The Department of Health and Environmental Control published a Notice of Proposed Regulation and Opportunity for Public Comment in the State Register on April 27, 2017, identified as Document No. 4791, to amend Regulation 61-63, Radioactive Materials (Title A). The aforementioned Notice scheduled a write-in public comment period that closed November 27, 2017, and gave notice of a public hearing scheduled before the Board of Health and Environmental Control (Board) for December 7, 2017.

Due to time needed by the Department to evaluate comments received during the public comment period, the public hearing originally scheduled before the Board for December 7, 2017, has been cancelled and rescheduled for February 8, 2018. The public hearing will be held February 8, 2018, at a regularly-scheduled meeting of the Board in the Board Room (3420), Third Floor, Aycock Building, at the Department of Health and Environmental Control, 2600 Bull Street, Columbia, S.C. Due to admittance procedures at the DHEC building, all visitors must enter through the Bull Street entrance and register at the front desk.

The Board meeting commences at 10:00 a.m. at which time the Board will consider items on its agenda in the order presented. The order of presentation for public hearings will be noticed in the Board’s agenda to be published by the Department 24 hours in advance of the meeting at http://www.scdhec.gov/Agency/docs/AGENDA.PDF. Notice of Public Hearing and Opportunity for Public Comment:

All written comments and requests for a public hearing should be sent to Dr. Stephen E. Cole, Director, Regulatory Services, Clemson University, 511 Westinghouse Road, Pendleton, SC 29670. A hearing will be held at 511 Westinghouse Road, Pendleton, SC starting at 10:00 am on January 30, 2018, unless no requests are made by January 26, 2018, at which time the hearing on January 30, 2018 will be cancelled.

Preliminary Fiscal Impact Statement:

There will be no increased cost to the State or its political subdivisions.

Statement of Need and Reasonableness:

DESCRIPTION OF REGULATION:

Purpose: The proposed regulations will establish quarantine and management of the Emerald Ash Borer and Benghal Dayflower plant pests into and throughout the State of South Carolina.

Plan for Implementation: The specific quarantine areas will be placed on the Clemson University website, www.clemson.edu/invasives, and will be reviewed and updated on at least an annual basis.

DETERMINATION OF NEED AND REASONABLENESS OF THE PROPOSED REGULATION BASED ON ALL FACTORS HEREOF AND EXPECTED BENEFITS:

The proposed regulation changes will establish quarantine areas and restrictions related to the movement of these plant pests within or into the State of South Carolina. The proposed regulation changes will also limit and/or stop the spread of the invasive weed known as Benghal Dayflower in South Carolina. They will also provide for additional oversight and inspections of equipment for the weed which will increase awareness and precaution regarding its unintended movement.
DETERMINATION OF COSTS AND BENEFITS:

No increases in costs are expected on those regulated. Benefits include preservation of industry viability and protection of state resources.

UNCERTAINTIES OF ESTIMATES:

None.

EFFECT ON ENVIRONMENT AND PUBLIC HEALTH:

None.

DETRIMENTAL EFFECT ON THE ENVIRONMENT AND PUBLIC HEALTH IF THE REGULATION IS NOT IMPLEMENTED:

Without implementation of the proposed regulations, South Carolina residents would be free to move Benghal Dayflower around at will spreading it throughout the state resulting in increased competition with native plants. The weed has proven to be more aggressive than many native plants and could out-compete them for sunlight and nutrients resulting in the ecosystem-loss of some very important plant species. Emerald Ash Borer proposed regulations would make larger areas of South Carolina eligible to receive biological control grants. Further, by imposing a statewide versus county by county quarantine, these regulations would be less burdensome on the Department thus enabling proper execution of higher priority programs and quarantines.

Statement of Rationale:

The proposed regulation changes will increase efficiency and accuracy for both the general public and Clemson officials as it relates to the management of plant pests Emerald Ash Borer and the Benghal Dayflower. Without implementation of the proposed regulations, the economic impacts of failing to manage these devastating plant pests to both the forestry and agriculture industries could be significant.

Text:

The full text of this regulation is available on the South Carolina General Assembly Home Page: http://www.scstatehouse.gov/regnsrch.php. Full text may also be obtained from the promulgating agency.
Emergency Situation:

These emergency regulations establish the dove seasons and dove limits statewide and establish seasons, limits and special restrictions for dove hunting on Dove Management Areas. Because the dove season resumes on December 15 and continues through January 15, it is necessary to refile these regulations as emergency.

12 EMERGENCY REGULATIONS

Statement of Need and Reasonableness:

Since existing regulations only apply to specific wildlife management areas, new regulations must be filed to establish seasons, bag limits and methods of hunting and taking of wildlife on new WMAs as well as expanding use opportunities on existing WMAs. Since the availability of specific fields changes each year and season dates change as allowed by Federal Regulation, it is necessary to file Dove Field regulations annually. Because these hunts resume on December 15, it is necessary to file these regulations as emergency so they will be in effect immediately prior to the resumption of dove hunting activity.

Fiscal Impact Statement:

This amendment of Regulation 123-40 will result in increased public hunting opportunities which should generate additional State revenue through license sales. In addition, local economies should benefit from sales of hunting supplies, food and overnight accommodations. Sales taxes on these items will also directly benefit government.
27-1023. State Meat Inspection Regulation.

Synopsis:

These regulations are being promulgated to modernize, clarify and update existing regulations which govern, to the extent authorized by S. C. Code, Title 47, Chapter 4, the inspection of meat and meat food products produced for intrastate commerce. These updated regulations are necessary to comply with the Federal Meat Inspection Act (21 USCA 661, Section 301) which established Federal-State Cooperative Meat Inspection Programs. This is a grant program with equal federal-state funding. A cooperating state is required to adopt regulations “at least equal to” those adopted by the federal government. This regulation will, in effect, adopt the current Federal Meat Inspection Regulations with some minor exceptions for some state specific requirements.

The Notice of Drafting was published in the State Register on August 25, 2017.
