1A.14.** (SDE-EIA: Teacher Salary Supplement) The department is directed to carry forward prior year unobligated teacher salary
17 supplement and related employer contribution funds into the current fiscal year to be used for the same purpose. Any unexpended

31 by the Department of Education's InSite classification for "Instruction" must be printed on the Annual School and District Report
32 Card.

33 **1A.18.** (SDE-EIA: Core Curriculum Materials) The funds appropriated in Part IA, Section 1, VIII.A.3 for instructional materials
34 for core curriculum shall be expended consistent with the requirements of Section 59-31-600 of the 1976 Code requiring the

36 instructional materials. Furthermore, the evaluation criteria used to select instructional materials with funds appropriated in Part IA,

1 Section 1, VIII.A.3 shall include a weight of up to ten percent of the overall criteria to the development of higher order thinking skills
2 and critical thinking.

3 **1A.19.** (SDE-EIA: Accountability Program Implementation) To support implementation of the accountability program, the

8 provision of services to age-eligible children in poverty, as defined in Proviso 1.3 of this act. Children with developmental delays
9 documented through state approved screening assessments or children with medically documented disabilities who do not already
10 qualify for special need services should also be considered for enrollment. In the event that more students seek to enroll than available
11 space permits, districts shall prioritize students (at the time of acceptance) on the basis of family income expressed as a percentage
12 of the federal poverty guidelines, with the lowest family incomes given the highest enrollment priority.

13 **1A.21.** (SDE-EIA: Reading) ~~The funds allocated to the Department of Education for reading shall be used to provide districts~~
14 ~~with research based strategies and professional development and to work directly with schools and districts to assist with~~

25 appropriated and/or authorized for assessment shall be used for assessments to determine eligibility of students for gifted and talented
26 programs and for the cost of Advanced Placement, International Baccalaureate, and Cambridge International exams.

27 **1A.24.** (SDE-EIA: Adult Education) A minimum of thirty percent of the funds appropriated for adult education must be allocated
28 to school districts to serve adult education students between the ages of seventeen and twenty-one who are enrolled in programs
29 leading to a state high school diploma, state high school equivalency diploma (GED), or career readiness certificate. The remaining
30 funds will be allocated to districts based on a formula which includes factors such as target populations without a high school
31 credential, program enrollment the previous school year, number of students making an educational gain the previous school year,
32 and performance factors such as number of high school credentials and career readiness certificates awarded the previous school
33 year. Overall levels of state funding must meet the federal requirement of state maintenance of effort. Each school district must
34 collect information from both the student and the school including why the student has enrolled in Adult Education and whether or
35 not the student is pursuing a GED or Diploma. The school district must then provide a quarterly report to the Department of Education
36 and must include the unique student identifier. The department, in turn, will provide summary information to the House Ways and

Means Committee, the House Education and Public Works Committee, the Senate Finance Committee and the Senate Education Committee on the information. If sufficient funds remain, Clemson University PSA may utilize such funds for a Regional Coordinator.

1A.26. (SDE-EIA: Full-Day 4K) (A) Eligible students residing in any school district or attending any charter school authorized by the South Carolina Public Charter School District or an approved institution of higher education may participate in the South Carolina Early Reading Development and Education program (CERDEP) pending the availability of space and funding. Student eligibility as defined by Section 59-156-130 of the 1976 Code is an annual family income of one hundred eighty-five percent or less of the federal poverty guidelines as promulgated annually by the United States Department of Health and Human Services or a statement of Medicaid eligibility.

(B) A parent or guardian may choose to enroll their child in a public school participating in the program and approved by the Department of Education pursuant to Section 59-156-210 or in a private provider participating in the program and approved by the Office of First Steps pursuant to Section 59-156-200. A private provider includes, but is not limited to, a child care center, a military child care facility regulated by the United States Department of Defense, or a non-profit independent school. State funds appropriated for the provision of CERDEP services in military child care facilities may not be used to supplant existing federal child care funds. No school district can be denied participation in CERDEP or be denied CERDEP funding pursuant to the terms of this provision.

(C) 4K programs in public schools and non-profit independent schools participating in CERDEP are not required to be approved, registered, or licensed by the Department of Social Services in order to participate in CERDEP. Instead, the Department of Education and the Office of First Steps are responsible for ensuring that providers deliver high-quality educational programs pursuant to Section 59-156-160.

(D) Public and private providers shall be funded for instructional costs at a minimum rate of \$5,100 per student enrolled. Eligible students enrolling during the school year or withdrawing during the school year shall be funded on a pro rata basis determined by the length of their enrollment. Private providers transporting eligible children to and from school shall also be eligible for reimbursement at a minimum of \$620 per eligible child transported. First Steps and the Department of Education must provide an equitable distribution above the minimum between public and private providers. First Steps and the Department of Education must provide a quarterly report beginning October 1 detailing funding above the minimum made to any provider to the Governor, the Chairman of the Senate Finance Committee, and the Chairman of the House Ways and Means Committee. All providers who are reimbursed are required to retain records as required by their fiscal agent. New providers participating for the first time in the current fiscal year and enrolling between one and six eligible children shall be eligible to receive at a minimum of \$1,000 per child in materials and equipment funding, with providers enrolling seven or more such children eligible for funding at a minimum of \$10,000. The Department of Education and the Office of First Steps Readiness are authorized to utilize carry forward funds and federal funds to supplement the amount expended for materials and equipment. Providers receiving equipment funding are expected to participate

1 in the program and provide high-quality, center-based programs as defined herein for a minimum of three years. Failure to participate
2 for three years will require the provider to return a portion of the equipment allocation at a level determined by the Department of
3 Education and the Office of First Steps to School Readiness. Funding to providers is contingent upon receipt of data as requested
4 by the Department of Education and the Office of First Steps. The Department of Education shall only provide funding for public
5 school students whose complete records have been entered into PowerSchool based on the one hundred and thirty-five day student
6 average daily membership. For the current fiscal year, providers may enroll pay-lunch children who score at or below the twenty-fifth
7 national percentile on two of the three DIAL-3 subscales by July 1 if at least seventy-five percent of the total number of children
8 eligible or the Child Early Reading Development and Education Program in a district or county are projected to be enrolled in that
9 program, Head Start, or ABC Child Care Program as determined by the Department of Education and the Office of First Steps, Child
10 Early Reading Development and Education Program. Providers may receive reimbursement for these children if funds are available.
11 By September 1, the Department of Education and the Office of First Steps must collect the documented waiting lists, share the lists,
12 and determine a process to notify parents of eligible students of available slots in all approved providers. The Department of
13 Education is required to offer waivers allowing students with disabilities to be served in multi-categorical classroom settings based
14 on similar cognition and abilities. Funding appropriated for CERDEP may be carried forward and expended for the same purpose.

15 (E) Annually, the Department of Education is directed to audit the annual allocations to public providers to ensure that allocations
16 are accurate and aligned to the appropriate pro rata per student allocation, materials, and equipment funding. In the event the
17 department, during the audit process determines that the annual allocations of the prior fiscal year are not accurate, the department
18 must adjust the allocations for the current fiscal year to account for the audit findings. The department must provide the results of
19 the annual audit findings to the General Assembly no later than December first. Likewise, in the event the Office of First Steps
20 determines that the annual allocations of the prior fiscal year to private providers are not accurate, the Office of First Steps must
21 adjust the allocations for the current fiscal year to account for the findings.

