If requested by twenty-five persons, a public hearing must be held at least thirty days after the date of publication of the notice in the State Register.

After the date of hearing, the regulation must be submitted to the General Assembly for approval. The General Assembly has one hundred twenty days to consider the regulation. Statement of Need and Reasonableness:

The following presents an analysis of the factors listed in 1976 Code Sections 1-23-115(C)(1)-(3) and (9)-(11):

DESCRIPTION OF REGULATION: Amendment of R.61-62, Air Pollution Control Regulations and Standards, and the South Carolina Air Quality Implementation Plan (SIP)

Purpose: The EPA promulgated amendments to federal air quality regulations in 2020. The recent federal amendments include clarification, guidance, and technical revisions to the SIP requirements promulgated pursuant to 42 U.S.C. Sections 7410 and 7413; New Source Performance Standards (NSPS) and Emission Guidelines mandated by 42 U.S.C. Section 7411; and federal National Emission Standards for Hazardous Air Pollutants (NESHAP) for Source Categories mandated by 42 U.S.C. Section 7412. The Department, therefore, proposes amending R.61-62 and the SIP to incorporate these amendments to federal standards promulgated from January 1, 2020, through December 31, 2020. The Department further proposes amending R.61-62.70, Title V Operating Permit Program, to codify relevant federal amendments to Title V provisions to comply with federal law. Additionally, the Department proposes amending R.61-62.5, Standard No. 7, Prevention of Significant Deterioration (PSD), and R.61-62.5, Standard No. 7.1, Nonattainment New Source Review (NSR), to incorporate EPA’s clarification of Project Emissions Accounting, to incorporate EPA’s corrections to NSR regulations, and to make other amendments, as necessary, to maintain compliance with federal law. The Department proposes to make corrections for internal consistency, clarification, and codification, to improve the overall text as necessary for compliance with federal law.

Legal Authority: 1976 Code Sections 48-1-10 et seq., and the Clean Air Act, 42 U.S.C. Sections 7410, 7413, and 7416.

Plan for Implementation: The amendments will take legal effect upon publication in the State Register. Department personnel will then take appropriate steps to inform the regulated community of the amendments. Additionally, a copy of the regulation will be posted on the Department’s website, accessible at www.scdhec.gov/regulations-table. Printed copies may also be requested, for a fee, from the Department’s Freedom of Information Office.
DETERMINATION OF NEED AND REASONABLENESS OF THE PROPOSED REGULATION BASED ON ALL FACTORS HEREIN AND EXPECTED BENEFITS:

The EPA promulgates amendments to its air quality regulations throughout each calendar year. Federal amendments in 2020 included revised NSPS and Emission Guideline rules and NESHAPs for Source Categories, and amendments to PSD, NSR, and Title V permitting provisions. The Department is adopting these federal amendments to maintain compliance with federal law, as the EPA has delegated South Carolina authority for implementation and enforcement of these federal regulations. These amendments are reasonable, as they promote consistency and ensure compliance with both state and federal regulations. The proposed amendments also include corrections for internal consistency, clarification, chemical nomenclature, codification, and spelling to improve the overall text as necessary to ensure compliance with federal law.

DETERMINATION OF COSTS AND BENEFITS:

There is no anticipated increase in costs to the state or its political subdivisions resulting from these proposed revisions. The standards to be adopted are already in effect and applicable to the regulated community as a matter of federal law, thus the amendments do not present a new cost to the regulated community. The proposed amendments incorporate the revisions to the EPA regulations, which the Department implements pursuant to federal delegation and the authority granted by Section 48-1-50 of the Pollution Control Act. The proposed amendments will benefit the regulated community by clarifying and updating the regulations and increasing their ease of use.

UNCERTAINTIES OF ESTIMATES:

There are no uncertainties of estimates relative to the costs to the state or its political subdivisions.

EFFECT ON THE ENVIRONMENT AND PUBLIC HEALTH:

Adoption of the recent changes in federal regulations through the proposed amendments to Regulation 61-62, Air Pollution Control Regulations and Standards, will provide continued protection of the environment and public health.

DETRIMENTAL EFFECT ON THE ENVIRONMENT AND PUBLIC HEALTH IF THE REGULATION IS NOT IMPLEMENTED:

The state’s authority to implement federal requirements, which are beneficial to the public health and environment, would be compromised if these amendments were not adopted in South Carolina.

