Documents appearing in the State Register are prepared and printed at public expense. Media services are encouraged to give wide publicity to documents printed in the State Register.

PUBLIC INSPECTION OF DOCUMENTS

Documents filed with the Office of the State Register are available for public inspection during normal office hours, 8:30 A.M. to 5:00 P.M., Monday through Friday. Telephone inquiries concerning material in the State Register or the South Carolina Code of Regulations may be made by calling (803) 212-4500.

ADOPTION, AMENDMENT AND REPEAL OF REGULATIONS

To adopt, amend or repeal a regulation, an agency must publish in the State Register a Notice of Drafting; a Notice of the Proposed Regulation that contains an estimate of the proposed action’s economic impact; and, a notice that gives the public an opportunity to comment on the proposal. If requested by twenty-five persons, a public hearing must be held at least thirty days after the date of publication of the notice in the State Register.

After the date of hearing, the regulation must be submitted to the General Assembly for approval. The General Assembly has one hundred twenty days to consider the regulation. If no legislation is introduced to disapprove or enacted to approve before the expiration of the one-hundred-twenty-day review period, the regulation is approved on the one hundred twentieth day and is effective upon publication in the State Register.

EMERGENCY REGULATIONS

An emergency regulation may be promulgated by an agency if the agency finds imminent peril to public health, safety or welfare. Emergency regulations are effective upon filing for a ninety-day period. If the original filing began and expired during the legislative interim, the regulation can be renewed once.

REGULATIONS PROMULGATED TO COMPLY WITH FEDERAL LAW

Regulations promulgated to comply with federal law are exempt from General Assembly review. Following the notice of proposed regulation and hearing, regulations are submitted to the State Register and are effective upon publication.

EFFECTIVE DATE OF REGULATIONS

Final Regulations take effect on the date of publication in the State Register unless otherwise noted within the text of the regulation.
Emergency Regulations take effect upon filing with the Legislative Council and remain effective for ninety days. If the original ninety-day period begins and expires during legislative interim, the regulation may be refiled for one additional ninety-day period.

DEPARTMENT OF HEALTH AND ENVIRONMENTAL CONTROL
CHAPTER 61
Statutory Authority: 1976 Code Sections 48-1-10 et seq.

Notice of Drafting:

The South Carolina Department of Health and Environmental Control (Department) proposes to amend specific sections of R.61-68, Water Classifications and Standards and R.61-69, Classified Waters. Interested persons are invited to submit their comments and recommendations in writing to Gina Kirkland, Bureau of Water, 2600 Bull Street, Columbia, South Carolina 29201 or via email at kirklagl@dhec.sc.gov. To be considered, written comments must be received no later than 5:00 p.m. on May 23, 2011, the close of the drafting comment period.

Synopsis:

The Department proposes to replace the fecal coliform bacteriological indicator used for the protection of recreational uses in freshwaters with \textit{E. coli}. The Department issued a notice last year concerning this effort; however, the effort was tabled due to time constraints and the Department is now ready to move forward with this initiative. The Department also proposes, where appropriate, to clarify implementation details with respect to the freshwater bacteriological indicator for National Pollutant Discharge Elimination System (NPDES) permits, ambient water quality assessment, and Total Maximum Daily Load (TMDL) development. The Department is also considering clarifying the enterococci bacteriological indicator for the protection of recreational uses in Class SA, Class SB, and Shellfish Harvesting (SFH) waters and, where appropriate, to clarify implementation details for NPDES permits, ambient water quality assessment, and TMDL development. The Freshwaters (FW) classification may be revised to include subclasses of recreational uses based on the frequency of use. All subclasses will continue to support recreational uses for both primary and secondary contact.

The Department proposes to amend R.61-69 to include any changes made to the FW classification found in R.61-68 to be consistent in both regulations. The Department also plans to reformat R.61-69 in order to modify language to make it consistent throughout and easier to read.