22 (F) Of the funds appropriated, \$300,000 shall be allocated to the Education Oversight Committee to conduct an annual evaluation
23 of the South Carolina Early Reading Development and Education Program (CERDEP) and to issue findings in a report to the General
24 Assembly by March first of each year. To aid in this evaluation, the Education Oversight Committee shall determine and obtain the
25 data necessary and both public and private providers are required to submit the necessary data as a condition of continued
26 participation in and funding of the program, including average daily attendance data, so that consistent enrollment may be determined.
27 This data shall include developmentally appropriate measures of student progress. Additionally, the Department of Education shall
28 issue a unique student identifier for each child receiving services from a public or private provider including those funded by
29 CERDEP, Head Start, SC Child Care Scholarships, EIA, Title I, district-funded, and all other federal, state, or local public sources.
30 The Department of Education shall be responsible for the collection and maintenance of data on the public state funded full day and
31 half-day four-year-old kindergarten programs. The Office of First Steps to School Readiness shall be responsible for the collection
32 and maintenance of data on the state funded programs provided through private providers. The Education Oversight Committee
33 shall use this data and all other collected and maintained data necessary to conduct a research based review of the program's
34 implementation and assessment of student success in the early elementary grades along with information, recommendations, and a
35 timeline for how the state can increase the number of students served in high-quality programs. To aid in the accurate reporting of
36 four-year-olds in poverty served in formal education programs in public schools in South Carolina, the Department of Education

1 must provide to the EOC data related to four-year-olds served in formal education programs funded with other state, local, or federal
2 funds, including Title 1 and EIA-District-funded programs, denoting full- or partial-day status.

3 (G) For eligible children residing in school districts that do not participate in CERDEP, the Department of Education is required
4 to develop and implement inter-district transfer policies that give parents or guardians the option of their eligible child attending an
5 out-of-district school that participates in CERDEP.

6 (H) For the current fiscal year, the Office of First Steps may expend: (1) up to \$2,000,000 to pilot a program to provide higher
7 reimbursement rates to high-quality providers. The reimbursement rate for students enrolled by child care providers rated B or higher
8 in the ABC Quality System operated by the Department of Social Services may be increased by up to 10% of the per-student base
9 following guidelines developed by the Office of First Steps; and (2) up to \$250,000 to provide one-time supplemental, needs-based
10 incentive grants in an amount not to exceed \$30,000 for newly created and/or newly approved private providers proposing to expand
11 service to ten or more CERDEP eligible children in communities unable to enroll all eligible students in a public, private, or Head
12 Start setting during the prior fiscal year. These grants are designed to address building renovations, documented as necessary to
13 bring proposed classrooms into compliance with licensing regulations, materials and staffing costs, and/or other obstacles currently
14 preventing their participation in the program. The First Steps Board of Trustees shall develop and approve an application process
15 that incorporates formal review and fiscal safeguards designed to ensure grant funds are used solely to address documented barriers
16 to program participation. Providers receiving this one-time supplement shall be expected to participate in the program and provide
17 high-quality, center-based programs as defined herein for a minimum of three years. Failure to participate for three years shall
18 require the provider to return a portion of the supplemental allocation at a level determined by the Office of First Steps to School
19 Readiness. First Steps shall submit a report detailing its process, expenditures and expanded enrollment to the Chairman of the
20 House Ways and Means Committee and the Chairman of the Senate Finance Committee by March 15.

21 (I) If by August first, the Department of Education or the Office of First Steps determines that appropriations will exceed
22 expenditures, available funds may be used to fund an extended program and to increase the length of the program to a maximum of
23 eight and a half hours per day or two hundred and twenty days per year or to fund summer programs. If a district chooses to fund
24 summer enrollment, the program funding shall conform to the funding in this act for full year programs; however, it shall be reduced
25 on a pro rata basis to conform with the length of the program. A summer program shall be no more than eight and a half hours per
26 day and shall be not more than ten weeks in length. The per pupil allocation and classroom grant must conform with the appropriated
27 amount contained in this act and end of year adjustments shall be based on the one hundred and thirty-five-day student average daily
28 membership or later student average daily membership for districts choosing to extend the program past one hundred and eighty
29 days. Funds may also be used to provide parent engagement, professional development, and quality evaluations of programs. No
30 later than April first, the Department of Education and the Office of First Steps shall report to the Chairman of the Senate Finance
31 Committee and the Chairman of the House Ways and Means Committee on the expenditure of these funds to include the following
32 information: the amount of money used and specific steps and measures taken to enhance the quality of the 4K program and the
33 amount of money used for professional development as well as the types of professional development offered and the number of
34 participants. The Office of First Steps is directed to determine if the provision of extended programs in private centers improves the
35 ability of parents to enter the workforce or to pursue postsecondary training or industry credentials.

1 (J) On or before November 15, the Department of Education and the Office of First Steps shall share data that identifies the total
2 number of children enrolled in CERDEP in both public and private providers. If available appropriations exceed the instructional
3 costs of serving children enrolled in the program and if a waiting list of eligible children can be documented by the Department of
4 Education and by the Office of First Steps, then the Executive Budget Office may authorize the transfer of funds between the
5 Department of Education and the Office of First Steps.

6 (K) The Office of First Steps and the Department of Education shall collaborate with the South Carolina Head Start State
7 Collaboration Office to inform parents of all publicly funded full-day 4K programs including Head Start by participating in
8 PalmettoPreK and First5SC.

12 **1A.28.** (SDE-EIA: Career Cluster Industry Partnerships) From the funds appropriated to the Department of Education, \$800,000
13 must be provided as direct grants to the private sector statewide trade association or educational foundation providing nationally
14 certified programs in career and technology education representing the automotive, construction, engineering, healthcare, mechanical
15 contracting/construction, and hospitality tourism career clusters. Organizations applying for a grant must do so by July thirty-first
16 and the Department of Education must award a minimum of one grant of at least \$150,000 in at least four of these specified career
17 clusters to be used exclusively for career and technology education. The recipient industry organization must conduct end-of-course
18 exams graded by a national industry organization and must include in their grant request how the money will be spent in direct
19 support of students to further industry-specific career technology education; a description and history of their program nationally and
20 within South Carolina; estimates of future employment growth in their industry; and the national scope of their program. By August
21 first of the following year, the organization must submit to the department a report detailing how the grant increased
22 industry/employer awareness; the number of increased schools using the industry-based curriculum and partnered with the industry
23 organization; the increased number of students in the program; and an overview and analysis of the organization's statewide student
24 competition. The grant must be used for career awareness programs for that industry cluster; statewide student competitions leading
25 to national competitions; teacher development and training; post-secondary scholarships in industry-specific degree programs;
26 student recruitment into that career cluster programs; programs to educate middle and high school Career or Guidance Counselors
27 about the industry; service to disadvantaged youth; and administering business/employer awareness and partnerships which help lead
28 to experience-based, career-oriented experiences including internships, apprenticeships, mentoring, co-op education and service
29 learning. The Office of Career and Technology Education of the department will develop goals with each career cluster on the
30 number of new schools using the industry-based curriculum and partnered with that career cluster organization. These funds may
31 not be used to supplant or replace, in whole or in part, other existing resources/assets sourced outside the present grant being used to
32 provide the same services or programs. Organizations may carry-over grants for up to three years when a large project is identified
33 in the grant application to be used at a future date; otherwise excess funds must be returned to the state. Organizations awarded must
34 submit a semi-annual programmatic and financial report on the last day of December in addition to the final report due August first
35 that has been audited by a third party accounting firm.

2 appropriated in Part IA, Section 1, VIII. F. will continue to report annually to the Education Oversight Committee (EOC). Any entity
3 receiving funds that must flow through a state agency will receive those funds through the EOC, unless requested in writing by the

10 the average teachers' salaries of the southeastern states as projected by the Revenue and Fiscal Affairs Office. For the current school
11 year, the Southeastern average teacher salary is projected to be ~~\$59,866~~ \$61,964. The General Assembly remains desirous of raising
12 the average teacher salary in South Carolina through incremental increases over the next few years so as to make such equivalent to
13 the national average teacher salary.