Text:

The full text of this regulation is available on the South Carolina General Assembly Home Page: http://www.scstatehouse.gov/regnsrch.php. Full text may also be obtained from the promulgating agency.
Preamble:

The Department of Health and Environmental Control ("Department") proposes amending R.61-7 to update provisions in accordance with current practices and standards. Proposed amendments incorporate and revise provisions and definitions to conform to statutory mandates and terminology widely used and understood within the provider community. The Department proposes revising requirements for Emergency Medical Technician (EMT) training programs, ambulance design and equipment, incident reporting, sanitation and infection control, monetary penalties, and other requirements for EMS agency licensure, ambulance permitting, and EMT certification. The Department also proposes amending the regulation to provide direction to emergency personnel in identifying patients who have a Do Not Resuscitate Order ("DNR"), and to add oversight of the Physician Orders for Scope of Treatment (POST) form and carry out other related responsibilities to the form.

The Department further proposes revisions for clarity and readability, grammar, references, codification, and overall improvement to the text of the regulation. R.61-7 was last amended in 2016.

The Administrative Procedures Act, S.C. Code Section 1-23-120(A), requires General Assembly review of these proposed amendments.

The Department had a Notice of Drafting published in the February 26, 2021, South Carolina State Register.

Document No. 5058
DEPARTMENT OF HEALTH AND ENVIRONMENTAL CONTROL
CHAPTER 61
Statutory Authority: 1976 Code Sections 44-56-10 et seq.

Preamble:

Pursuant to R.61-79, Hazardous Waste Management Regulations, the Department of Health and Environmental Control (“Department”) promulgates regulations establishing and enforcing procedures, standards, and other requirements for the proper management of hazardous waste in South Carolina. The Department proposes amending R.61-79 to adopt the Environmental Protection Agency (“EPA”) final rule, “Modernizing Ignitable Liquids Determinations,” published in the Federal Register on July 7, 2020, at 85 FR 40594-40608. This rule updates flash point test methods used to determine if a liquid waste is hazardous. It allows the use of non-mercury thermometers in approved analytical methods that currently require mercury thermometers. This rule also provides greater clarity to determinations of hazardous waste, provides more flexibility in testing requirements, and improves environmental compliance, thereby enhancing the protection of human health and the environment. Because this rule is no more or less stringent than current Federal requirements, the EPA has made state adoption optional. The Administrative Procedures Act, S.C. Code Ann. Section 1-23-120(A), requires General Assembly review of these proposed amendments.

The Department had a Notice of Drafting published in the April 23, 2021, South Carolina State Register.

52 PROPOSED REGULATIONS

DETERMINATION OF NEED AND REASONABLENESS OF THE PROPOSED REGULATION BASED ON ALL FACTORS HEREIN AND EXPECTED BENEFITS:

The Department proposes amending R.61-79 to adopt the final EPA “Modernizing Ignitable Liquids Determinations,” rule published in the Federal Register on July 7, 2020, at 85 FR 40594-40608. The rule updates flash point test methods used to determine if a liquid waste is hazardous. It allows the use of non-mercury thermometers in approved analytical methods that currently require mercury thermometers. This rule also provides greater clarity to determinations of hazardous waste, provides more flexibility in testing requirements, and improves environmental compliance, thereby enhancing the protection of human health and the environment.

DETERMINATION OF COSTS AND BENEFITS:

There is no anticipated increased cost to the state or its political subdivisions resulting from these revisions. This final rule will modify Test Methods for Evaluating Solid Waste: Physical/Chemical Methods (SW-846) test methods while also retaining the current procedures to provide entities increased flexibility. EPA analysis estimates that this rule will result in nationwide annualized cost savings of $78,500 to $477,000 to 235 commercial laboratories, and that human and environmental health will benefit from the reduced use of mercury thermometers (Federal Register, Vol 85, No. 130, page 40595).

UNCERTAINTIES OF ESTIMATES:

There are no uncertainties of estimates relative to the costs to the state or its political subdivisions.

EFFECT ON THE ENVIRONMENT AND PUBLIC HEALTH:

The proposed revisions to R.61-79 will enhance current protections of human and environmental health through implementation of updated testing methods for determining whether liquid waste is hazardous, reducing use of mercury thermometers, and a more flexible testing regime.

