ADOPTION, AMENDMENT AND REPEAL OF REGULATIONS

To adopt, amend or repeal a regulation, an agency must publish in the State Register a Notice of Drafting; a Notice of the Proposed Regulation that contains an estimate of the proposed action’s economic impact; and, a notice that gives the public an opportunity to comment on the proposal. If requested by twenty-five persons, a public hearing must be held at least thirty days after the date of publication of the notice in the State Register.

After the date of hearing, the regulation must be submitted to the General Assembly for approval. The General Assembly has one hundred twenty days to consider the regulation. If no legislation is introduced to disapprove or enacted to approve before the expiration of the one-hundred-twenty-day review period, the regulation is approved on the one hundred twentieth day and is effective upon publication in the State Register.

EMERGENCY REGULATIONS

Emergency regulations are effective upon filing for a ninety-day period. If the original filing began and expired during the legislative interim, the regulation can be renewed once.

REGULATIONS PROMULGATED TO COMPLY WITH FEDERAL LAW

Regulations promulgated to comply with federal law are exempt from General Assembly review. Following the notice of proposed regulation and hearing, regulations are submitted to the State Register and are effective upon publication.

EFFECTIVE DATE OF REGULATIONS

Final Regulations take effect on the date of publication in the State Register unless otherwise noted within the text of the regulation. Emergency Regulations take effect upon filing with the Legislative Council and remain effective for ninety days. If the original ninety-day period begins and expires during legislative interim, the regulation may be refiled for one additional ninety-day period.

Notice of Drafting:

The Public Service Commission of South Carolina proposes to create a new regulation which outlines the role of a qualified, independent third-party consultant or expert during a proceeding and the Commissioners’ reliance on the content of the qualified, independent third-party consultant’s or expert’s report filed pursuant to S.C. Code Ann. Section 58-41-20(I). Interested persons may submit comments to the Public Service Commission, Clerk’s Office, 101 Executive Center Drive, Suite 100, Columbia, South Carolina 29210. Please reference Docket Number 2019-362-A. To be considered, comments must be received no later than 4:45 p.m. on Thursday, February 13, 2020.

Synopsis:

S.C. Code Ann. Section 58-41-20(I) states, “(I) The commission is authorized to employ, through contract or otherwise, third-party consultants and experts in carrying out its duties under this section, including, but not limited to, evaluating avoided cost rates, methodologies, terms, calculations, and conditions under this section. The commission is exempt from complying with the State Procurement Code in the selection and hiring of a third-party consultant or expert authorized by this subsection. The commission shall engage, for each utility, a qualified independent third party to submit a report that includes the third party's independently derived conclusions as to that third party's opinion of each utility's calculation of avoided costs for purposes of proceedings conducted pursuant to this section. The qualified independent third party is subject to the same ex parte prohibitions contained in Chapter 3, Title 58 as all other parties. The qualified independent third party shall submit all requests for documents and information necessary to their analysis under the authority of the commission and the commission shall have full authority to compel response to the requests. The qualified independent third party's duty will be to the commission. Any conclusions based on the evidence in the record and included in the report are intended to be used by the commission along with all other evidence submitted during the proceeding to inform its ultimate decision setting the avoided costs for each electrical utility.
utilities may require confidentiality agreements with the independent third party that do not impede the third-party analysis. The utilities shall be responsive in providing all documents, information, and items necessary for the completion of the report. The independent third party shall also include in the report a statement assessing the level of cooperation received from the utility during the development of the report and whether there were any material information requests that were not adequately fulfilled by the electrical utility. Any party to this proceeding shall be able to review the report including the confidential portions of the report upon entering into an appropriate confidentiality agreement. The commission and the Office of Regulatory Staff may not hire the same third-party consultant or expert in the same proceeding or to address the same or similar issues in different proceedings.”

The Public Service Commission of South Carolina recently held its first hearings related to the directives in S.C. Code Ann. Section 58-41-20, which is a part of the South Carolina Energy Freedom Act. This recently enacted law required the Commission to retain a qualified, independent third-party consultant or expert, and this qualified, independent third-party consultant or expert was required to file a report “that includes the third party's independently derived conclusions as to that third party's opinion of each utility's calculation of avoided costs for purposes of proceedings conducted pursuant to this section”, in accordance with S.C. Code Ann. Section 58-41-20(I). The Commission will utilize, as references, the South Carolina Federal Rules of Evidence, Article VII, Opinions and Expert Testimony, and the South Carolina Rules of Evidence, Article VII, Opinions and Expert Testimony, when drafting this proposed new regulation.

Legislative review of this proposal will be required.

**Statement of Need and Reasonableness:**

Since existing regulations only apply to specific wildlife management areas, new regulations must be filed to establish seasons, bag limits and methods of hunting and taking of wildlife on new WMAs as well as expanding use opportunities on existing WMAs. Since the availability of specific fields changes each year and season dates change as allowed by Federal Regulation, it is necessary to file Dove Field regulations annually. Because these hunts extend through January 30, 2020, it is necessary to refile these regulations as emergency so they remain in effect throughout the duration of the season.

**Fiscal Impact Statement:**

This amendment of Regulation 123-40 will result in sustained public hunting opportunities which should generate State revenue through license sales. In addition, local economies should benefit from sales of hunting supplies, food and overnight accommodations. Sales taxes on these items will also directly benefit government.