14 (B) Additionally, for the current fiscal year, a local school district board of trustees must increase the salary compensation for all
15 eligible certified teachers employed by the district by no less than one year of experience credit using at a minimum the district salary
16 schedule utilized the prior fiscal year as the basis for providing the step. Application of this provision must be applied uniformly for
17 all eligible certified teachers. For Fiscal Year ~~2024-25~~ 2025-26, the requirement that school districts maintain local salary
18 supplements per teacher no less than their prior fiscal year level is suspended.

19 (C) For purposes of this provision, teachers shall be defined by the Department of Education using the Professional Certified
20 Staff (PCS) System.

21 **1A.32.** (SDE-EIA: PowerSchool Dropout Recovery Data) With the funds appropriated to the Department of Education for
22 PowerSchool and data collection, the department will begin in the current fiscal year to collect data from schools and school districts
23 on the number of students who had previously dropped out of school and who reenrolled in a public school or adult education to
24 pursue a high school diploma. The Education Oversight Committee working with the Department of Education will determine how
25 to calculate a dropout recovery rate that will be reflected on the annual school and district report cards. The department may carry
26 forward and expend the funds for the same purpose.

27 **1A.33.** (SDE-EIA: Assisting, Developing and Evaluating Professional Teaching -ADEPT) With funds appropriated in the current

36 content areas; training; research; advocacy; and practical consultancy. The Center will establish collaborative educational enterprises

7 Education Oversight Committee is directed to participate in public-private partnerships to promote innovative ways to transform the
8 assessment of public education in South Carolina that support increased student achievement in reading and college and career
9 readiness. The Education Oversight Committee may provide financial support to districts and to public-private partnerships for
10 planning and support to implement, sustain and evaluate the innovation and to develop a matrix and measurements of student
11 academic success based on evidence-based models. These funds may also be used to support the innovative delivery of science,
12 technology, and genetic education and exposure to career opportunities in science, including mobile science laboratory programs, to
13 students enrolled in the Abbeville equity school districts and students in high poverty schools. These funds may also focus on
14 creating public-private literacy partnerships utilizing a 2:1 matching funds provision when the initiative employs research-based
15 methods, has demonstrated success in increasing reading proficiency of struggling readers, and works directly with high poverty
16 schools and districts. The committee will work to expand the engagement of stakeholders including state agencies and boards like
17 the Educational Television Commission, businesses, and higher education institutions. The committee shall annually report to the
18 General Assembly on the measurement results.

21 periodic evaluations of the institutions currently hosting a Teaching Fellows (TF) program and ensure that the TF programs at the
22 current host institutions continue to meet the requirements for a TF program as set forth by the CERRA Board of Directors. Further,

24 who wish to be considered to host a TF program, provided the proposed programs meet the requirements set forth by the CERRA
25 Board of Directors. CERRA will publish TF program criteria and requirements prominently on its website. Any institution who
26 applies but is not selected to host a TF program will be informed in writing of the basis for the selection decision and be offered
27 technical support if the institution elects to reapply. Any institution that applies but is not selected to host a TF program may appeal

31 services in eligible districts and shall provide incentive options for eligible individuals at all stages of their careers, including
32 high-school and college or university students interested in entering the teaching profession and including individuals entering the
33 field through an alternative certification pathway to include, but not limited to, PACE, ABCTE, Teach for America, and CATE

12 incentives given to individual participants who fail to comply with the obligations associated with a relevant incentive in which they
13 participate including, but not limited to, failure to complete a prescribed course of study, failure to obtain a relevant certification or
14 licensure upon completion of a course of study, or failure to provide instructional services in an eligible district for a prescribed
15 period of time.

16 (E) CERRA shall report by July thirty-first of the current fiscal year to the Governor, President of the Senate, and Speaker of the

20 and demographics of individuals potentially eligible for each.

21 (F) Funds appropriated or transferred for use in the Rural Teacher Recruiting Incentive may be carried forward from prior fiscal
22 years and used for the same purpose.

23 (G) The Education Oversight Committee is required to complete an evaluation of the impact of the funds and incentives related

28 teacher in-service training and professional development related to Project Read. The department may set accountability guidelines
29 to ensure that funds are spent in accordance with the proviso.

30 **1A.47.** (SDE-EIA: Reading/Literacy Coaches) (A) For the current fiscal year, of the funds appropriated for Reading/Literacy
31 Coaches, the Department of Education shall retain up to \$14,000,000 to be expended for the Palmetto Literacy Project. The
32 Department shall identify schools in the Palmetto Literacy Project that have one-third or more of its third grade students scoring at
33 the lowest achievement level on the statewide summative English language arts assessment. For each school identified and
34 participating in the Palmetto Literacy Project in the prior school year, the Department of Education shall provide, at a minimum, the

3 (B) The balance of funds appropriated to the Department for Reading/Literacy Coaches shall be allocated to school districts for
4 schools not included in the Palmetto Literacy Project to support reading instruction and interventions which may include, but not be
5 limited to, hiring reading/literacy coaches, interventionists, or professional development based on the science of reading. Expenditure
6 of funding must be included in the district reading plan approved by the Department of Education.

7 (C) These funds must be allocated to school districts by the Department of Education as follows: for each primary and elementary
8 school, the school district shall be eligible to receive up to \$62,730 or the actual cost of salary and benefits for a full-time
9 reading/literacy coach.

10 (D) By accepting these funds, a school district warrants that they will not be used to supplant existing school district expenditures,
11 except for districts that either are currently, or in the prior fiscal year, were paying for reading/literacy coaches with local funds. A
12 district may only utilize these funds to employ reading/literacy coaches that may serve in a primary, elementary, or middle school or
13 a combination of these schools depending on the area of highest need in the district except in the event that the district can request
14 and receive a waiver from the Department of Education to expend the funds on interventionists who spend more than fifty percent
15 of their time providing direct support to struggling readers in grades kindergarten through grade five. The school district must align
16 the placement of coaches to the district reading plan that is approved by the department.

17 (E) Funds appropriated for reading/literacy Coaches are intended to be used to provide primary, elementary, and/or middle
18 schools with reading/literacy coaches who shall serve according to the provisions in Chapter 155, Title 59.

19 (F) Schools and districts accepting funding to support a coaching position agree that the reading/literacy coach must not serve as
20 an administrator. If the department finds that school districts are using these funds for administrative costs as defined in statute they
21 must withhold that districts remaining balance of funds allocated pursuant to this proviso.

22 (G) The Department of Education must publish guidelines that define the minimum qualifications for a reading/literacy coach.
23 These guidelines must deem any licensed/certified teacher qualified if, at a minimum, he or she:

24 (1) holds a bachelor's degree or higher and an add-on endorsement for literacy coach or literacy specialist;

25 (2) holds a bachelor's degree or higher and is actively pursuing the literacy coach or literacy specialist endorsement; or

26 (3) holds a master's degree or higher in reading or a closely-related field.

29 (H) The Department of Education shall require:

30 (1) any school district receiving funding to identify the name and qualifications of the supported reading/literacy coach; as
31 well as the school in which the coach is assigned; and

32 (2) any school district receiving funding to account for the specific amounts and uses of such funds.

33 (I) With the data reported by the school districts, the department shall report by January fifteenth of the current fiscal year on the
34 hiring of and assignment of reading/literacy coaches by school. The department shall also report the amount of funds that will be

1 **1A.48.** (SDE-EIA: Digital Instructional Materials) The Department of Education shall continue to create an instructional materials
2 list composed of those items (print and/or digital) that have received State Board of Education approval through the normal adoption
3 process. The department shall continue to work with the publishers of instructional materials to ensure that districts have options for
4 print/digital student materials to include class sets of print student editions, if needed. Funds appropriated for the purchase of
5 instructional materials (print/digital) may be used for reimbursing school districts to offset the costs of refurbishing science kits on
6 the state-adopted instructional materials inventory, purchasing new kits or those adopted as supplemental from the central textbook
7 depository, or a combination of refurbishment and purchase. The refurbishing cost of kits may not exceed the cost of the
8 state-adopted refurbishing kits plus a reasonable amount for shipping and handling. Costs for staff development, personnel costs,
9 equipment, or other costs associated with refurbishing kits on state inventory are not allowable costs. Funds provided for Instructional
10 Materials may be carried forward from the prior fiscal year into the current fiscal year to be expended for the same purposes by the
11 department, school districts, and special schools. These funds are not subject to flexibility.

