### Fiscal Impact Summary

This bill adds Article 24 to Chapter 71, Title 38 entitled “Vision Care Plans” to regulate vision care plans. This bill specifies that vision insurance plans must allow providers to opt out of exclusive supplier agreements and are permitted to obtain products from out-of-network suppliers without penalty. This bill also mandates disclosures by insurers related to coverage details, real-time benefit information, and up-to-date provider directories. This bill further prohibits insurers from restricting provider-patient discussions about cost and allows insured individuals to buy lenses and frames separately without bundling them under a single coverage limit.

The Department of Insurance (DOI) and Public Employee Benefit Authority (PEBA) anticipate that the bill will have no expenditure impact. DOI and PEBA both indicate the bill is not likely to have a significant impact to agency responsibilities and any new duties will be managed with existing appropriations.
