All documents published in the *State Register* are drafted by state agencies and are published as submitted. Publication of any material in the *State Register* is the official notice of such information.

South Carolina State Register Vol. 42, Issue 6  
June 22, 2018
REPRODUCING OFFICIAL DOCUMENTS

Documents appearing in the State Register are prepared and printed at public expense. Media services are encouraged to give wide publicity to documents printed in the State Register.

PUBLIC INSPECTION OF DOCUMENTS

Documents filed with the Office of the State Register are available for public inspection during normal office hours, 8:30 A.M. to 5:00 P.M., Monday through Friday. The Office of the State Register is in the Legislative Council, Fourth Floor, Rembert C. Dennis Building, 1000 Assembly Street, in Columbia. Telephone inquiries concerning material in the State Register or the South Carolina Code of Regulations may be made by calling (803) 212-4500.

ADOPTION, AMENDMENT AND REPEAL OF REGULATIONS

To adopt, amend or repeal a regulation, an agency must publish in the State Register a Notice of Drafting; a Notice of the Proposed Regulation that contains an estimate of the proposed action’s economic impact; and, a notice that gives the public an opportunity to comment on the proposal. If requested by twenty-five persons, a public hearing must be held at least thirty days after the date of publication of the notice in the State Register.

After the date of hearing, the regulation must be submitted to the General Assembly for approval. The General Assembly has one hundred twenty days to consider the regulation. If no legislation is introduced to disapprove or enacted to approve before the expiration of the one-hundred-twenty-day review period, the regulation is approved on the one hundred twentieth day and is effective upon publication in the State Register.

EMERGENCY REGULATIONS

An emergency regulation may be promulgated by an agency if the agency finds imminent peril to public health, safety or welfare. Emergency regulations are effective upon filing for a ninety-day period. If the original filing began and expired during the legislative interim, the regulation can be renewed once.

REGULATIONS PROMULGATED TO COMPLY WITH FEDERAL LAW

Regulations promulgated to comply with federal law are exempt from General Assembly review. Following the notice of proposed regulation and hearing, regulations are submitted to the State Register and are effective upon publication.

EFFECTIVE DATE OF REGULATIONS

Final Regulations take effect on the date of publication in the State Register unless otherwise noted within the text of the regulation.

Emergency Regulations take effect upon filing with the Legislative Council and remain effective for ninety days. If the original ninety-day period begins and expires during legislative interim, the regulation may be refiled for one additional ninety-day period.

NOW, THEREFORE, by virtue of the authority vested in me as Governor of the State of South Carolina and pursuant to the Constitution and Laws of this State and the powers conferred upon me therein, due to the existing emergency in the State of North Carolina, I hereby declare that a reciprocal emergency exists in the State of South Carolina pursuant to and for the limited purpose of complying with section 56-5-70(B) of the South Carolina Code of Laws. Accordingly, for commercial vehicles responding to the emergency declared in the State of North Carolina, this Order shall take effect immediately and shall expire when the state of emergency in the State of North Carolina is terminated or on June 29, 2018, at 11:59 p.m., whichever is less, in accordance with section 56-5-70 of the South Carolina Code of Laws.

WHEREAS, when Executive Order 2017-43 was executed, South Carolina law did not limit the length of initial opioid prescriptions, and the State acted to serve as a leader on the management of pain medications and encourage health providers to adopt a common policy on opioid prescribing limitations; and

WHEREAS, on May 9, 2018, the General Assembly passed Senate Bill 918, which, inter alia, amends section 44-53-360 of the South Carolina Code of Laws so as to establish limitations on initial opioid prescriptions for acute pain management and post-operative pain management to a seven-day supply; and

Accordingly, DHHS shall modify and amend the two-part policy required by Executive Order 2017-43 to include a seven-day limitation on initial opioid prescriptions for acute and post-operative pain management. The amendments will also allow for expanded testing to include other congenital disorders or metabolic diseases, while ensuring all testing procedures are in compliance with applicable standards.

The Department may also include stylistic changes, such as corrections for clarity and readability, grammar, punctuation, definitions, references, codification, and overall improvement of the text of the regulation.

The Department of Health and Environmental Control (“Department”) proposes repealing Regulation 61-67.1, Requirements for State Water Pollution Control Revolving Fund Loan Assistance. Interested persons may submit comments to Charles Gorman, Water Facilities Permitting Division, Bureau of Water, 2600 Bull Street, Columbia, S.C. 29201 or via email at gormancm@dhec.sc.gov. To be considered, comments must be received no later than 5:00 p.m. on July 23, 2018, the close of the draft comment period.