12 **1A.49.** (SDE-EIA: 4K Early Literacy Competencies Assessments) Of the funds carried forward from the full-day 4K program
13 from the previous fiscal year, the Department of Education is authorized to expend up to \$800,000 on assessments and professional
14 development to analyze the early literacy competencies of children in publicly funded prekindergarten. If these funds are not
15 available, funds appropriated and/or authorized for assessment shall be used to administer the prekindergarten assessments. The
16 department shall manage the administration of assessments that analyze the early literacy and language development of children in
17 publicly funded prekindergarten as done in the prior fiscal year. Each school district and private provider participating in a publicly
18 funded prekindergarten program will administer one of the formative assessments selected by the department to each child eligible
19 for and enrolled in a publicly funded prekindergarten program during the first forty-five days of the school year and during the last
20 forty-five days of the school year. Accommodations that do not invalidate the results of these assessments must be provided in the
21 manner set forth by the student's Individualized Education Program or 504 Accommodations Plan and for students who are Limited
22 English Proficient according to their LEP Plan. The department will provide the assessment data to the Education Oversight
23 Committee. The results of the assessment and the developmental intervention strategies recommended or services needed to address
24 the child's identified needs must also be provided, in writing, to the parent or guardian. The assessment may not be used to deny a
25 student to admission to prekindergarten.

26 Furthermore, up to \$2,000,000 of the funds appropriated for half-day programs for four-year-olds and funds carried forward from
27 assessment must be expended by the Department of Education to administer the KRA to each child entering kindergarten in the
28 public schools. The assessment of kindergarten students must be administered at a minimum of once during the first forty-five days
29 of the school year with the results collected by the department. The results of the assessments and the developmental intervention
30 strategies recommended or services needed to address each child's identified needs must also be provided, in writing, to the parent
31 or guardian. The assessment may not be used to deny a student admission to kindergarten. Accommodations that do not invalidate
32 the results of these assessments must be provided in the manner set forth by the student's Individualized Education Program, 504
33 Accommodations Plan, or LEP Plan. Districts are given the option of designating up to two days of the one hundred eighty day
34 school calendar to administer the assessment to kindergarten students. The department will also provide the results of the assessment
35 of kindergarten students to the Education Oversight Committee. With available funds, the department will also provide or secure
36 training for appropriate educators in how to administer the assessment.

1 For all students assessed with the KRA, the Department of Education is required to collect data from schools and school districts
2 on the prior early learning experience of each student. The data would include whether the kindergartener had attended in the prior
3 school year a Head Start program, a South Carolina Early Reading Development and Education Program in a public school or a
4 private center, a half-day 4K program in a public school, a full-day 4K program in a public school, a child care center (registered
5 faith-based, registered family home, group home, or exempt provider), or informal child care.

6 **1A.50.** (SDE-EIA: Industry Certifications/Credentials) Of the funds appropriated for Industry Certifications/Credentials,
7 \$3,000,000 must be allocated to school districts based upon the number of national industry exams administered in the prior school
8 year with each district receiving a base amount of \$10,000. The department will identify the national industry exams that will be
9 funded based upon the job availability in the state. School districts may carry forward funds from the prior fiscal year into the current
10 fiscal year and expend the funds for the cost of national industry exams. The department shall work with the Department of
11 Commerce, the Department of Employment and Workforce, state and local chambers of commerce and economic development
12 offices and the Tech Board to ensure that students are aware of the industry required credentials for current job availability in the
13 state organized by region. Any additional funds appropriated must be allocated to school districts based upon the number of national
14 industry exams/credentials earned in the prior school year, and districts must expend these funds to pay for the cost of industry exams
15 or to support students in preparing for the exams in the current fiscal year.

16 **1A.51.** (SDE-EIA: Career and Technology Education) Of the funds appropriated for Career and Technology Education,

18 receive in the current fiscal year at least \$2,750,000. The balance of funds appropriated for Career and Technology Education will
19 be distributed to school districts and multi-district career centers based on the prior year actual student enrollment for career and
20 technology education courses, with no district or multi-district career center receiving less than \$50,000. Funds may be expended
21 for the purchase of career and technical equipment, the up fitting of facilities and the purchase of consumables, regional career
22 specialists, and such evidence-based initiatives like High Schools that Work and Project Lead the Way. Each district must include
23 in the district plan submitted to the Office of Career and Technology Education information on other career and technical equipment
24 available. The district must include, at a minimum, equipment located at the career center and at the technical college, information
25 on the alignment of equipment to current industry jobs and needs in the state as recommended by career and technical program
26 advisory committees. District plans must include charter schools within the school district offering at least one career and technical
27 education completer program. School districts and career centers may carry forward unexpended funds to be used for the same
28 intended purposes to up fit career and technical facilities and replace career and technical program consumables. In addition,

9 "jail" within the Kirkland Correctional Institution using one or more of the available 192-bed housing units to accept newly sentenced
10 state inmates who are awaiting R & E processing. The department may operate such "jail," to the extent feasible, in accordance with
11 standards applicable to the local jails.

12 The department shall use the funds appropriated in this act for "Quota Elimination" to accomplish this initiative and to open a

1 debt authorized under Section 13, Article X of the Constitution of South Carolina, 1895, and debt issued by the state institution under

13 and if the damaged or destroyed item is found by the agency head to be reasonable in value, and necessary for the employee to carry

22 Prevention Act in regard to the secure holding of juveniles for more than six hours in adult detention facilities that also serve as

34 earnable compensation for purposes of employee and employer contributions to respective retirement systems. The employing
35 agency must report this information on or before August thirty-first of each year and must include the total amount and source of the
36 bonus received by the employee during the preceding fiscal year (July first through June thirtieth). The Human Resources Division

20 shall not exceed \$5,000 in any year. The amount of law school loan payment reimbursement in any calendar year shall not exceed
21 the amount of principal and interest paid on the loan in the prior calendar year. Reimbursements under the program may continue

3 directly impact the health, safety, and welfare of the public. The employee bonus amount shall be approved by the State Human
4 Resources Director based on State Human Resources guidelines, and shall not exceed \$10,000 per year. Payment of these bonuses
5 is not a part of the employee's base salary and is not earnable compensation for purposes of employee and employer contributions
6 to respective retirement systems. These bonuses shall, however, be considered earnings for determining if an employee who has
7 returned to work after retirement is subject to the earning limitation imposed in either Section 9-1-1790(A)(1) or Section
8 9-11-(4)(a)(i).

9 These agencies may also provide paid educational leave for any employee in a FTE position deemed critical by the Department of

20 prepayment. The remaining tuition could be reimbursed to the employee after successful completion of the class.

21 The Department of Administration shall approve of the designation of critical needs positions applicable to this provision using
22 guidelines that include, but are not limited to: (1) the difficulty recruiting for the positions as reflected by data such as the vacancy
23 rate maintained, the average time to fill, the lack of sufficient qualified applicants, and other objective factors; (2) the difficulty
24 retaining employees in the positions as shown by turnover data; (3) justification by the state agency that the position is critical to the
25 core mission of the agency and directly impacts the health, safety and welfare of the public; and (4) assurances from the state agency
26 that there are sufficient existing funds available to pay for items under this provision.

27 Healthcare employees in approved critical needs positions working on a practicum or required clinical experience towards
28 completion of a healthcare degree may be allowed to complete these requirements at their state agency or another state agency at the
29 discretion of the agency head. This field placement at another state agency may be considered work time for participating employees.