DETRIMENTAL EFFECT ON THE ENVIRONMENT AND PUBLIC HEALTH IF THE REGULATION IS NOT IMPLEMENTED:

If the regulation is not implemented, there will be detrimental effects on the environment and public health because South Carolina would not be implementing or realizing the benefits of the EPA’s “Modernizing Ignitable Liquids Determinations” rule, among them updated test methods for determining hazardous liquid wastes, reduced use of mercury thermometers, and more flexibility in testing requirements.

Statement of Rationale:

Here below is the Statement of Rationale pursuant to S.C. Code Section 1-23-110(A)(3)(h):

The Department proposes amending R.61-79, Hazardous Waste Management Regulations, to adopt the EPA’s final “Modernizing Ignitable Liquids Determinations” rule published in the Federal Register on July 7, 2020, at 85 FR 40594-40608, and correct typographical errors, citation errors, and other errors and omissions. The EPA has given authorized states, including South Carolina, the discretion to adopt this rule as it will make existing standards less stringent and provide more flexibility to the regulated community. This rule will update test methods for determining liquid waste, allow for the use of non-mercury thermometers in several methods that previously required mercury thermometers, and provide more flexibility in testing requirements. Adoption of this rule will increase flexibility for the regulated community and thereby enhance the protection of human health and the environment.
Preamble:

Pursuant to S.C. Code Sections 44-69-10 et seq., the Department of Health and Environmental Control (“Department”) sets standards for the care, treatment, health, safety, welfare, and comfort of patients served by home health agencies, and for the maintenance and operation of home health agencies. The Department proposes amending R.61-77, Standards for Licensing Home Health Agencies, to ensure alignment with current federal and state laws, and revise definitions and requirements for obtaining licensure, inspections, personnel, enforcement, patient care, record maintenance and retention, and licensure standards.

The Administrative Procedures Act, S.C. Code Section 1-23-120(A), requires General Assembly review of these proposed amendments.

The Department had a Notice of Drafting published in the April 23, 2021, South Carolina State Register.

Emergency Situation:

With the S.C. General Assembly’s approval of Governor’s McMaster’s SC Need-based Grant allocation for 2021-2022, the state budget now includes an increase in funding for South Carolinians neediest students. The South Carolina Commission on Higher Education proposes the following revisions to Chapter 62 regulation, R.62-450 through 62-505, South Carolina Need-based Grants Program. The proposed regulation provides the maximum funding amount that students may receive in a South Carolina Need-based Grant. In addition, the proposed regulation provides the institutions the ability to award and disburse the SC Need-based Grant for up to three terms a year, within the maximum annual funding amount to eligible students. Because of the increased budget allocation for 2021-2022, we are also submitting these as emergency regulations to provide students immediate relief during the upcoming school year. The regular regulation will be sent through the S.C. General Assembly for approval once they reconvene.

4. Be enrolled or accepted for enrollment as a part-time or full-time degree-seeking student in an eligible program of study at an eligible public institution in South Carolina. A student enrolled in less than six credit hours during one semester may not receive a Need-based Grant for the semester in question but is eligible for reapplication for a grant upon return to part-time or full-time status;

However, a high school or college student who has been adjudicated delinquent, convicted, or pled guilty or nolo contendere of a second or subsequent alcohol/drug related misdemeanor offense is ineligible for the next academic year of enrollment at an eligible institution after the date of the adjudication, conviction or plea. If the adjudication, conviction, or plea occurs during the academic year after the student has already submitted a signed affidavit to the institution, the student will be eligible to receive the Need-based Grant the remainder of the academic year. However, the student will be ineligible for the Need-based Grant the following entire academic year of enrollment. If a student completes a pretrial intervention program and has his/her record expunged the conviction will not affect grant eligibility; and

7. Verify that he/she does not owe a refund or repayment on a State Grant, a Pell Grant, or a Supplemental Educational Opportunity Grant and is not in default on a loan under the Federal Perkins Loan or Federal Stafford Loan Programs; and

Students may only receive Need-based Grant funding for up to two three semesters of the academic year. Students who have already been awarded their first baccalaureate degree are not eligible to receive a Need-based Grant.

C. Students enrolled in an eligible program of study as stated in the “Program Definitions” Section may include remedial courses as part of the minimum number of required credit hours for part-time or full-time status, as long as such courses carry credit hours and meet Title IV limitations on remedial coursework.

D. Any false information provided by the student or any attempt to obtain or expend any Need-based Grant for unlawful purposes or any purpose other than in payment or reimbursement for the cost-of-attendance at the institution authorized to award the grant will be cause for immediate cancellation of the Need-based Grant. Any student who has obtained a Need-based Grant through means of a willfully false statement or failure to reveal any material fact, condition, or circumstances affecting eligibility will be subject to applicable civil or criminal penalties, including loss of the Need-based Grant.