Synopsis:
Originally authorized by Title 48, Chapter 6 of the South Carolina Code, R.61-67.1 describes the process the Department and the former South Carolina Budget and Control Board followed in administering State Water Pollution Revolving Funds received in federal grants from the U.S. Environmental Protection Agency (“EPA”). In 1992, the General Assembly repealed Title 48, Chapter 6 and replaced it with the South Carolina Water Quality Revolving Fund Authority Act (Title 48, Chapter 5). Title 48, Chapter 5 provides statutory authority for the Department and the South Carolina Water Quality Revolving Fund Authority to administer the South Carolina clean water and drinking water revolving funds and federal grants received as supplements to the revolving funds from the EPA. The South Carolina Water Quality Revolving Fund Authority is comprised of the members of the State Fiscal Accountability Authority with administrative and implementation support from the South Carolina Rural Infrastructure Authority (“RIA”).

The Department proposes repealing R.61-67.1, as the regulation is outdated due to repeal of the original authorizing statute. The Department does not propose replacing this regulation with a new regulation. The
Department and RIA are able to effectively administer and implement the state revolving fund program using Title 48, Chapter 5, other existing state laws and regulations, and federal laws, regulations, and grant requirements that govern the use of the funds.

General Assembly review is required.

DEPARTMENT OF HEALTH AND ENVIRONMENTAL CONTROL
CHAPTER 61
Statutory Authority: 1976 Code Section 44-63-20

Notice of Drafting:

The Department of Health and Environmental Control ("Department") proposes amending R.61-19, Vital Statistics. Interested persons may submit comments on the proposed amendment to Angie Saleebey, 2600 Bull Street, Columbia, S.C. 29201; or via email at vrreg@dhec.sc.gov. To be considered, the Department must receive comments no later than 5:00 p.m. on July 23, 2018, the close of the draft comment period.

Synopsis:

The Department proposes amending R.61-19, Vital Statistics, as follows:

1. Revise Section 1104, Documentary Evidence Required to Correct or Amend Vital Records, subsection A.3, to clarify that the State Registrar may, at his or her discretion, allow other documents to be used for amendment of birth records.

2. Revise Section 1105, Addition of Registrant’s First or Middle Names on Live Birth Records, to increase the instances in which names may be administratively added to a birth record.
3. Update the fee schedule.

4. Add a section in order to implement House Bill 3775, an act to amend Section 44-63-100, Code of Laws of South Carolina, relating in part to original birth certificates of adopted persons. The General Assembly successfully passed H.3775 on May 10, 2018, and the Governor signed the bill into law on May 17, 2018.

These proposed revisions are intended to allow greater flexibility with administrative amendments to birth records, thereby reducing the number of instances in which court orders are required. In addition, the Department’s proposed fee increase is needed not only to ensure adequate funding for the program and to maintain current operations, but also for overall improvement in services to constituents and stakeholders. The last fee increase for the Vital Statistics program was July 1, 1998.

The Department may also include stylistic changes, including corrections for clarity and readability, grammar, punctuation, definitions, references, codification, and overall improvement of the text of the regulation.

General Assembly review is required.
Preamble:

Pursuant to the federal Clean Air Act (“CAA”), 42 U.S.C. Sections 7401 et seq., and the South Carolina Pollution Control Act, 1976 Code Sections 48-1-10 et seq., the South Carolina Department of Health and Environmental Control (“Department”) proposes amending South Carolina Regulation 61-62, Air Pollution Control Regulations and Standards, and the State Implementation Plan (“SIP”), as follows:

1. R.61-62.1, Definitions and General Requirements, Section II, Permit Requirements, to expand and improve consistency in language regarding general and registration permits.

2. The introductory paragraph to R.61-62.5, Standard No. 2, Ambient Air Quality Standards, to remove the sentence describing the test method for Gaseous Fluorides to improve the accuracy and clarity of the regulation’s text.

3. R.61-62.5, Standard No. 5.2, Control of Oxides of Nitrogen (NO\textsubscript{x}), to update applicability and exemptions, as well as to propose corrections for internal consistency, punctuation, codification, and spelling.

4. R.61-62.5, Standard No. 7, Prevention of Significant Deterioration, to update applicability and exemptions, as well as to propose corrections for consistency with federal regulations, internal consistency, punctuation, codification, and spelling.