30 State agencies must report to the Department of Administration by August 31st of each year any expenditure under this provision.

4 contributions, the state agencies, institutions and departments will be responsible for making both employer and employee
5 contributions if coverage would otherwise be interrupted; and as to those benefits which require only employee contributions, the
6 employee remains solely responsible for making those contributions. In the event an agency's reduction is due solely to the General

18 retain and expend funds received pursuant to the lease for agency operations. The commission shall be authorized to carry forward
19 unexpended funds from the prior fiscal year into the current fiscal year. In the event of a default by the current lease holder, the

31 agency shall notify the General Assembly within fifteen days of this determination and shall further request the Executive Budget
32 Office to work with it to develop a plan to avoid the deficit. Within fifteen days of the deficit avoidance plan being completed, the
33 Executive Budget Office shall either request the General Assembly to recognize the deficit if it determines the deficit avoidance plan
34 will not be sufficient to avoid a deficit or notify the General Assembly of how the deficit will be avoided based on the deficit
35 avoidance plan if the Executive Budget Office determines the plan will be sufficient to avoid a deficit.

1 Upon notification from the Executive Budget Office that an agency will run a deficit and requesting that it be recognized, the
2 General Assembly, by joint resolution, may make a finding that the cause of, or likelihood of, a deficit is unavoidable due to factors
3 which are outside the control of the state agency, department, or institution, and recognize the deficit. Any legislation to recognize
4 a deficit must be in a separate joint resolution enacted for the sole purpose of recognizing the deficit of a particular state agency,
5 department, or institution. A deficit may only be recognized by an affirmative vote of each branch of the General Assembly.

6 If the General Assembly recognizes the deficit, then the actual deficit at the close of the fiscal year must be reduced as necessary
7 from surplus revenues or surplus funds available at the close of the fiscal year in which the deficit occurs and from funds available
8 in the General Reserve Fund and the Capital Reserve Fund, as required by the Constitution of this State.

9 Once a deficit has been recognized by the General Assembly, the state agency, department, or institution shall limit travel and
10 conference attendance to that which is deemed essential by the director of the agency, department, or institution. In addition, the

16 which must use the Cents per mile Rule, unless they are exempted from such reimbursement by applicable IRS regulations. These
17 permanently assigned vehicles must be clearly marked as a state or agency vehicle through the use of permanent state-government
18 license plates and either state or agency seal decals unless the vehicle is used primarily in undercover operations. This requirement
19 does not apply to a vehicle used by an employee for the purpose of a special travel assignment, for active certified law enforcement
20 officers authorized to carry firearms, execute warrants, and make arrests, for Constitutional Officers, or for Department of

27 account, the name and title of each person responsible for reconciling each account, the beginning and year-end balance of funds in
28 each account, and data related to both deposits and expenditures of each account. The report shall include, but not be limited to, the
29 date, amount, and source of each deposit transaction and the date, name of the payee, the transaction amount, and a description of
30 the goods or services purchased for each expenditure transaction. To facilitate review, the State Fiscal Accountability Authority
31 shall prescribe a common format for the report which agencies must use. In order to promote accountability and transparency, a link
32 to the report shall be posted on the Comptroller General's website as well as the agency's homepage.

33 When the State Auditor conducts or contracts for an audit of a state agency, accounts of the agency subject to this proviso must be
34 included as part of the review.

35 If an agency determines that the release of the information required in this provision would be detrimental to the state or the
36 agency, the agency may petition the State Fiscal Accountability Authority to grant the agency an exemption from the reporting

1 requirements for the detrimental portion. The meeting to determine whether an exemption should be granted shall be closed.
2 However, the exemption may only be granted upon a majority vote of the State Fiscal Accountability Authority in a public meeting.

3 **117.79.** (GP: Websites) All agencies, departments, and institutions of state government shall be responsible for providing on its
4 Internet website a link to the Internet website of any agency, other than the individual agency, department, or institution, that posts

14 (B) For Fiscal Year ~~2024-25~~ 2025-26, the Executive Budget Office is directed to review Executive Branch agencies to determine

33 Department of Mental Health, the Department of Public Health, the Department of Alcohol and Other Drug Abuse Services, and all
34 other relevant agencies shall examine and analyze the existing statewide system for the delivery of Medicaid and non-Medicaid
35 behavioral health services to assess the system's effectiveness in:

- 1 (1) providing a range and supply of treatment options and settings that are appropriate to meet the varying needs of individual
- 2 patients;
- 3 (2) being responsive to changes in federal law, regulation, or policy that improve access to care and/or associated
- 4 reimbursement, particularly where related to the treatment of patients in Institutions for Mental Disease (IMDs);
- 5 (3) being economical in its approach, so as to obtain the greatest value possible for each state taxpayer dollar; and
- 6 (4) ensuring that the statewide system for the delivery of behavioral health services complies with the requirements of Section
- 7 44-9-90(7).

8 (B) With the support of the Department of Mental Health, the Department of Health and Human Services shall undertake an effort

9 to assess existing gaps in coverage for or the supply of inpatient psychiatric care, crisis stabilization, and other inpatient or outpatient

10 behavioral health services. Based upon this assessment, the Department of Health and Human Services shall establish, or with the

11 full cooperation of any other requested state agency, request the establishment of coverage and reimbursement policies that it deems

12 necessary to address existing deficiencies and bring about a more comprehensive and effective continuum of behavioral health care

13 in South Carolina. Priorities for this effort may be piloted on a regional basis and shall include, but not be limited to:

- 14 (1) increasing the number of beds available to provide inpatient psychiatric care, with emphasis on communities with the
- 15 greatest current need, and using the appropriate combination of new construction, augmentation or reconfiguration of existing
- 16 facilities, or contracting with psychiatric or acute care hospitals to obtain short-term capacity;
- 17 (2) establishing crisis stabilization beds and services to provide needed short-term medication, counseling, and other support
- 18 in previously unserved areas of the State, working toward the goal of having such services available within a 90-minute drive of each
- 19 South Carolinian, and with coverage and reimbursement being funded through Medicaid for its beneficiaries or through the
- 20 Department of Mental Health for indigent care, regardless of the provider of these services;
- 21 (3) formalizing and expanding the coverage of claims-based mobile crisis stabilization services that offer rapid and intensive
- 22 interventions intended to stabilize individuals at the sites of behavioral health crises;
- 23 (4) developing one or more regional dedicated psychiatric emergency departments, operating twenty-four hours per day, seven
- 24 days per week to effectively evaluate and triage patients experiencing acute behavioral health emergencies;
- 25 (5) developing effective referral and discharge strategies and engaging with existing community providers to ensure that
- 26 sufficient outpatient services, case management services, and standards of care are in place;
- 27 (6) leveraging and building upon existing telehealth capacity to support and extend outpatient services; and
- 28 (7) promoting the development of in-state treatment options for specific behavioral health conditions for which patients are
- 29 routinely placed out-of-state due to an insufficiency of treatment options or settings in South Carolina.

30 (C) The Executive Director of the Public Employee Benefit Authority shall be encouraged to consult with the Director of the

31 Department of Health and Human Services to make appropriate coverage and reimbursement policy changes to ensure proper access

32 to behavioral health services for covered beneficiaries.

33 (D) The Data Oversight Council, established pursuant to Section 44-6-170, shall undertake whatever rulemaking is necessary to

34 ensure that the data on the utilization of crisis stabilization units are collected in a manner generally consistent with the requirements

35 for general acute care hospitals and specialized hospitals, so that the effectiveness of these services may be properly evaluated. The

36 Data Oversight Council, Department of Public Health, and any other state agency shall, upon the request of and in the format specified

1 by the Department of Health and Human Services, furnish information on behavioral health service demand, utilization, or financing
2 needed to facilitate the implementation of this provision.

