Notice of Public Hearing and Opportunity for Public Comment:

Should a hearing be requested pursuant to Section 1-23-110(A)(3) of the 1976 Code, as amended, such hearing will be conducted at 1000 Assembly Street on January 24, 2017 at 10:00 am in Room 335, Third Floor, Rembert C. Dennis Building. Written comments may be directed to Emily Cope, Wildlife & Freshwater Fisheries Division, Department of Natural Resources, Post Office Box 167, Columbia, SC 29202, no later than January 24, 2017.

Preliminary Fiscal Impact Statement:

The amendment of Regulations 123-40, 123-51 and 123-52 will result in increased public hunting opportunities which should generate additional State revenue through license sales. In addition, local economies should benefit from sales of hunting supplies, food and overnight accommodations. Sales taxes on these items will also directly benefit government.

Statement of Need and Reasonableness:

The statement of need and reasonableness was determined based on staff analysis pursuant to S.C. Code Sections 1-23-115(C) (1) through (3) and (9) through (11).

DESCRIPTION OF THE REGULATION:

Purpose: These regulations amend Chapter 123-40, 123-51 and 123-52 in order to set seasons, bag limits and methods of hunting and taking of wildlife on existing and additional Wildlife Management Areas.

Legal Authority: Under Sections 50-11-2200 and 50-11-2210 of the S.C. Code of Laws, the Department of Natural Resources has jurisdiction over all Wildlife Management Areas to protect, preserve, operate, maintain and regulate use, as well as to establish open and closed seasons, bag limits, and methods of taking wildlife. Under Section 50-11-525, the Department of Natural Resources is authorized to establish seasons, dates, areas, bag limits, and other restrictions for hunting turkeys on all Wildlife Management Areas. Under Section 50-11-96 of the S.C. Code of Laws, the Department of Natural Resources is authorized to promulgate regulations to implement and regulate the provisions of this section.

Plan for Implementation: Once the regulation has been approved by the General Assembly, the Department will incorporate all regulations in the annual Rules and Regulations Brochure. The public will be notified through this publication and through news releases and other Department media outlets and publications.

DETERMINATION OF NEED AND REASONABLENESS OF THE PROPOSED REGULATION BASED ON ALL FACTORS HEREIN AND EXPECTED BENEFITS:

Periodically, additional lands are made available to the public through the Wildlife Management Area Program. Since existing regulations only apply to specific wildlife management areas, new regulations must be filed to establish seasons, bag limits and methods of hunting and taking of wildlife on these new WMAs as well as expanding use opportunities on existing WMAs. Likewise, statutory changes occasionally require changes in regulations to ensure conformity and consistency between statutes and regulations.

DETERMINATION OF COSTS AND BENEFITS:

Implementation of the proposed regulation will not require any additional costs to the state or to the sporting community. There are no significant new costs imposed by the addition of new WMAs since the funding of leasing WMAs is provided through the existing WMA permit program. Clarification of existing regulations under appropriate authority will improve enforcement ability and therefore reduce staff time in handling prosecution of offenses. This amendment of these regulations will result in increased public hunting
opportunities that should generate additional State revenue through license sales. In addition, the local economy should benefit from sales of hunting supplies, food and overnight accommodations. Sales taxes on these items will also directly benefit government.

UNCERTAINTIES OF ESTIMATES:

Staff does not anticipate any increased costs with the promulgation of this regulation. Accordingly, no costs estimates and the uncertainties associated with them are provided.

EFFECT ON ENVIRONMENT AND PUBLIC HEALTH:

The promulgation of this regulation will not have any negative impacts on public health or the environment.

DETRIMENTAL EFFECT ON THE ENVIRONMENT AND PUBLIC HEALTH IF THE REGULATION IS NOT IMPLEMENTED:

No detrimental impact on public health or the environment will occur if this proposed regulation is not implemented. Failure to implement this regulation will prevent positive benefits to public.

Statement of Rationale:

Rationale for the formulation of these regulations is based on over 70 years of experience by SCDNR in managing wildlife populations and establishing public hunting areas. New areas are evaluated on location, size, current wildlife presence, access and recreation use potential. Contractual agreements with the landowners provide guidelines for the use and management of the property. Wildlife Management Area agreements are on file with the Wildlife Management Section of the Department of Natural Resources, Room 267, Dennis Building, 1000 Assembly Street, Columbia.

Emergency Situation:

These emergency regulations establish the dove seasons and dove limits statewide and establish seasons, limits and special restrictions for dove hunting on Dove Management Areas. Because the dove season continues through January 15, it is necessary to refile these regulations as emergency.

Statement of Need and Reasonableness:

Since the availability of specific fields changes each year and season dates change as allowed by Federal Regulation it is necessary to file Dove Field regulations annually. Because these hunts continue through January 15, it is necessary to refile these regulations as emergency so they remain in effect throughout the duration of the season.

Fiscal Impact Statement:

This amendment of Regulation 123-40 will result in increased public hunting opportunities which should generate additional State revenue through license sales. In addition, local economies should benefit from sales of hunting supplies, food and overnight accommodations. Sales taxes on these items will also directly benefit government.

These emergency regulations amend and supersede sections indicated below of South Carolina Department of Natural Resources Regulation Number 123-40. These regulations set open and closed seasons, bag limits and methods of taking wildlife; define special use restrictions related to hunting and methods for taking wildlife on Wildlife Management Areas. WATERFOWL & DOVE REGULATIONS

10.7 Sandy Beach Waterfowl Area and the impoundments on Bonneau Ferry WMA are closed to public access from Nov. 1 - Feb. 8, except for special hunts designated by the Department.

Statement of Need and Reasonableness:

Periodically, additional lands are made available to the public through the Wildlife Management Area Program. Since existing regulations only apply to specific wildlife management areas, new regulations must be filed to establish seasons, bag limits and methods of hunting and taking of wildlife on these new WMAs as well as expanding use opportunities on existing WMAs. Amendments are needed to allow additional opportunity. Because some hunts continue through March 15, it is necessary to refile these regulations as emergency so they continue in effect throughout the duration of the seasons.

123-203. General Regulation.
123-204. Additional Regulations Applicable to Specific Properties.

Emergency Situation:

These emergency regulations establish regulations on Department owned and leased lands that regulate public use to increase recreational opportunities and reduce natural resource impacts. The Department is increasing public use by adding two new properties, Liberty Hill WMA and Wateree River HP WMA. Since we are opening the properties to public use immediately, we must refile these regulations as emergency. Authority to close Department properties is needed to protect human safety in event of emergency or hazardous conditions. Additionally, since fall and winter are periods of high use of public shooting ranges, immediate enactment of shooting range regulations is necessary for enhanced public safety.

Statement of Need and Reasonableness:

Since existing regulations only apply to specific Wildlife Management Areas and Heritage Preserves, new regulations must be filed to establish public use guidelines on new properties as well as defining and expanding use opportunities on existing properties. Since the properties are available for immediate public use, it is necessary to refile these regulations as emergency so they take effect immediately. Fall and winter are periods of high use of public shooting ranges necessitating immediate enactment of shooting range regulations for enhanced public safety.

Fiscal Impact Statement:

This amendment of Regulation 123-204 will result in increased public recreational opportunities which should generate additional State revenue through license sales. In addition, local economies should benefit from sales of hunting supplies, food and overnight accommodations. Sales taxes on these items will also directly benefit government. There may be minor economic impact to users of public shooting ranges in the form of a user fee for a voluntary activity.