5. R.61-62.5, Standard No. 7.1, Nonattainment New Source Review (NSR), to improve the overall clarity and structure of the regulation, as well as to propose corrections for consistency with federal regulations, internal consistency, punctuation, codification, and spelling.

7. The Department also proposes other changes to R.61-62, Air Pollution Control Regulations and Standards, including definitional updates, clarification of certain permitting provisions, and other changes and additions deemed necessary, as well as corrections for internal consistency, clarification, reference, punctuation, codification, formatting, and spelling to improve the overall text of R.61-62 as necessary.

The Department does not anticipate an increase in costs to the state or its political subdivisions resulting from these proposed revisions. These changes streamline existing state requirements, ensure consistency with federal law, and improve the overall organizational structure and clarity of the Department’s regulations. South Carolina industries are already subject to national air quality standards as a matter of federal law. The proposed amendments will benefit the regulated community by maintaining state implementation of federal requirements, as opposed to federal implementation.

In accordance with S.C. Code Section 1-23-120(A) (Supp. 2017), these amendments require General Assembly review.

The Department had a Notice of Drafting published in the October 27, 2017, State Register.

Preliminary Fiscal Impact Statement:

There is no anticipated increased cost to the state or its political subdivisions resulting from this proposed revision. Amendments to Regulation 61-62, Air Pollution Control Regulations and Standards, and the SIP include revisions that will help streamline state requirements and therefore reduce economic burden.

Statement of Need and Reasonableness:

This Statement of Need and Reasonableness was determined by staff analysis pursuant to 1976 Code Sections 1-23-115(C)(1)-(3) and (9)-(11).

DESCRIPTION OF REGULATION: Amendment of Regulation 61-62, Air Pollution Control Regulations and Standards, and the South Carolina State Implementation Plan (“SIP”).

Purpose: The proposed amendments to Regulation 61-62, Air Pollution Control Regulations and Standards, support the Department’s goal of promoting and protecting the health of the public and the environment in a more efficient and effective manner. These amendments expand and clarify definitions applicable to air pollution control regulations and standards; streamline permitting options; clarify reporting requirements; identify the Department’s consistent noticing method; improve the regulations’ organizational structure; and provide corrections for consistency, clarification, reference, punctuation, codification, formatting, and spelling to improve the overall text of Regulation 61-62.

Legal Authority: 1976 Code Sections 48-1-10 et seq.

Plan for Implementation: The DHEC Regulation Development Update (accessible at http://www.scdhec.gov/Agency/RegulationsAndUpdates/RegulationDevelopmentUpdate/) provides a summary of and link to this proposed amendment. Additionally, printed copies are available for a fee from the Department’s Freedom of Information Office. Upon taking legal effect, Department personnel will take appropriate steps to inform the regulated community of the amendment and any associated information.

DETERMINATION OF NEED AND REASONABLENESS OF THE PROPOSED REGULATION BASED ON ALL FACTORS HEREIN AND EXPECTED BENEFITS:

(1) The Department proposes amending R.61-62.1, Definitions and General Requirements, Section II, Permit Requirements, to expand and improve consistency in language regarding general and registration permits.

South Carolina State Register Vol. 42, Issue 6
June 22, 2018
The proposed amendments will benefit the regulated community by providing clarification on exemptions, permitting, and other requirements, while continuing to ensure environmental protection.

UNCERTAINTIES OF ESTIMATES:

There are no uncertainties of estimates relative to the costs to the state or its political subdivisions. These revisions seek to provide clarity to the regulated community.
EFFECT ON ENVIRONMENT AND PUBLIC HEALTH:

The amendments to Regulation 61-62, Air Pollution Control Regulations and Standards, seek to provide continued state-focused protection of the environment and public health.

DETRIMENTAL EFFECT ON THE ENVIRONMENT AND PUBLIC HEALTH IF THE REGULATION IS NOT IMPLEMENTED:

The Department does not anticipate detrimental effect on the environment and/or public health associated with these revisions. To the contrary, the state’s delegated authority to implement programs beneficial to public health and the environment may be compromised if these amendments are not adopted. Permit streamlining and regulatory text clarification seek to have a positive effect on both the environment and public health.