3 (E) With the support of the Director of the Department of Mental Health, the Director of the Department of Alcohol and Other
4 Drug Abuse Services, and any other identified agency head, the Director of the Department of Health and Human Services shall
5 evaluate opportunities to improve and/or coordinate treatment capacity for individuals diagnosed with substance use disorder and/or
6 serious mental illness including, but not limited to, options established pursuant to Sections 1115, 1915(l), and/or 1947 of the Social
7 Security Act or made available to states by the Centers for Medicare and Medicaid Services through State Medicaid Director Letters
8 17-003, 18-011, or 19-0003.

9 (F) In consultation with the Department of Juvenile Justice and the Department of Mental Health, the Department of Health and
10 Human Services shall ensure that access to “no eject, no reject” services is restored for children and adolescents requiring care in a
11 private residential treatment facility.

12 (G) To ensure that individuals requiring behavioral health services are protected from unexpected or excessive billings, the
13 Department of Mental Health shall examine ways to convert state-funded or DSH-funded indigent care to a sustainable
14 reimbursement model that improves access to behavioral health treatment while potentially reducing uncompensated care levels and
15 the department’s reliance on state funds. In the current fiscal year, the department shall report to the Chairmen of the Senate Finance
16 Committee and the House Ways and Means Committee on the results of this examination and the actions taken to address any
17 findings. The department also shall:

18 (1) contract for an exhaustive independent review of its entire revenue cycle, to eliminate inefficiencies and improve business
19 processes, ensure that bills are produced on a timely and accurate basis, and assess and maximize the proportion of the time during
20 which the department’s clinicians and providers are rendering chargeable treatment services to the State’s citizens; and

21 (2) ensure its immediate and ongoing compliance with the hospital price transparency rules established at 45 C.F.R. Part 180,
22 and also meet its obligation to provide certain patients with good faith estimates as required by the No Surprises Act, P.L. 116-260,
23 and subsequent regulation.

24 (H) With the support and participation of the Department of Education and the Department of Mental Health, and with the intent
25 of assuring access to behavioral health services to every student in the State through either a public or private provider, the
26 Department of Health and Human Services must lead a comprehensive effort to improve access to and the quality of school-based
27 behavioral health services in South Carolina, while identifying and taking steps to address community-level disparities in the
28 availability of this care. This effort shall include, but not be limited to:

29 (1) the performance of a comprehensive review of Medicaid and non-Medicaid school-based behavioral health services in
30 South Carolina, including an assessment of the availability of such services and the identification of any barriers to access, such as
31 coverage and reimbursement rules, billing practices, other insurer policies, state agency, school district rules or procedures, or
32 provider shortages;

33 (2) a revisitation of existing coverage policies for medically necessary services provided to children, including those with or
34 without a disability determination, and whether those services are or are not required by a child’s individualized education plan or
35 individualized family services plan, whether they do or do not arise from a referral under the Early and Periodic Screening,
36 Diagnostic, and Treatment program, and in the context of State Medicaid Director Letter 14-006;

1 (3) the rescission of any Medicaid or PEBA policies that deny coverage, solely on the basis that those services are being
2 provided within a school or through a telehealth encounter that originates in a school, of medically necessary outpatient services that
3 have been furnished to eligible children by enrolled and qualified providers;

4 (4) the issuance of any new Medicaid policies needed to durably enshrine any appropriate telehealth coverage that had been
5 authorized on a temporary basis during the public health emergency;

6 (5) a review of statewide and school district-level policies and practices relating to suicide risk referral protocols and behavioral
7 health training for student-facing personnel in schools; and

8 (6) reporting to the Chairman of the Senate Finance Committee and the Chairman of the House Ways and Means Committee
9 on any other relevant potential policy changes that the Director of the Department of Health and Human Services believes would
10 advance the intent of this provision, but which would have a fiscal impact that is sufficiently substantial to require the General
11 Assembly's direct consideration in the future.

12 (I) The Department of Health and Human Services is authorized to establish programs and/or fund in whole or in part, including
13 through the potential use of CHIP Health Services Initiatives, various pilot projects or other initiatives that are intended to develop
14 the health care workforce in South Carolina. Such efforts must be targeted toward current or future providers who demonstrate, by
15 whatever means is selected by the department, commitments to remaining in-state and including Medicaid beneficiaries among their
16 patients. The development of the behavioral health workforce shall be prioritized, although the department may also address other
17 provider classes, such as respiratory therapists, for which shortages have been highlighted and/or exacerbated by the public health
18 emergency. Further consideration also should be given to attracting additional qualified preceptors and increasing opportunities for
19 clinical rotations. The department may partner with or enlist the support of the Technical College System, Area Health Education
20 Centers, and/or Student Loan Corporation in designing or administering these programs and, where appropriate, is encouraged to
21 structure them as public-private partnerships in conjunction with the state's hospital and health systems and other key employers of
22 health providers.

23 (J) If either the Director of the Department of Mental Health or the Director of the Department of Health and Human Services
24 finds that state personnel and/or procurement rules are limiting his ability to fulfill the intent of this provision, he shall notify the
25 State Fiscal Accountability Authority of this in writing and request whatever exemptions are necessary to ensure that clinical staff
26 may be recruited, retained, and/or contracted for so as to provide greater access to behavioral health treatment.

27 (K) In consultation with the Department of Mental Health, the Department of Health and Human Services shall assess the
28 feasibility of, and if warranted, take steps to establish or obtain through grant, contract, subscription, or other procurement, a statewide
29 system for the near-real time tracking of in-patient psychiatric hospital beds and crisis stabilization beds. This system should be
30 generally designed to draw data from providers' existing electronic medical record systems and make summary-level data available
31 to authorized users within state agencies, participating provider organizations, and any others to be specified by the Department of
32 Health and Human Services, for the purposes of managing critical resources and ensuring that patients may be promptly treated in
33 the most effective and clinically appropriate setting. To protect patient privacy and ensure HIPAA compliance, the system may only
34 collect information on the types, counts, and availability of beds, or other categorical or aggregated information, as opposed to
35 individually identifying patient details. In partnership with the following named agencies, the Department of Health and Human
36 Services may also explore and pursue the use of such a system:

1 (1) to meet the emergency preparedness and disaster recovery requirements of the Department of Public Health and the
2 Emergency Management Division that are currently met by the Bed Availability Report Tracking system; and/or

3 (2) to augment or replace the capabilities of the Department on Aging's GetCareSC website.

4 (L) From the funds appropriated to or otherwise made available to it, the Department of Health and Human Services is authorized
5 to procure, enter into contracts and agreements, offer grants, and otherwise expend funds as well as establish demonstration projects
6 in one or more areas of the state to encourage and promote necessary infrastructure and investment to achieve the objectives set out
7 in this provision. The department shall develop policies and procedures as necessary to assure accountability in the expenditure of
8 these funds and apply for federal matching funds when appropriate and available. The department shall report annually to the Senate
9 Finance Committee and the House Ways and Means Committee on all expenditures made under this provision.

10 (M) Crisis stabilization unit facilities established or funded pursuant to this provision shall be eligible for licensure under
11 Regulation 61-125 without being owned or operated by the Department of Mental Health.

12 (N) Funds appropriated for Behavioral Health Capacity may be retained by the Department of Health and Human Services and
13 carried forward to be expended for any purpose specified in this provision.

14 **117.144.** (GP: Rare Disease Advisory Council) (A) For the current fiscal year, there shall be established the South Carolina Rare
15 Disease Council, to be housed within the Medical University of South Carolina. The council shall advise the Governor, the General
16 Assembly, and other stakeholders on research, diagnosis, treatment, and education related to rare diseases as defined by 21 U.S.C.
17 Section 360bb.