A. The Need-based Grants Program for the public institutions will be campus-administered. Grant funds will supplement the student financial aid awards administered by the participating public colleges and universities.

B. The participating institution will make awards in amounts to be defined in accordance with the Need-based Grants Program regulation and criteria, but not to exceed $1,250 $1,750 per eligible part-time student and $2,500 $3,500 per eligible full-time student per academic year, based on the institution’s allocated funds for Need-based Grants and other financial aid awarded to individual applicants. However, the Commission, due to inflation increases or other relevant factors, may periodically adjust the maximum award for the Need-based Grants Program. A maximum of fifty percent of the grant shall be disbursed for two up to three terms of the academic year, not to exceed 100 percent of the annual award amount, assuming continued eligibility. No more than fifty percent of the annual award amount can be disbursed in any given term.

C. Need-based Grants are to be used only towards payment for the cost-of-attendance as defined by Title IV Regulations as modified by D below for the academic year for which the award is made at the designated institution. The maximum amount awarded shall not exceed the cost-of-attendance as defined in Title IV Regulations for any year.

D. Charges for room and board are to be limited as follows:

1. Room charges shall not exceed the average cost of on-campus residential housing; and

2. Board charges shall not exceed the cost of the least expensive on-campus meal plan, which includes 21 meals per week.

E. In determining the amount awarded for the Need-based Grant, all other sources of gift aid, including Federal, State, private and institutional funds, must be applied to the total cost-of-attendance before calculating the unmet need and awarding the grant. The Need-based Grant shall be awarded only after all other sources of
gift aid have been exhausted. Adjustments to the financial aid package will be made to the Need-based Grant in accordance with prescribed Title IV Regulations in order to prevent an over-award.

F. Institutions must give first priority and award the maximum allowable Need-based Grant ($2,500 $3,500 if full-time or $1,250 $1,750 if part-time) to students who are in the custody of the South Carolina Department of Social Services (DSS). However, institutions should not award the maximum amount if, by doing so, this causes the student to exceed the unmet need according to Title IV Regulations. Students who may be eligible under this provision are responsible for contacting the institution and providing official verification to the institution that he/she is in custody of DSS. Acceptable verification shall include a letter from DSS.

G. Participating institutions will notify students of their Need-based Grant along with the terms and conditions of the award.

H. The student shall be required to provide a nationally recognized unique identifier in order for the institution to award, disburse, and/or transfer the student’s state scholarship and/or grant to an eligible institution.

I. Annual allocations of funds to the public institutions will be based on each institution’s percentage of the State’s total enrollment of South Carolina resident undergraduate full-time degree-seeking headcount enrollment. The percentage will be based on the previous year’s total as determined by the Commission on Higher Education. Unused funds, which cannot be awarded by an institution, must be returned to the Commission on Higher Education, which may redirect the funds to institutions where unmet need exists.

J. Effective Fall 2008, Section 59-101-430 (A), Chapter 101, Title 59 of the 1976 Code states that unlawful aliens are prohibited from attending SC Public institutions of higher learning. This does apply to students who are currently enrolled, as well as new enrollees. In accordance of this law, institutions must institute a process that verifies an individual’s lawful presence in the United States. Students receiving the SC Need-based Grant must be verified. Any student who is not verified and documented by the institution will not receive the Grant.

K. All eligible independent and public institutions that participate in the program must verify the lawful presence of any student who receives a SC Need-based Grant prior to awarding the Grant to the student. When verifying the lawful presence of an individual, institutional personnel shall not attempt to independently verify the immigration status of any alien, but shall verify any alien’s immigration status with the federal government pursuant to 8 USC Section 1373(c).

L. The institution must retain annual paper or electronic documentation for each award to include at a minimum:

1. Need analysis

2. Affidavit documenting that the student has never been convicted of any felonies or any second or subsequent alcohol or drug related misdemeanor offenses as stated under “Student Eligibility” and “Duration of Award and Continued Eligibility” Sections

B. Need-based Grants may be awarded annually for no more than a total of eight full-time equivalent semesters of part-time or full-time study and only for up to two terms of each academic year. Award decisions will be made annually and are not automatically guaranteed. Students who have already been awarded their first baccalaureate degree are not eligible to receive a Need-based Grant.