Statement of Rationale:

The Department proposes amending Regulation 61-62, Air Pollution Control Regulations and Standards, to support the goal of promoting and protecting the health of the public and the environment in a more efficient and effective manner. These amendments expand and clarify definitions applicable to air pollution control regulations and standards; streamline permitting options; clarify reporting requirements; identify the Department’s consistent noticing method; improve the regulations’ organizational structure; and provide corrections for consistency, clarification, reference, punctuation, codification, formatting, and spelling to improve the overall text of Regulation 61-62.

DEPARTMENT OF HEALTH AND ENVIRONMENTAL CONTROL

CHAPTER 61

Statutory Authority: 1976 Code Sections 48-1-10 et seq. and the Clean Air Act, 42 U.S.C. Sections 7410, 7413, and 7416

61-62. Air Pollution Control Regulations and Standards.

Preamble:

1. Pursuant to the South Carolina Pollution Control Act, 1976 Code Sections 48-1-10 et seq., and the federal Clean Air Act, 42 U.S.C. Sections 7410, 7413, and 7416, the Department must ensure national primary and secondary ambient air quality standards are achieved and maintained in South Carolina. No state may adopt or enforce an emission standard or limitation less stringent than these federal standards or limitations pursuant to 42 U.S.C. Section 7416.

40 PROPOSED REGULATIONS

3. The Department proposes to amend Regulation 61-62.60, South Carolina Designated Facility Plan and New Source Performance Standards; Regulation 61-62.61, National Emission Standards for Hazardous Air Pollutants; Regulation 61-62.63, National Emission Standards for Hazardous Air Pollutants (NESHAP) for Source Categories; and the South Carolina State Implementation Plan (SIP), to adopt the federal amendments to these standards promulgated from January 1, 2017, through December 31, 2017.

4. The Department proposes changes to Regulation 61-62.68, Chemical Accident Prevention Provisions, which include corrections for internal consistency, clarification, chemical nomenclature, codification, and spelling to improve the overall text as necessary.

5. Regulation 61-62.96, Nitrogen Oxides (NOX) and Sulfur Dioxide (SO2) Budget Trading Program, is based on the federal Clean Air Interstate Rule (CAIR). CAIR has been replaced by the federal Cross-State Air Pollution Rule (CSAPR) Trading Program, adopted by the Department as Regulation 61-62.97 on August 25, 2017. As a result, federal CAIR requirements implemented by Regulation 61-62.96 have sunsetted and are no longer in effect. The Department, therefore, proposes repealing Regulation 61-62.96 in its entirety.

6. The Department also proposes other changes to Regulation 61-62 that include corrections for internal consistency, clarification, reference, punctuation, codification, formatting, and spelling to improve the overall text of Regulation 61-62 as necessary.

7. South Carolina industries are already subject to these national air quality standards as a matter of federal law. Thus, there will be no increased cost to the state or its political subdivisions resulting from codification of these amendments to federal law. South Carolina is already reaping the environmental benefits of these amendments. There also will be no increased cost to the state or its political subdivisions as a result of the repeal of Regulation 61-62.96, which reflects the sunsetting of federal CAIR regulations.

8. In accordance with S.C. Code Section 1-23-120(H) (Supp. 2017), legislative review is not required because the Department proposes promulgating the amendments to maintain compliance with federal law. As such, neither a preliminary assessment report nor a preliminary fiscal impact statement is required.

9. The Department had a Notice of Drafting published in the March 23, 2018, State Register.

The Department publishes a Monthly Regulation Development Update tracking the status of its proposed new regulations, amendments, and repeals and providing links to associated State Register documents at http://www.scdhec.gov/Agency/RegulationsAndUpdates/RegulationDevelopmentUpdate/.

Statement of Need and Reasonableness:

The following presents an analysis of the factors listed in 1976 Code Sections 1-23-115(C)(1)-(3) and (9)-(11):

DESCRIPTION OF REGULATION: Amendment of Regulation 61-62, Air Pollution Control Regulations and Standards, and the South Carolina Air Quality Implementation Plan (SIP).

Purpose: The EPA promulgated amendments to national air quality standards in 2017. The recent federal amendments include clarification, guidance, and technical revisions to SIP requirements promulgated pursuant to 42 U.S.C. Sections 7410 and 7413; New Source Performance Standards (NSPS) mandated by 42 U.S.C. Section 7411; federal National Emission Standards for Hazardous Air Pollutants (NESHAP) mandated by 42 U.S.C. Section 7412; and federal National Emission Standards for Hazardous Air Pollutants (NESHAP) for Source Categories mandated by 42 U.S.C. Section 7412. The Department, therefore, proposes amending the aforementioned regulations and SIP to codify federal amendments to these standards promulgated from January 1, 2017, through December 31, 2017. Additionally, the Department proposes repealing R.61-62.96 due to sunsetting requirements no longer in effect and replaced by R.61-97. The Department also proposes corrections to R.61-62.68 for internal consistency, clarification, chemical nomenclature, codification, and spelling to improve the overall text as necessary.