18 (B) The council shall be composed of sixteen members and shall be appointed as follows:

22 featuring the preeminent NASCAR cup series must be rebated to the motorsports entertainment complex facility in the current fiscal
23 year to keep a NASCAR race at the motorsports entertainment complex facility. In addition, any sports facility that hosts at least
24 one preeminent Women's Tennis Association-sanctioned tournament or any sports facility that operates as the home venue for a
25 professional soccer team that participates in the United Soccer Leagues, second division or higher, must be rebated to the facility
26 half of its admissions tax revenue for the fiscal year and used by that facility for marketing the events held at the facility.

27 **118.8.** (SR: Agency Deficit Notice) The Comptroller General or the Executive Budget Office shall: (1) provide written notice to
28 each member of the General Assembly when it makes a report concerning an agency, department, or institution that is expending
29 authorized appropriations at a rate which predicts or projects a general fund deficit for the agency, department, or institution; and (2)
30 make monthly progress reports concerning an agency's, department's, or institution's plan to reduce or eliminate the deficit.

31 **118.9.** (SR: Tax Relief Reserve Fund) There is created the Tax Relief Reserve Fund, which shall be separate and distinct from
32 the General Fund. Interest accrued by the fund must remain in the fund. Notwithstanding any other provision of law, on December
33 31, 2024 2025, the State Treasurer shall transfer funds identified in this act from the General Fund to the Tax Relief Reserve Fund.
34 These funds may only be used to provide tax relief to businesses and individuals as provided by law. Funds within the Tax Relief
35 Reserve Fund shall be retained and carried forward to be used for the same purpose.

1 **118.10.** (SR: Tax Deduction for Consumer Protection Services) (A) In addition to the deductions allowed in Section 12-6-1140
2 of the 1976 Code, there is allowed a deduction in computing South Carolina taxable income of an individual the actual costs, but not
3 exceeding three hundred dollars for an individual taxpayer, and not exceeding one thousand dollars for a joint return or a return
4 claiming dependents, incurred by a taxpayer in the taxable year to purchase a monthly or annual contract or subscription for identity
5 theft protection and identity theft resolution services. The deduction allowed by this item may not be claimed by an individual if the
6 individual deducted the same actual costs as a business expense or if the taxpayer is enrolled in the identity theft protection and
7 identity theft resolution services offered free of charge by the State of South Carolina. For purposes of this item, “identity theft
8 protection” means products and services designed to prevent an incident of identify fraud or identity theft in order to protect the
9 privacy of a person’s personal identifying information, as defined in Section 16-13-510(D), by precluding a third party from gaining
10 unauthorized acquisition of another’s personal identifying information to obtain financial resources or other products, benefits or
11 services; and identity theft resolution services means products and services designed to assist persons whose personal identifying
12 information, as defined by Section 16-13-510(D), was obtained by a third party, whereby minimizing the effects of the identity fraud
13 or identity theft incident and restoring the person’s identity to pre-theft status.

14 (B) The deduction provided in subsection (A) is only allowed for taxpayers that filed a return with the Department of Revenue
15 for any taxable year after 1997 and before 2013, whether by paper or electronic transmission, or any person whose personally
16 identifiable information was contained on the return of another eligible person, including minor dependents.

17 (C) By March fifteenth of each year, the department shall issue a report to the Governor and the General Assembly detailing the
18 number of taxpayers claiming the deduction allowed by this item in the most recent tax year for which there is an accurate figure,
19 and the total monetary value of the deductions claimed pursuant to this item in that same year.

20 (D) The department shall prescribe the necessary forms to claim the deduction allowed by this section. The department may
21 require the taxpayer to provide proof of the actual costs and the taxpayer’s eligibility.

22 **118.11.** (SR: Tobacco Settlement) (A) To the extent funds are available from payments received on behalf of the State by the
23 Tobacco Settlement Revenue Management Authority from the Tobacco Master Settlement Agreement (MSA) in the current fiscal
24 year, the State Treasurer is authorized and directed, after transferring funds sufficient to cover the operating expenses of the Authority,
25 to transfer the remaining funds as follows:

26 (1) \$1,253,000 to the Attorney General’s Office for Diligent Enforcement and Arbitration Litigation; \$450,000 to the State
27 Law Enforcement Division for Diligent Enforcement; and \$325,000 to the Department of Revenue for Diligent Enforcement, all to
28 enforce Chapter 47 of Title 11, the Tobacco Escrow Fund Act;

29 (2) The Attorney General’s Office shall maintain a balance of \$1,253,000 in a fund for future tobacco arbitration. Attorney
30 General funds in excess of \$1,253,000 may be utilized for information technology expenses and building infrastructure upgrades.
31 These funds may be carried forward from the prior fiscal year into the current fiscal year and utilized for the same purpose; and

32 (3) The remaining balance shall be transferred to a restricted account authorized solely for use by the Department of Health
33 and Human Services for the Medicaid program. Earnings on this fund must be credited to the fund and balances may be carried
34 forward from the prior fiscal year for the same purpose.

35 (B) The requirements of Section 11-11-170 of the 1976 Code shall be suspended for the current fiscal year.

1 **118.12.** (SR: One Dollar Appropriations) Funds appropriated in the amount of one dollar by this act shall not be disbursed. The
2 Comptroller General shall adjust the affected agency's chart of accounts accordingly, if necessary.

3 **118.13.** (SR: Non-recurring Litigation Recovery Revenue) During the current fiscal year, if there is a recovery or an award in
4 any litigation managed by the State through a party other than the Attorney General, or if a state tax audit results in a collection, any
5 funds received in excess of twenty-five million dollars that are not likely to continue as recurring revenue and would have otherwise
6 been credited to the General Fund shall be credited to the Litigation Recovery Account. The amount credited to this Litigation
7 Recovery Account pursuant to this provision is deemed non-recurring revenue and must be expended only in the manner prescribed
8 by law.

9 **118.14.** (SR: Farm Aid) There is created the "South Carolina Farm Aid Fund". This fund is separate and distinct from the
10 general fund of the State and all other funds. Earnings on this fund must be credited to it. Revenues credited to this fund in a fiscal
11 year must be used in that fiscal year to operate a grant program that provides financial assistance to farmers.

12 To be eligible for a grant, the person must have:

13 (1) experienced a verifiable loss of agricultural commodities of at least thirty percent as a result of the flooding occurring in the
14 aftermath of Hurricanes Michael and Florence for which:

15 (a) the Governor declared a state of emergency in the State for the county in which the farm is located; and

16 (b) the United States Secretary of Agriculture issued a Secretarial Disaster Declaration for the county in which the farm is
17 located;

18 (2) a farm number issued by the Farm Service Agency;

19 (3) signed an affidavit, under penalty of perjury, certifying that each fact of the loss presented by the person is accurate; and

20 (4) a signed affidavit, under penalty of perjury, certifying that no federal funds have been received for these specific disasters,
21 and in the event that federal funds are received, the person will return all state monies received under this program.

22 The Department of Agriculture shall administer the grant program authorized by this proviso. The Department of Revenue shall
23 assist the Department of Agriculture in the administration of the grant program by providing auditing services, accounting services,
24 and review and oversight of all financial aspects of the grant program. There is created the Farm Aid Advisory Board to make
25 recommendations to the department regarding the duties of the department in administering the grant program. The Commissioner
26 of Agriculture, or his designee, shall serve ex officio, as chairman of the board. Also, the Director of the Department of Revenue,
27 or his designee, the Vice President for Public Service and Agriculture of Clemson Public Service Activities, or his designee, and the
28 Vice President for Land Grant Services of South Carolina State Public Service Activities, or his designee, shall serve on the board.
29 The following additional members shall be appointed to the board:

30 (1) the Commissioner of Agriculture shall appoint one member representing the South Carolina Farm Bureau;

31 (2) the Commissioner of Agriculture shall appoint one member representing a farm credit association;

32 (3) the Director of the Department of Revenue shall appoint one member representing the crop insurance industry; and

33 (4) the Director of the Department of Revenue shall appoint one member who is an agricultural commodities producer.