C. Students must reapply each academic year for a Need-based Grant in accord with these guidelines and other pertinent statutes and regulations and with application timeliness and procedures stipulated by the participating institution. Students applying for a Need-based Grant must complete a FAFSA Form and be a needy student. The student must also complete any supplemental forms that may be required by the institution.

D. The institution shall be responsible for securing institutional certification of each recipient’s cumulative grade point average, credit hours attempted and earned, and satisfactory academic progress for purposes of determining eligibility for award renewal.

E. For continued eligibility, the student is required to:

1. For graduation purposes, earn at least 24 credit hours each regular academic year if awarded a Need-based Grant as a full-time student or earn at least twelve credit hours if awarded a Need-based Grant as a part-time student. If a student is awarded a Need-based Grant for one semester of the academic year as a part-time student and the other semester as a full-time student, the student must earn at least eighteen credit hours each regular academic year. A. Students enrolled in an internship, cooperative work program, travel study program, or National or International Student Exchange Program approved by the student’s home institution, and enrolled in fewer than six credit hours, shall not be eligible to receive a Need-based Grant during the period in which the student is enrolled in such programs or courses. Students enrolled in such programs may receive a Need-based Grant for up to two terms of the academic year if determined to be eligible.

B. Students enrolled in internships, cooperative work programs, travel study programs, or National or International Student Exchange Programs that are approved by the home institution and that the home institution accepts as at least part-time transfer credit (minimum of six credit hours) are eligible to receive Need-based Grant funds during the period in which the student is enrolled in such programs. The institution is responsible for grant funds according to the “Program Administration and Audits” Section.

D. The home institution will be responsible for securing official certification of the student’s cumulative grade point average, credit hours earned, and satisfactory academic progress for the purposes of determining eligibility for grant renewal for the next academic year.

Students who have obtained an associate’s degree initially are eligible to apply for a Need-based Grant upon enrollment in their first baccalaureate degree or a program of study that is structured so as not to require a baccalaureate degree. Students who have obtained a recognized educational credential in a one-year program initially are eligible for application for a Need-based Grant upon enrollment in their first associate’s degree, first baccalaureate degree, or a program of study that is structured so as not to require a baccalaureate degree and leads to a graduate degree.

Collection is the responsibility of the institution.

B. The institution may redistribute such funds to other eligible students in accordance with the guidelines, or if such funds cannot be redistributed within the academic year, the institution shall return the refund amount to the Commission on Higher Education for redistribution to other institutions.

C. In the event a student withdraws or drops below part-time or full-time status after the institution’s refund period and therefore must pay tuition and fees for part-time or full-time enrollment, the award may be retained by the student pursuant to the refund policies of the institution.
D. In the event a student who has been awarded the SC Need-based Grant has been identified as not being a SC resident at any time, the institution must reimburse funds to CHE for the time period the student was no longer a SC resident.

The institution shall verify SC residency status and lawful presence in the United States upon college enrollment. If an institution has determined at any time that a recipient no longer meets SC residency requirements, the scholarship will be forfeited and funds are to be returned to CHE.

F. The participating institution shall identify to the Commission on Higher Education an institutional representative who will act as the point of contact for all inquiries pertaining to residency and legal presence classification for the purposes of awarding the SC Need-based Grant.

G. Independent and public institutions of higher learning in this, or any other state in the U.S., are prohibited from using the SC Need-based Grant in programs that promote financial aid incentives or packages. Any mention of the SC Need-based Grant in these financial aid packages must indicate the scholarship to be separate from the University that is offering the financial aid package, and reference the SC Need-based Grant as a separate financial aid award, provided to the student by the State of South Carolina.

A. The Commission may review institutional administrative practices to determine institutional compliance with pertinent statutes, guidelines, rules or regulations. If such a review determines that an institution has failed to comply with program statutes, guidelines, rules or regulations, the Commission may suspend, terminate, or place certain conditions upon the institution’s continued participation in the program and require reimbursement to the State Need-based Grants Program for any funds lost or improperly awarded.

B. Upon receipt of evidence that an institution has failed to comply, the Commission on Higher Education shall notify the institution in writing of the nature of such allegations and conduct an audit.
C. If an audit indicates that a violation or violations may have occurred or are occurring at any public or independent college or university, the Commission on Higher Education shall secure immediate reimbursement from the institution in the event that any funds were expended out of compliance with the provisions of the Act, any relevant statutes, guidelines, rules, and regulations.