Legal Authority: 1976 Code Sections 48-1-10 et seq., and the Clean Air Act, 42 U.S.C. Sections 7410, 7413, and 7416.

Plan for Implementation: The proposed amendments will take effect upon approval by the Board of Health and Environmental Control and publication in the State Register. These requirements are in place at the federal level and are currently being implemented. The proposed amendments will be implemented in South Carolina by providing the regulated community with copies of the regulation, publishing associated information on the Department’s website at http://www.scdhec.gov/Agency/RegulationsAndUpdates/, sending an email to stakeholders, and communicating with affected facilities during the permitting process.

DETERMINATION OF NEED AND REASONABLENESS OF THE PROPOSED REGULATION BASED ON ALL FACTORS HEREIN AND EXPECTED BENEFITS:

The EPA promulgates amendments to its air quality regulations throughout each calendar year. Federal amendments in 2017 included revised NSPS rules, NESHAPs, and NESHAPs for Source Categories. States are mandated by law to adopt these federal amendments. These amendments are reasonable as they promote consistency and ensure compliance with both state and federal regulations. The proposed amendments also serve to repeal a regulation that is no longer in force, based on the sunsetting of federal CAIR requirements. The
proposed amendments also include corrections for internal consistency, clarification, chemical nomenclature, codification, and spelling to improve the overall text as necessary to ensure compliance with federal law.

DETERMINATION OF COSTS AND BENEFITS:

There is no anticipated increase in costs to the state or its political subdivisions resulting from these proposed revisions. The standards to be adopted are already in effect and applicable to the regulated community as a matter of federal law, thus the amendments do not present a new cost to the regulated community. The proposed amendments incorporate the revisions to the EPA regulations, which the Department implements pursuant to the authority granted by Section 48-1-50 of the Pollution Control Act. The proposed amendments will benefit the regulated community by clarifying and updating the regulations and increasing their ease of use.

UNCERTAINTIES OF ESTIMATES:

There are no uncertainties of estimates relative to the costs to the state or its political subdivisions.

EFFECT ON THE ENVIRONMENT AND PUBLIC HEALTH:

Adoption of the recent changes in federal regulations through the proposed amendments to Regulation 61-62 will provide continued protection of the environment and public health. Repeal of Regulation 61-62.96 has no detrimental effect on the environment and public health because the federal rule it was promulgated to satisfy, the Clean Air Interstate Rule, has sunnsettled and is superseded by the Cross-State Air Pollution Rule. South Carolina’s Regulation 61-62.97, Cross-State Air Pollution Rule (CSAPR) Trading Program, is already state-effective.

DETRIMENTAL EFFECT ON THE ENVIRONMENT AND PUBLIC HEALTH IF THE REGULATION IS NOT IMPLEMENTED:

The state’s authority to implement federal requirements, which are beneficial to the public health and environment, would be compromised if these amendments were not adopted in South Carolina.

DEPARTMENT OF SOCIAL SERVICES
CHAPTER 114

114-500 through 114-509. Regulations for the Licensing of Child Care Centers.

Synopsis:

Child care standards provide the foundation for ensuring safety and quality for children away from their homes. Quality care ensures the nurturing and protection that children need and helps to create an environment in which children can grow, learn and thrive. The South Carolina Department of Social Services administers regulations for child care facilities. The Department, with the advice and consent of the 17-member State Advisory Committee on the Regulation of Child Care Facilities, is charged with conducting a comprehensive review of these regulations at least once every three years. New regulations replace the current regulations in their entirety once passed through the legislative process. These regulations represent a collaborative effort toward improving the quality of care children receive. It demonstrates the value South Carolina citizens place on all children and our willingness to work and compromise to improve life for our state’s greatest resource – our children.

Statement of Rationale:

These amendments are proposed to enhance and improve the current licensing regulations for private and public child care centers based on the advice and recommendation of the State Advisory Committee on the Regulation of Child Care Facilities. The Committee consulted experts in the field of child care licensing, inclusion of children with special needs, and national best practice standards adopted by other states.