34 By July twentieth of the current fiscal year, the board shall hold its initial meeting to recommend an application process by which
35 a person with a loss resulting from the flooding occurring in the aftermath of Hurricanes Michael and Florence may apply for a grant.

36 Upon adoption of an application process, the Department of Agriculture shall provide the Chairman of the House Ways and Means

1 Committee and the Chairman of the Senate Finance Committee with a written copy of its application process within ten days after
2 its adoption. A person shall apply not later than forty-five days after the adoption of the application process. The department must
3 ensure every person interested in applying for a grant has access to adequate resources to submit his application in a timely manner,
4 and upon request, the department must assist a person with the preparation of his application.

5 Each grant awarded by the department may not exceed twenty percent of the person's verifiable loss of agricultural commodities.
6 However, a person, including any grant made to a related person, may not receive grants aggregating more than one hundred thousand
7 dollars. Also, a person, including any grant made to a related person, may not receive grants that when combined with losses covered
8 by insurance, exceed one hundred percent of the actual loss. If a grant is made to a related person, the amount to be included in the
9 limits set by this proviso must be the amount of the grant multiplied by the person's ownership interest in the related person.
10 However, a person who shares an ownership interest with another person or entity may not be refused a grant solely because the
11 other person or related person has otherwise received the maximum grant amount, but in this case, the person's grant amount is
12 limited by the person's ownership interest.

13 If the total amount of grants allowed pursuant to this proviso exceeds the monies in the fund, then each person's grant must be
14 reduced proportionately.

15 To determine loss, the department:

16 (1) must measure the person's cumulative total loss of all affected agricultural commodities for the year in which the flooding
17 occurred against the person's expected production of all agricultural commodities affected by the flooding occurring in the aftermath
18 of Hurricanes Michael and Florence;

19 (2) shall use the person's applicable actual production history yield, as determined by the Federal Crop Insurance Corporation,
20 to determine loss for insured agricultural commodities. In determining loss for uninsured agricultural commodities, the department
21 shall use the most recent year's county price and county yield, as applicable, as determined by the National Agriculture Statistics
22 Service, United States Department of Agriculture; and

23 (3) may require any documentation or proof it considers necessary to efficiently administer the grant program, including the
24 ownership structure of each entity and the social security numbers of each owner. Minimally, in order to verify loss, the department
25 shall require the submission of dated, signed, and continuous records. These records may include, but are not limited to, commercial
26 receipts, settlement sheets, warehouse ledger sheets, pick records, load summaries, contemporaneous measurements, truck scale
27 tickets, contemporaneous diaries, appraisals, ledgers of income, income statements of deposit slips, cash register tape, invoices for
28 custom harvesting, u-pick records, and insurance documents.

29 Grant awards must be used for agricultural production expenses and losses due to the flooding which demonstrate an intent to
30 continue the agricultural operation; however, awards may not be used to purchase new equipment. The department shall develop
31 guidelines and procedures to ensure that funds are expended in the manner outlined in grant applications, and may require any
32 documentation it determines necessary to verify the appropriate use of grant awards including receipts.

33 If the department determines that a person who received a grant provided inaccurate information, then the person shall refund the
34 entire amount of the grant. If the department determines that a person who received a grant used the funds for ineligible expenses,
35 then the person must refund the amount of the ineligible expenses. If the person does not refund the appropriate amount, the
36 Department of Revenue shall utilize the provisions of the Setoff Debt Collection Act to collect the money from the person.

1 The department shall coordinate the exchange of information between the USDA and the Department of Revenue to identify any
2 person that received a Farm Aid grant for the flooding occurring in the aftermath of Hurricanes Michael and Florence and also
3 received federal aid relief for the same disaster. Any person that is determined to have received grant funds from both the state and
4 federal government, must immediately repay the state grant they received.

5 If the department determines that a person knowingly provided false information to obtain a grant pursuant to this proviso or
6 knowingly used funds for ineligible expenses, the person shall be subject to prosecution pursuant to Section 16-13-240.

7 Within forty-five days of the completion of the awarding of grants, but no later than the end of the fiscal year, the Farm Aid
8 Advisory Board is dissolved. Any funds remaining in the fund upon dissolution shall lapse to the general fund.

9 The department may accept private funds, grants, and property to be used to make financial awards from the grant program.

10 The Department of Agriculture must administer the grant program authorized by this proviso using existing resources and funds.

11 If federal funds are allocated for persons that are otherwise eligible for a grant pursuant to this proviso before the current fiscal
12 year begins, then the provisions of this proviso are not effective and no funds may be credited to the South Carolina Farm Aid Fund.

13 For purposes of this proviso:

14 (1) "Agricultural commodities" means wheat, cotton, flax, corn, dry beans, oats, barley, rye, tobacco, rice, peanuts, soybeans,
15 sugar beets, sugar cane, tomatoes, grain sorghum, sunflowers, raisins, oranges, sweet corn, dry peas, freezing and canning peas,
16 forage, apples, grapes, potatoes, industrial hemp, timber and forests, nursery crops, citrus, and other fruits and vegetables, nuts, tame
17 hay, native grass, aquacultural species including, but not limited to, any species of finfish, mollusk, crustacean, or other aquatic
18 invertebrate, amphibian, reptile, or aquatic plant propagated or reared in a controlled or selected environment, excluding stored grain.

19 (2) "Person" means any individual, trust, estate, partnership, receiver, association, company, limited liability company,
20 corporation, or other entity or group.

21 (3) "Related person" means any person, joint venture, or entity that has a direct or indirect ownership interest of a person or legal
22 entity.

23 (4) "Department" means the Department of Agriculture.

24 **118.15.** (SR: Expenditure of Federal Funds) Any funds received from the Federal Government that are not allocated directly to
25 a state agency must be expended through the legislative budgeting process.

26 **118.16.** (SR: State Ports Authority Projects) Any funds appropriated or authorized for the State Ports Authority by Proviso
27 118.18 (Nonrecurring Revenue) for the intermodal container transfer facility and waterborne cargo infrastructure must be deposited
28 into a separate and distinct account and shall only be used for costs directly related to those two projects. Funds shall not be used
29 for salaries, bonuses, or any kind of normal administrative costs. Funds shall not be used for personnel expenses not directly related
30 to the implementation of the two projects. In addition, the State Ports Authority shall provide quarterly progress reports on the
31 implementation of each facility to the Joint Bond Review Committee, the President of the Senate, the Speaker of the House of
32 Representatives, the Chairman of the Senate Finance Committee, and the Chairman of the House Ways and Means Committee.
33 These quarterly reports shall include, but are not limited to, financial results, operating plans, budgets, capital plans, and performance
34 objectives and results for the projects. The Joint Bond Review Committee must review and provide comment on expenditures, and
35 may prescribe the reporting format and such other informational requirements and reports as it deems useful and necessary, to ensure
36 the financial integrity, accountability, and stewardship of the funds and the ongoing operations of the project. To the extent permitted

by federal law, if federal funds become available to the State that can be used for the intermodal container transfer facility or for waterborne cargo infrastructure, those federal funds must first be used to complete the project. Any remaining state funds appropriated for these projects shall be transferred to a restricted account at the Department of Administration.

118.17. (SR: Growing Agribusiness Fund Report) The Department of Agriculture shall prepare a report on the utilization of the Growing Agribusiness Fund that includes the amount of each grant awarded, the recipient of the funds, the date of the grant award, and the qualifications met by the recipient upon review by the Department of Agriculture Infrastructure Incentives Panel. The report shall be submitted quarterly to the Chairmen of the Senate Finance Committee, the House Ways and Means Committee, the Senate Finance Natural Resources and Economic Development Subcommittee, and the House Ways and Means Economic Development Subcommittee. The department is allowed to retain any accrued interest generated from the fund for similar purpose of grant reimbursements.
